### LEMMINGS BLUE

We are lemmings, short and tall,  
 Marching on to Mitchell Hall.  
 In our blue suits and short-cropped hair  
 We follow on without a care.  
 Looking downward at our feet  
 We tramp along with a merry beat.  
 Onward, forward, through the snow,  
 There's nothing that we need to know.  
 Our leaders provide us with the will  
 To march and sit and eat our fill.  
 So we are lemmings, short and tall,  
 Finally arrived at Mitchell Hall.

# GRANNY GRUNGE SPEAKS:

In recent highly secret tests undertaken at great risk to several of our agents, the Dodo has finally succeeded in uncovering an interesting new element. Exposure, however, has cost us heavily in the contraction of a rare disease, the galloping maximis figmus. Any advice concerning a cure would be most unwelcome.

**TOP SECRET**

WOMAN: (Femininus fatalis)

Symbol: Wo (pronounced woe)

Atomic weight: 120

Occurrences: Found wherever a man is found, seldom in a free state.

Physical properties: Generally rounded in form. Boils frequently, but may freeze at any minute. Melts when properly treated. Very bitter when not treated well.

Chemical properties: Disturbingly active. Possesses great affinity for gold, silver, platinum, and precious stones. Violent reaction when left alone. Able to absorb great amounts of food. Turns green when placed beside a better looking specimen.

Uses: Highly ornamental. Helpful as a tonic in acceleration of low spirits. Equalizes the distribution of wealth. Is probably the most powerful income-reducing agent known. Your helpful DO-DO staff is still experimenting in this area.

Caution: Highly explosive when in inexperienced hands.

AFP3-WW

\*\*\*\*\*

DEAR GRANNY:

Me and my buddies have been holding glue sniffing blasts in the latrine after taps, but we have a problem. One of the guys is getting scared and ready to fink out on us cause he's afraid of getting caught. We tell him we've looked all through the regs and can't find a single word about glue sniffing, but he insists we ought to at least get the AOC's permission. Who's right? Should we get the AOC's permission or what?

-J.

DEAR J.:

Invite the AOC to a party in his own office. By refusing he puts himself in an insecure social position, and will probably buy the glue to save face.

-G.G.

\*\*\*\*\*

DEAR GRANNY:

I have been sad all week. When I lived at home, my mother always tied my shoelaces for me. My element leader last semester was very nice about it, but the one I have this semester says I have to learn to tie my own shoes. I absolutely refuse. My shoes have come off in the snow three times this week and I have caught a cold. Can I force my new element leader to tie my shoes for me?

-COLD FEET

DEAR COLD FEET:

Probably. I suggest you refer to AFCWN 50-1 for satisfaction.

-G.G.

AFPS-UP!

Winter Sports are pretty well wrapped up except for post season tournaments. A few really outstanding performances, records, etc. deserve some special mention. A good starter is the basketball team's last game victory over heavily favored NCAA bound CSU.

The top record was compiled by the fencing team, 10-0. They competed in the Western Fencing Conference Meet last weekend, and will hit the NCAA's later in March.

The Gymnastics team compiled a 10-1-1 record, and will compete in a regional tourney and if all goes well eventually the NCAA's.

The swimming team finished up with an 8-2 record and a second place at the Denver Invitational Relays. Steve Seigler and Buzz McLean qualified for the NCAA championships which are later.

The hockey team merits mention for just existing. This is not meant to be detrimental to them in anyway. They had only club status in this their first year so they had to do most of their own scrapping for games, equipment, etc. They did a commendable job in all departments, and can be expected to improve upon this year by year. Varsity status is surely hoped for and would certainly be a great aid.

Two winter teams previously unmentioned in the DoDo this year are the rifle and pistol boys. The later were led by their team Captain (not cadet rank) Fred Cox to a 2-1 record. The rifle team, captained by Bill Cathey, won the regional sectionals earlier this season at Nevado and currently tied for the lead in the national sectionals which are being conducted by mail. Some real sports deserve credit for their suave sixteen year olds at the club. Spring sports--assuming spring gets here--will be along before summer. Watch for at least one undefeated team if water polo gets the green light to play this spring.

