CLASS OF 1975

BEST OF Dodo REUNION SPECIAL

Vol. I, No. 1 | A Cadet Publication For Cadets | 16 May 1957

EDITOR'S COMMENTS

We hope that the Cadet Wing enjoys this first issue of the Dodo. We feel that the Wing needs a publication which speaks to the cadets on subjects of interest to the cadets. No slam at the Talon is intended, and I want to stress the fact that we are not in competition with the magazine. The Talon is a monthly publication, and as such, it cannot cover the daily incidents which occur throughout the Wing. The Dodo will attempt to cover those events which presumably would not be of special interest to outside readers of the magazine, but would be of interest to you.

Our people have worked hard on this signal issue. I realize that in its present form the Dodo resembles a standard poop sheet more than it does a newspaper, but we are a brand-new organization. We have to justify our existence before we ask for the support necessary to produce a full scale standard newspaper. We would certainly appreciate any comments or suggestions which you, as readers, might feel would improve our paper.

In time we expect the Dodo will attain its position as an indispensable part of the Cadet Wing. Someday it will be one of the finest -- we hope the very finest -- newspapers of its type in the country. Until these things transpire, please bear with us. Please send any comments, good or bad, to Cadet Reeves, Dorm 874. If you think you have some news the Wing as a whole hasn't heard, bring that too.

"OK...first we get all the doolies taking EE, then we search their rooms for colored lights...and then, just maybe--if we draw a blank--Security Flight will tell us what the uniform is....."

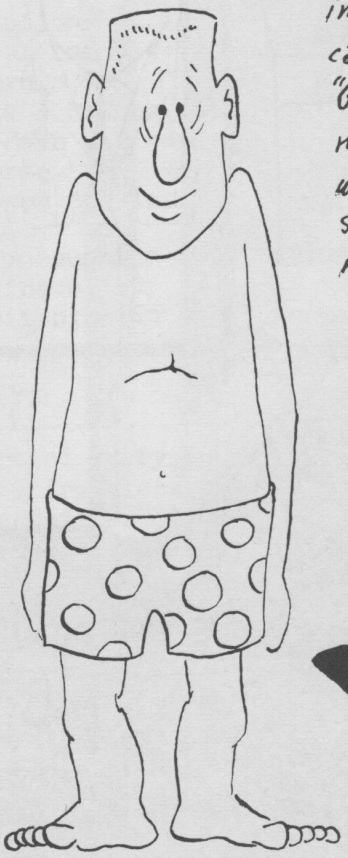

A CADET PUBLICATION FOR CADETS

1961

75bestalive.org

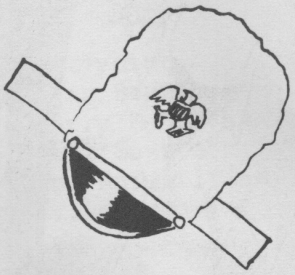

CUT-OUTS for CADETS

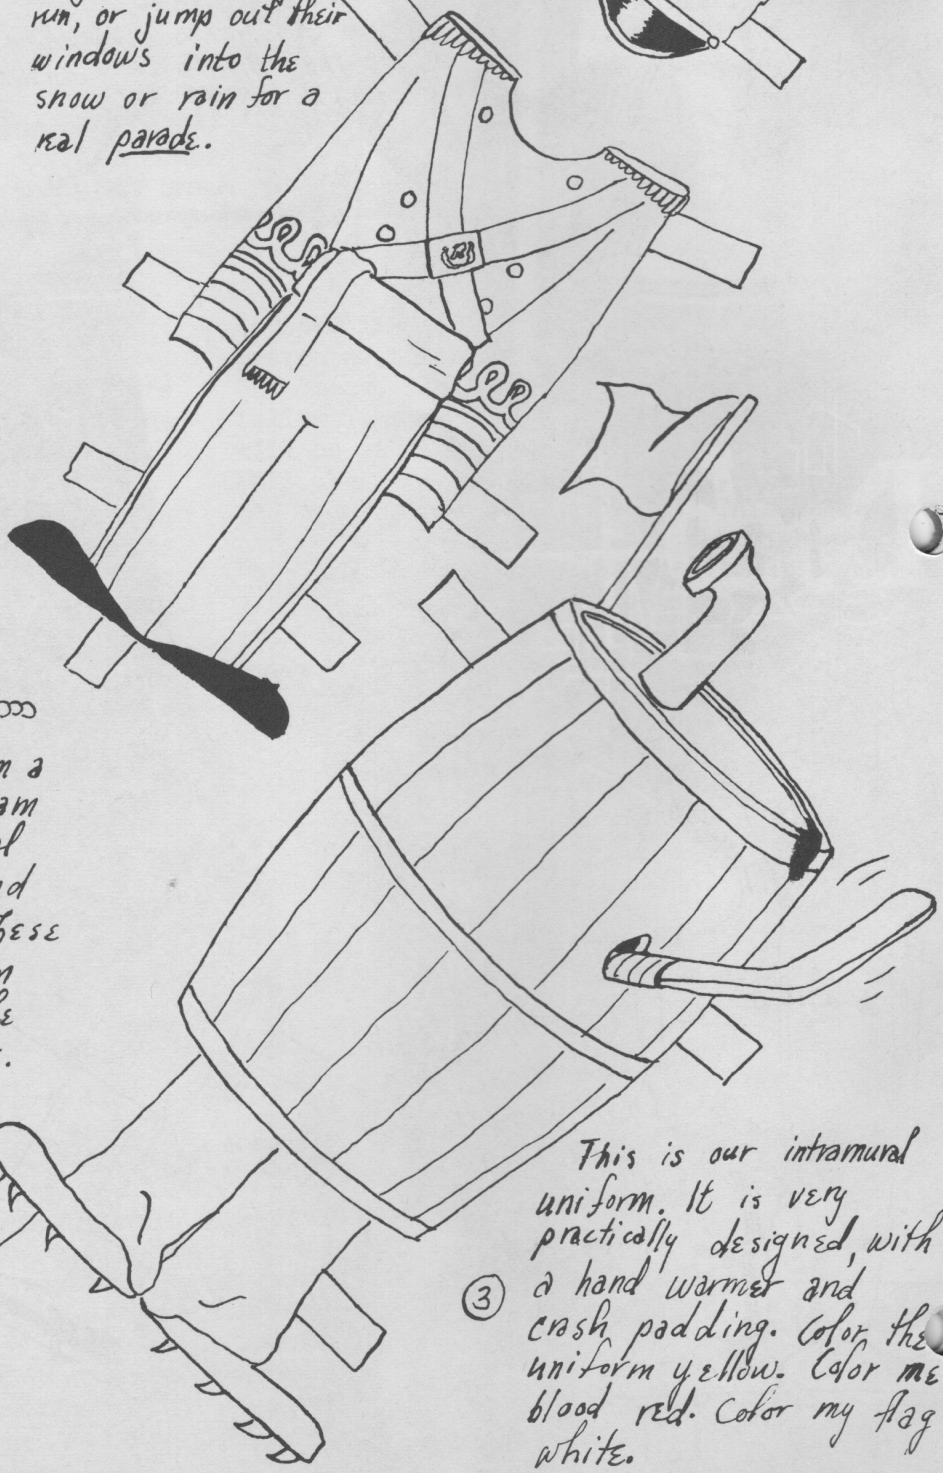

- by MP -

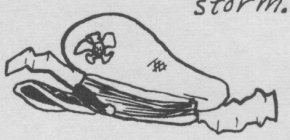

(1) My name is Melvin. I'm a cadet. This means that I am superior in IQ, physical ability, social poise, and know a Congressman. These are the best uniforms in my wardrobe. Color the whole page Figmo Blue.

(2) Parades - our most distinctive uniform. It's inspiring to watch the cadets, to shouts of "Gung Ho!" and "Ranger!" run, or jump out their windows into the snow or rain for a real parade.

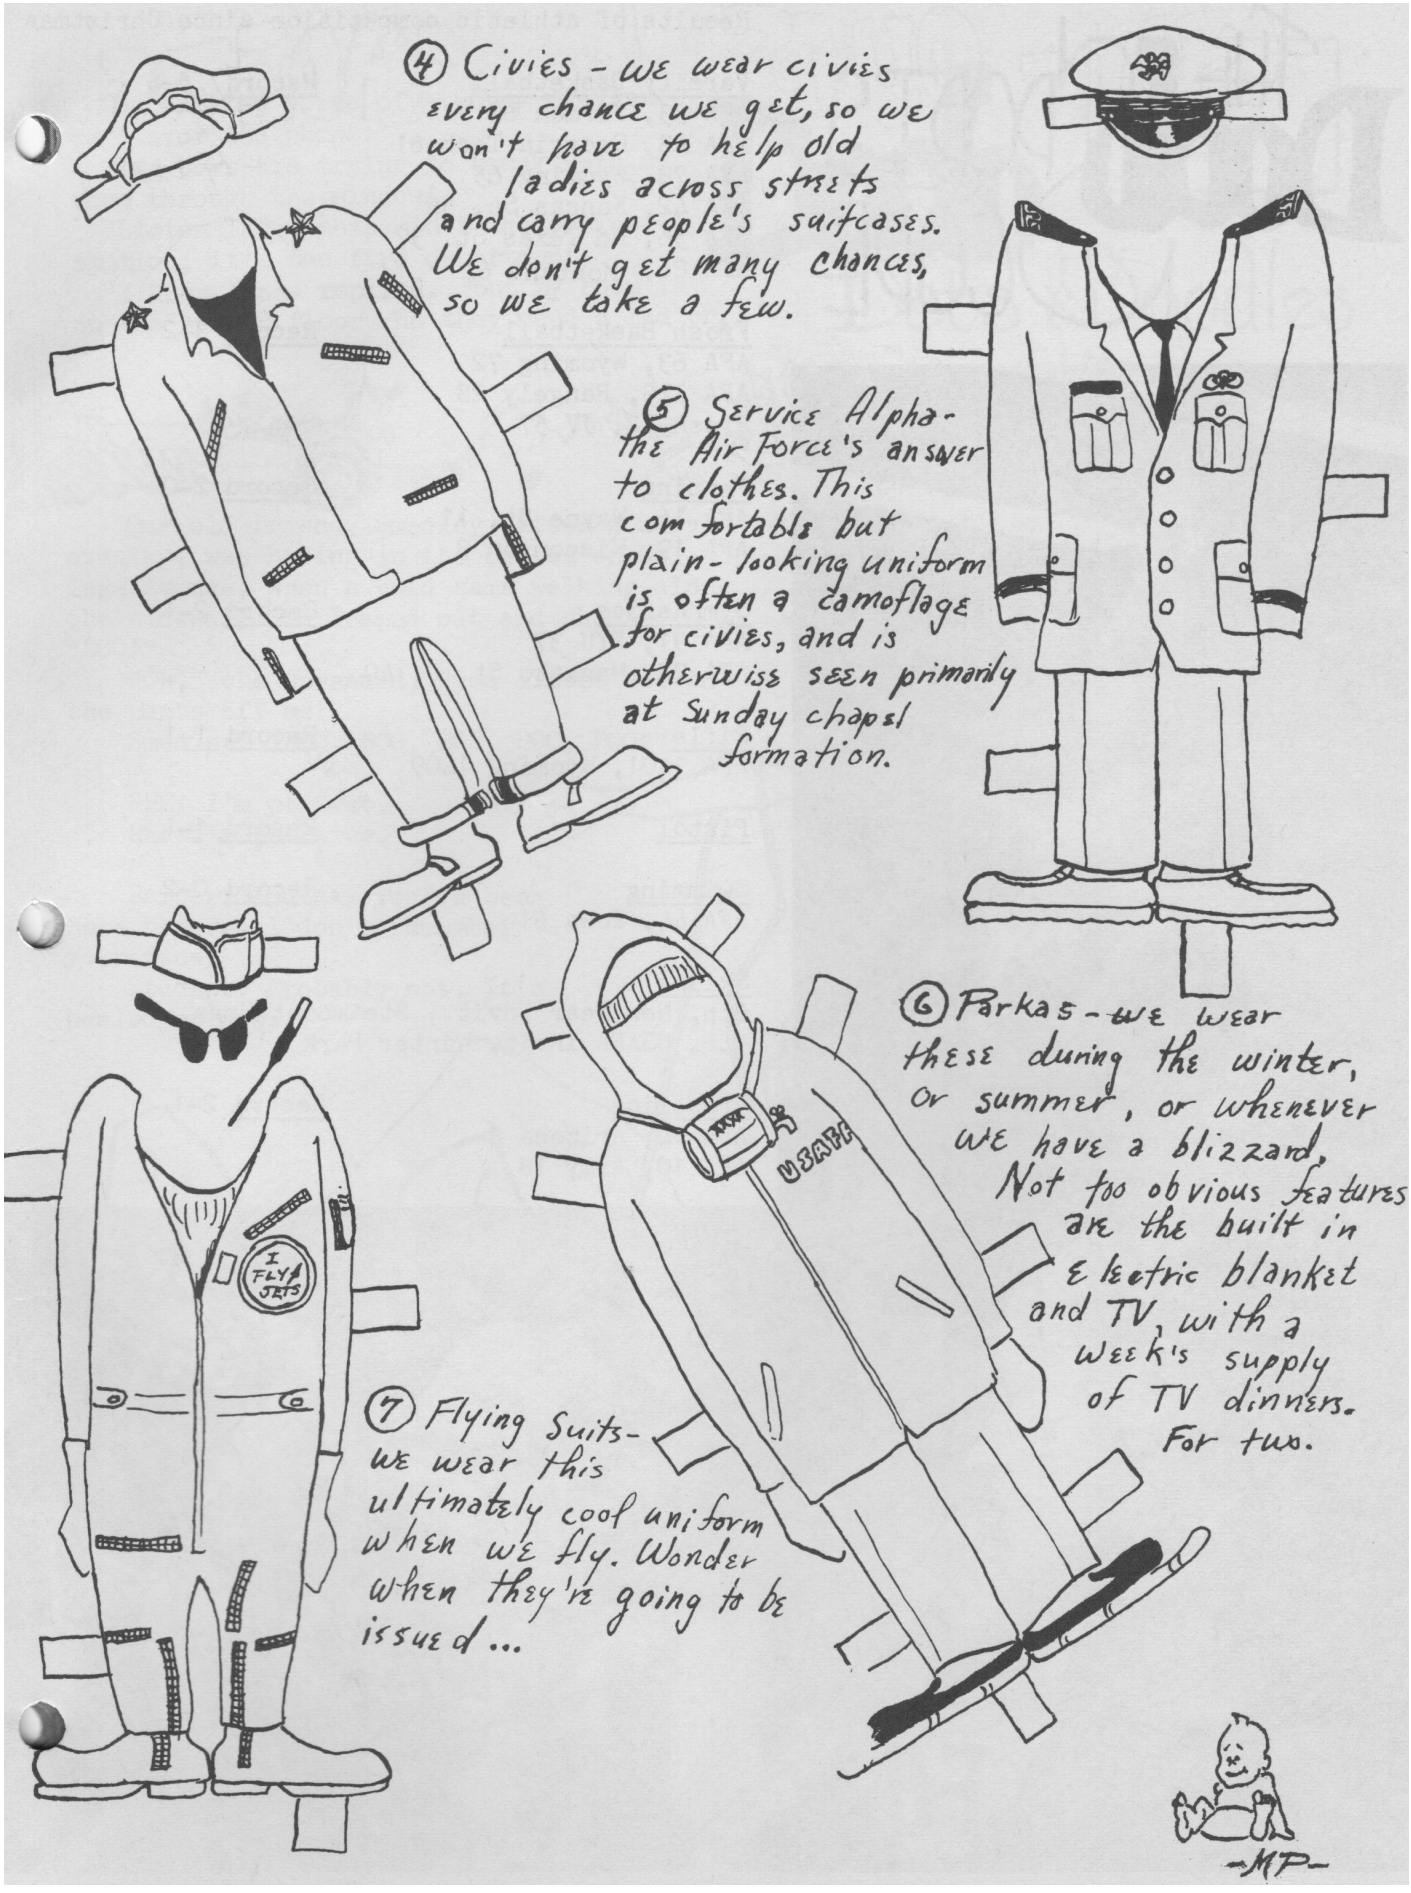

(1½) Hat - probably blown off in a windstorm.

