

# DODDO

VOLUME IV, NO. 21

A Cadet Publication for Cadets

19 FEBRUARY 1960

ONLY THE RANK HAS CHANGED--Second Lts. Anthony W. Seizys and Robin M. Kozelka enjoy a game of chess in the Reese AFB, Texas, Officers' Club. Both are 1959 graduates of USAFA and are in basic pilot training in the T-33 jet trainer.

THE SLEEK F-105 THUNDERCHIEF Makes an imposing silhouette in its supersonic configuration. The Republic-built tactical fighter-bomber is capable of fly-at classified Mach-plus speeds and is heavily armed with nuclear capability.

 The Breakfast War - - - - - Cadets' stomachs versus the scrambled eggs----

MISS PROCUREMENT DIRECTORATE----Rita Adkins (right), a contestant for "Miss Falcon" at the Academy last fall, was recently named queen for the Norton AFB Procurement Directorate contest. Smiling at the left is Lynn Ann Lindquist, the runnerup.

#### EDITORIAL COMMENTS

I won't say that CFG is getting to be a bore, but there was a class last week in which even Napoleon (in the person of a First Classmen) fell asleep in his classic pose.

Our cover picture is only one of a string that will appear in the April Talon as part of a story on the '59ers in pilot training. Ed Montgomery and Dean Wood, You'll be happy to learn, are both doing exceptionally well.

After a weekend trip to Lawrence in the state of Kansas, the snow-bound AFA was a surprise. Highlight of the weekend past was a party at Forbes AFB for an air refueling squadron that had just returned from three months of TDY in the Azores.

What with the Roaring Twenties to be relived this coming weekend, I guess I'd better unveil Machine-Gun Young, 13th's secret weapon. The St. Valentine's Day Massacre having safely slipped by, it would seem that the Wing is safe from the ire of the red-headed Detroiter.

Quite a few blooming Political Scientists have been frustrated by the arbitrary limitations placed on the DP term paper. But, without comp time, I guess that 3000 words ought to be enough for any man.

"The Wizardry of Oz," like most of the Back Pages, was lost on most of the Wing. For those who read and understood, however, some of the best AFA humor was the result. --ghhines

# PURPLE

# FALCON

Looks like the Head Shed can chalk up one for morale. Even the Red Tags are in the mood having been granted civvies for the long weekend. The AOC Shack and the Comm Shop also seem more alive lately. In fact, except for English, Mechanics, and Poli. Sci., everybody's happy!

\*\*\*\*\*

Second Classmen and some Third Classmen will be pleased to hear that the Academic Committee and Lt. Col. Yeoman are going to go over the Econ GR's to try to improve the wording.

\*\*\*\*\*

General Sullivan, as many know, is looking forward to a promotion. He'll be going for another star in a few months.

\*\*\*\*\*

Grades in Mechanics have recently plummeted downward. One disgruntled Second Classman plans to get back at the Department by turning out Col. Higdon's daughter in Sunday School.

There are about a dozen more cadets needed for the Survival Detail this summer. From outward appearances the Survival Detail gets less leave than anyone else, but actually they will be compensated by being given a week of privileges during the detail period, with the probable exception of two days for flying. There is also a pretty good chance that members of the Survival Detail will be given first pick of the 3rd Lieutenant slots, which is a pretty good deal in itself. As for squadron duties, the members of the S. Detail will be given staff positions, but their Red Tag counterparts will be handling most of the respective duties.

The lists still haven't been firmed up yet. If you'd like to take the survival course, all you have to do is to phone your AOC. He'll take it from there. Those from '60 have testified that it is one of the most rewarding details you can get on.

## THE FALCONS' MOUTHS

by Fred T. Walker '60

Last weekend a group of Air Force Academy talkers participated in the Rocky Mountain Speech Festival held at Denver University. Unfortunately, the running of this tournament was not as good as could be expected. None of the detailed results will be available until we receive them in the mail sometime next week. The best information available is merely a run-down of Academy successes.

Out of a field of some 36 orators, Keyes finished in first place, with Whalen right behind him in second. This is doubly commendable when one realizes that this is the first time that the Academy has even fielded an orator since Gerry Garvey stopped orating back in 1957.

Ed Zompa finished fifth of some 36 competitors in extemporaneous (off the cuff) speaking. I would say that this was a pretty good achievement for a first effort at extemp.

Whalen and Stringer finished third in the B Division debate with a 5-1 record. No further details are available at this time.

