“That’s one small step for man . . .  
One giant leap for mankind.”  
—Astronaut Neil A. Armstrong

“To meet the challenge.”  
—Class of 1974  
United States Air Force Academy

On 20 July 1969, at 10:56 P. M. EST., Astronaut Neil A. Armstrong became the first man to set foot upon the lunar surface. The voyage of Apollo 11 fulfilled man's oldest dream of exploration and conquest. With the now famous words, "That's one small step for a man . . . One giant leap for mankind," Astronaut Armstrong concisely summarized mankind's entire history. He realized that man's conquest of the moon, while only a small step for himself from the lunar lander, was in fact the most important event in human evolution since life first emerged from the primordial sea. Important as his achievement was, he also understood that it was but the beginning of mankind's greatest adventure—an adventure marked by perseverance, dedication, and the will to succeed, an adventure that will take man to the stars and beyond—to his final destiny.

The **Polaris** staff has chosen space exploration, and more particularly Astronaut Armstrong's words, as the theme for the 1974 yearbook. The class of 1974, whose motto "To meet the challenge" is inscribed on our class ring, can closely identify with the space effort. Those who graduate in June have achieved this small but important step in their lives through the same perseverance, dedication, and will to succeed that typified the NASA program. However, as important as this step in our lives is, it will hopefully be small compared to what we achieve in the future. Perhaps some of us will share in the adventure of space; most will pursue an Air Force career, undertake a civilian profession, or perish in the service of our country. For all of us destiny lies ahead—we will meet it with our heads held high.

—Cadet John N. Mastroianni, 1974 Editor

## HIGH FLIGHT

Oh, I have, slipped the surly bonds of earth  
And danced the skies on laughter-silvered wings;  
Sunward, I've climbed, and joined the tumbling mirth  
Of sun-split clouds—and done a hundred things  
You have not dreamed of—wheeled and soared and swung  
High in the sunlit silence. Hov'ring there,  
I've chased the shouting wind along, and flung  
My eager craft through footless halls of air,  
Up, up the long, delirious, burning blue  
I've topped the wind-swept heights with easy grace  
Where never lark, or even eagle flew—  
And, while with silent, lifting mind I've trod  
The high untrespassed sanctity of space,  
Put out my hand, and touched the face of God.

## Basic Cadet Training

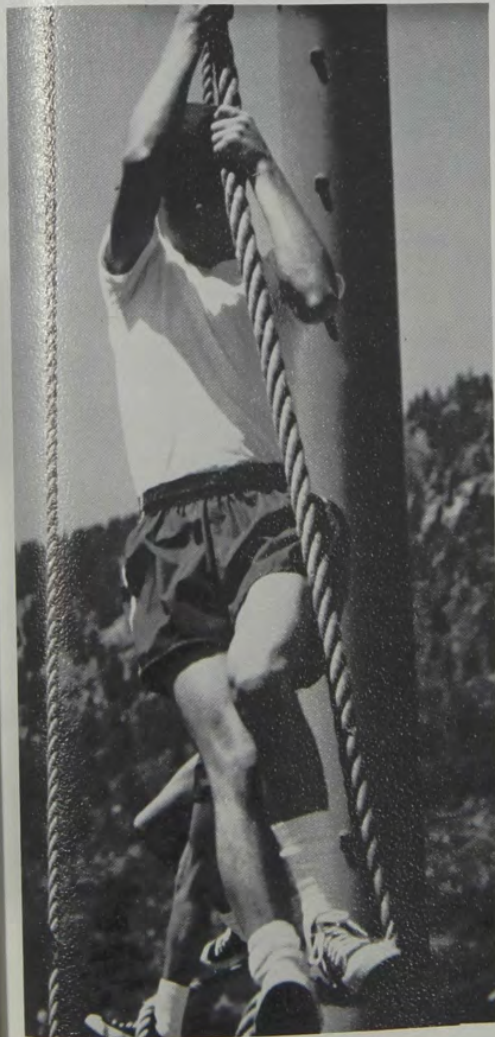

The first day it seemed almost impossible that four more years were to follow. It was a long day, probably the longest we had ever experienced in our lives, but there would be more to come. It started with lines; lines for issue, lines for shots, lines to turn in our money, lines for everything. It seemed so impersonal, but soon we were to be given a name—basic cadet. We all had the same name, and for the next six weeks we would not only share the name basic cadet, but also our accomplishments and failures, because what we did, we did together.

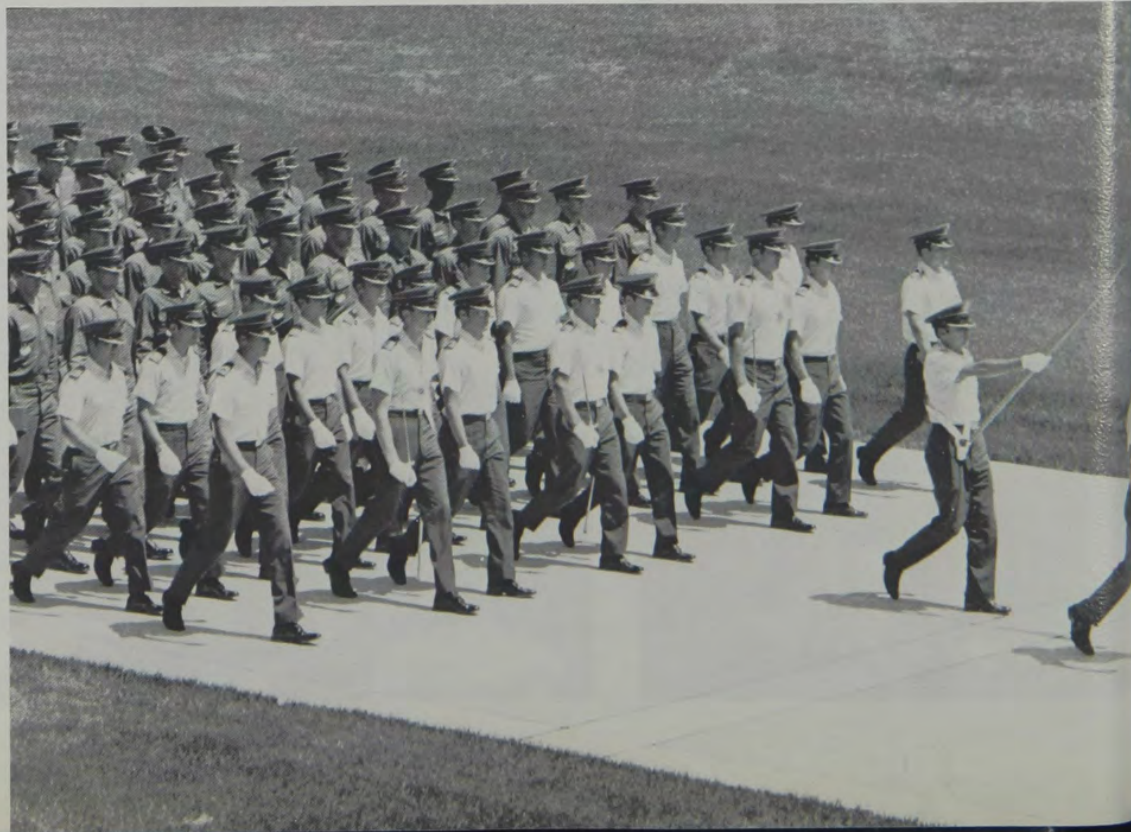

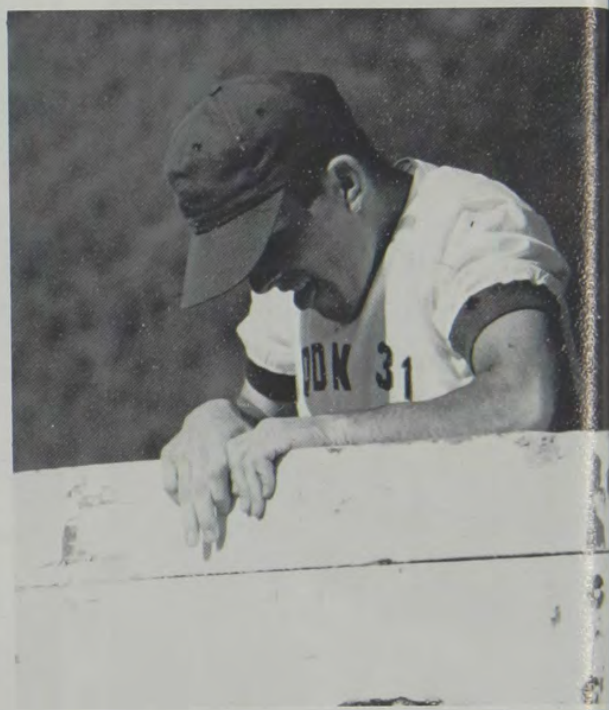

Every day started at 0545 with a morning run before breakfast, and from then on every day was different including physical training, drill, lectures, and intramurals. As if all this was not enough, there was something else required of us to take up what little remaining time we had—basic cadet knowledge.