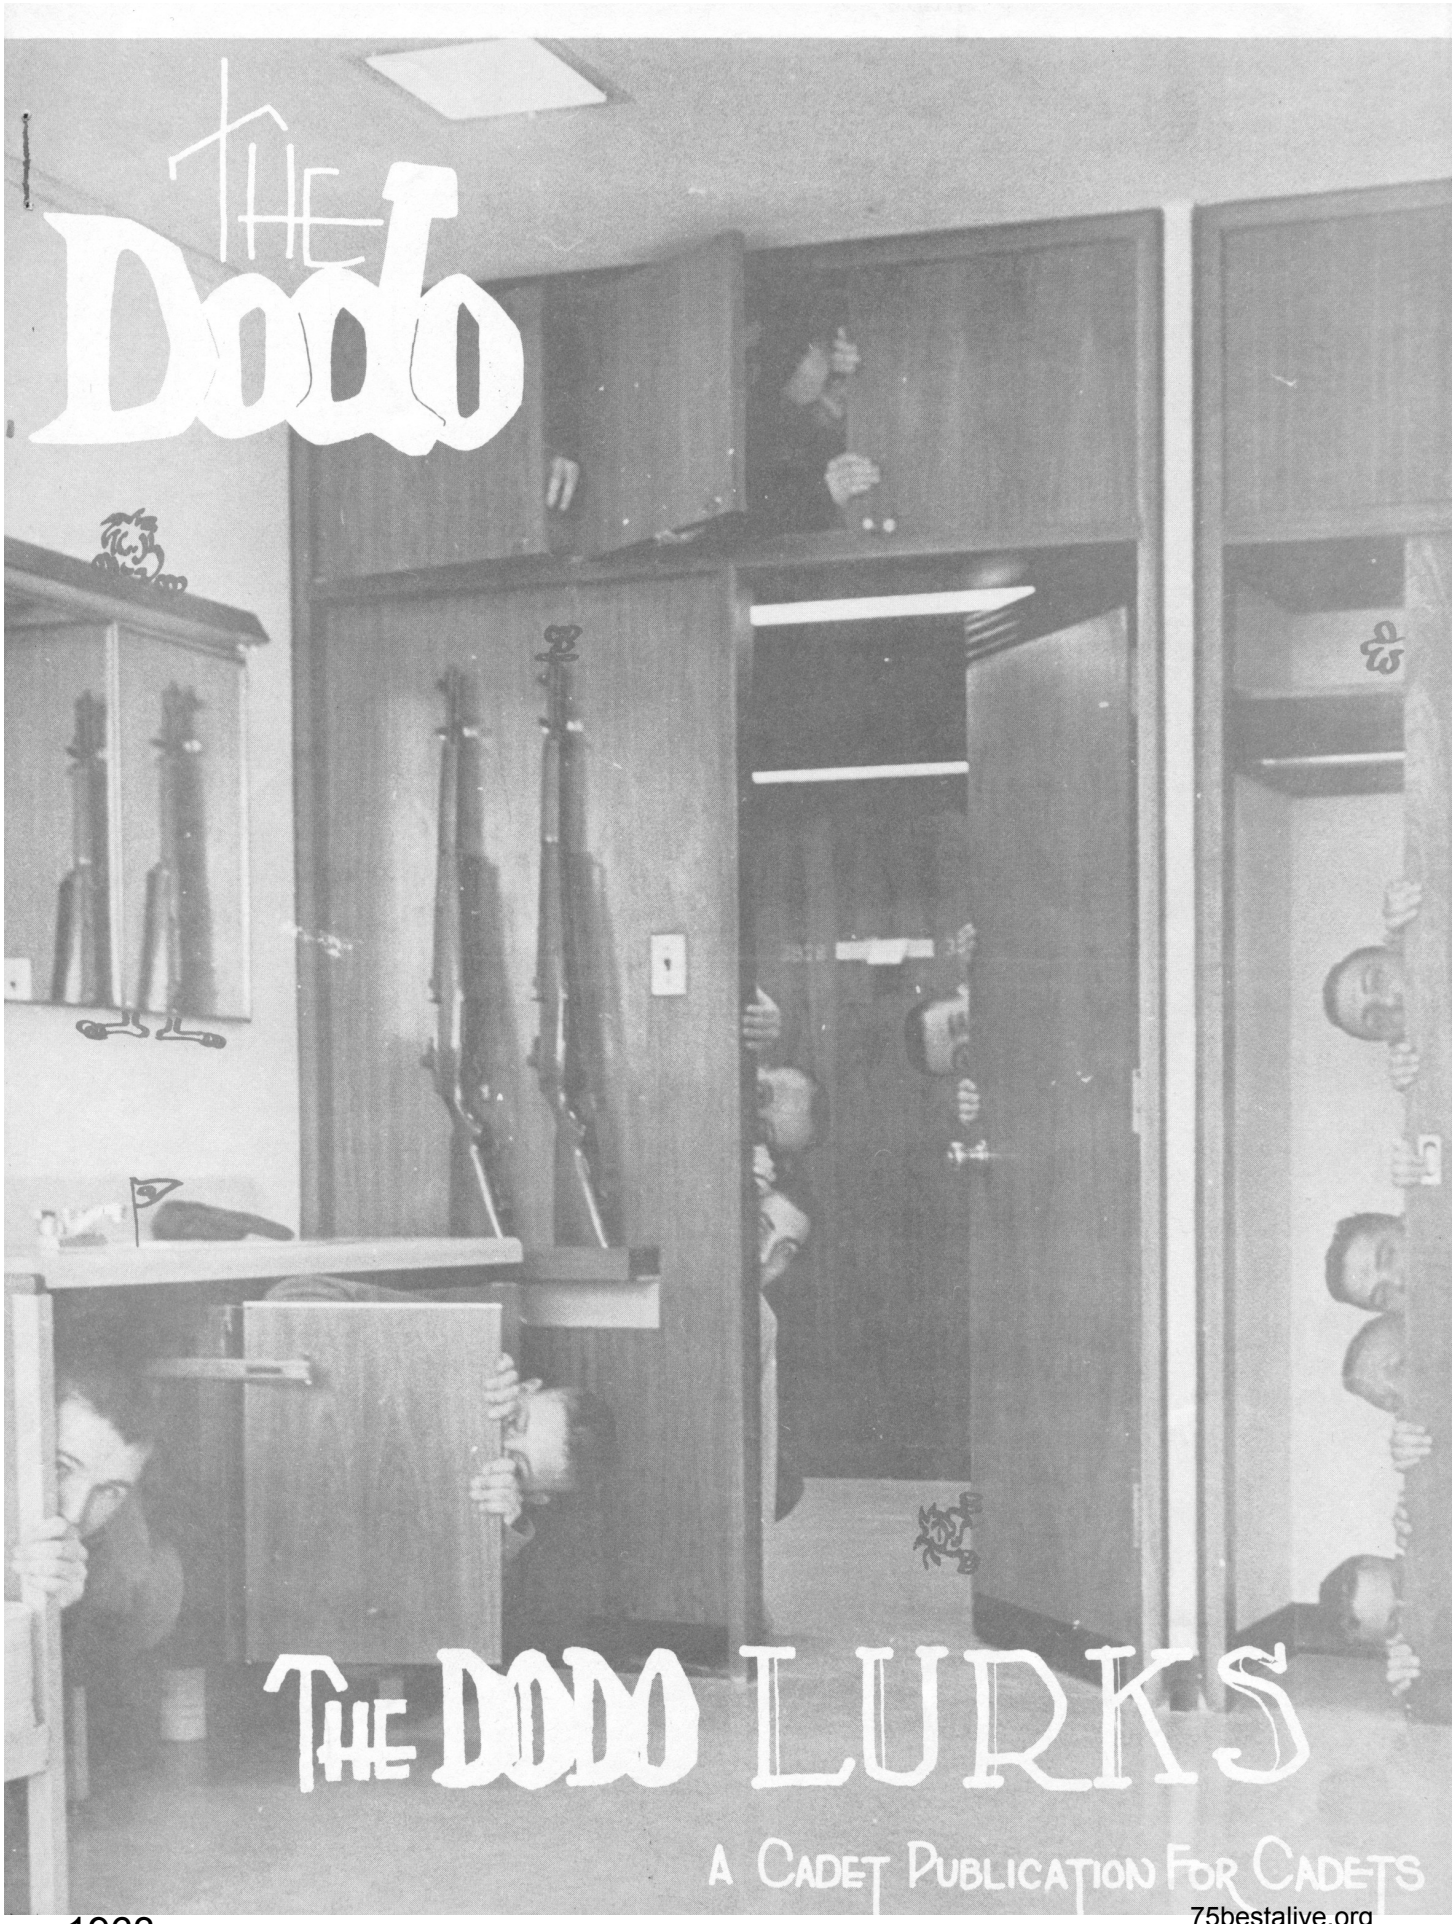

(3) This is our intramural uniform. It is very practically designed, with a hand warmer and crash padding. Color the uniform yellow. Color me blood red. Color my flag white.

75bestalive.org

75bestalive.org

1963

75bestalive.org

CINOE "U"

IDENTIFICATION OF.....

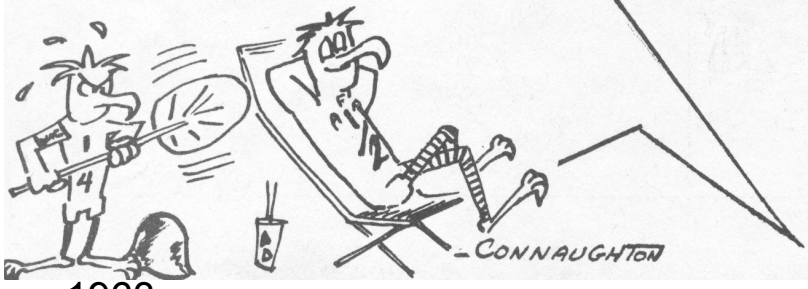

UNIDENTIFIED FRIVILOUS OBSCURITIES

WOO POO

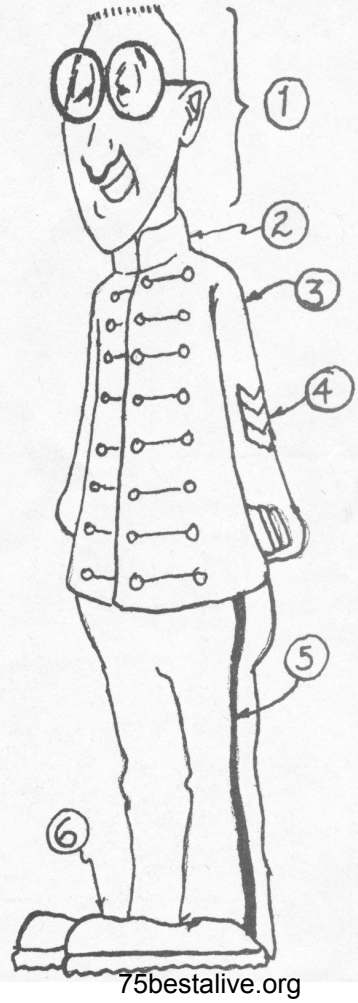

1) First, most obvious is the bright-eyed, intelligent look as he scrutinize you. Note especially the steady, hard gaze behind which he masks his emotions.
(2) Casual, but slightly outdated black smoking jacket.
(3) Salty sea captair pipe - unlit.
(4) Rankness indicated on his sleeves.
(5) Shoes (elevated) may be white, brown, or black, depending on what uniform he's wearing; black and white both appear as grey, while brown parallels olive drab. On occasion, he may mix colors for color.

If these most obvious identification features are missing, there are several alternatives open to you. Tattoos of ships, heart, or ( ) may appear on his bony, hairless chest or arms. He may stick salt in his water or orange drink while your back is turned, or whistle "Barnacle Bill" while tying a half hitch in your lamp cord. If he does none of these, you'd better ask him; he's either a West Pointer or a lost civilian!

Sometimes the below will not always be certain identification since you may catch him in the shower or on the varsity Parchisi court. In these cases, you might observe his mannerisms. He might cry "Rangerrrrr" as he sidles up to the cold water, or say Clauswitz or MacArthur while losing his third game. In any event, you can always ask him; you could have a turncoat middie on your hands, OR an airborne AF Cadet(?).

(1) Faces are pretty nearly normal; don't judge on this alone.
(2) High, uncomfortable-looking, tight collar can be obvious giveaway, but do not confuse with clergy.
(3) Musky gray uniform could indicate highway patrol, or mid'n with lint; but,
(4) addition of oversized enlisted man stripes indicates a desire to play army; hence, combining these two makes for near positive identification.
(5) Thick, black stripes on various parts of the uniform.
(6) Shoes (w/tank track soles) and lower cuffs usually caked with mud, residue from camaflague training of two years ago...

A Cadet Publication For Cadets

In This Issue
OPERATION EASTER

75bestalive.org

Recognizing a Cadet...

Not a particularly difficult task. A cursory glance at the uniform will reveal:

1. Bird on cap, w/o Officer's circle of stars above it
2. Aluminum foil on cap brim
3. Regulation haircut
4. Shoulder boards to indicate rank or something
5. Tailor-shop "special" blouse
6. Spit-shined shoes, just like the Real Air Force doesn't wear...

Definitions to Know...

AΦA - Alpha Figmo Alpha; a fraternity at a small Rocky Mountain college

Air Garden - a depository for sand and screaming 2nd Lieutenants

Arnold Hall - the Student Union building

Comm - Head of the ROTC program

Doolie - an AΦA pledge; gross

Fairchild Hall - meeting place for sleepy students

Firstie - an AΦA honcho; a BMOC

Mall - a depository for red airplanes and screaming 3rd Classmen

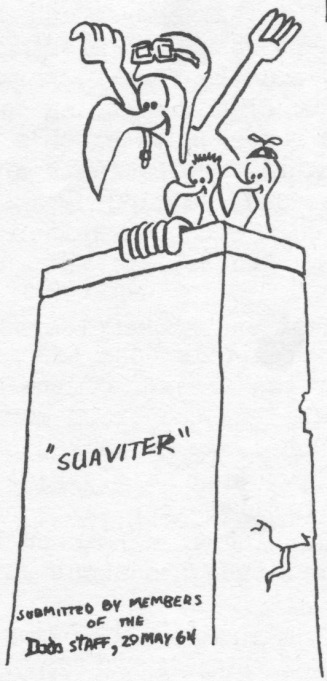

Mitchell Hall - an on-campus eating place specializing in chicken dinners

Security Flight - any power-mad BMOC or LMOC

"The Airstrip" - no comment

Vandenberg Hall - any large aluminum cage

The Symbol of AΦA...

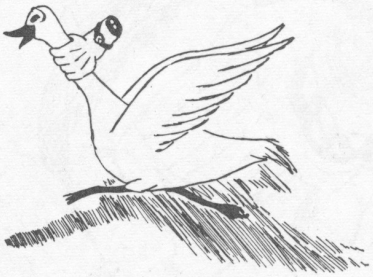

The impressive "Fleagle and Friends" statue stands proudly in the Bcomplex N.E. tunnel as a traditional, moss-covered, sentimental-type statue, otherwise not real functional.

75bestalive.org

the Dob Our Only Medicine

Prof: "I may be mistaken but I thought you were talking during class."
Student: "You must be mistaken. I never talk in my sleep."

