THE Dodo SPACEMATE

One can understand how the flashing smile of pretty Gingham Sue Kerr, being from the Deep South, projects her genuine Southern hospitality. A native of Lubbock, Texas, Gingham came north with the fall to attend Colorado Women's College where she is a liberal arts student, and with attributes such as blonde hair, lustratingly blue eyes, and a stunning figure, it is not surprising that Spacemate Gingham models in her spare time. Although her favorite sports are swimming and water-skiing, don't be too surprised when you catch a fleeting glimpse of this comely miss in a swirl of snow as she gracefully skims down the slopes of some of Colorado's better ski areas, for Gingham's also an accomplished snow skier. A friend of C/4C Deilke of 2nd Squadron, the future plans of Gingham include marriage and lots of Children--- not too surprising, no?

.....You've heard of Atila the Hun, Frankenstein the Astro instructor, the Creature from the CWC Lagoon (Feature her, toe caught in bathtub drain, head in bass fiddle, mind in gutter), the frustrated AOC (his assistant gave out more yellow learning devices than he did), and the Purple People Eater (also frustrated by the overemphasis on yellow), but there is nothing that can compare with the latest threat to the peace and security of Colorado's largest home for migrant floor buffers. No, not even the Mech Department can match the threat posed by the.....

* FRUIT

" FLY " ARGHH BARF

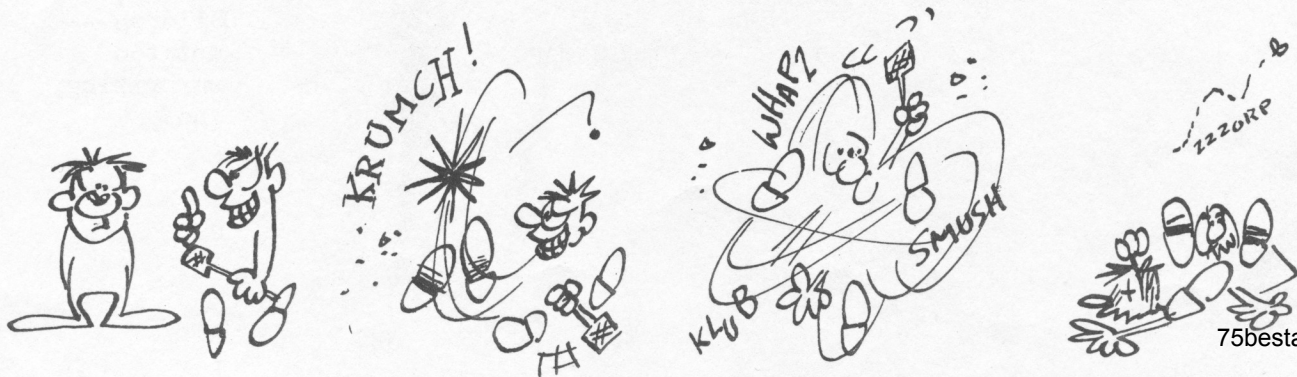

KAZOWEE

HIC HOK KOFF SPLAT CRUNCH

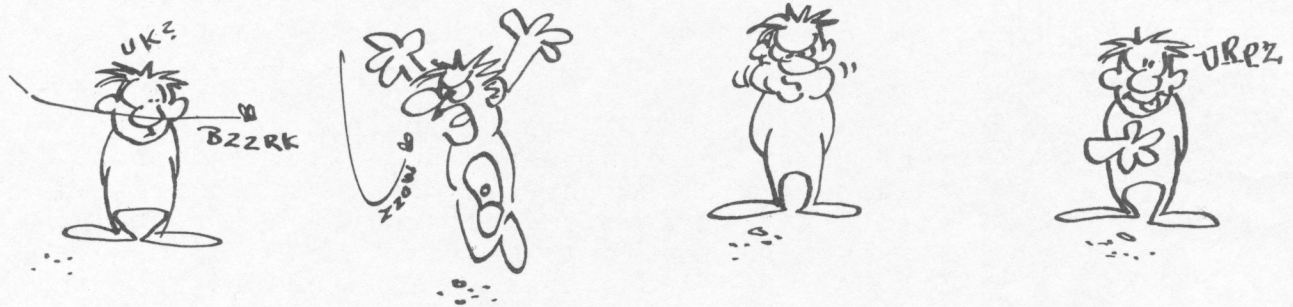

Making its supersonic passes with a slight yet distinct Mexican accent in its buzz, the MHFF at first doesn't seem too different from the common (SOP) housefly. But after two skirmishes a day with these creatures (friend MHFF is a very rare visitor to the breakfast table — either they ignore the early morning minute caller's beckonings, or they smell the candied omelette), the difference is stunning. Vicious, persistent, and overwhelming in numbers (not to be confused with the English Department), they will sacrifice thousands (women and children first) in the heat of battle.....

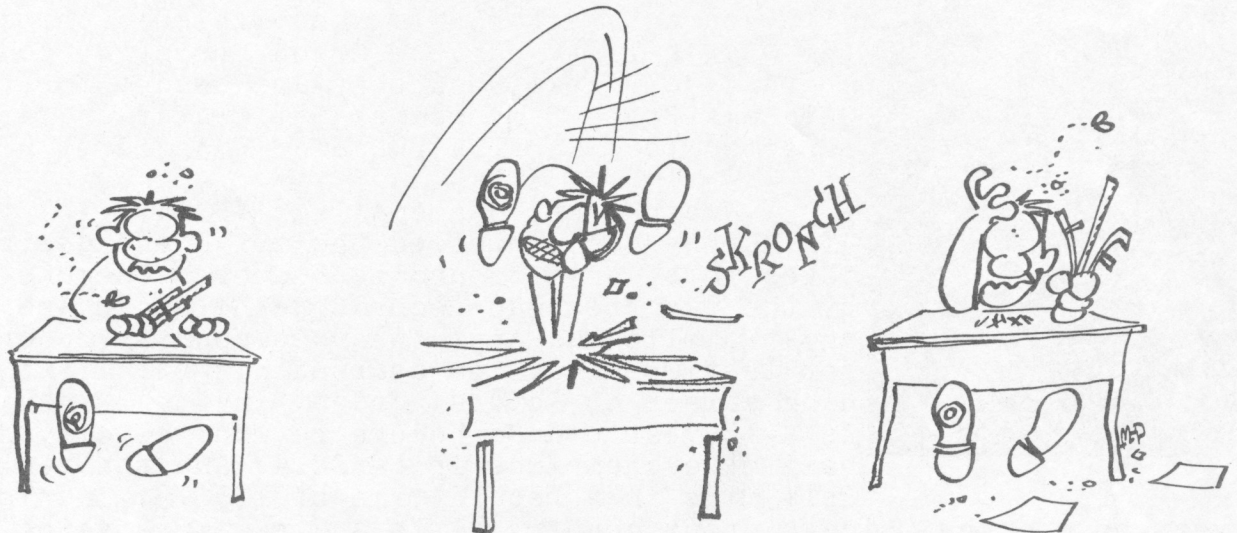

Yet, at other times they revert to carefully mapped out strategy (strategy is often gathered in classified MT 401 lectures, such as last week's "Clauswitz on the Smog Problems of Jungle Warfare and Nuclear Defenses Thereof," and molded into a central plan -- the daytime, or noon meal attack, is codenamed Operation Mexican Fly, and at night Operation Spanish Fly comes into play....STRATEGY) by having one of their number cleverly lure Blue-clad Mitchell Hall Fruit Fly Killers (hereafter referred to as B-cMHFFK'ers) into destroying one another.....