In overall achievement the Academy finished second. This is a slight come-down from first last year, but still a fine show. Our congratulations to those who competed.

This weekend Fred Walker and Paul Hinton will be competing in a tournament at Wisconsin State Teachers' College at Eau Claire. Besides debate, Walker will be competing in extemp and Hinton in after-dinner speaking. The last time the Academy competed in this tourney (two years ago), we finished third in debate and second in extemp. We'll try to improve on that this time.

-----

### ACADEMY STADIUM FUND CHIEF NAMED

C.R. Smith, president of American Airlines, Inc., has accepted the appointment as chairman of a national campaign to raise some \$3.5 million for the 40,000 seat Air Force Academy stadium.

Since appropriated funds cannot be used for construction of such a facility, a voluntary fund drive within the Air Force itself will start on April 15th and continue until the 15th of May. Public solicitation will commence on the latter date.

Present plans call for the stadium to be ready for use by the Academy football team during the 1962 season.

-----

### AUSTRIA BUYS SIX VISCOUNTS

Vickers-Armstrong Aircraft announced recently the signing of a contract for the purchase of six Viscount V.810 series propeller-turbine airliners by the Austrian Airlines (AUA). The new Viscounts, due for delivery at the end of March, 1960, will replace four V.700 aircraft that AUA has been operating on charter.

This contract brings the total number of Viscounts sold to date to the number of 416.

# Smiles from the System

I realize that during the past weeks I've been deviating somewhat from the title of this trash. The thing is that there remains little humor around here this time of the year. Rather than call the column Smiles For Those Under The System until I can find more humor, you'll have to bear with me. In the meanwhile, let's see what I can scrounge up this week:

O-----O  
1st Cadet: "Ahha, I see you went to Econ class today."

2nd Cadet: "How'd you know?"

1st Cadet: "Your uniform's been slept in."

O-----O  
Watch it Venus! That's a good way to lose an arm.

O-----O  
Newsboy: "Extra, extra, Read all about it. Two men swindled!"

Man: "Here, sonny, let me have one of those.....hey there's nothing in here about two men getting swindled!"

Newsboy: "Extra, extra. Read all about it. Three men swindled!"

O-----O  
"Yes the Air Force Academy turns out some great men."

"When did you graduate?"

"I didn't. I was turned out."

O-----O  
EE Prof: "Gentlemen, a fool can ask more questions than a wise man can answer."

Voice from rear: "No wonder I'm D in here."

O-----O  
USAFA GRADUATE: "My lad, are you to be my caddie?"

Boy: "Yes I am."

Grad: "And how are you at finding lost balls?"

Boy: "Oh, very fine, sir."

Grad: "Well, look around and find one and we'll start."

Then there was the really out of it doolie who was counting tables to get out of the dining hall.

O-----O  
Cadet: "Is this tea or coffee? It tastes like kerosene."

Waiter: "Eet must be tea. The coffee tastes like turpentine."

O-----O  
"Would you care to contribute to the Indian Relief Fund, Mrs. Custer?"

O-----O  
"Aside from that, Mrs. Lincoln, how did you enjoy the play?"

O-----O  
"Waiter, there's a splinter in my cottage cheese."

"What do you expect for a dime, the whole cottage?"

O-----O  
Minister (from pulpit): "Those in the habit of putting buttons in the collection plate will please use their own buttons and not those from the pew cushions."

O-----O

ODE

Open window  
(little air)  
Go to sleep  
Dream so fair

Meanwhile snow  
Falls like elf  
Morning write up  
"Snow on shelf"

O-----O  
Man waiting to see doctor:  
"May I go first please? I just swallowed a hand grenade."

O-----O  
I shall leave you with this bit of culture: To err is human, but when the eraser is used up before you've sharpened the pencil, things have gone to far.

ANOTHER ROS-AL PRODUCTION

Redtag  
Daily WORKER  
by K.

It should be no surprise to any of you out there in Dodoland to learn that Colorado is one of the few spots in the world where it snows.....UP.