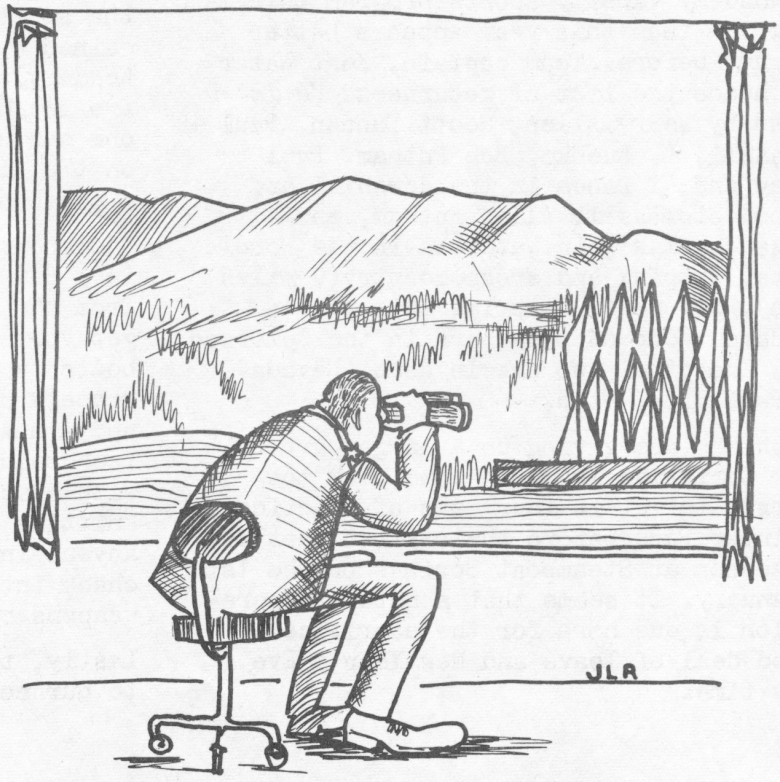

THE TEST

The fog
Comes
On little cat feet
As you sit for a test
And sits
On silent haunches
Hovering over every desk
And then moves on-
Only sometimes, it doesn't.

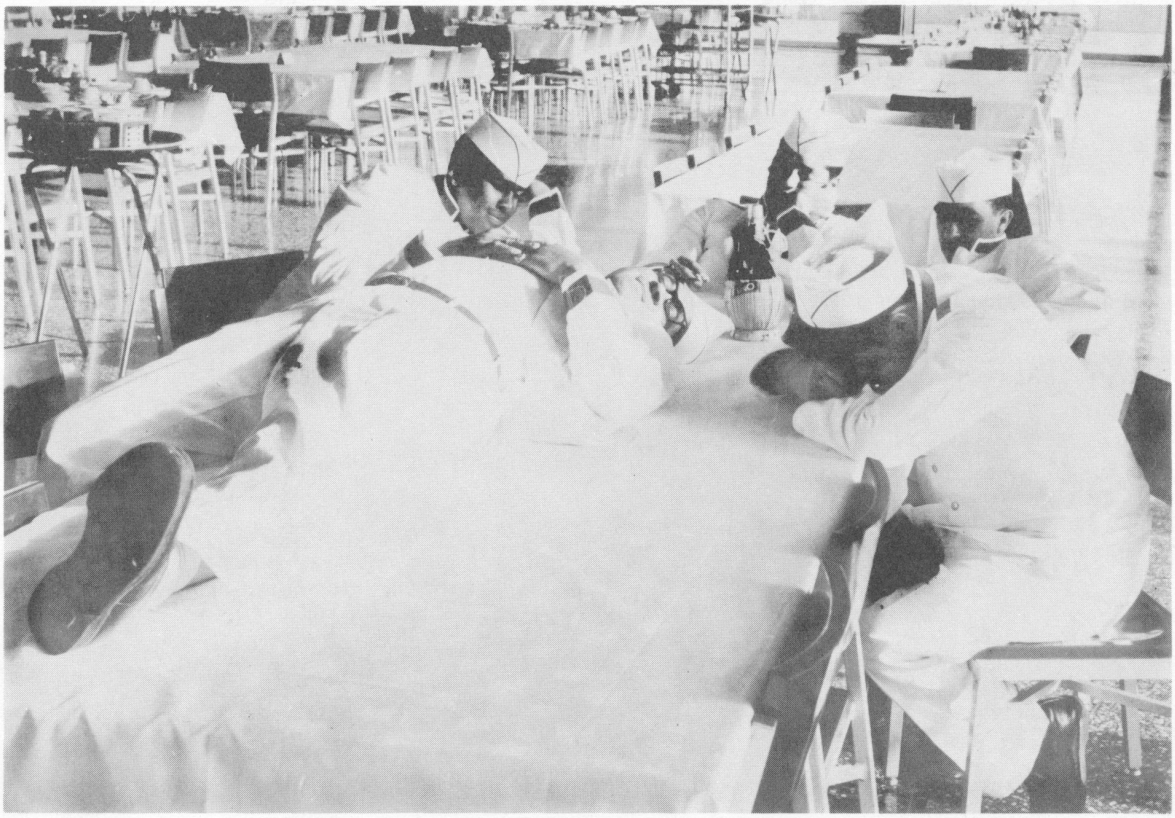

He only drinks to calm himself
His steadiness to improve.
Last night he got so steady
He couldn't even move.

"THIRD MAN FROM THE END, UNSHINED SHOES."

75bestalive.org

THIS IS THE LIFE FOR USAF ACADEMY WAITERS

FAST NEAT AVERAGE FRIENDLY GOOD GOOD

These six simple words, repeated day after day, hundreds of times every meal, serve as the proud motto of the USAF Academy Waiters.

The checks beside these words mean more than just a well done job, a good meal, or a particularly satisfying desert to Jose Montoya, Pedro Gonzales, or Evan Quiros. They mean a $20 raise and a chance to serve Snow Flake Potatoes and Hominy Grits to the silver-shouldered leaders on the Staff Tower.

With promotion come added responsibilities, however. No snide comments to the cold pilot, or stolen Forms 0-96. It's onward and upward from now on. And it is to match these increasing needs and responsibilities that the United Waiters Union was created. Our aim is to stand by you through gravy slung at your uniform, milk slopped on table cloths, and other sneaky pranks pulled by the enemy in blue.

Since 1955, the United Waiters Union has protected 95% of you through such awesome episodes as the "Meatball Plague," the "Spinach Incident," and the "Pizza Scandal." So if you make the Staff Tower next week, you'll get more from us than congratulations! (Mainly, we will up your dues.)

John A. Swindle

PRES.

United Waiters' Union

THIS IS THE LIFE FOR USAF ACADEMY CADETS

It Takes a Real ACE to Read the LEMON !

Your curriculum at the Academy fills you to the gray matter with interesting and broadening academic concepts. But the "whole man" is not ready to face the aerospace without the intellectual stimulation of your magazine, the Lemon.

From within the peelings of your Lemon, you can squeeze seedy bits of motivational wisdom, tart ideas for entertaining conversations with your Arnold Hall date and acid commentary on matters of universal importance.

But where do you learn about retirement income, or caring for a wife and children, in case you kick the bucket? Just ask any of our many minority groups around the Academy. Did you know that 100% of the Comm Shoppe Secretaries, and 99.3% of the diggers and Fillers do business with our company?

Our representative, Lemm N. Aid, will be happy to meet with you anywhere, from E. E. Lab to the northwest shower stall. He will show you how you can finance a little nest egg right out of your cadet account, just like "buying" the Lemon. Leave your financial worries with the flawless minds of the efficient Finance Office in Fairchild Hall.

We look forward to doing our business with you, for you, and all over you.

John A. Swindle PRES

USAFA REVISITED 1984

GRADUATE WEEKEND JUNE

CREATED BY PJ MAREK
ART BY PAT STOLL

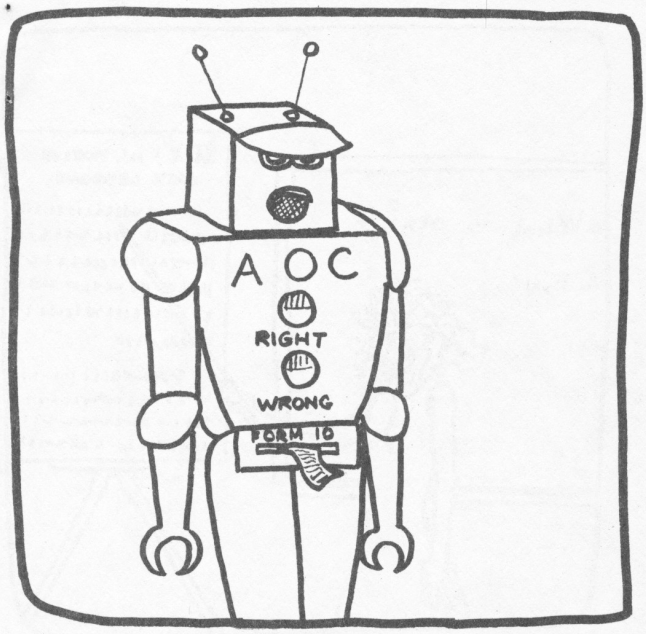

Your first stop will be the cadet social center, Arnold A-go-go. You will discover that the Arnold Hall of yesterday has changed in a few respects.

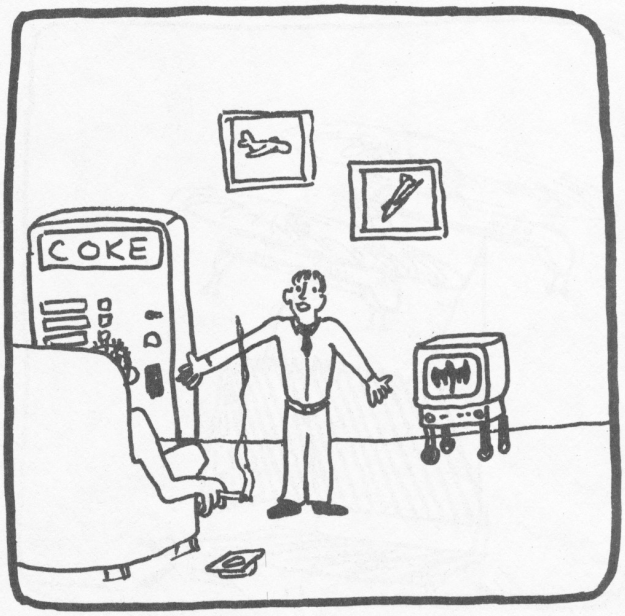

. . . and carrying on in the tradition of "Mrs. Mac" is the latest in cadet hostesses.

75bestalive.org

Moving to Vandenburg Hall #1, we have our first glimpse of the A.O.C. of the future.

. . . here is a typical scene of an upperclassman correcting a doolie:

"But Sam, I know you want to watch Batman again this week, but don't you think I have my rights?"

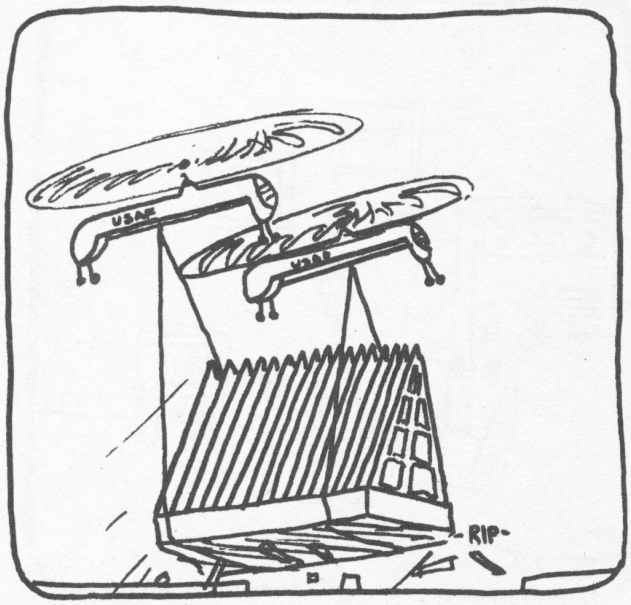

Mitchell Hall has since done away with its army of waiters and turned into the world's largest vendo-mat.

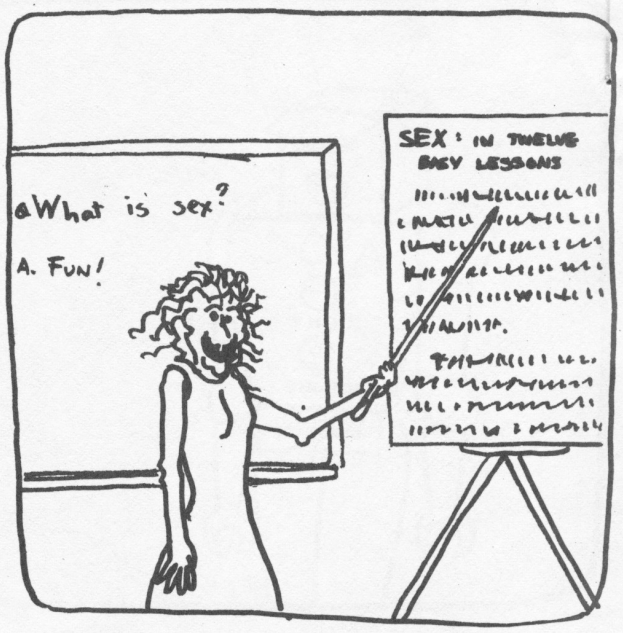

The installation of Vandenburg Hall #2 has resulted in several creative interdormitory activities.

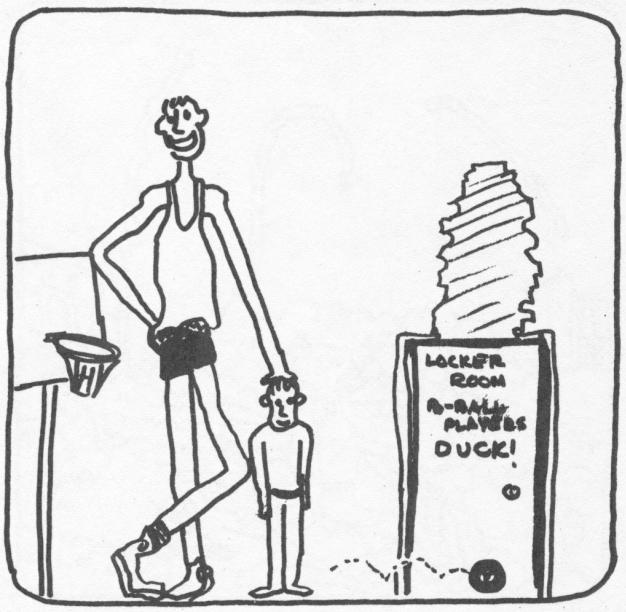

75bestalive.org

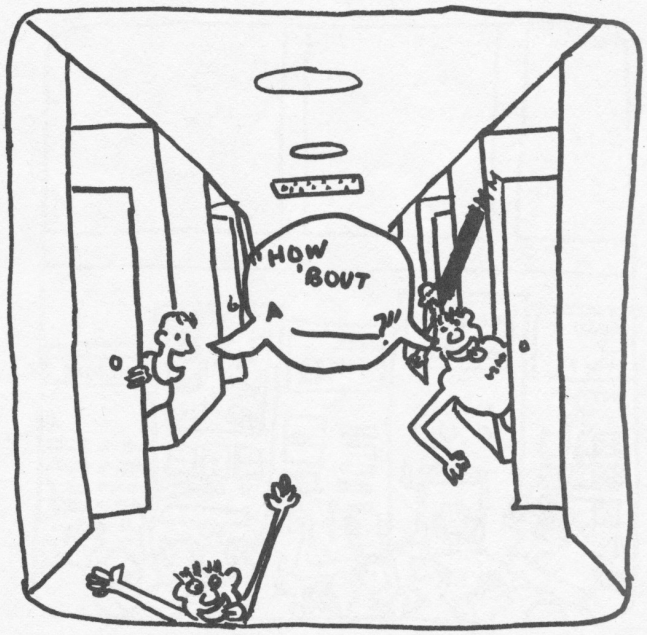

The passion cadets once possessed for moving the F-106 has given way to something of a broader, different nature.

The growing need for sex education has resulted in the hiring of female instructors. Soon, other departments followed suit, in hiring such eye-catching personnel as the one pictured above.

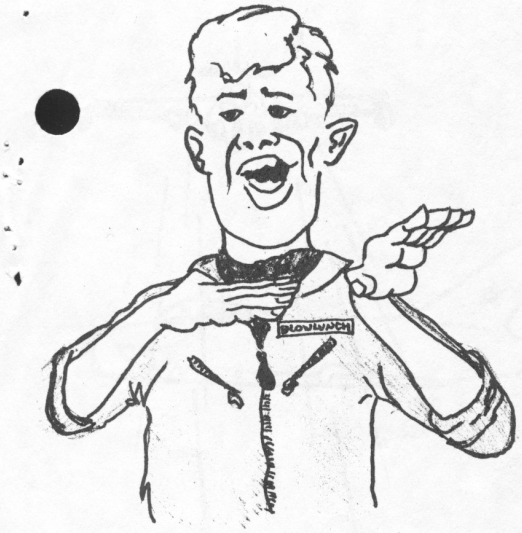

Academy recruiting practices have even expanded, resulting in more dynamic teams.

