

* Commonly referred to as AFCRP 190-4, sometimes known as the DO-DO (or **THE DOOB**), and often called CENSORED by its censors, this unique **CADET PUBLICATION** **FOR CADETS** is hopefully put forth bi-weekly to meet the deep-rooted psycho-neurological demands of a fantastically warped minority group.....

Win! Win! Win!

BOYS!
GIRLS!
KIDDES!

GRANNY GRUNGE SPEAKS:

In response to the numerous obnoxious questions we've been asked recently, the DODO will launch a new series of articles beginning with the next issue. What should you do in certain embarrassing social situations? What is the proper drink while studying for an Econ final? How should you address your computer instructor in a social atmosphere? After a futile attempt to punch your cards? These and many more important questions will be answered when "GRANNY GRUNGE SPEAKS:".

Everyone has got problems...even you. Any of these problems will be simple to solve just by writing your dear old granny. Problems you can't talk to your roommate about. Problems you won't talk to your parents about. Problems you wouldn't mention to your girl for fear of getting creamed. GRANNY GRUNGE answers all your questions, and even supplies you with some problems you never knew you had.

To kick off this extravaganza, we are having a low-budget contest. The rules are simple:

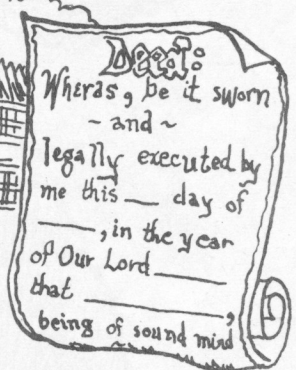

1. Write a letter to G.G. of 200 words or fewer.
2. All entries must be by cadets ~~in~~ in the clutches of the dark ages. (No motivational letters, please.)
3. The management reserves the right to censor all crass remarks and substitute "figure" for "bod".

As we of the Monastic Managerie joyfully push through the end of February and into the Windy Season, it might behoove us to look about a bit, at such interesting but little known (esoteric, imaginary, even.) facts as: The B5000 Computer is unable to handle the size of the figmosity factor (DO-DO version) for the class of '65, and even if it were we'd probably never get close enough to the key punch machine to punch the program; there is enough horsepower in the Cadet parking lot to push (or pull) Fairchild Hall over the wall to the parade ground; 19th Squadron has their strongest skateboard limbo team in years (disconcerting. Good show, 19er); and the average cadet, who spends 18 weekends a year at the Academy and never marches a tour, spends 23 days of 24 hours each marching 1650 miles (like, home!) just to eat at Mitchell Hall? Anyone with any other ideas on how to spend the next 100 days?????

This month's Spacemate, Sally Rowe, from Dallas, Texas, is a normal, healthy All-American girl -kind of pretty, even. Blond hair, blue eyes, about 5' 5" tall, her beauty, charm, wit, grace, and warm personality would cause the swain to swoon and beckon, "Go South, young man!" Rumor has it that an XKE driver from 17th has recently been going South somewhat regularly.....

Elsie the cow was on one side of the fence and Ferdinand the bull was on the other side. Elsie gave Ferdinand a wink and he leaped over the fence to her side.

"Aren't you Ferdinand the bull?" she asked.

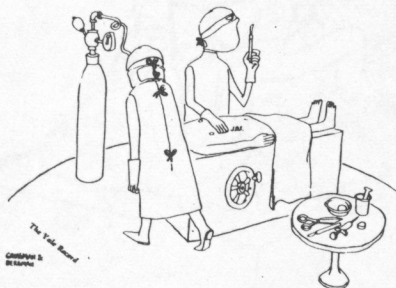

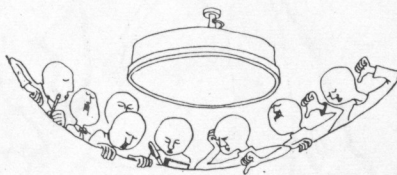

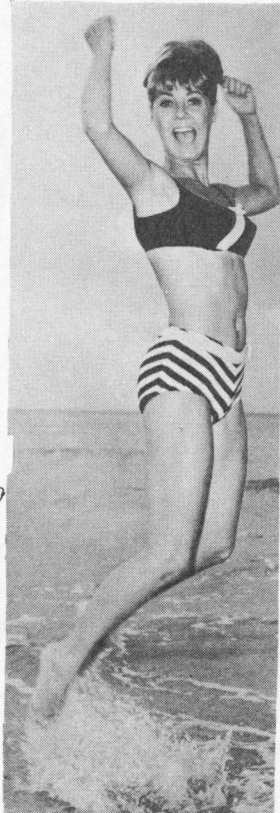

"Just call me Ferdinand; the fence was higher than I thought."

A castaway on a desert island, following another shipwreck, pulled ashore a girl clinging to a barrel.

"How long have you been here?" the girl asked. "Thirteen years," replied the castaway.

"All alone—then you're going to have something you haven't had for thirteen years," said the girl.