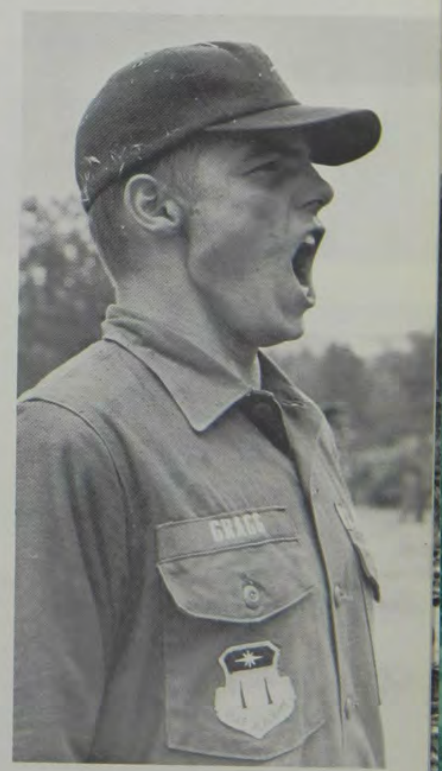

Three weeks after it all started, with our stamina and endurance increased, we headed out to Jack's Valley to learn more of what military life in the field was like. Our teachers were upper class cadets who were ever present. We learned in the Valley through experience. When the acceptance parade culminated summer training, we had met the first part of our obligation to excellence.

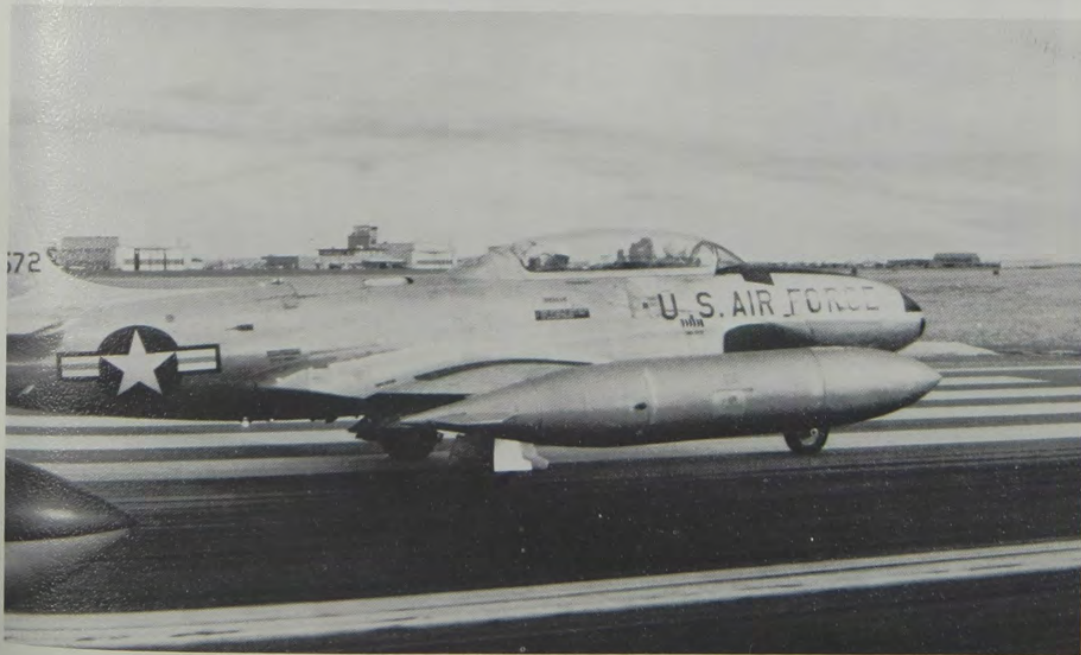

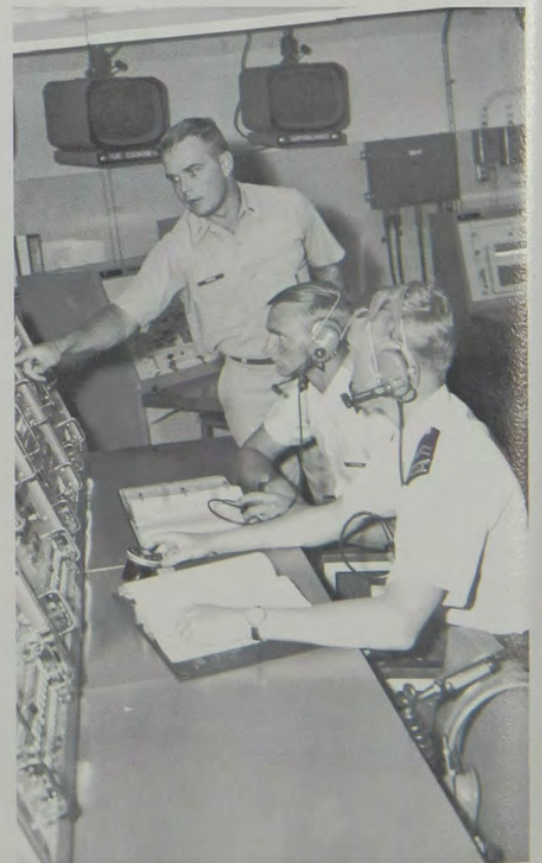

# T-41

# AM-370

3rd Lieutenant

## S.E.R.E.

Survival, escape, resistance, and evasion—the ability to withstand stress, and the mental and physical endurance that an enemy might enforce. For three weeks we learned what would be essential if we should ever have to punch out in the wilderness, or if we should become prisoners of war. We had to use our ingenuity to adapt. Hopefully we will never have to use what we learned in a hostile environment, but if necessity dictates, we'll be ready.

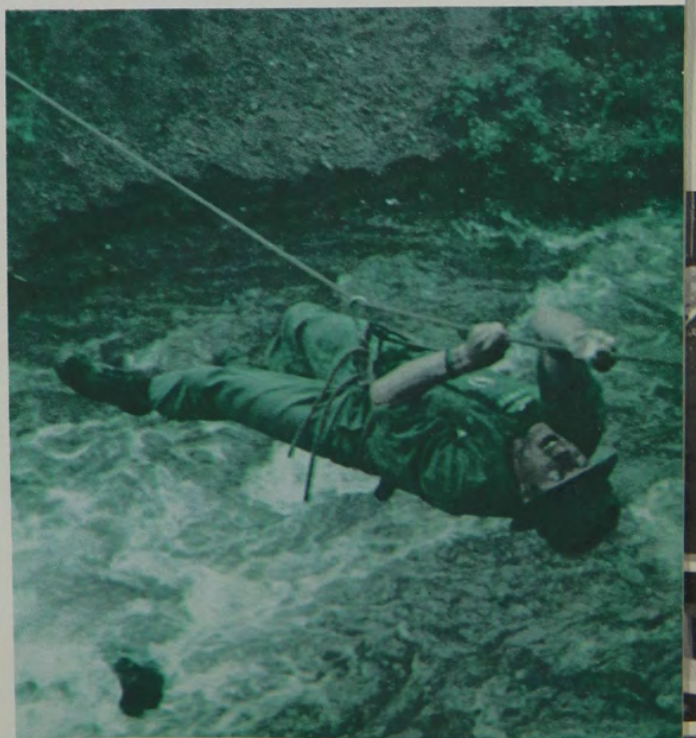

## RECONDO

Cadets are exposed to field instruction in survival techniques, combat intelligence, combat reaction, and mountaineering techniques. The training is strenuous and demands good physical conditioning. Strong emphasis is placed on small unit tactics and individual endurance.