However, there is one aspect of Academy life that hasn't changed in the least.

75bestalive.org

IN THE BEGINNING...

- A TALE OF USAFA -

In the Beginning there were the mountains and the plains
And the spirit of the wind moved across the void that lay between.
And the Secretary of the Air Force moved upon the void
And said,"Let there be Aluminum."
And the evening and the morning were the first day.

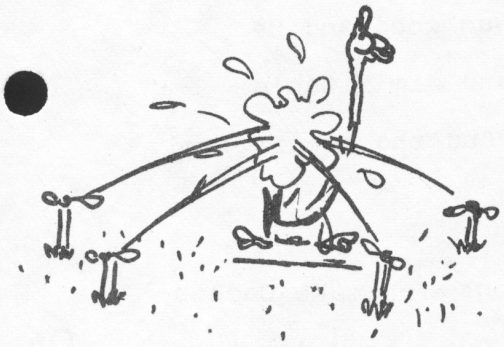

And the Secretary of the Air Force said,"Let there be Academics in the midst of the Aluminum, and let it divide The Ac Pro from the three-point." And he made the Academics And divided the AcPro which were under the mean from the 3 point which were above the mean; and it was so. And the Secretary of the Air Force called the Academics Heaven, and the evening and the morning were the second day.

And the Secretary of the Air Force said, "Let the sprinklers be gathered together unto one place and let the dry land appear," and it was so. And the Secretary of the Air Force called the dry land Intramural Fields; and the gathering together of the sprinklers he called the Parade Field; and the Secretary of the Air Force saw that it was good. And the Secretary of the Air Force said,"Let there be seeds sown on the dry land (?) so that on other days and other fields we may reap the fruits!" And the evening and the morning were the third day.

75bestalive.org

And the Secretary of the Air Force said, "Let there be lights in the firmament of the supt's Office to divide the Academic from the military and to distribute the firmament, and let them be for GR's and Regs and CDB's. And let them be for lights in the firmament of the Supt's Office to give light upon the Aluminum; and it was so. And the Secretary of the Air Force made two great lights; the greater to rule the Academic and the lesser to rule the Military (or is it the other way around?); he made the stars also. And the Secretary of the Air Force set them in the firmament of the Supt's Office to give light upon the Aluminum, and to rule over the day and night and to divide the "free" time from the CT; and the Secretary of the Air Force saw that it was good. And the evening and morning were the fourth day.

And the Secretary of the Air Force said,"Let Pueblo bring forth abundantly the moving creature that hath life." And the Secretary of the Air Force created waiters and barbers and every living creature that diggeth and filleth, which Pueblo brought forth abundantly after their own kind; and the

75bestalive.org

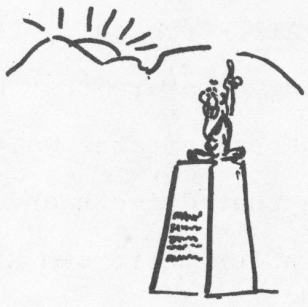

Secretary of the Air Force say that it was good And He said,"Be fruitful and multiply and fill and dig Mitch's Greasy Spoon and Mr. Smith's Chop Shop. And the evening and morning were the fifth day.

And the Secretary of the Air Force said, "Let us make Cadets in our image, after our likeness; and let them be under the dominion of the fish of the sea and the foul of the air, and under every creeping thing that creepeth on the earth. So the Secretary of the Air Force created Cadets in his own image; in this own image created he him: male, but not female. And the Secretary of the Air Force said,"Behold I have given you every hamburger steak which is upon the face of the earth, and every egg, in which is the water and the shell for abundance; to you it shall be for food. And every thing that creepeth upon the Aluminum, wherein there is life, I have given to you for meat; and it was so. And the Secretary of the Air Force saw every thing that he had made, and behold it was very good. And the evening and morning were of the sixth day.

And on the seventh day, the Secretary of the Air Force looked upon everything that he had done and saw that it created a great vortex and said,"It is good", and lo, he kissed it all off 'cause it just wasn't that critical.

75bestalive.org

I'D WALK A MILE FOR THE COMM SHOP

Yes, sir! The next time you see anyone getting away with anything, do the only smart thing; take the only mature approach to show a man the error of his ways: write him up! Remember, the fix-up is only as good as the write-up. Presented as a public service by 69-the guys who run the Wing.

Meet the New Boss

a warm person is a happy person.

SMSGT Lawrence A. Garrett,
Cadet Wing Operations Supervisor

Last May Sgt. Larry Garrett joined the famous firm of Coltrin and Coltrin, offices in the 6th floor of Fairchild Hall. Now that Sgt. Coltrin has left us, Sgt. Garrett has inherited the job and acquired a new office. Before joining this establishment Sgt. Garrett spent nine years of sea duty with the Navy till he decided to go Air Force in 1957. Since then he has spent four years as a TAC at AFSC NCO Academy, four years setting up the Prep School, was selected AFA NCO of the year in 1964, and spent three years of hazardous duty at Hickham.

Since your ever-present Dodo reporter is an old friend of Sgt. Garrett's, He recently ventured up to the dark world of the Comm Shop to talk to Sgt. Garrett about his new job. His job description calls for him to direct all Wing drill and ceremonies and to advise the cadet chain and staff, but he was quick to point out that his real function was to "let the cadets know what needs to be done then just sit back in the corner and watch". Sgt. Garrett also stated that he felt part of his responsibility was to view cadet s through the eyes of an NCO and to let the cadets see how an NCO talks and thinks. He went on to point out that cadets often get the wrong idea about Enlisted people due to their limited contact. He also said that he did not intend to try to fill Sgt. Coltrin's shoes but intended to develop his own 'bag' here. He feels that whether this assignment will be a four year tour or a career position depends on his ability to communicate with the Wing.

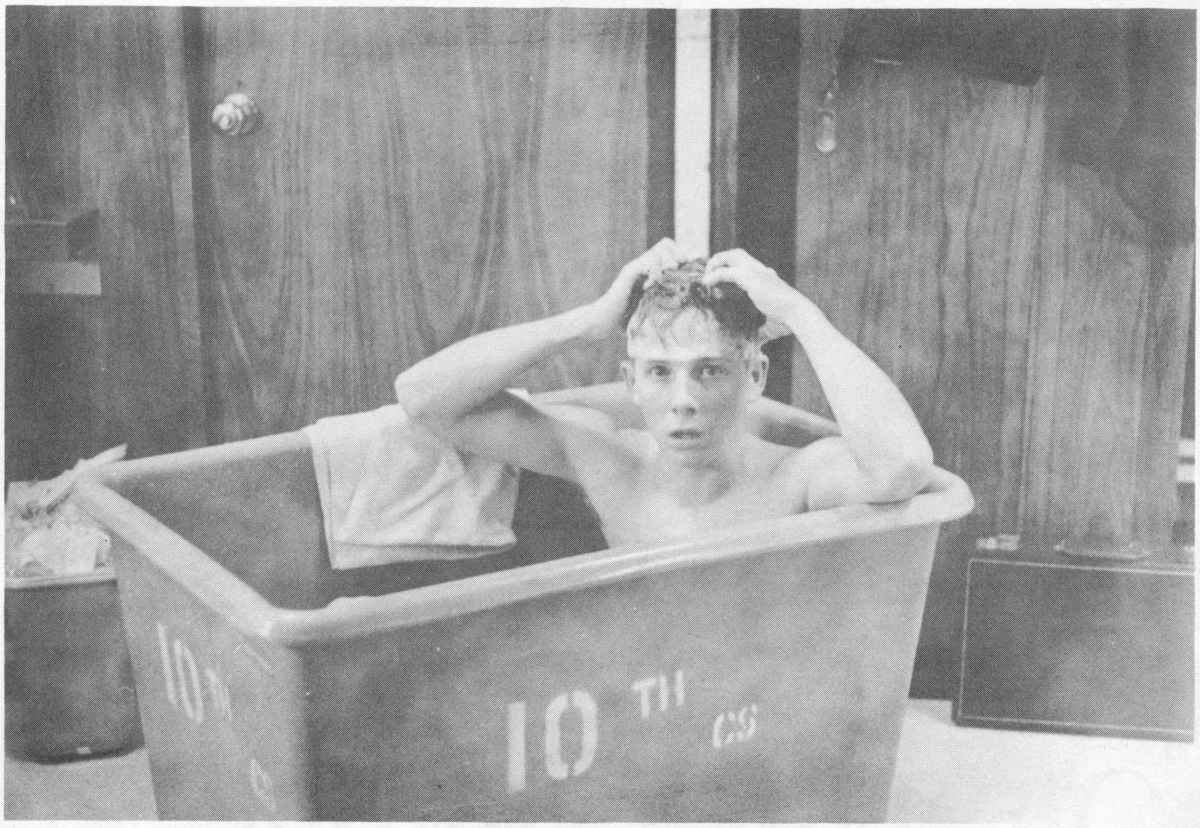

We here at the school newspaper would like to extend our best wishes to Sgt. Garrett and our hopes for a long relationship between the Wing and its new NCOIC, after all, good friends are hard to come by!

---

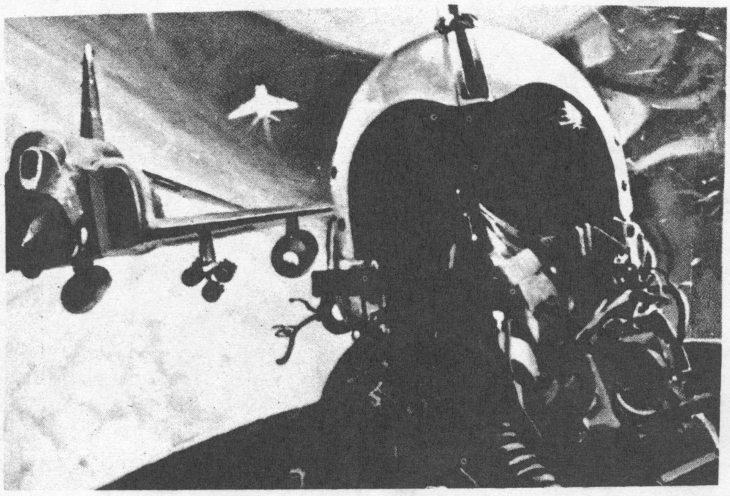

2 out of 3 men reading this ad would look nicer if they shined their shoes.

THE TIME - ANY MORNING ... EARLY!!
THE PLACE - ANY ROOM; MAYBE YOURS!
WE FIND OUR HERO, BARFY BLOWLUNCH, C/IC, DEFENDER OF DOOLIES AND CARER ABOUT NOTHING, BLITHELY OBLIVIOUS TO ALL ABOUT HIM, SECURELY ENSCONSED IN THE SECURITY OF HIS GRAY ALTEREGO, BAGMAN! WHEN SUDDENLY —

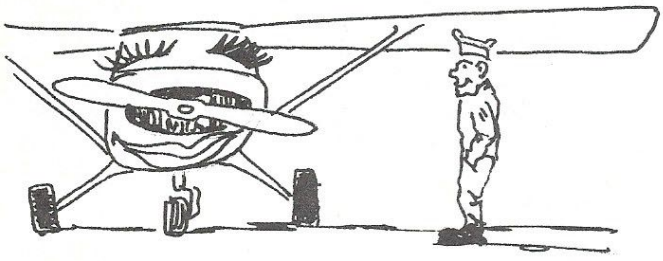

AND SO OUR HERO, BARFY BLOWLUNCH, PREPARES FOR YET ANOTHER STAR-WROUGHT ENCOUNTER WITH DESTINY; HIS FIRST STEP TOWARD FAME AND FORTUNE! HIS MAGNIFICENT BODY TREMBLING WITH ANTICIPATION, BARFY PREPARES FOR YET ANOTHER EXCURSION WITH THE FAMED...

DAWN PATROL

75bestalive.org

LIKE ANY OTHER T-41 STUDENT, BARFY & HIS PLANE WERE LOVE AT FIRST SIGHT. UNLIKE ANY OTHER STUDENT, BARFY GOT TO SEE HER AT HER FINEST — WITH THE FIRST GLOW OF DAWN PAINTING HER GLEAMING SKIN. SHE WAS BEAUTIFUL! AND SO TINY & INNOCENT! RIGHT!

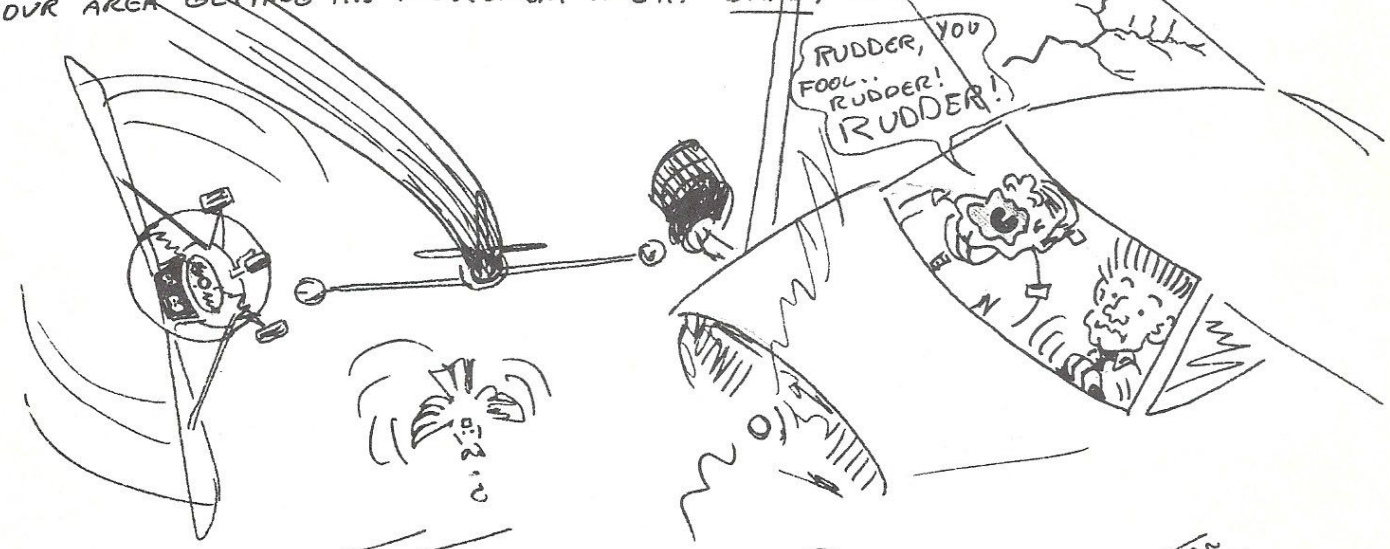

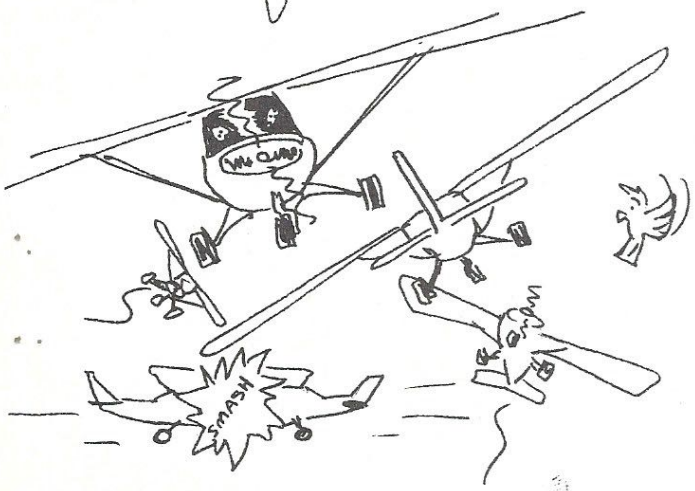

THEN YOU MET YOUR IP; HIS SNOW-WHITE HAIR CONTRASTED SHARPLY WITH HIS DIM, BLUE, BLOODSHOT EYES. BUT IT WAS EARLY, AND YOU COULD SEE IN HIS FACE THAT HE WAS A PRO, EVERY LINE HARD-EARNED SINCE HIS EARLY DAYS OF FLYING, PROBABLY WITH THE WRIGHT BROTHERS! THEN YOU LEARNED HE WAS ONLY 25....