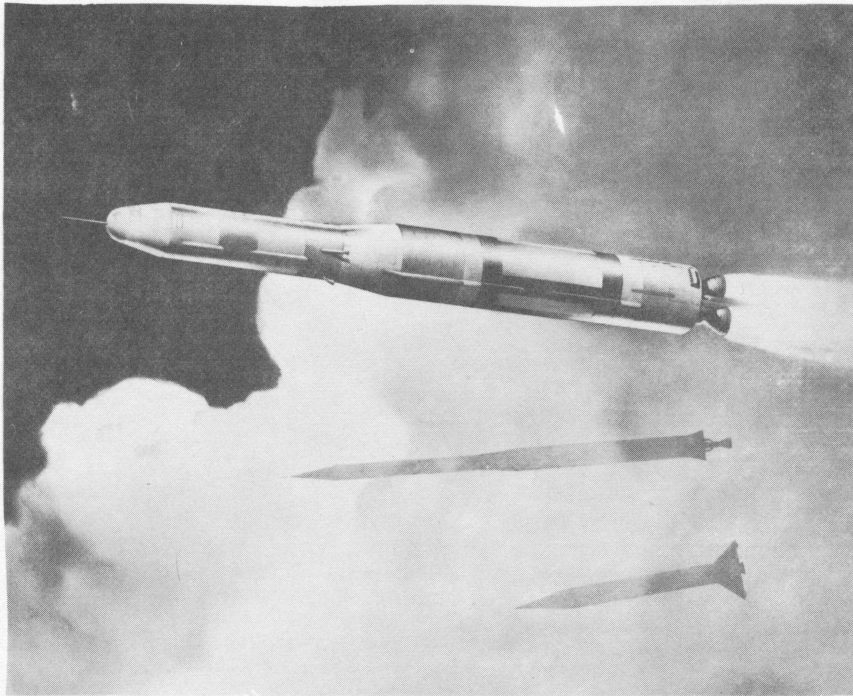

Word has come down that there will be no ODP's taken the weekend of 19 March. It seems there is a formal that night and we are bound to have a blizzard.

For the bewildered, parkas with hoods up includes watch caps.

For the ambiguous, Service Bravo includes flight caps.

I guess for a quarter we should not complain, but what ever happened to that old fashioned practice of showing a cartoon with the movie? we are not that futuristic, are we?

Somebody seems to have missed the boat, excuse me, aircraft, in interpreting the wishes of the Red Tag Boys concerning navigation and pilot training here at the academy. The reason navigation was received so favorably was the Boys' desire to graduate with a rating. According to the latest plan of one year of navigation and one year of missile technology, that goal will not be reached I am sure that if 62 can't get wings, they would rather fly light planes.

VIKING - VANGUARD - TITAN---The uncluttered lines of the Air Force Titan ICBM are the trade-mark of Martin missiles, whose Viking and Vanguard can be seen in silhouette behind the two-stage Titan in the foreground.

## FROM THE SIDELINES

Kelly Loyacono

CONGRATULATIONS to Red Tag, Lanny Hall who was faced with a rather difficult situation during our Freshmen basketball game against Wyoming last Saturday. Lanny, acting as escort for the Cowboys, stepped in to act as "coach" when the Wyoming coach was expelled early in the first half. Although Lanny last played basketball in junior high, he did his best to help by cheering, calling time-outs, and making substitutions for the Wyoming team. Our Frosh won by 12 but it was close up until the last two or three minutes.

### WRESTLERS DEFEAT UCLA 17-9

The wrestlers defeated a good UCLA team before a very good crowd here last Saturday. Each Uclan seem to be very strong but they could not match the speed and aggressiveness of the Falcons. Heacox, Jorris, Franco, Sutton, and Joe Zaleski each posted a win. Jorris looked expecially good in his 14-2 win highlighted by beautiful take-down and riding. Talked to Coach Kitt after the match and he says that the really tough ones are coming up next. We take on CSU, Mines, and CU next. Mines and CU defeated us last year while CSU is believed to be stronger than either.

I'm presently working on getting some pictures of cadets skiing on Sundays with the ski club. I'm not sure whether this falls under the category of SPORTS or HUMOR but since I am one of them, I shall not laugh too hard. Want to see a one-and-a-half flip on skiis, get a chance to run over your AOC, or see Lyle Wilson take the entire slope on his stomach? Well, if you do, ski with USAFA Ski Club every Sunday at 5:20 A.M. uggggh!

An Econ book makes an excellent block for your skiis. Its not that I'm bitter about those 12 d-points; just think of all the money I'll be daving while the rest of you are out on the long weekend.

### A WHOLE 7 SECONDS LEFT THIS TIME

Coach Spear evidently told his men to wrap this one early because they didn't even go into an overtime. The Falcons used a full-court press and a fast-break offense to edge South Dakota 68-67, as Terry Norris dropped in a foul shot with a full 7 seconds remaining. Ulm had 20 points followed by Norris with 16. Peterson had 18 for the Coyotes, including 12 out of 12 from the foul line.