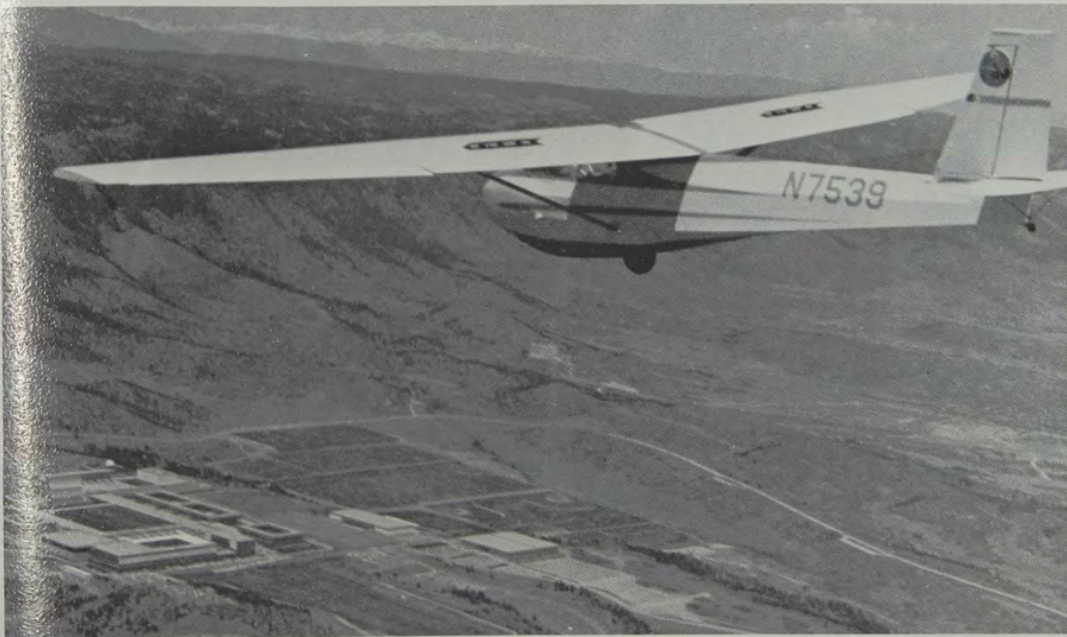

## Soaring

The Soaring Program at the Academy is designed with Undergraduate Pilot training in mind. The use of checklists, the methods of flight instruction, and the basic goals of the program have all been directed toward teaching habits that will be required later in flight training. The Academy Soaring Program uses several types of sailplanes and a majority of the instruction is done by cadet instructor pilots. Many cadets take part in the program because it offers a kind of serenity that can only be experienced in the untrampled sanctity of space.

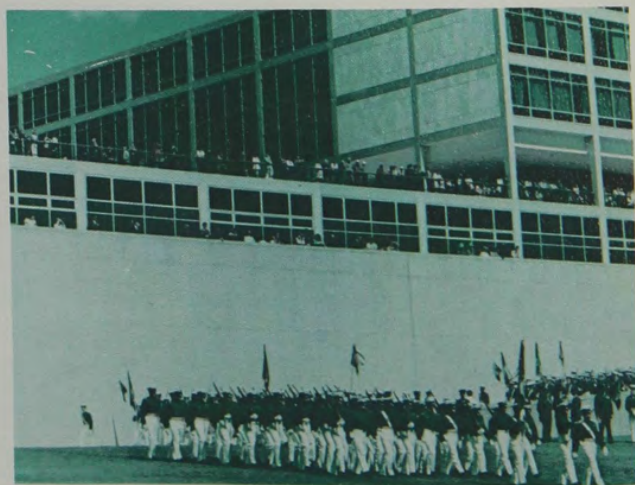

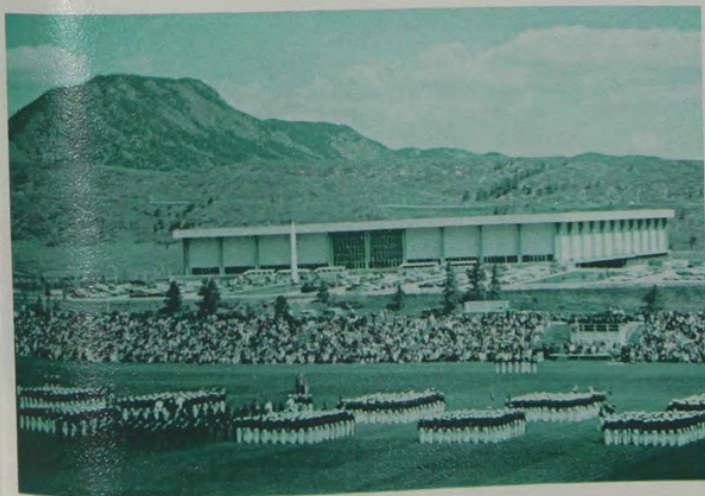

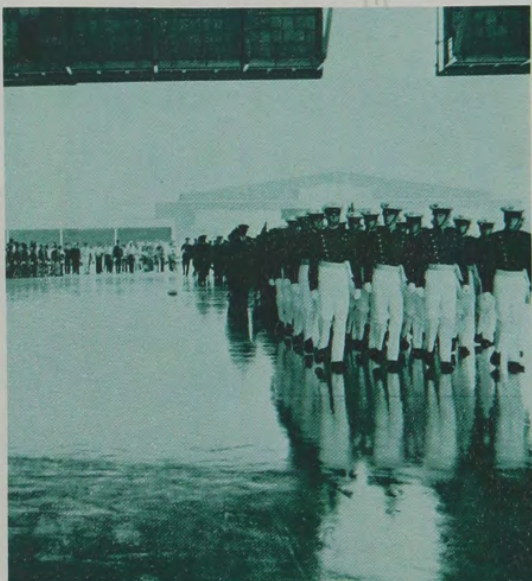

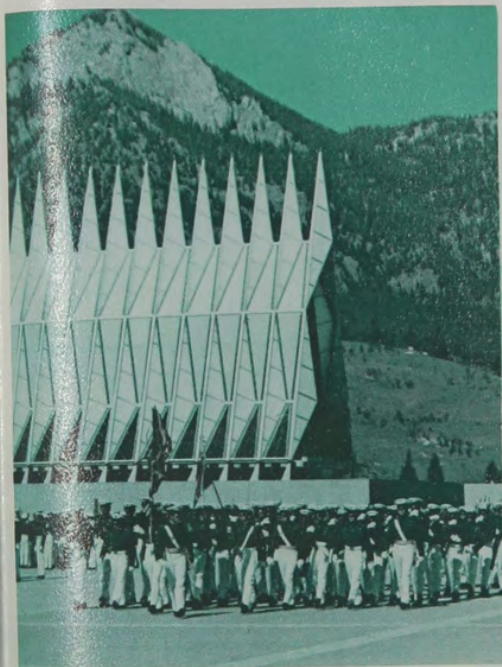

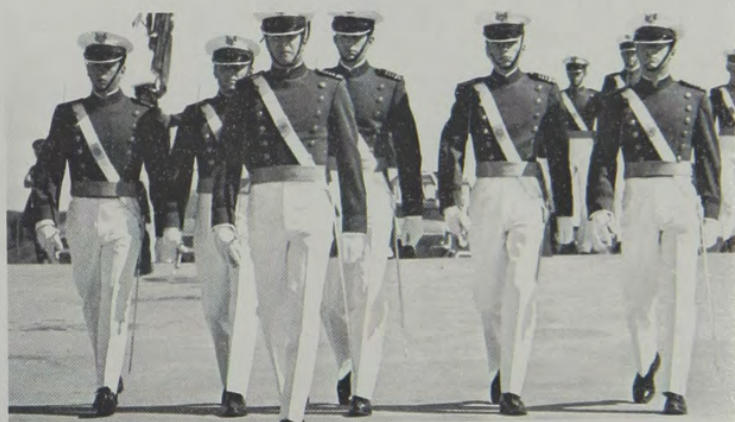

## Underwater Demolition Training

A program with the U. S. Navy, UDT consists of academics, physical training, and SCUBA diving. Cadets who satisfactorily complete the program are certified as world-wide SCUBA qualified.