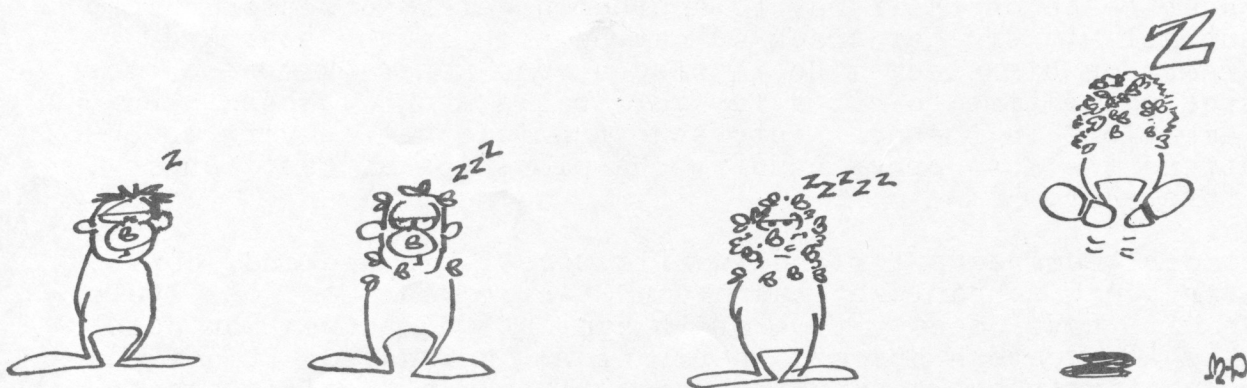

Having now been left naked in defense, the dining crusaders of Mitchell Hall must stand alone against the MHFF's.....thank God for that 1%, that blessing from above, that kitchen knight, the Gourmet.....

The clanging of forks ceased, the MHFF seeks exercise that he might return to yet another meal with stomach growling, teeth sharpened, and desire for combat strengthened. So why not a little sport in tuning up for his return to his dining delights? Seeing an opening as a bewildered doolie (though his plate was completely clean, his "full meal" was enjoyed by our visitor) exits the dining hall, the flie grantus darts from his homeland and points his ponderous gut toward FH (and a rare Mech Quiz).....

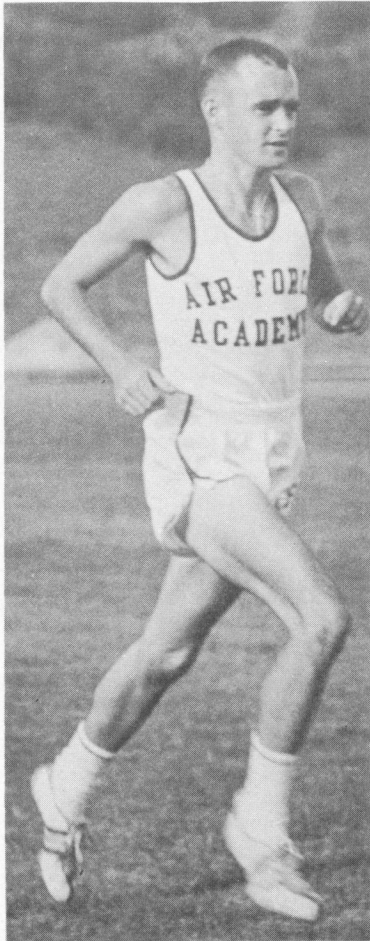

Sport soon dies, both in FH and MH, and heckling hopes fade. Victory his, the MHFF seeks new horizons. Yet nary a soul or a skunk (nor a MFHF?*@FMHF?@*GDMHFF) visits the Zero Zoo w/o carrying away a very slight souvenir.....

WARNING: TABLE COMMS: When the mass exodus arrives, WATCH your small doolies!!!!!!!!!!