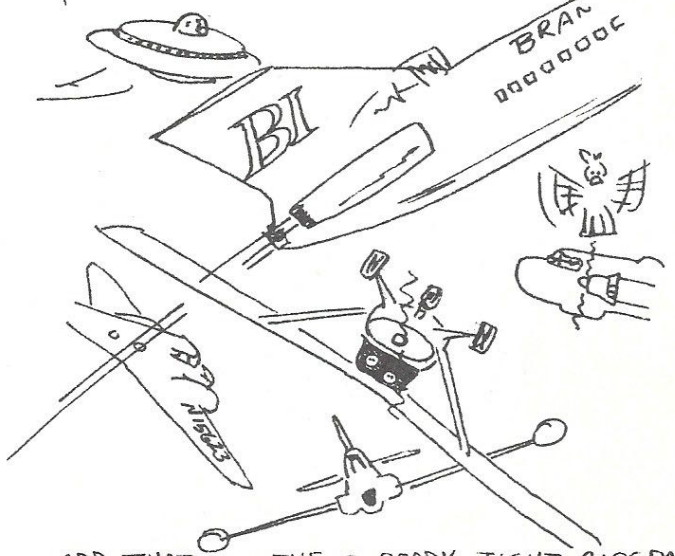

YOU LEARNED THAT YOUR BIRD HAD SOME QUIRKS - LIKE, SHE WAS SUSCEPTIBLE TO TURBULENCE, WHICH COULD BE CAUSED BY SOME AM-370 JOCK BLOWING THROUGH YOUR AREA GETTING HIS INSTRUMENT TIME...

AND, DESPITE ALL THEY TOLD YOU ABOUT "INHERENT STABILITY", SHE COULD DO A DANDY SPIN...

BESIDES, THE AIR WAS FULL OF OTHER IDIOTS JUST LIKE YOU...

ADD THAT TO THE ALREADY TIGHT AIRSPACE AT PETE, AND YOU HAD FUN, FUN, FUN!!

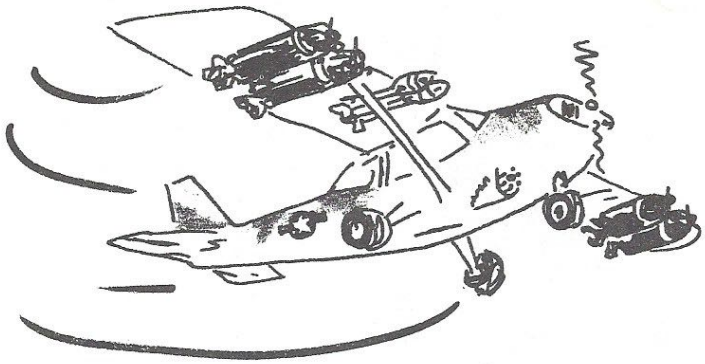

1969

75bestalive.org

THEN, YOUR FIRST SOLO —

BUT AFTER THAT, SHE WAS YOUR BABY, AND SHE TOOK ON A WHOLE NEW ASPECT...

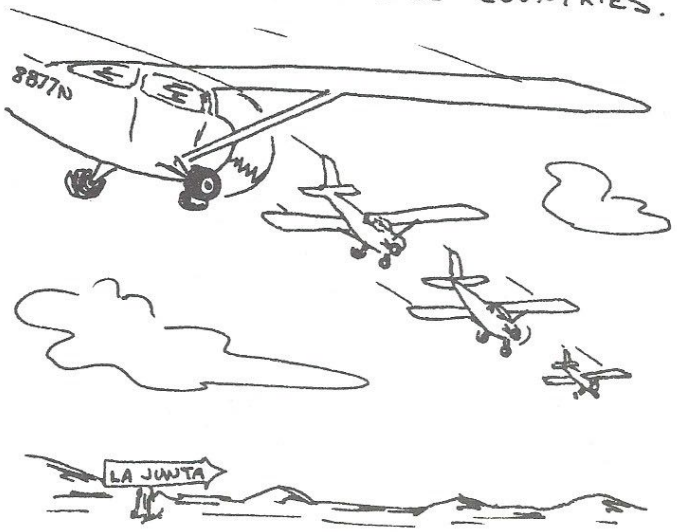

the F-41 !!

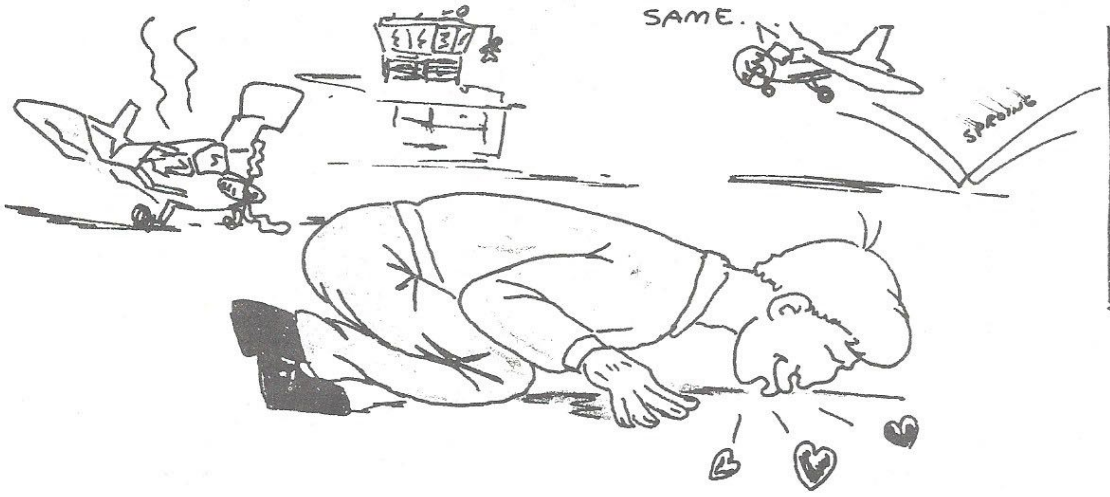

AND YOU WERE ON YOUR OWN! PLANNING CROSS-COUNTRIES...

& FLYING SOLO CROSS-COUNTRIES.

BUT NO MATTER WHAT THE MISSION, YOUR FEELINGS WERE ALWAYS THE SAME.

LUV !!

75bestalive.org

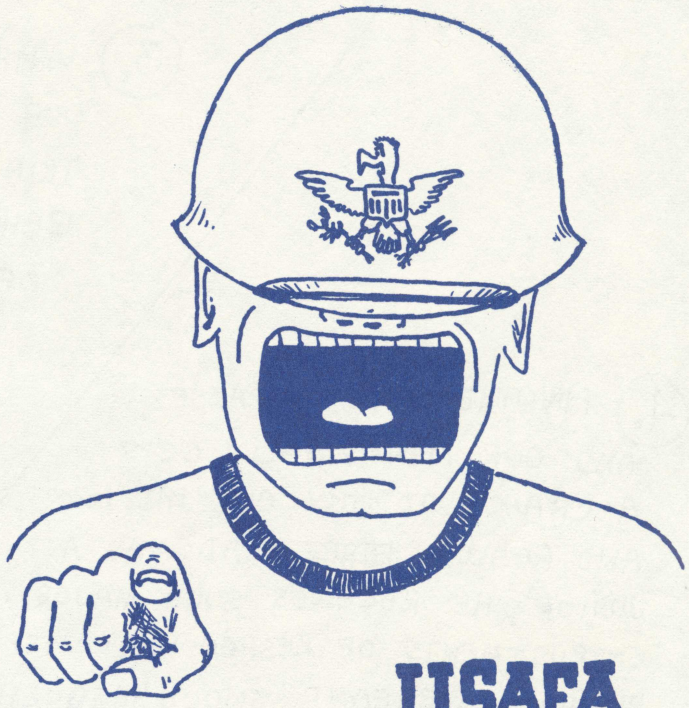

75bestalive.org

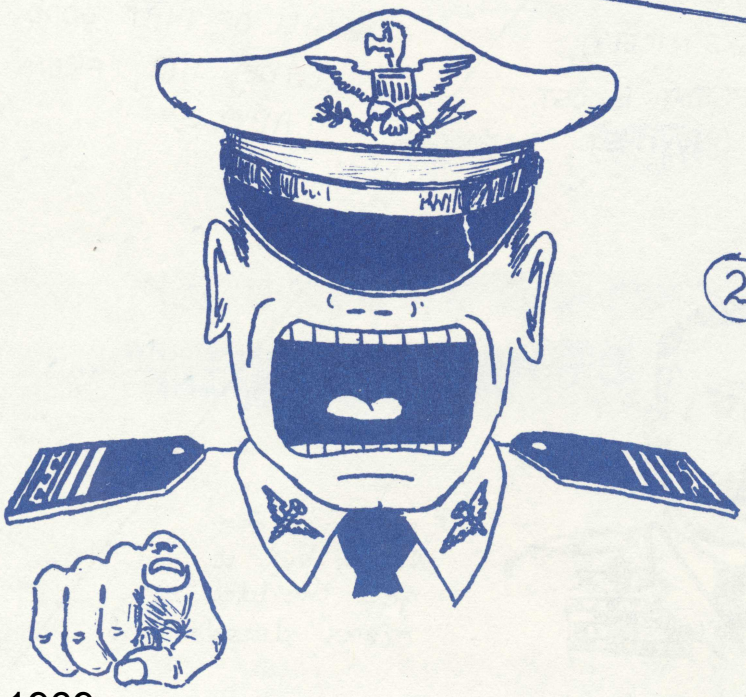

IN RETROSPECT

JUST WHAT DOES A GRAD REMEMBER AFTER HE'S SHRUGGED OFF THE SECURITY OF THE NATION'S ONLY 3,200-MAN PADDED CELL AND FORGED AHEAD INTO THE WAITING JAWS OF WHAT IS KNOWN TO THOSE HERE ONLY AS (SHUDDER) "THE OUTSIDE WORLD"?

1. WELL, FIRST THERE'S BCT; A YOUNG MAN'S FIRST CHANCE TO PROVE HIMSELF, WHILE BEING LED BY THOSE HALF-MEN, HALF-DEITIES, THE FIRSTIES. HERE HE GETS HIS FIRST GLIMPSE OF TRUE LEADERSHIP.

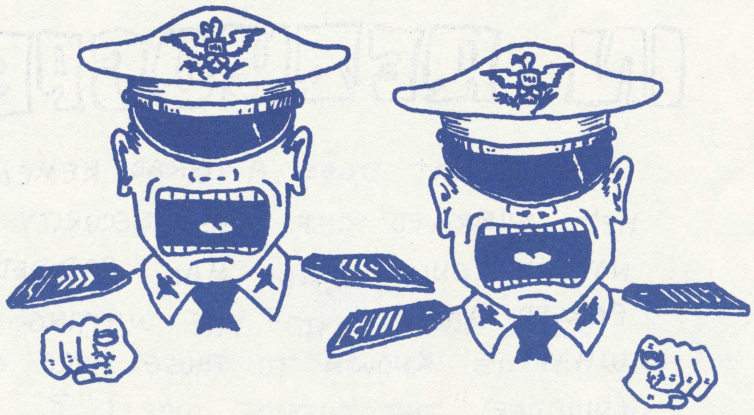

USAFA

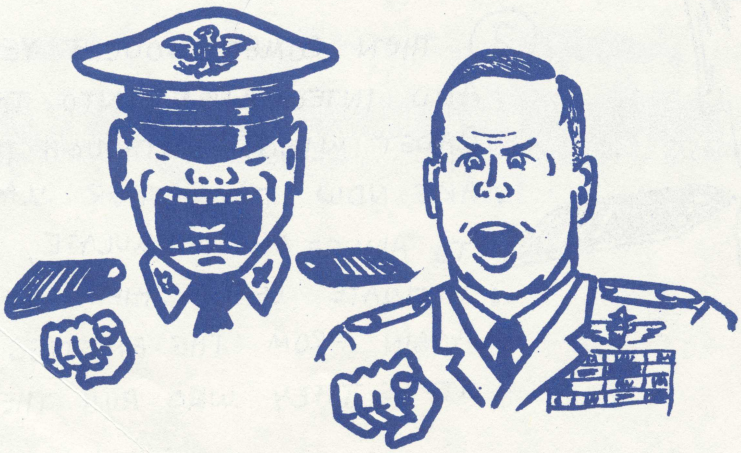

2. THEN COMES DOOLIE YEAR, AND INTEGRATION INTO THE CADET WING. ALTHOUGH THERE ARE NOW TWO OTHER CLASSES TO ADMIRE AND TO EMULATE, THE ULTIMATE LEADERSHIP COMES AGAIN FROM THE FIRSTIES, AS IT IS THEY WHO RUN THE WING.

75bestalive.org

3. WITH THE COMING OF RECOGNITION, OUR MAN LEAVES THE TOILS AND TRIALS OF THE FOURTH CLASS SYSTEM BEHIND, AND ENTERS THE REALM OF THE UPPERCLASS — AND THE THIRD CLASS SYSTEM! NOW HE CAN SHOW JUST WHAT HE'S LEARNED, AND IN SO MANY WAYS- SERVING AS CCQ, OR AS CARS REP, OR ELEMENT DO-NOTHING. AND STILL THERE'S THE BENEFIT OF ALL OF THAT GOOD LEADERSHIP FROM ABOVE.

4. ANOTHER YEAR PASSES, AND OUR MAN FINALLY GETS A CHANCE TO TRY OUT HIS LEGS AND REALLY ~~LEAP~~ LEAD* AS A JUNIOR; HE RECEIVES SUCH MAJOR ENTRUSTMENTS OF RESPONSIBILTY AS ELEMENT SARGEANT, SNCOD PHTBCLH, AND EVEN LATE LIGHTS! (IF HE ASKS NICELY) AND STILL THERE IS THAT EVER-PRESENT BOOST THAT COMES WITH THE GUIDANCE AND BEST WISHES OF HIS SUPERIORS.

* maybe it is crude, but it gets the idea across, doesn't it?

75bestalive.org

5. **Well—**

THE PASSING OF ANOTHER YEAR FINDS SAID MAN AS ONE OF THAT SAME BREED OF CAT HE ONCE WORSHIPPED AND IDOLIZED: A FIRSTCLASSMAN! THIS IS HIS YEAR — HE RUNS THE SHOW (WITH A LITTLE HELP FROM HIS FRIENDS, OF COURSE). BY THE TIME HIS GRADUATION ROLLS AROUND, THE WORDS, "GENTLEMEN, YOU ARE DISTRESSED," MEAN MORE THAN HE COULD HAVE EVER IMAGINED.