Colonel Endsley

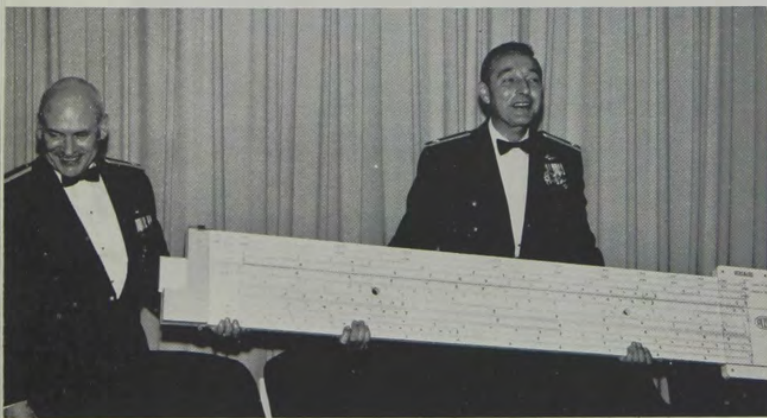

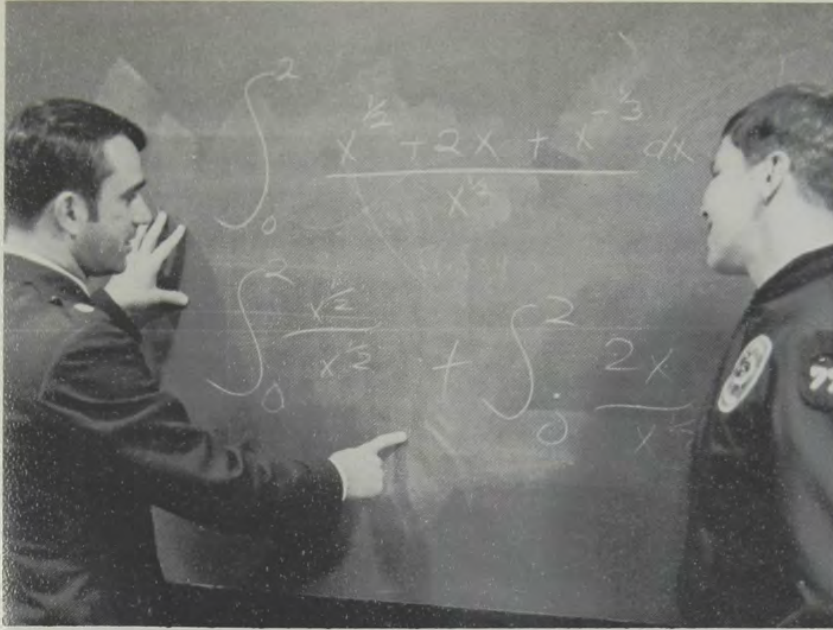

Colonel Lochry

# DFMS

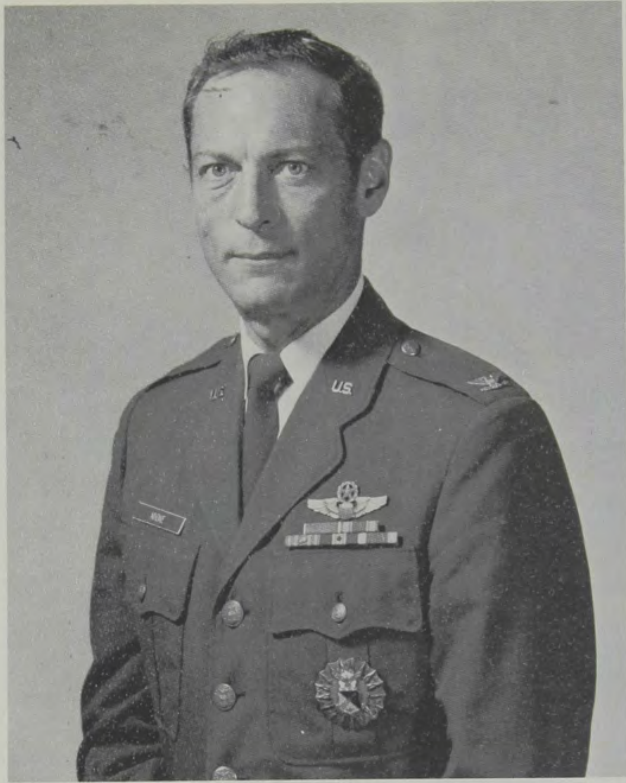

The Department of Mathematical Sciences is the largest teaching department at the Academy. More than 60 officers are required to administer six core courses and more than 30 enrichment courses in theoretical and applied mathematics, probability and statistics, numerical analysis, and optimization techniques. The core courses provide analytical and computational skills needed for engineering and science subjects at the Academy as well as math knowledge essential for a career in our technologically oriented Air Force. The variety of enrichment topics permits cadets in the Mathematics Major a choice of three tracks: math analysis, math applications, and operations research.

Left to Right, Front: Lt. Col. Brown, Lt. Col. Tindall, Lt. Col. Balish, Col. Lochry, Lt. Col. Beer, Maj. Shellenberger. Second Row: Capt. Nelson, Capt. Pacheco, Capt. Hoff, Maj. Powell, Capt. Webster, Capt. Mueh, Capt. Pearson, Lt. Col. Gionis, Capt. Langley, Capt. Kurina, Capt. Eastcott, Capt. Craighead. Third Row: Balazs, Capt. Bragaw, Capt. Thies, Maj. Ruud, Maj. Patterson, Capt. Cook, Maj. Sherman, Capt. Tomme, Capt. Munguia, Capt. Knepell, Capt. Jenkins, Capt. Henderson, Capt. Thompson, Maj. Markham, Capt. Hamm. Back: Maj. Edwards, Capt. Faix, Capt. Dillon, Capt. Hare, Capt. Mansfield, Capt. Caruana, Capt. Riley, Maj. Campbell, Capt. Gutheinz, Capt. Needham, Maj. Michel, Capt. Burroughs, Capt. Zazworsky, Capt. Kakel, Capt. Neireiter, Maj. Wade, Capt. Suder, Lt. Barry, Capt. Fryer, Capt. Litwhiler, Capt. Roberts.

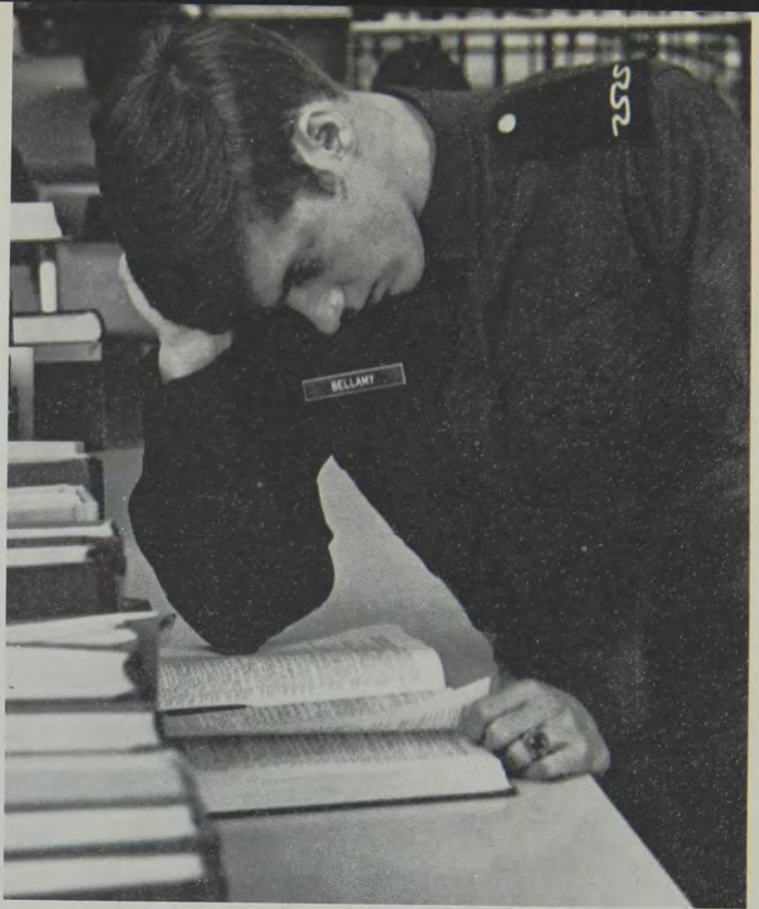

Colonel Mione

The major in Physics concentrates on basic principles and mathematics. It provides an excellent academic background for a wide range of technical assignments within the Air Force, particularly in the field of research and development. It also provides a sound basis for graduate work in physics, related applied sciences, and a wide variety of engineering careers.