It looks like we have a fine football schedule for next season (Dodo-12 Feb) and most of us should get to see 8 of the 10 games. That game on Dec. 2 with the University of Miami certainly looks good. TAKE THE WING TO MIAMI!!!

## INTRAMURAL SUMMARY

### Waterpolo

After taking and maintaining an early lead, Tenth Squadron defeated Fourth Squadron by a score of 9-4 last Thursday. Tenth had changed its tactics from previous contests and with outstanding play by Karschnick, Nielson, and Murphy had little difficulty.

Last Friday again saw the single game scoring record for waterpolo again broken by Seventh Squadron in defeating Fifteenth by a score of 23-15. Fifteen of 7th's points were accounted for by J. J. Kennedy and Phil Lane while Andy Biancur led the losers. This game gives Seventh the outstanding scoring record of 65 points in four games.

First Squadron remained the top undefeated team in either league by defeating Fourth Squadron by a score of 10-2. After a low scoring first half, Wood and Hearer came on to lead First with good help from Waddle in the goal.

### Basketball

Fourteenth Squadron suffered

its first loss of the season when it fell 66-44 to Eighth Squadron last Thursday. Eckles led the scoring for Eighth with 22 while Grunkemeyer was high for 14th with 13. 8th Squadron's tight man to man accounted for the fact that Jones of 14th, a previous high scorer was held to only 3 points.

"Friendly" First defeated "Fightin'" Fourth 43-33 on Monday to knock 4th from the undefeated rank. This puts 1st and 4th in a tie for First Intramural Group lead with each team having two games to go. Graham was high scorer for 1st with 13 points, while Rich Mayo was high for 4th with 10.

### Boxing

Third Squadron remained among the four undefeated teams in boxing by defeating Eleventh  $3\frac{1}{2}$ - $2\frac{1}{2}$ . The match was marked by the Sheets vs. Bowes bout, in which, as the bell ending the third round sounded, Sheets knocked Bowes through the ropes, breaking Sheets' hand. The other winners for Third were Habedank and Bronson, with the tie coming in the heavyweight bout.

## A Staff Paper on the Poltergeist

by Pete and Good Will

The function of the Amalgamated Union of Inset Fabricators (AUIF) is under inconsistent consistuencies at best as defined by Departmental Policy Position Paper 402 dated 29 February 1959: however, due to the unusual and incorporated factors that are inherently affluencing the decision making process, extraordinarily manifested in the myridial conceptions and abstractions contained therein--the above is usually more or less, but not all the time, limited.

Technological expenditures of the divergent and categorical branches and agencies involved with the project, coupled with the lobbying group of the JXRP, the balance of trade (and its impending implications) Marinat-ed Herring---all under the Space Age Concept. Assideousness is no defense! For, example, consider for the moment that on January 31 the number of rail-road tracks under the lower Mackinac Straits Toll Bridge was in excess of the normal.

"That day is a day of wrath, a day of trouble and distress, a day of wasteness and desolation, a day of darkness and gloominess, a day of clouds and thick darkness..." (Zephaniah I;15) "It has been divided into two parts, the first of which gives the reciprocals and the circumference and area of circles to seven significant figures." (CRC, piii) "Don't they say that the people in those parts walk on their heads?" (Dostoyevsky)

The reader can easily see from the above documentary evidence that we have not been estranged in the psycho-choleric motivations as have been in the past articulated by some Samuelstonists. Clausewitz brilliantly and very concisely stated the meat of the above theory when he wrote, "That bounds which to a certain extent existed only in an unconsciousness of what is possible, when once thrown down, are not easily built up again; and that, at least whenever great interests are in dispute, mutual hostility will discharge itself in the same manner as it has done in our times."

The solution to the problem lies in the realm of corroborative determinants (TS) found in Volume 2 of Higher Trancedental Functions, edited by Erdelyi et al. Now we can proceed to meticulously whauping and cohoshing the placement beforehand vis-a-vis (VAV) the normal disestablishmentarianism as expostulated by the theory of universalistic nationalism: through usual channels.

Internee Committees established for Posthumously incarcerating without prejudiciously corroborating contagious, malevolent, and extradititious tanistry have proved, under a pragmatistical analysis, stipulated and stimulated minorily that hymenopterous and indiscriminate carillonneurs have a particular significance in intimidating procrastination.

"The glowworm shows the matin to be near,  
And 'gins to pale his uneffectual fire.  
Adieu, adieu, adieu! Remember me."

Shakespeare