So Finally—

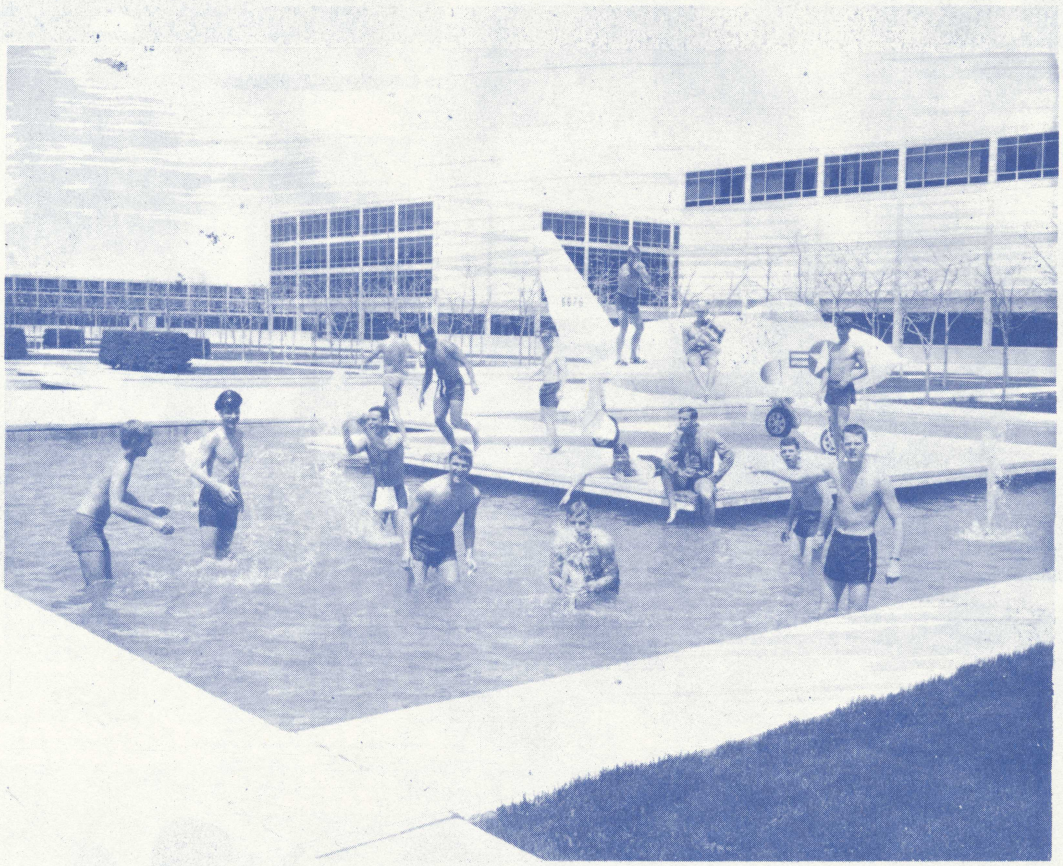

OUR GRAD'S MIND RETURNS TO THE PRESENT, AND HE PONDERS THE GOOD LIFE WHICH HE NOW LEADS. HE FINDS HIS FRIENDS AND CO-WORKERS PLEASANT TO LIVE AND WORK WITH, AND WHEN HIS CUP RUNNETH OVER WITH PRESS-ONS, RIPPED KNICKERS, KOODOOS AND HOOHAAS, HE CAN RETIRE TO THE WARMTH AND WELCOME OF HIS HOME.

75bestalive.org

PHYSICS 220 FINAL EXAMINATION

STEP 1: A spring of constant k produces a + acceleration on the cart
STEP 2: The cart is further accelerated due to gravity
STEP 3: Cart hits ball attached to string causing pendulum motion
STEP 4: Pendulum hits flashlight switch causing light to shine on photo cell which in turn causes electricity to flow through circuit
STEP 5: Electricity in circuit causes horn to blow sending sound vibrations in the medium of air.
STEP 6: Vibrations cause beaker to spill Cl^- ions into the Na^+ ions. Electrolysis results.
STEP 7: Electrolysis sends electrons through electron gun
STEP 8: Electrons are shot through a mass spectrometer
STEP 9: Electron is curved due to electric field and enters coil causing voltmeter to register.
STEP 10: String tied (with a double sheep shank) to needle of voltmeter is pulled as the voltmeter registers thus opening the door to the rats cage.
STEP 11: Rat runs on wheel causing angular velocity, ω.

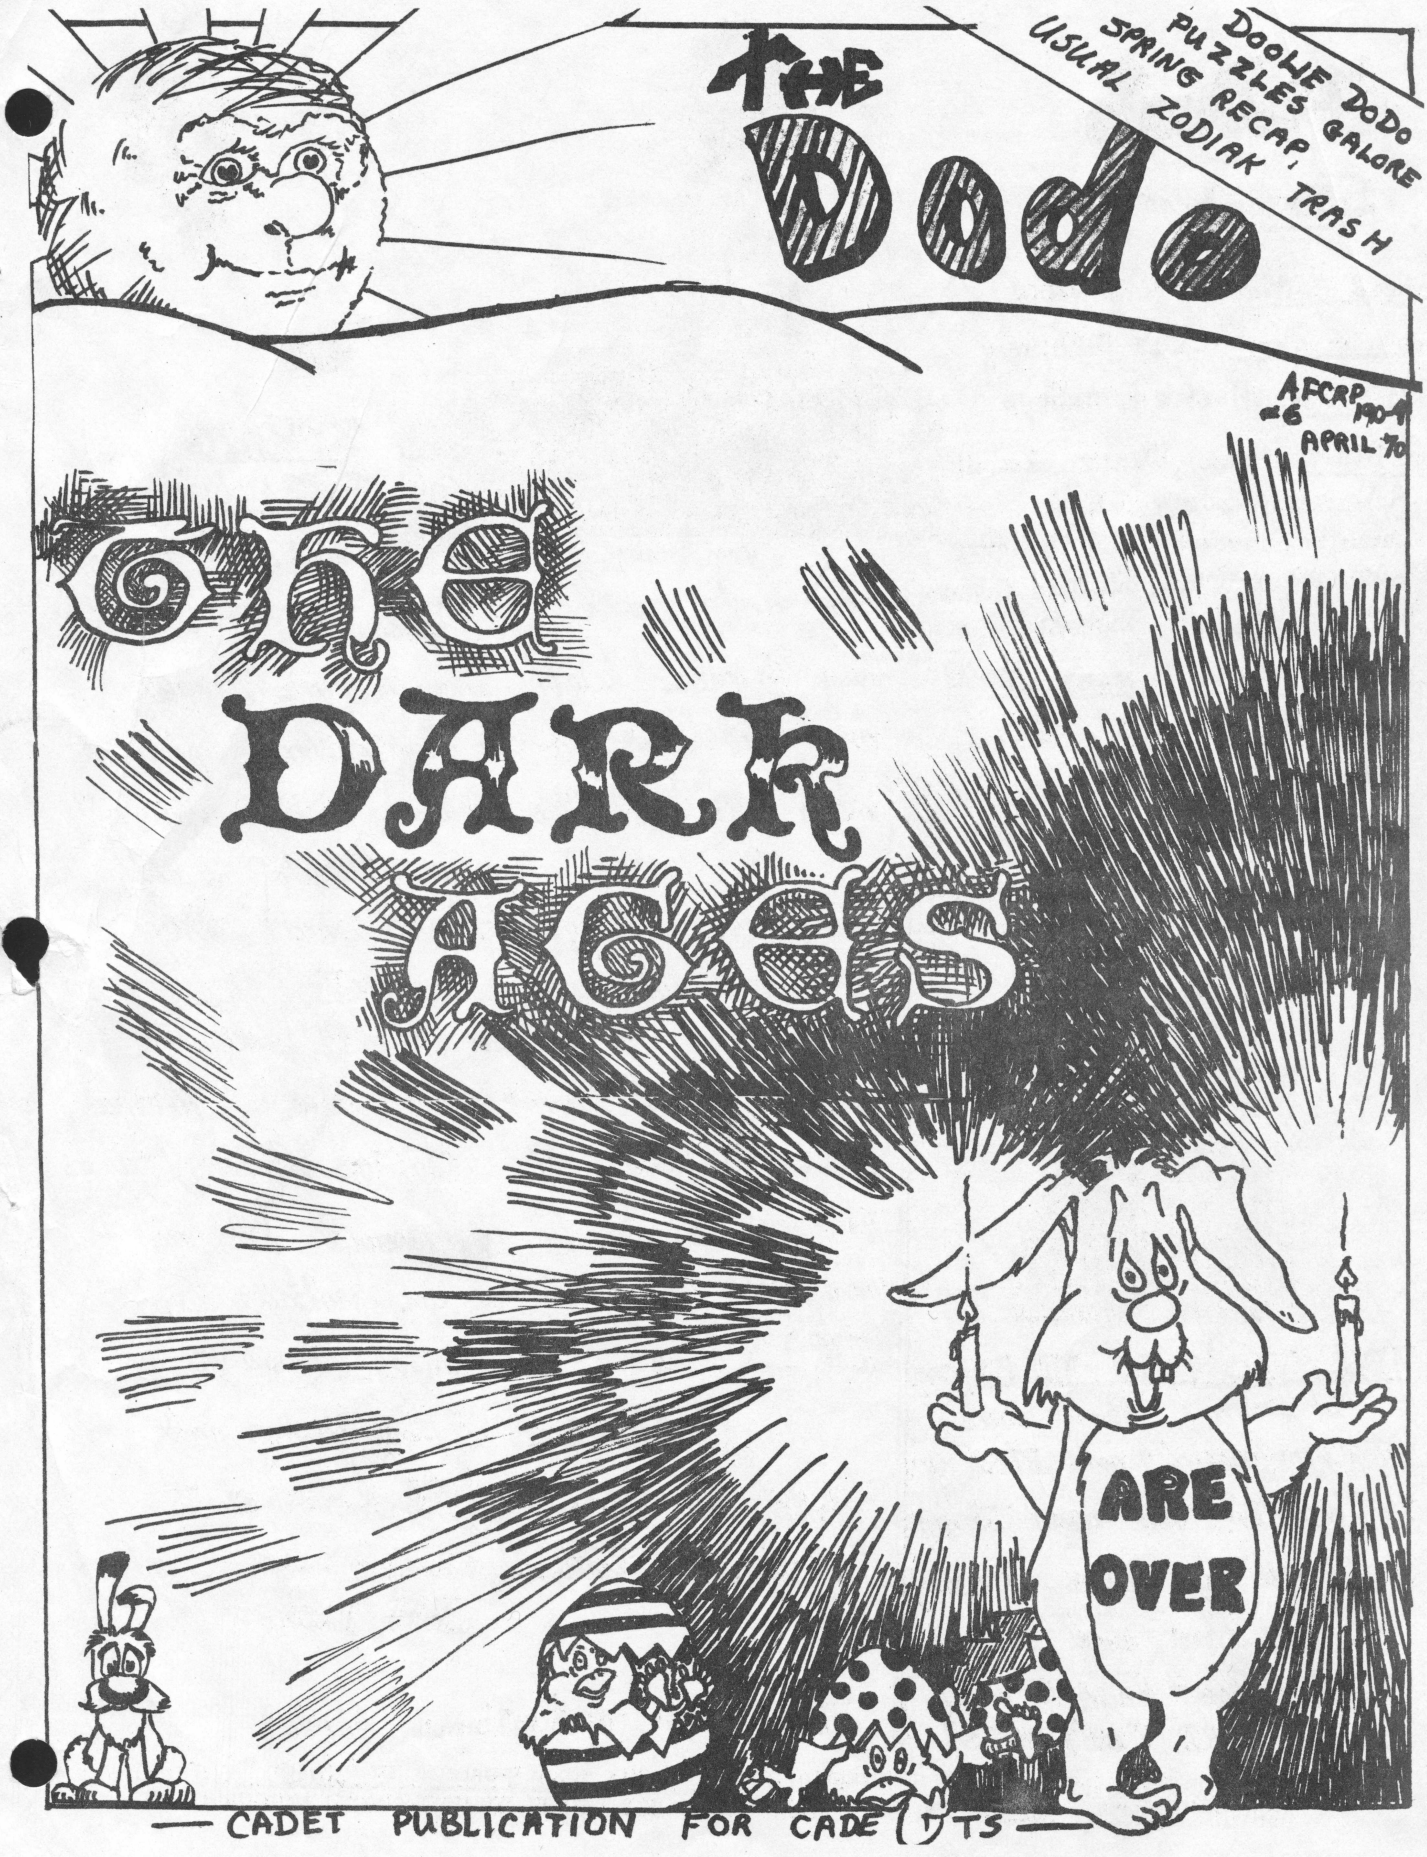

You may assume the following to be true in this case:
a) Frictional forces are equal to the Dow Jones Industrial Average.
b) The rat has terminal hemorrhoids which decreases ω by Avagadro's zip code.
c) $\sum_{AOC=1}^{AO} I Q_{AOC} = 0$
d) Lt. V.D. Spotter gets the women.

ATTN ALL BCT TYPES:

This is an actual reprint of a letter sent by a Classof '75 member to a 74er whom he met only briefly X-mas. Here's to an endless summer of Bubble Bursting...

Hi Ed,

I hope you remember me(CAP, Oakland, 2 December deals). Anyway, I really didn't have the slightest worry. Now that it's over I sure am releived. Since December and 2nd alternate, I have recieved the one principal and the one vice-presidential nomination to the Academy. I was so unbeleivably qualified and motivated that they gave it to me as of 23 March 1971. They were really impressed with me & wanted me to attend.(Although I think my coach had something to do with it.) But anyway, I signed the contracts and will recieve the processing Kit in a few weeks. I also caught the ski bug so I'll be pretty good when I get there. I think I'm about as prepared as you can get. I just wanted to let you know since I was really impressed by you and your enthusiasim & the help you gave me. I hope to see you as soon as I can and that we can become good friends without the superiority bit. Just friends. Thanks again for your help.

NAME CHANGED TO PROTECT THE DOOMED.

Sincerley,
A prospective doolie

She Was Raped

I am writing you because you have the reputation of being a crusader for good causes and the scourge of evil. There is a situation in the Colorado Springs area that I feel you should be aware of and that your readers should be warned of.

The situation I refer to is concerned with those unscrupulous, lecherous tom cats that prowl the Colorado Springs area nights, and even in the days in search of innocent, young kittens.

This problem facing us was driven home very strongly a few days ago when our beautiful, six-month-old kitten was raped before my wife's horrified eyes on the street outside our home. The "animal" committing this act was a large, evil looking yellow tom, origin unknown. The "beast" apparently planned more abuses because he attempted to keep my wife from rescuing our kitten by spitting and hissing and attempting to bite her as she approached.

We contemplate a paternity suit against the beast's family if we can only find out his name and where he lives. After all, he does owe our kitten something.

However, he has probably moved on to other innocents now and will continue his rampage until the citizenry rises up to stop this beastiality which is so prevalent in Colorado Springs. Let's make the streets of Colorado Springs safe for innocent, female kittens again!