Left to Right, Front: Maj. Robertson, Maj. Hyder, Maj. Ferruzza, Col. Mione, Lt. Col. Tudor, Capt. Head, Maj. Sams. Middle: Capt. Thomas, Maj. Pendleton, Capt. Snick, Capt. Johnson, Lt. Clifford, Capt. Bell, Capt. Moates, Capt. German, Capt. Burgess, Capt. More, Maj. Armstrong, Capt. Morm, Maj. McGrath. Back: Capt. Sweedenberg, Capt. Webb, Maj. Sivigals, Capt. Schott, Capt. Chase, Capt. Sidalskie, Capt. McCann, Capt. Warner, Capt. Wolds, Capt. Dagliani.

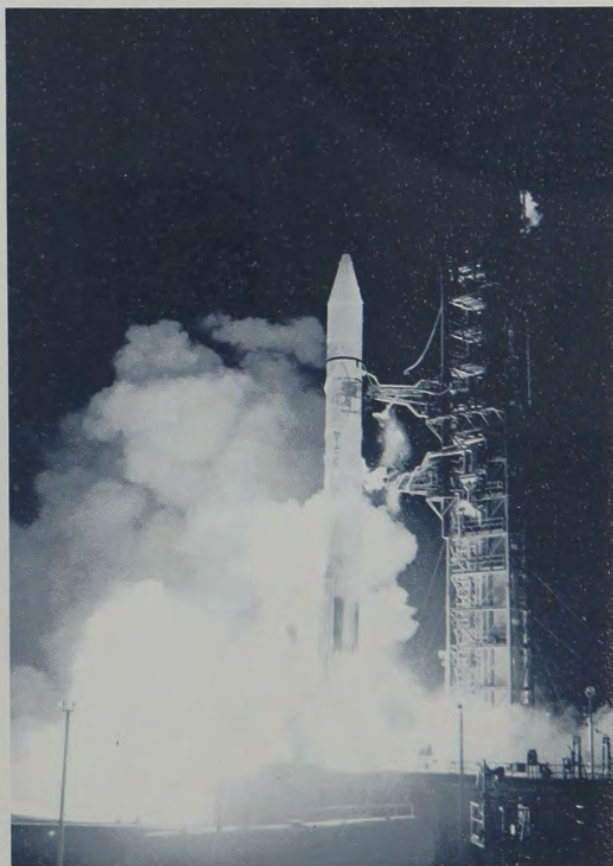

Colonel Lamb

V I D F C I V

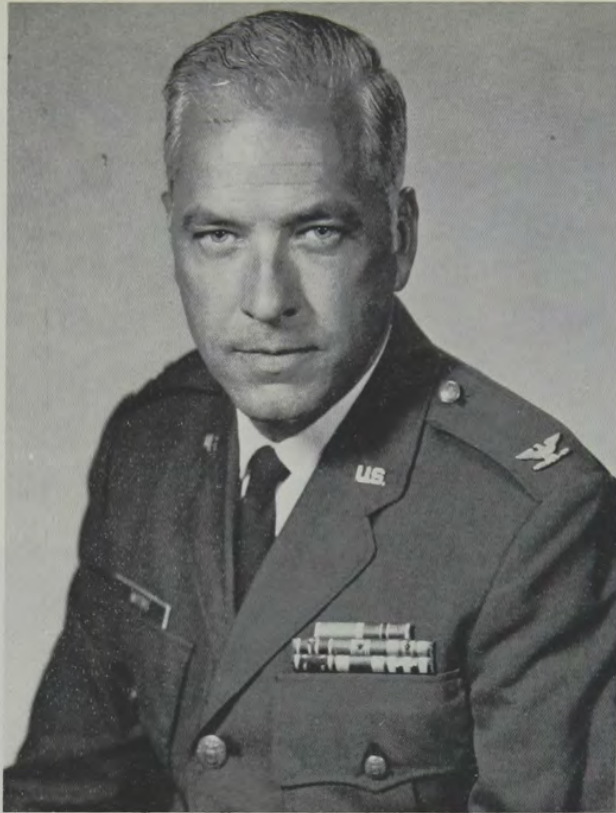

Basic chemistry courses are designed to introduce and familiarize cadets with the chemical properties and nature of the world around them. A chemistry major is recommended for those who are interested in chemical or biochemical research or applications. It provides fundamental knowledge in analytical, inorganic, organic and physical chemistry and allows the cadet to select one or two of these areas for advanced study. The major is designed to prepare cadets for a junior officer position in research, development or graduate training. It emphasizes the use of the laboratory methods for reinforcement of lecture material and individual research projects.