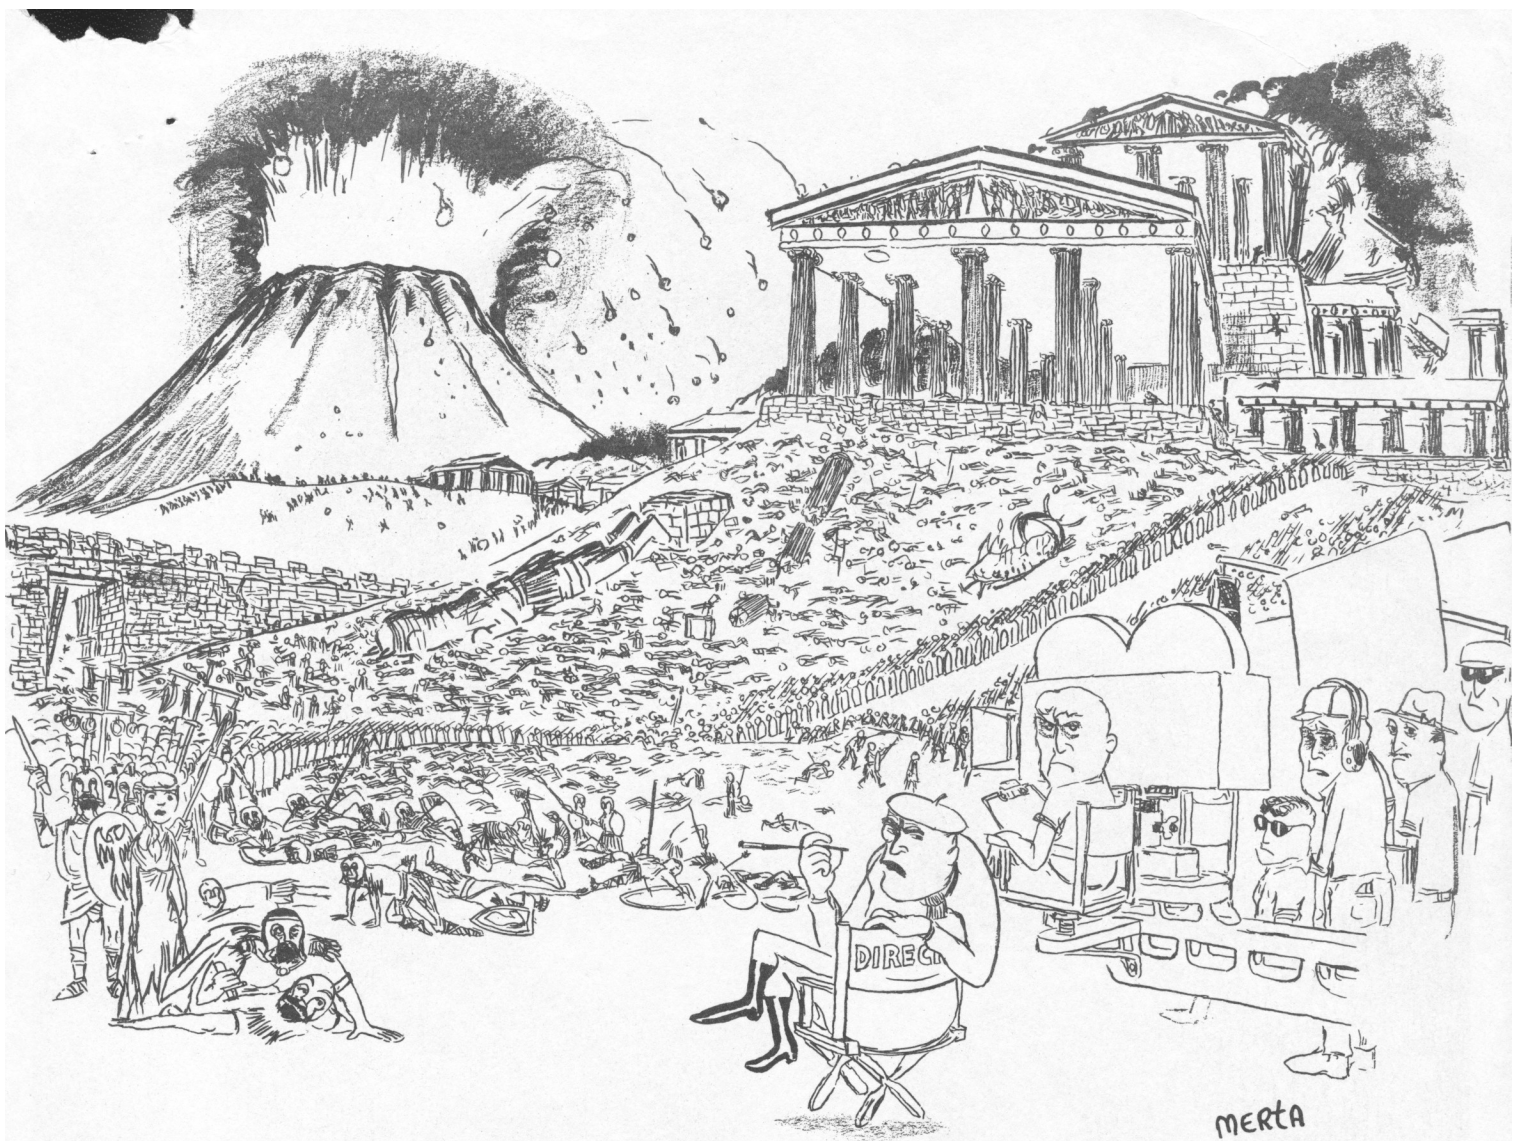

THE DOOB SPORTS SCOPE

A new record was set this weekend when Jim Murphy paced the Falcon harriers to a 28-28 tie with Western Michigan's formidable cross country team. Jim Murphy covered the four mile course in the astounding time of 21 minutes and 14 seconds, at least 400 yards ahead of 2nd place Smith from Western Michigan. It was a perfect day for the record breaking run, sunny and cool, and probably would have yielded an even more outstanding time except that Murphy was hampered by a sore back. Also turning in fine times for the Falcons were Kirk Hall and Jesse Overall placing 3rd and 5th respectively. Overall was in 4th place until the last 600 yards when Brown of Western Michigan put on a final burst of speed to beat the Falcon runner by four seconds. If it hadn't been for this change of position the Falcons would have beaten Western Michigan by 2 points. Much credit goes to the remaining members of the cross country team who put up a hard fight throughout the entire 4 mile course. Western Michigan finished third in the NCAA's last year, so Coach Arnisen's boys did a great job. Next week they are headed for the Oklahoma State Jamboree at Stillwater and are expected to literally run away with first place.

Wrapped up in a small (5'4", 130 lb) frame, Jim Murphy has corralled the drive and desire it takes to be an outstanding runner as demonstrated by the two Freshman records he holds in the mile and two mile and the new cross country record he set last weekend. Jim started his brilliant running career at Loyola Academy in the "Windy City". As a 15 year old Sophomore he won the city junior half mile championship (2:00.4) and the senior half mile in a record time of 1:56.9. In his senior year he won the Chicago cross country title and ran an amazing 4:17.5 mile in the Central AAU Championship. Last year he led