J. Rastus Pickle

(THERE GO THE EXPANDED PRIVILEDGES)

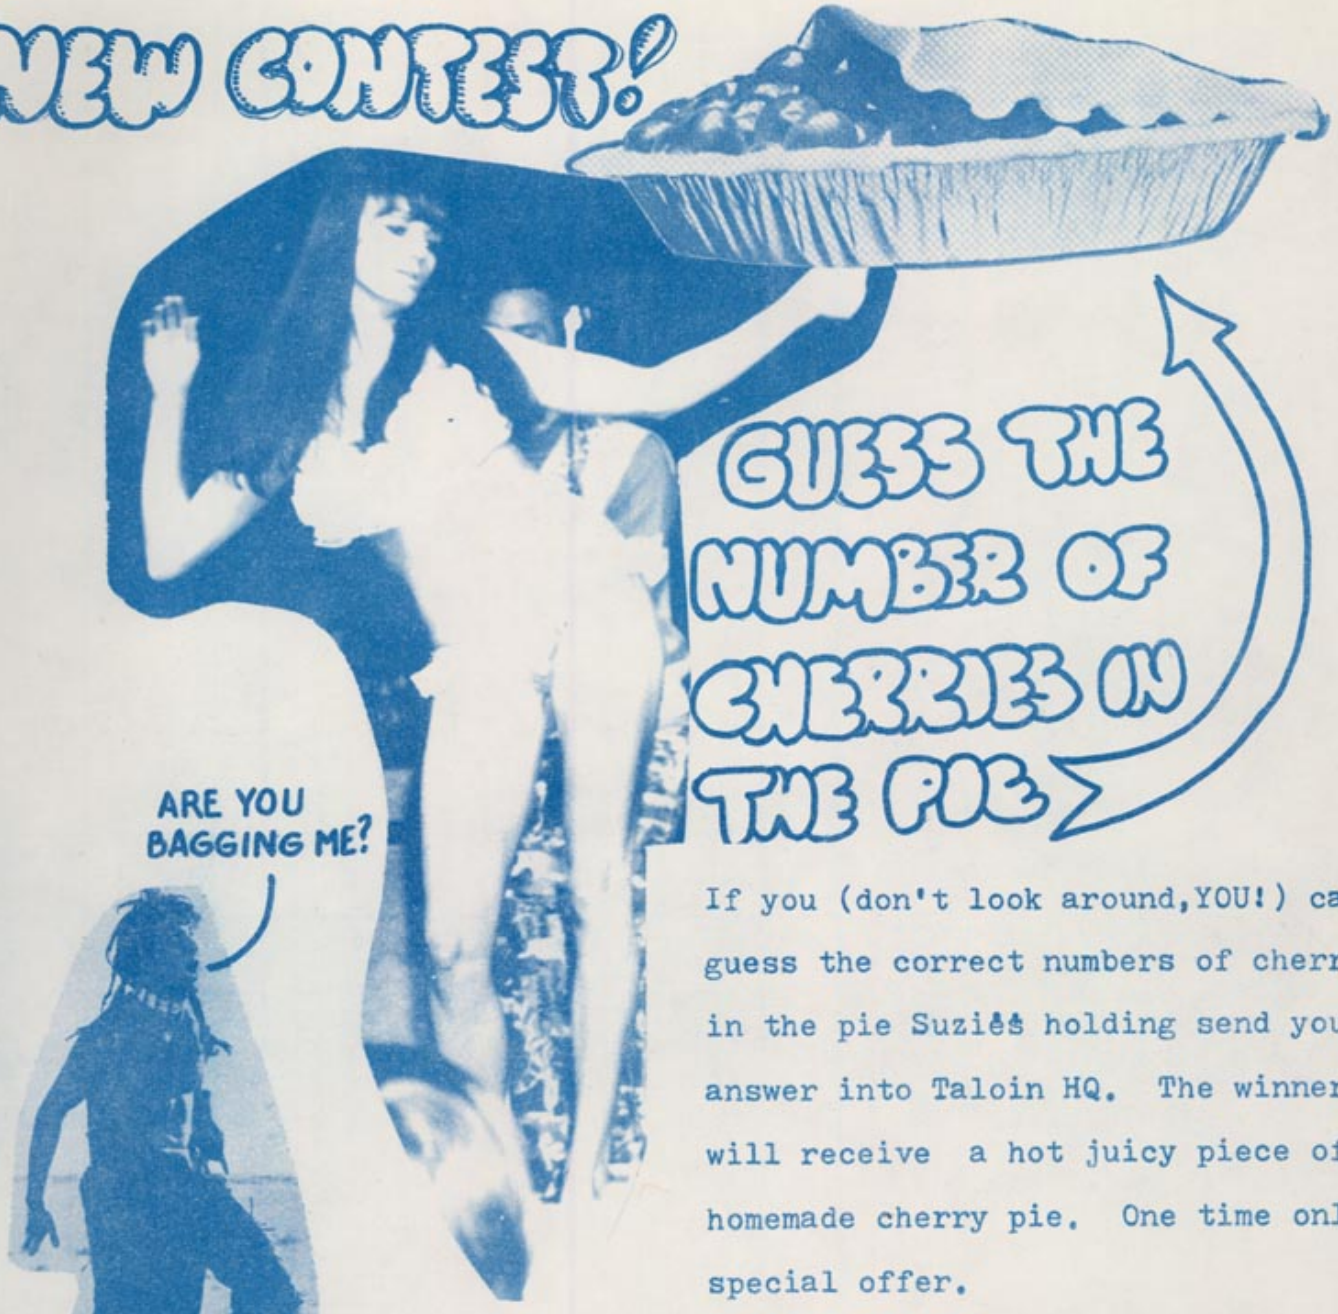

REPRINTED W/ PERMISSON

Sure, my ears are freezing, but if I put on earmuffs, no one will be able to see my beautiful sideburns!

NEW CONTEST!

GUESS THE NUMBER OF CHERRIES IN THE PIE

If you (don't look around, YOU!) can guess the correct numbers of cherries in the pie Suzie's holding send your answer into Taloin HQ. The winner will receive a hot juicy piece of homemade cherry pie. One time only special offer.

Just a little piece

JOKES:

How do you tell an AOC from an APE
An ape peels his banana before eating it?

How do you break an AOC's Finger?
Hit him in the nose...

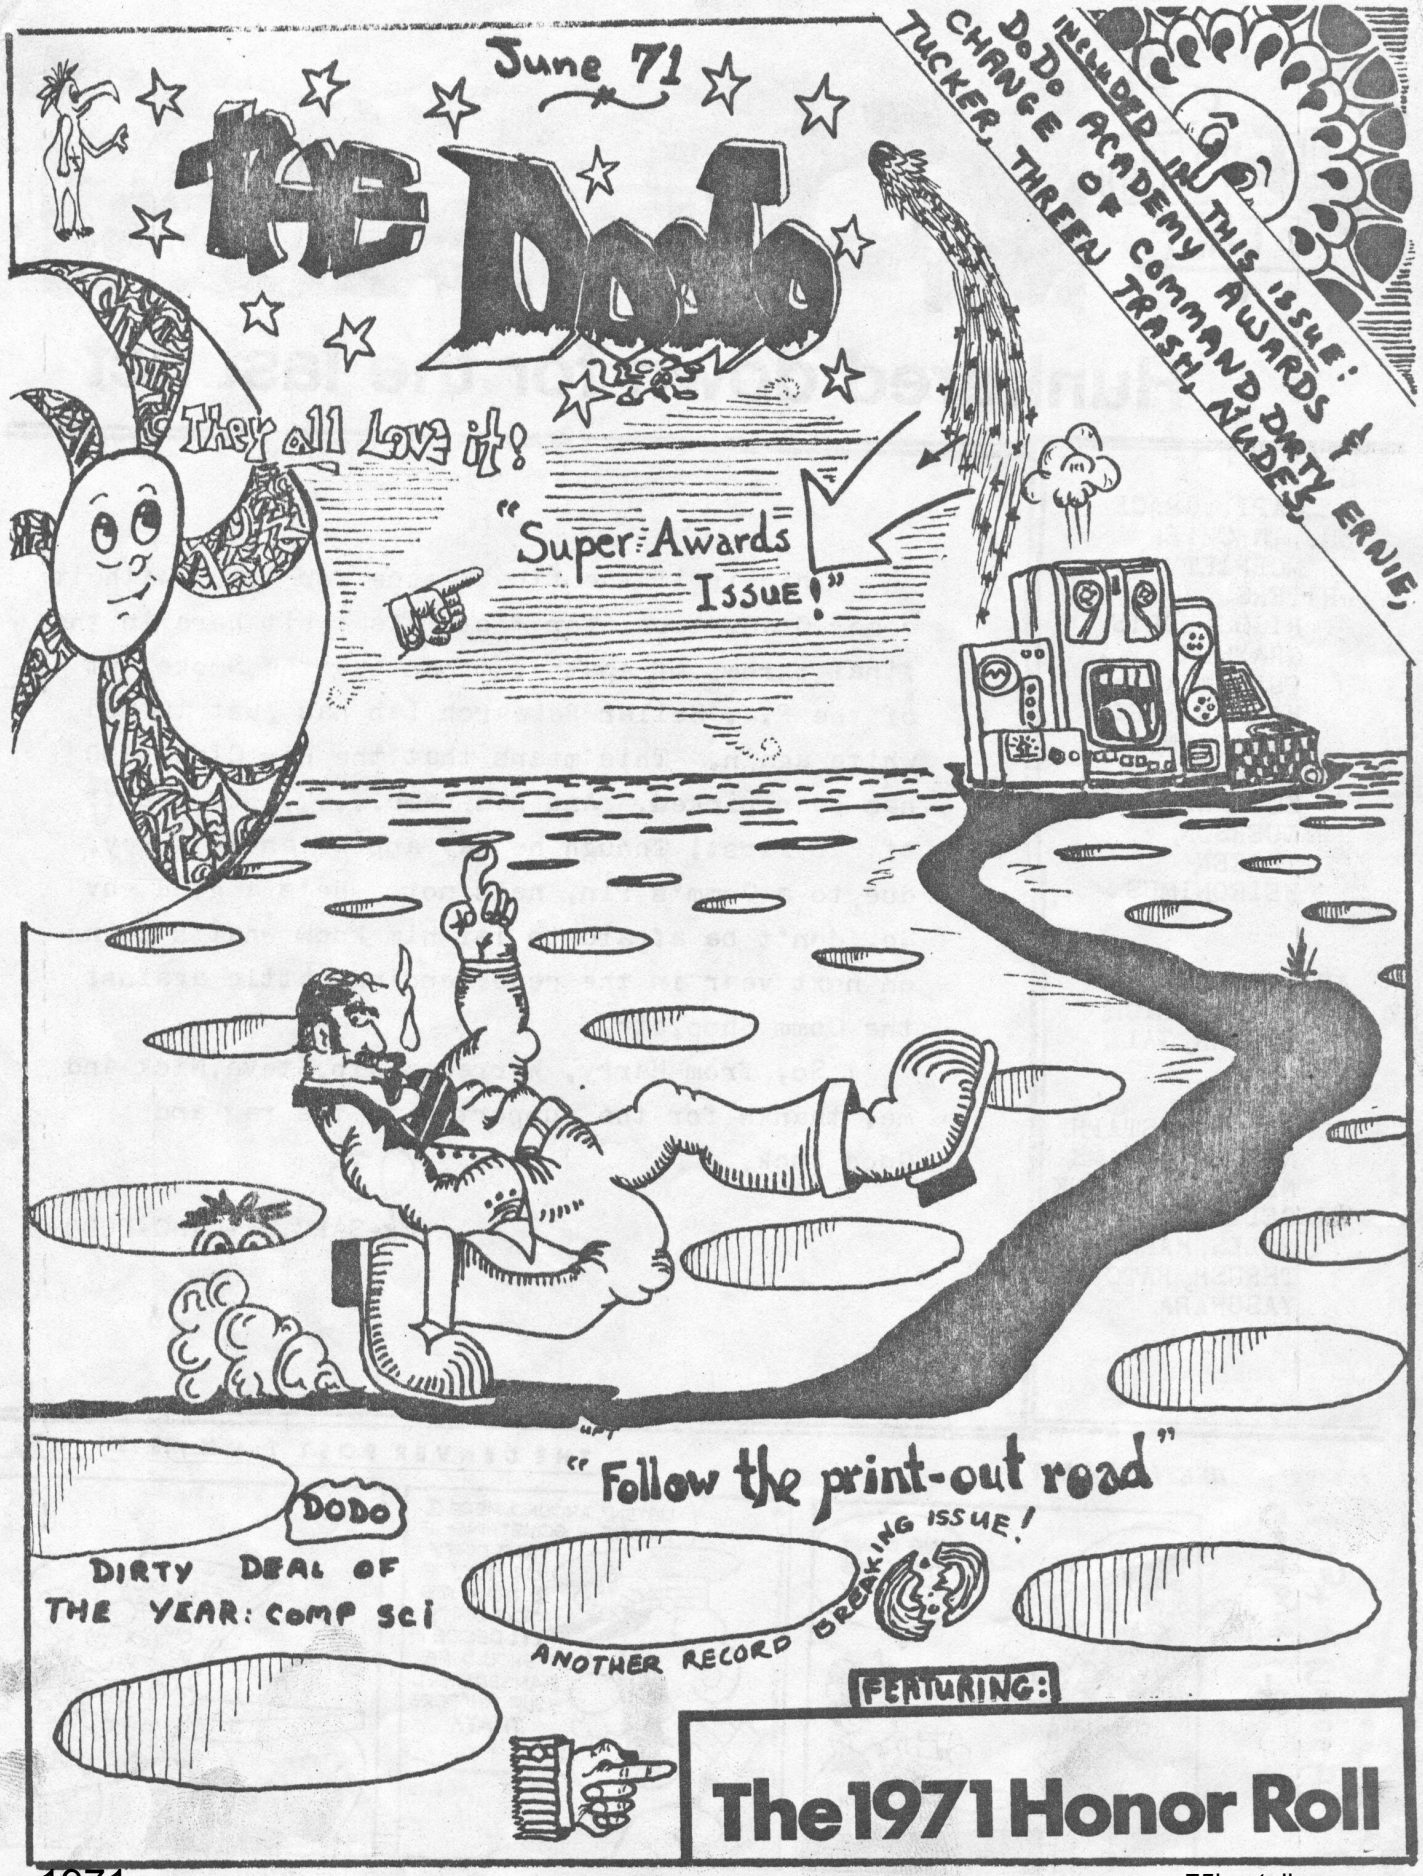

Who has a moustache on their Bust?
Wilbur Wright.

The Talon is a good magazine!

.....Then there was the AOC who ran into the CCQ shack and wanted to use the phone for an emergency. It seems he had to call his wife to get his extra set of car keys; his were locked in the car. Why the emergency? The AOC said: " It's snowing and I left my top down!!!"

MAJ. V.T. DIAGRAM

M2C 200 POINTS

ESSAY (100 POINTS): Given F=ma, derive the world. Make no unwarranted assumpyions and give two or three good examples. Use a separate sheet of paper if necessary. Go.

Given the diagram at the right and given that the moment about point "O" oscillates as $2\sin(Bal^2)$ and that the length of AB is slowly decreasing, what is behind our imaginary screen?

A) A homogenous uniformly flat surface.
B) An inelastic one-dimensional lifting body.
C) A rigid right-circular cylindar.
D) A chick.

Which of the below formulae represents the greatest amount of power?

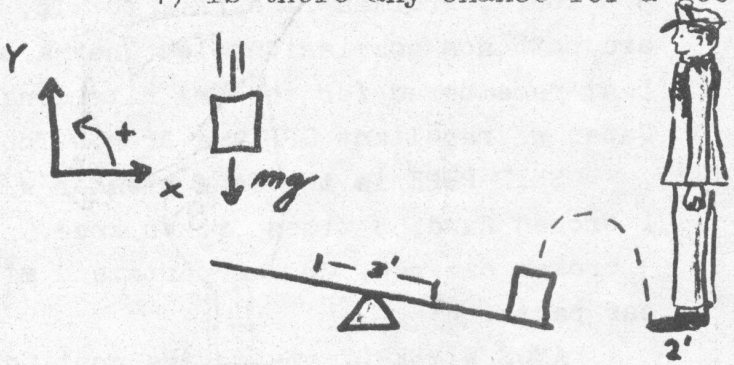

A) $F=ma_2$
B) $E=mc^2$
C) $OIC=F10$
D) $55-1$
E) $138/2$

Which of the following is used as a unit measure of proficiency?

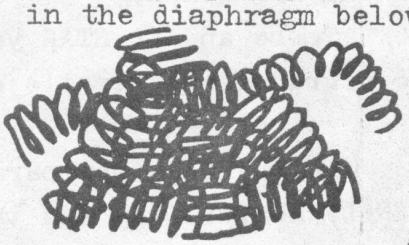

A) Newtons
B) Farads
C) Kafas
D) Regs
E) None of the above, most are obselete.

Study the diagram below. Assuming the officer is perfectly caustic:

1) If 'air friction is small, to what hieght will M_2 rise?
2) What is the offense code?
3) Will the apparatus be written up?
4) Is there any chance for a good flux?

How many springs are in the diaphragm below?

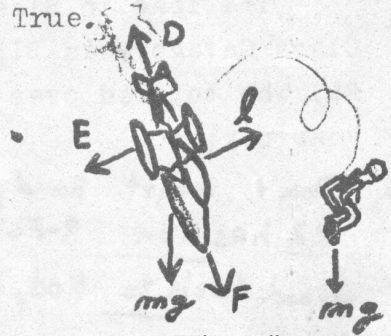

In the formula $d=32t^2$ the "32" stands for...