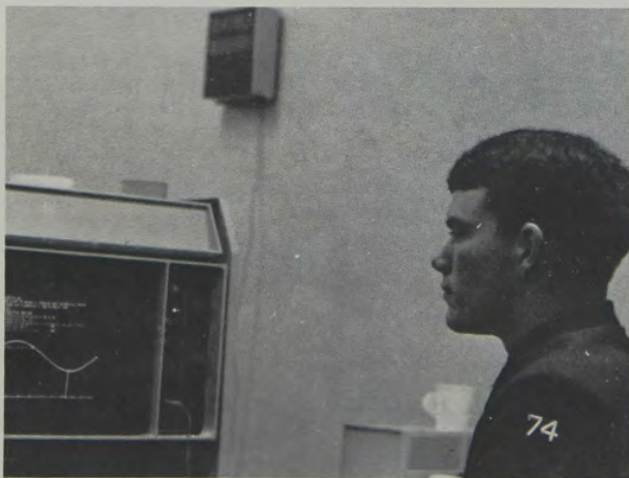

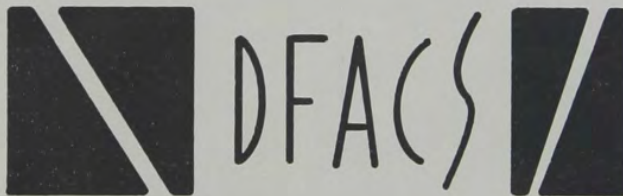

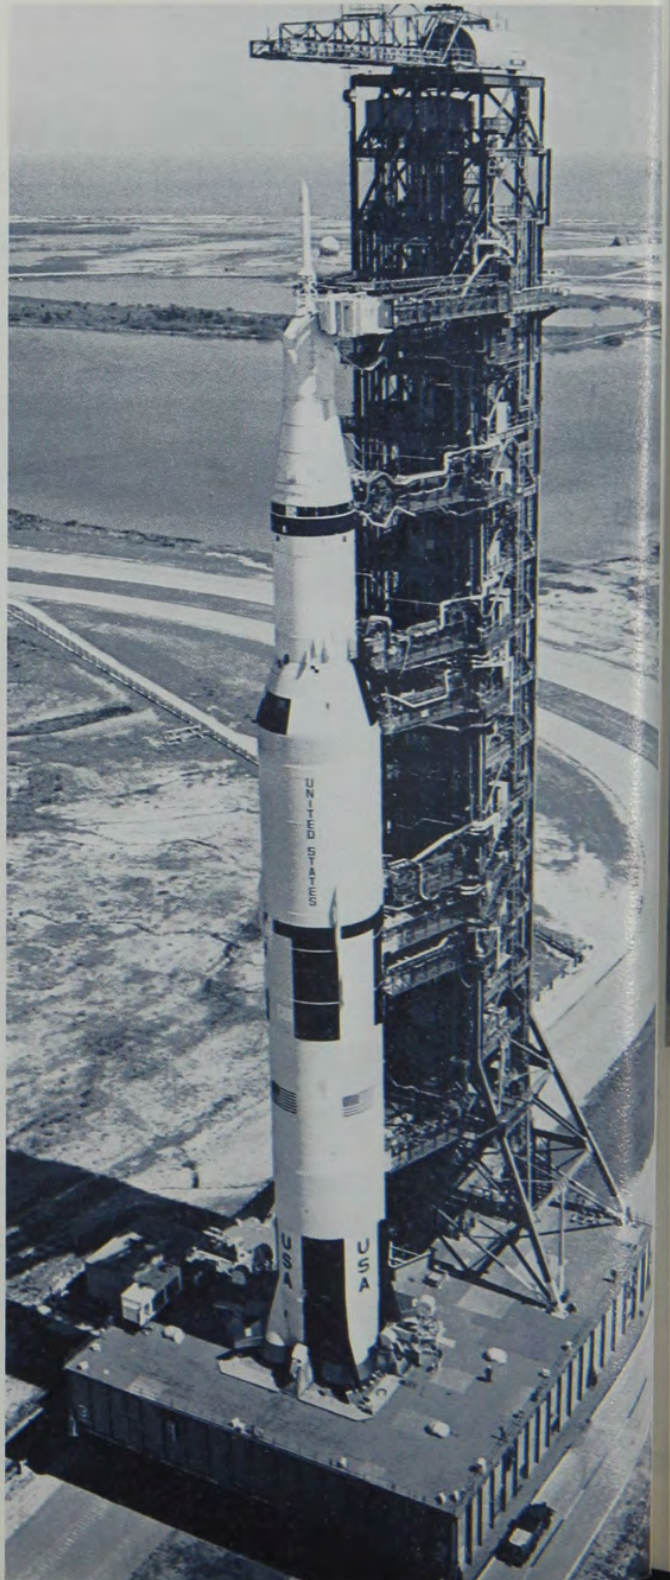

Left to Right, Front: Capt. Finch, Capt. Beckman, Capt. Whitely, Maj. Meier, Mrs. Mahoney, Col. Lamb, Lt. Col. King, Lt. Col. Jagrowski, Maj. Nolan. Middle: Capt. Offley, Maj. Viola, Capt. Cummons, Capt. Padfield, Maj. Hauschild, Maj. Henry, Maj. Biggs, Maj. Seigmiller. Back: Maj. Fannon, Maj. McCall, Capt. Moran, Maj. Storms, Capt. Nenzies, Capt. Jendrek, Maj. Villaescusa, Maj. Saban, Maj. Gregory.

Colonel Wittry

The department of Astronautics and Computer Science under the command of Col. Wittry offers degrees in both Astronautical Engineering and Computer Science. The aim of the computer science major is to provide officers who are highly qualified in the rapidly growing areas of computer research and the application of computers to complex scientific, engineering, and information systems. The Astronautics major offers two specializations: control theory and systems design.

Left to Right, Front: Maj. Gyouch, Maj. Anderson, Lt. Col. Trimble, Col. Wittry, Maj. Gerson, Maj. Leatham, Maj. Vernaire, Maj. Raymer. Middle: Capt. Bolz, Capt. Howiesner, Maj. Nolen, Capt. Fuchs, Maj. Durrett, Maj. Pursley, Capt. Johnson, Maj. Burns, Capt. Anderson, Capt. Soulia, Capt. Greshan, Capt. Baer, Capt. Edwards, Capt. Walsh, Capt. Hicks. Back: Maj. Winkler, Lt. Col. Merkl, Capt. Daniel, Maj. Monroe, Capt. Mall, Maj. Cox, Capt. Willis, Capt. Jones, Capt. Roehrkasse, Capt. Jones, Capt. McMasters, Capt. Kroncke.

Colonel Carter

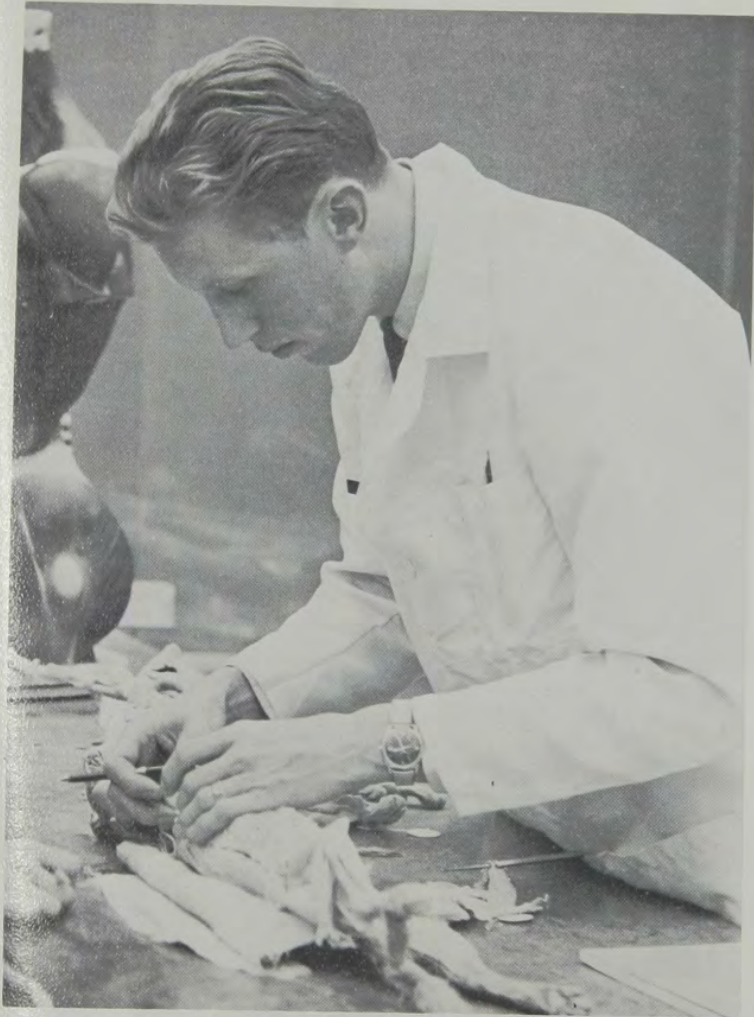

Life Science-Behavioral Science, seemingly unrelated at first glance; but actually very much related. The actions of both the body and mind closely control how we act, think, and react to stress. Understanding these actions helps us adapt to any conditions in which we might find ourselves. The approach within the department is a "hands-on" type of instruction. Labs are frequent in Life Science and use of the classroom situations and experimental setups is common in Behavioral Science.