the freshman cross country team to an undefeated season and, during track season, grabbed the freshman records mentioned above. This year he and the Falcons appear to be on their way to another undefeated season. Jim hasn't spent all his time at track as can be seen in the star and wreath he wears on his sleeve. He is also a good water skier and occasionally steals the time to hit a few golf balls around. When asked about his ambitions in the near future he replied that he very much wants to attend the NCAA cross country championships at East Lansing, Michigan, this year.

The soccer team heads for the Pacific Coast this weekend, continuing their tough schedule by taking on Stanford and San Jose State. The Falcons will have no easy time of it against the rugged San Jose State and the '62 western champs, The Stanford Indians, on Friday and Saturday respectively but anyone lucky enough to see the fine soccer game last Sunday will know that we have a good chance to bring home two victories. The Wing will get its next chance to see and support this fine team when they meet Colorado College on Saturday, 12 October, in Colorado Springs.

MERTA

STANFORD

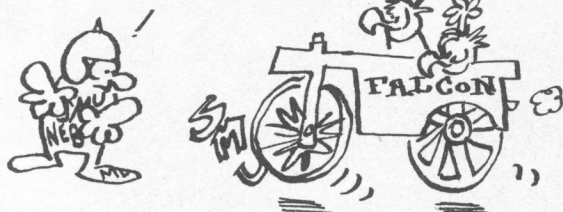

"I don't like it . . . We'll shoot it over."

A foursome was playing golf on an Augusta, Ga. course when a man ran up to them and asked: "Would it be all right if the president plays through? War has been declared!"

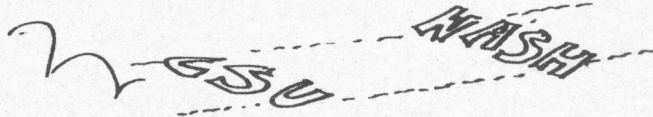

Econ lesson for today: Girls without principle draw considerable interest.

Doob

Dots & Doodles

Quizzing a Sunday school class, the mission worker asked a pretty young student: "Tell me, Ruthie, who was the first man?"
The girl's eyes blazed in defiance, "I'd rather die first."

Heredity is when if your grandfather didn't have any children, and your father didn't have any children, then you won't have any children.