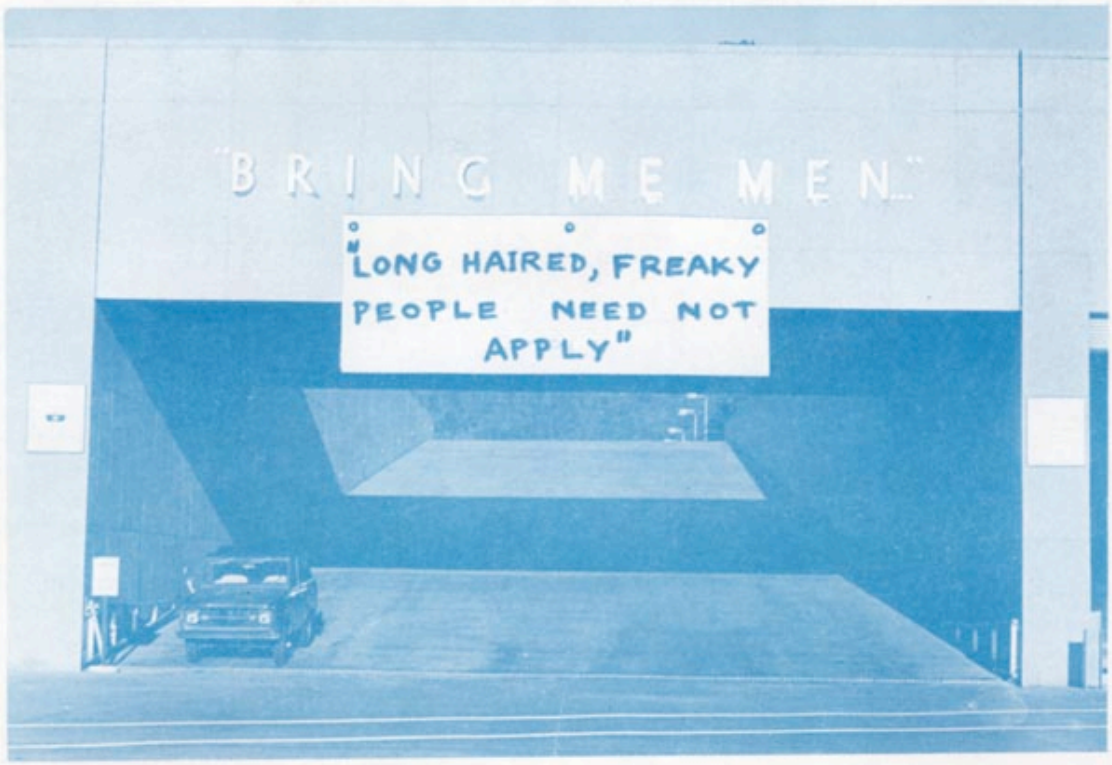

A) The speed of light in chipped beef.
B) 2.75 dozen.
C) True.

Which of the following statements concerning the diagram at the right are plausable:

A) The rectilinear temperature is 98.6.
B) This is the proverbial "inclined plane."
C) The pilot has punched out.
D) The cadet has punched out.
E) "C" but not "D".
F) It is aerodynamicly unstable due to the arrows.

A LITTLE HELP FROM THE MAJ

What would you do if I don't shine my shoes,
Would you go tell the Comm on me.
Lend me your ears and I'll sing you the Blues
But you don't you give me a CDB
I get by with a little help from the Maj,
Gonna cry with a little help from the Maj,
Wanna die with a little help from the Maj.

What do I do when the Maj is away
(does it worry you to be alone)
How do I fell by the end of the day,
(are you sad 'cause you're not on your own)
No, I get by with a little from the Maj.

Do you need any connies
He's got some connies to spare
Do you need some restrictions
You'll get them if he don't like you hair.

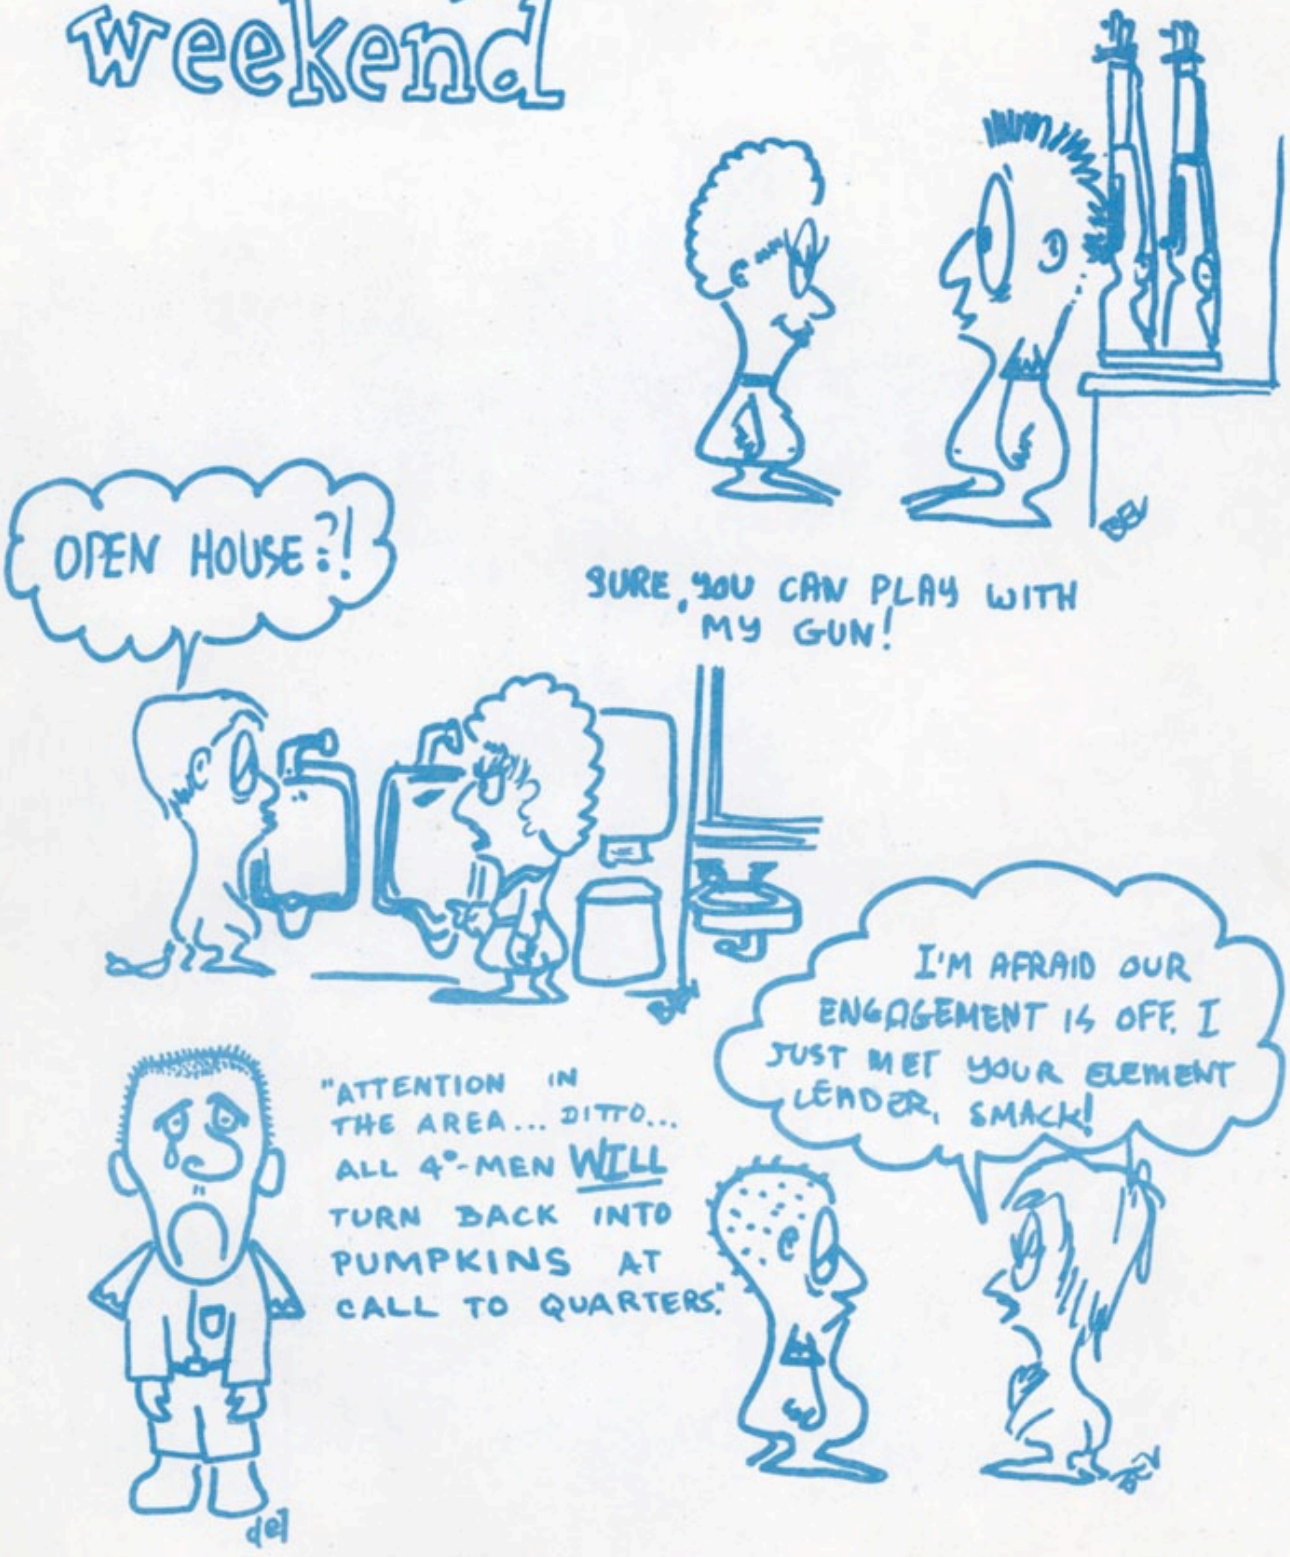

Would you believe in a first offense zonk?
Yes I'm certain that it happens all year round.
What do you say when they give you the bonk?
I can't tell you but it sure puts them down.

I get by with a little help from the Maj,
I get sick with a little help from the Maj,
Get the schtick with a little help from the Maj.

A SPECIAL...

BRING-YOU-OUT-OF-THAT DARK-AGES-SLUMP PAGE...

THE AMAZING HYDROGEN BALLOON TRICK!
STEP 1.) PROCURE SOME BALLOONS, A CAN OF DRAINO, FLOOR WAX, TINFOIL, AND A COKE BOTTLE.
STEP 2.) PUT TWO INCHES OF WATER AND 3 SPOONS OF DRAINO INTO THE COKE BOTTLE, MIX WELL.
STEP 3.) TEAR OFF ABOUT ONE SQUARE FOOT OF TINFOIL (ACTUALLY IT SHOULD BE ALUMINUM FOIL) AND RIP IT INTO STRIPS. ROLL THESE STRIPS INTO s PENCIL THIN STICKS, ABOUT TWO INCHE LONG, AND DROP THEM INTO THE SOLUTION. THEN QUICKLY PUT A BALLOON ON THE MOUNTH OF THE BOTTLE.
STEP 4.) WHEN THE BALLOON IS FULL, TIE IT OFF. IT SHOULD FLOAT!!!!!!!

THE AMAZING BUFFER RIDE! OBTAIN A GOOD BUFFER. IT CAN BE MOUNTED MUCH THE SAME AS A HARLEY. HAVE A FREIND HOLD THE CORD OVER YOUR HEAD. YOU ARE NOW READY TO "EASY-BUFF". BE SURE YOUR WEIGHT IS CENTERED AND SLOWLY DEPRESS THE GRIPS. FUN, ISN"T IT? THE CURRENT RECORD IS SOMEWHERE AROUND 14 REVOLUTIONS. CAN YOU TOP THIS? IF YOU DO, LET US KNOW... YOU MAY BE ELIGABLE FOR A DODO ACADEMY AWARD, WOW!

JOKES JOKES JOKES

(GOOD ANALOGY TO A ELEPHANT JOKE.)
Q. HOW CAN YOU TELL IF THERE IS A CADET ON YOUR BACK DURING A HURRICANE

A. YOU WILL BE ABLE TO HEAR HIS HAIR FLAPPING IN THE WIND. HAHAHAHA

Q. WHAT GOES: RED WHITE RED WHITE PINK PINK PINK PINK A BABY IN A BLENDER

BELIEVE IT OR ELSE!!! THE AVERAGE CADET HAS 200,000 HAIRS ON HIS HEAD, EACH OF WHICH IS 4 INCHES LONG.

THIS MEANS, THEN, THAT THE AVERAGE CADET HAS ABOUT 11 MILES OF HAIR. SHOCKING!

BELIEVE IT OR ELSE! (AGAIN)! MITCHELL HALL COFFEE IS OVER ONE YEAR OLD! TO PROVE THIS RECIRCULATION THEORY, AN ANONYMOUS CADET PUT HIS HANDKERCHIEF INTO A COFFEE POT AT MITCH'S LAST YEAR...

TODAY, ONE YEAR LATER, HE GOT THAT SAME HANDKERCHIEF BACK IN A DIFFERENT POT. ON IT WAS 148 WAITERS' SIGNATURES!!!!!!

BELIEVE IT OR ELSE!!! AMAZING ENDURANCE FEAT! CADET X, DID IN FACT, STAY AWAKE FOR ONE ENTIRE PERIOD OF POLI-SCI! HE WOULD HAVE HAD THE RECORD TOO, BUT HIS FOLLOWING CLASS WAS ECON. HE PERFORMED THIS AMAZING FEAT BY HOLDING A MOUTH FULL OF WATER, UNTIL, IN ECON, 40 MINUTES INTO THE PERIOD, HE DOZED OFF AND DROWNED.

Orgasmic Chemistry
Experiment #1

HOW TO MAKE ETHYL PALPITATE

Previous attempts to make Ethyl Palpitate have resulted in a rather sporadic success. A good yield, once obtained, could not be duplicated on successive evenings and so on. Accordingly it was decided to more closely investigate the optimum conditions for favorable reactions.

One of the most important factors was found to be the purity of the Ethyl chosen for the work. Some of the authorities claimed that very impure Ethyl alone could be counted on for success, while others said that a hitherto unreacted Ethyl was best. Our extensive investigations have shown that both of these extremes should be avoided.

Reaction of the highly impure Ethyl often occurs with considerable violence--explosive at times--with great danger of damage to equipment and operators. On the other hand, overly pure Ethyl shows a natural unreactive tendency, forming products such as Ethyl Hesitate, which is a tendency that cannot be overcome by even the most skillful operator. The recommendation is therefore made that samples of average purity be chosen for the best yield. A good criterion of reactivity is whether the compound Ethyl Osculate can be made easily.

Regarding solvents and catalysts, alchoholic solutions are generally most satisfactory, although they add somewhat to the cost of the preparation. The alchohol concentration should be very carefully controlled as the saturated form of Ethyl is useless. As a general rule, light should be avoided as it has an inhibitory effect in most cases.

One word regarding conditions of reactions---it is highly important that no other member of the Ethyl family be present.

Chemically, the proper course of reaction is as follows: As gentle warming is applied (which can be accomplished in several ways---an open fire has much to recommend it) the formation of the following products is successfully observed: Ethyl Reciprocate, Ethyl Agitate and, in some cases, Ethyl Vibrate, and, finally, (if the heating has been carried out at exactly the correct rate), the desired product--Ethyl Palpitate.

Under no circumstances should the heating be attempted too rapidly, as undesirable side reactions can set in, the mildest of which leads to Ethyl Remonstrate, more usually the sudden appearance of Ethyl Refrigerate, and, in certain extreme cases, to Ethyl Assasinate.

As a final point of observation, I would like to point out that with certain difficult reactions, the catalytic influences of gold, silver, or precious stones will insure good results.

SPECIAL SECTION!! The Dodo offer you this new good DEAL! Just like the one CW issues!

All New for 75! A-O-C Inspection Kit

Includes:

- ★ Calipers
- ★ Magnifying glass
- ★ Reg book (with corrections)
- ★ 18 inch ruler
- ★ 4 Form 10 pads
- ★ Surgical gloves to aid in laundry bin probes
- ★ Periscope for overheads
- ★ Minolta Cigarette-lighter camera
- ★ Panasonic recorder to record discrepancies

All in an innocent looking NAV briefcase

SPECIAL — Order before October 21 and recieve, at no extra charge, 3 extra Form 10 pads!!!

Only ~~$~~ 2251.234 F.O.B. Pine Valley via unscheduled smuggling run. Special deal for group AOC's. Order through this magazine

VITAMINS FOR YOUR HAIR.