"You don't mean to tell me there's beer in that barrel!" he said.

YALE RECORD

A faith healer ran into his old friend Max and asked him how things were going.

"Not so good," was the pained reply. "My brother is very sick."

"Your brother isn't sick," contradicted the faith healer, "he only thinks he's sick. Remember that, he only thinks he's sick."

Two months later they met again and the faith healer asked Max:

"How's your brother now?"

"Worse," groaned Max, "he thinks he's dead."

"Is Reel Talbott a good swimmer?"
 "Whaddya mean is Reel Talbott a good swimmer?"
 "Well how does he swim?"
 "Fast, verry verry fast."

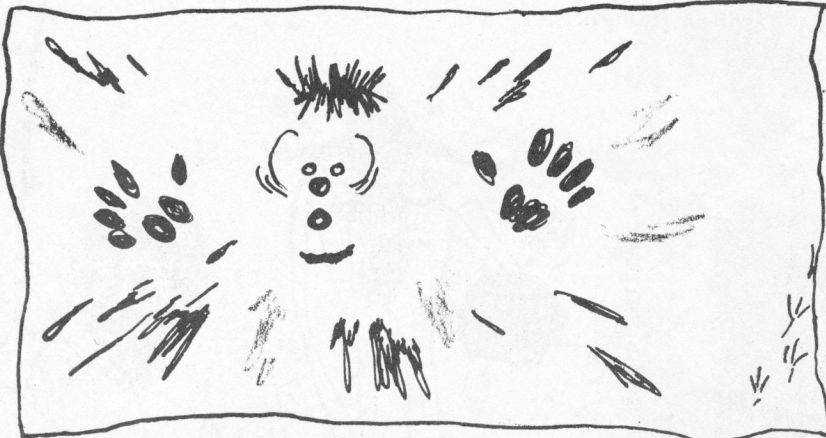

"But mine's a hydrogen bomb!"

FROM THE ART LABS- LASTING QUALITY: A Special DODO Report.

THIRD PRIZE: Painting by Cadet Fred Muggs, Jr. Done in beet juice on tablecloth, with scrambled egg background, it is a remarkable likeness of his roommate.

SECOND PRIZE: Still life by Cadet J.B. Linseed depicting a set of construction tools, including air-powered combination jack hammer, dirt tamper, and mud-pie flattener, two diggers and a filler.

FIRST PRIZE: Wood Sculpture by Cadet B.A. Tool. Representation of Wing-blast mascot, Mach 1/5. Screws are apparently to hold the sculpture together.

BOOBY PRIZE: Plaster sculpture by cadet J.G. Lecher III. Could not be represented graphically due to a lack of disinterest on the part of our morals department.

Just about everybody was hustling over Washington's long weekend, including the wrestling team. They posted their second straight win this season, bringing their overall record to 2-6. As shown by their record they have been continuously improving. This has been brought about by the hard work put out by the entire squad throughout this season. Senior 177 pounder, Al Pfeltz has led the team in this department, and has been one of the outstanding wrestlers this season. Al spent part of his Christmas leave at the Wilkes-Barre, Penn, tourney where he took fourth place against competition considered by many to be second only to that encountered in the NCAA's. Four other wrestlers have shown especially well this year. At 123 Doug Holmes (Jr.) has improved greatly. Marty Daack, 147-pounder, has had hard luck but he is expected to come into his own. Senior John Angell did come into his own this season and leads the squad in victories. Soph Bob Engelbretson at 167 looms as a future tiger. His win against New Mexico in the teams first victory was the big tide turner. The frosh team has four or five men expected to bolster the varsity next year. All have good records from high school.

The remainder of this year will see ten of our wrestlers at the Mountain Intercollegiate Wrestling Association tournament at Bozeman, Montana on the 5th and 6th of March. Eleven or twelve teams will be competing in what should be a good "sounding board" for the NCAA's for this part of the country. Mr. Karl Kitt, coach of the squad, will be taking an as yet undetermined number of wrestlers to the NCAA's.

There will be an NCAA tournament for the fencing team too. On the road to this tourney they have compiled a 9-0 record and have been termed the strongest team ever at the Academy by coach Nick Toth. They should have disposed of Kansas this weekend to bring their record to 10-0. Two tournaments are on this season's slate- The Western Conference Championships on the 11th and 12th of March and the NCAA'S

on the 19th and 20th of the same month. At the WCC the Falcons will be out to avenge last years second place finish to UCLA after winning the tourney in the four previous years. Jock Patterson, 1964 All-American, should repeat as the Conference epee champion again this year. He is also expected to lead the team to a high finish in the NCAA's. Jock has a very good chance to improve his second place finish in last years epee competition. A rather encouraging note is that all those fencing this year will receive letters.

On the ski scene-Duke hit Aspen, w/nylon shirt.

To the swimming team-congratulations on a fine 8-2 season, one of the best records by any Academy team this year. They finish up this season at the DU Invitational the 6th of March when Reel Talbott and the crew will be gunning for more honors.