# DFLS

Colonel Thomas

# DEAN

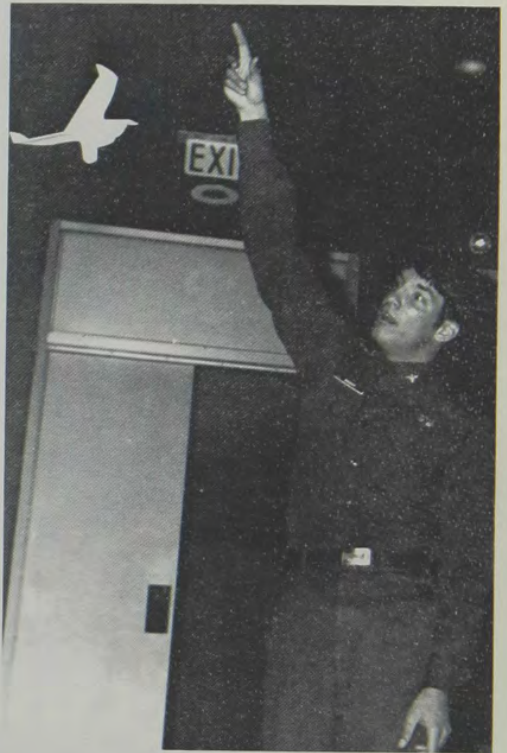

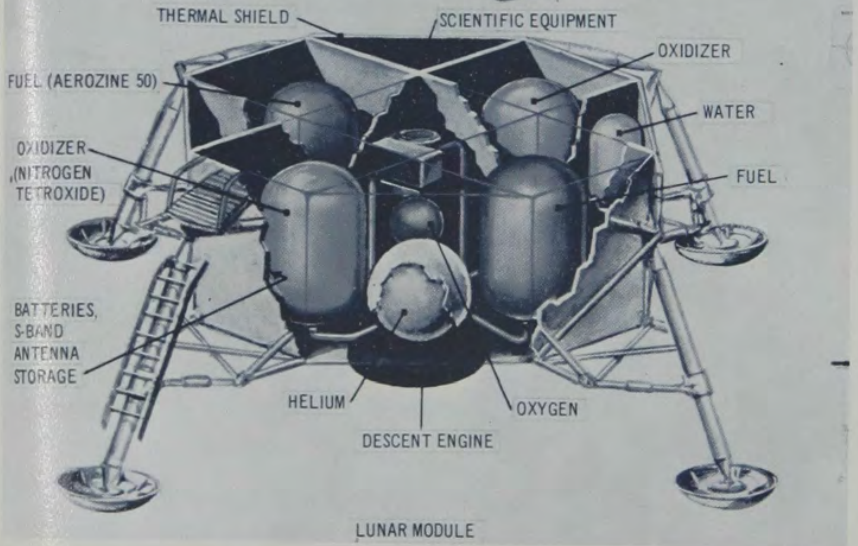

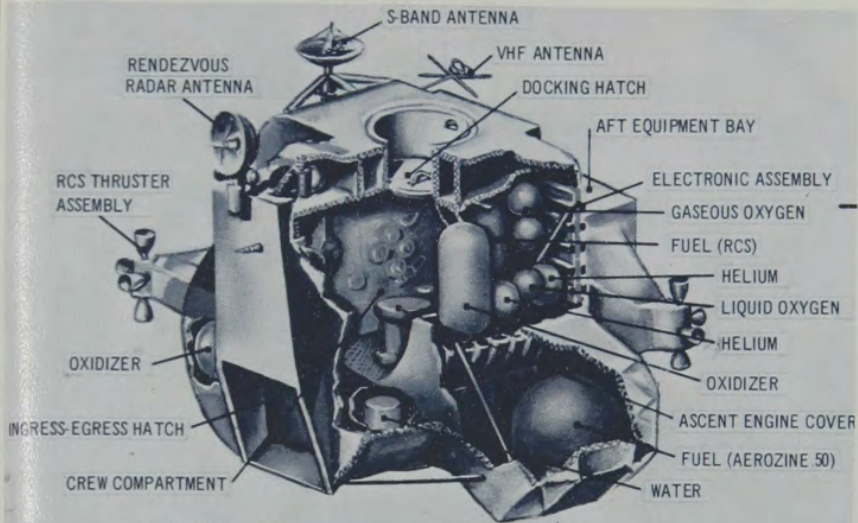

Besides the core courses in Aero that all cadets take, the department offers the Aeronautical Engineering major. It is based on a broad sequence of courses in aeronautical engineering with specialization in four options: aerodynamics, flight mechanics, aerospace propulsion, or aerospace structures. Under a cooperative arrangement with Purdue University, members of the Classes of 1974 and 1975 may earn credits towards a Master of Science degree in Aeronautical Engineering while at the Air Force Academy.

Left to Right, Front: Maj. Allburn, Lt. Col. Bouchard, Lt. Col. Stockham, Col. Thomal, Lt. Col. Forster, Lt. Col. Lopina, Lt. Col. Pollard. Middle: Maj. Carling, Maj. Gallington, Maj. Felton, Capt. Retelle, Maj. Braden, Capt. Francis, Maj.

Lorenz, Maj. Harvey, Maj. Bohler. Back: Maj. Edgington, Maj. Ogren, Lt. Col. Kuprenas, Maj. Quick, Capt. Coleman, Capt. Christian, Capt. Pilsch, Maj. Lorson, Maj. Day, Maj. Roderick.

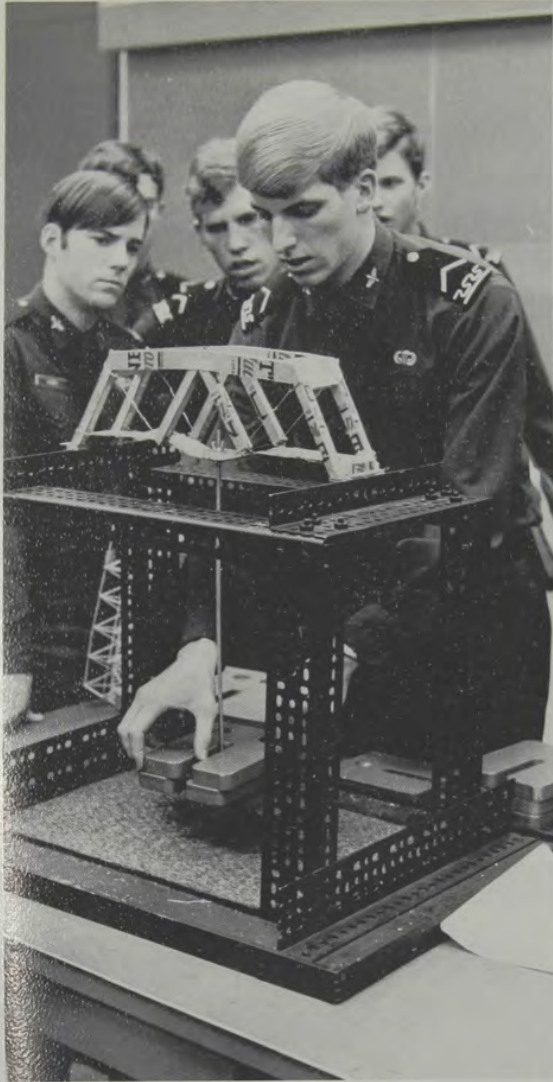

Colonel Fluhr

DFCEM

(SIC) The Department of Civil Engineering, Engineering Mechanics and Materials administers the Civil Engineering, Engineering Mechanics and Engineering Science majors. These areas of study provide a well balanced program stressing the fundamentals common to many areas of engineering as preparation for duty in the Air Force in an engineering specialty. Academic activities have centered around the department laboratory where cadets have had the opportunity to "get their hands dirty" in a wide variety of applied engineering projects. This enables cadets to practice engineering first hand rather than simply reading about it in a textbook.

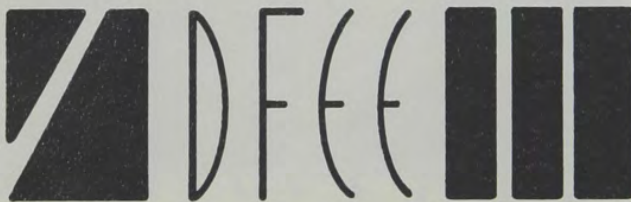

Left to Right, Front: Capt. Danhof, Maj. Anderson, Maj. Profilet, Col. Fluhr, Lt. Col. Ford, Maj. Crowley, Maj. Frusti, Maj. McCormack, Capt. Frostic, Capt. Keck. Middle: Maj. Swint, Capt. Barnes, Maj. Schamberger, Maj. Johnson, Capt. Tubbesing, Capt. Davis, Capt. Tornow, Capt. Deacon, Maj. Obermeyer, Capt. Craddock, Capt. Elliott, Capt. Rathje, Capt. Sproul, Capt. Henghold, Maj. Morgan,

T/Sgt. Kaneyuki, Capt. Carson, Capt. Nay. Back: Capt. Richards, Capt. Hansen, Capt. Price, Capt. Cannon, Maj. McConnell, Capt. Watt, Capt. Markey, Maj. Piepenturg, Maj. Fisher, Capt. Allen, Capt. Hausem, Capt. Sikra, Capt. Slackhouse, Capt. Kullgren, Capt. Widger, Maj. Currin, Maj. Horton.

Colonel Thomas

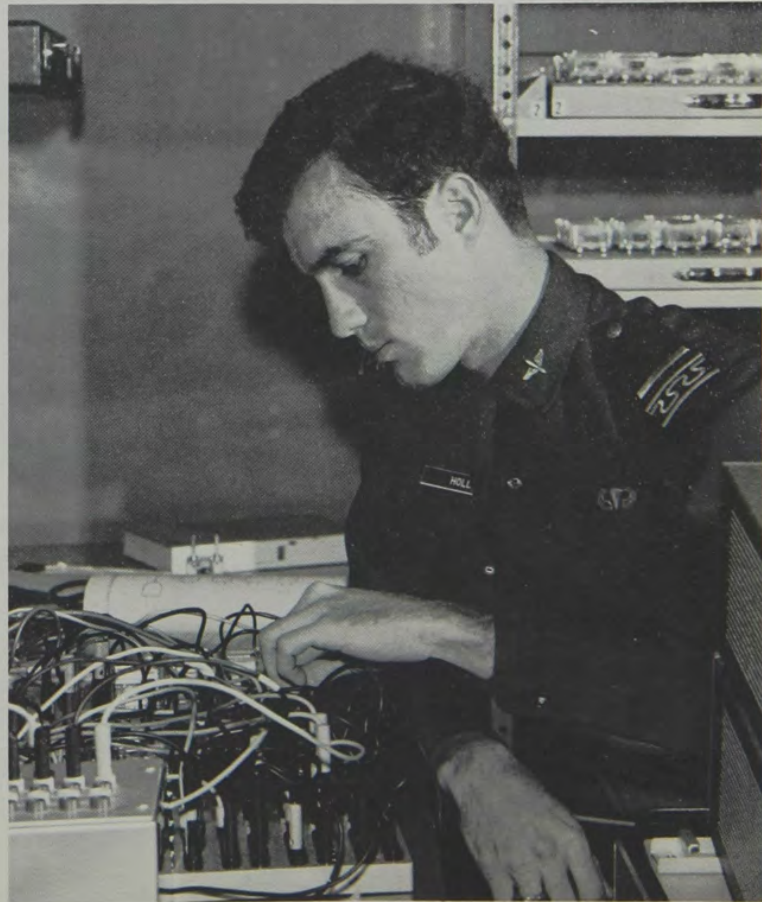

The major in Electrical Engineering provides an opportunity to pursue a tightly integrated, yet well rounded course of study, covering the major areas of electrical technology. The program emphasizes the relation between the subject being taught and their applications to military technological systems. There is a cooperative graduate program with the University of California at Berkley for 1974 and 1975 cadets with outstanding aptitude.