Another team merits watching. They have potentially one of the best offenses in the area if G.R. Bonds gets out of the hospital in time for the first game with Mt. Aloysius of Cresson, Penn. Bonds has been called by many opposing coaches the most offensive player they have ever seen. This has been particularly noticeable since he shifted from right guard. The defense is still coming in spots, but should be ready along with Bonds for the opener. Alvin Yuba is the backbone of the defense, and can also be looked for. The team's toughest game will be against Napa College of California. The same weekend they play MIT, Florida State, and Houston. All are away games. Coach B.J. French allowed himself to be quoted: "I think we might win 'em all; I think we might not win 'em all. What do you think?"

THE DO DO SPORTS  
SCOPE

Doubtfully the young mother examined the toy. "Isn't this rather complicated for a small child?" she asked.

"It's an educational toy, madam," replied the shop assistant. "It's designed to adjust the child to live in the world of today. Any way he puts it together it is wrong."

# Dad's Dots & Doodles

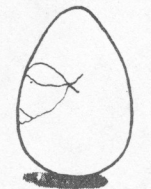

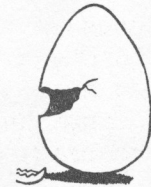

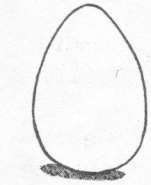

A small boy's head bobbed up over the garden wall and a meek little voice said, "Please, Miss Brown, may I have my arrow?"

"Certainly, where is it?"  
"I think it's stuck in your cat."

A Navy recruit on guard had strict orders to admit no car unless it bore a special tag. He stopped a car carrying a high-ranking officer and heard the brass instruct his chauffeur: "Drive right through!"

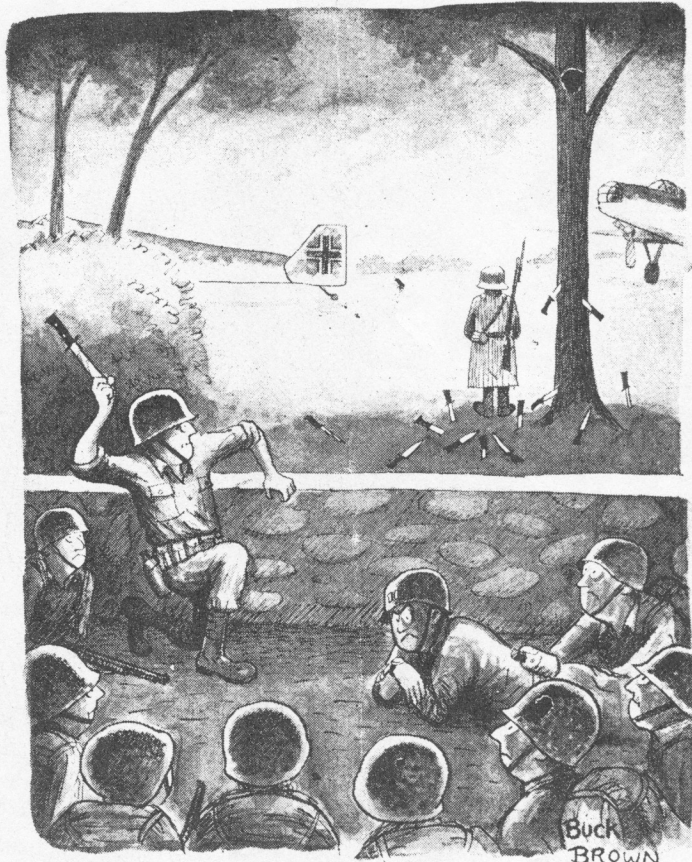

"I'm sorry, sir," said the recruit, deferentially, "but I'm new at this. Who do I shoot, you or the driver?"

Harvard Lampoon

"My girl says she is going to leave me if I don't quit running around."  
"That's too bad."  
"Yeah, I'll miss her."

Englishman: "I say, what are they doing?"  
Psych Prof: "Dancing."  
Englishman: "They get married later, don't they?"