Left to Right, Front: Maj. M. Miller, Maj. Cloutier, Lt. Col. Gowen, Lt. Col. Griffiths, Col. Thomas, Lt. Col. Glass, Maj. Dwels, Maj. Carroll, Lt. Dumas. Second: Capt. Radaluf, Capt. Stevens, Capt. Johnson, Maj. R. Miller, Maj. Graham, Capt. Koweleski, Capt. O'Brien,

Capt. Madsen, Capt. Ray, Capt. Larson, Capt. Wells, Capt. Busse. Third: Capt. Atkins, Capt. Kopka, Capt. Kizer, Capt. Schmeising, Capt. Conturras, Capt. Bukaukas, Capt. Cone, Capt. Sanborn, Lt. Schade, Maj. Glenn, Capt. Honea.

Colonel Kinevan

DFEGM

The economics curriculum provides the foundation for analysis of military-related economic problems at the international, national, and operational levels. Program completion is sufficient for applied defense analysis. Geography seeks to understand man and his environment. The field is broad because of man's extensive activities. Further physical environment is studied to place man's role in perspective. The management major provides the essential tools required to manage human material resources. The major provides excellent preparation for careers in accounting and finance, management science, organizational behavior and systems and logistics.

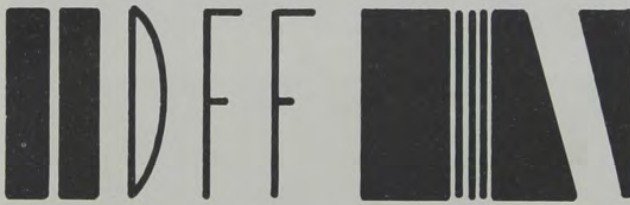

Top; **Economics:** Left to Right, Front: Capt. Krutar, Maj. Woodman, Col. Schoderbek, Capt. Fletcher, Capt. Webb, Maj. King, Maj. Boyer. Back: Lt. Col. Hejde, Lt. Col. Claiborn, Capt. Clark, Capt. Colonel Geffen

The Department of Foreign Languages, under the leadership of Colonel William Geffen, contributes to the education of the Air Force Cadet in one of six languages: French, German, Spanish, Chinese (Mandarin), Russian, or Japanese. An appreciation of the people, culture and military organization of nations speaking the language is stressed. The presence of exchange officers from France, Germany, Spain, Mexico and the Republic of China helps to make instruction more contemporary. Classroom instruction is supplemented by a variety of Cadet Language Club activities and exchange visits including the USAFA-French Air Force Academy Exchange Program.

# DFL

Apart from offering two prescribed and four enrichment courses the members of the Department of Law, all of whom are licensed attorneys, participate as counsel, legal advisors, or judges in courts and administrative board hearings. The attorneys provide legal assistance to cadets and faculty members. When not in the office, individuals assigned can be found participating in weekend wing training, presenting lectures to individual squadrons, serving as officer representatives to varsity sports, OIC's of cadet clubs, scoutmasters, or working with churches.

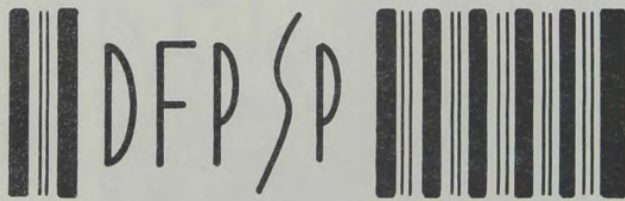

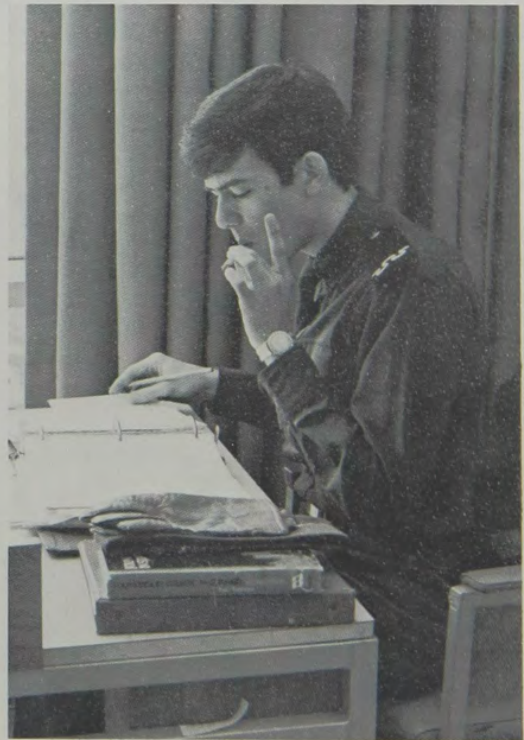

Left to Right, Front: Maj. Knutson, Lt. Col. Lee, Col. Kinevan, Maj. Dirkman, Maj. Jefer. Middle: Capt. Smith, Maj. Hume, Capt. Hawley, Capt. Johnson. Back: Maj. Hemingway, Maj. Burhan, Maj. DeReujter, Maj. Cooding, Maj. Brothers, Capt. Schilling, Capt. Wright.

Colonel Wakin

The department of Political Science and Philosophy offers a major in international affairs. This major is designed to develop a comprehensive understanding of political problems and issues. Courses in the major form the basis for Air Force duties across a broad range of fields. Careers particularly suited to this image are operations and command duties, attache duty, military assistance, military-political affairs, and staff command positions within the Air Force, Unified Commands, Joint Staff, Department of Defense, and National Security Council.

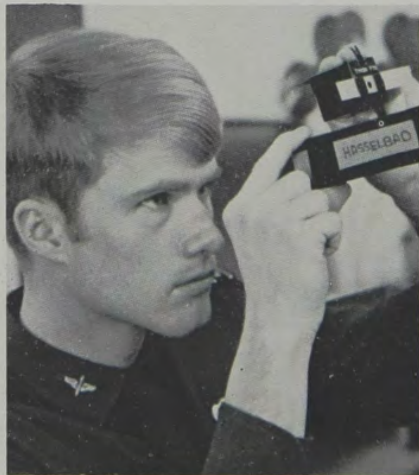

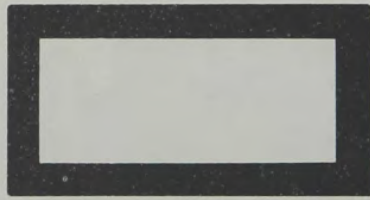

Left to Right, Front: Maj. Lentz, Maj. Dougherty, FSO Figgins, Lt. Col. Daleski, Col. Wakin, Lt. Col. Kuiper, Sq. Ldr. Rogerson, Maj. Harbaugh, Maj. Robbins. Middle: Capt. Collazo-Davila, Capt. Wenker, Capt. Stine, Capt. Hickle, Maj. Murray, Maj. Stafford, Maj. Ekman, Capt. Torreano, Capt. Heaton, Capt. Dellerman, Capt. Viotti.

Colonel Hurley

DFH

The major in History provides an understanding of contemporary problems by studying those forces in the past which have shaped the world of the present. The knowledge imparted and the perspective developed are important to the education of all professional Air Force officers and are of particular value for those cadets contemplating careers in operations, plans, or intelligence activities. The major emphasizes the development of historical judgement, research techniques, and writing.

Left to Right, Front: Maj. McElroy, Maj. Gropeman, Lt. Col. Caine, Col. Hurley, Lt. Col. Lane, Sq. Ldr. Stables, Maj. McIssac, Maj. Clark. Middle: Capt. Porter, Capt. Oppel, Capt. Weiland, Capt. Wayne, Capt. Klein, Capt. Converse,

Maj. Fisher, Capt. Miles, Capt. Calwell, Maj. Underahl, Maj. Kenny, Maj. DeBerry, Maj. High. Back: Capt. Berauski, Maj. Skizilo, Maj. Gilmartin, Maj. Cole, Maj. Anderson, Maj. Riddel, Capt. Korneyaj, Capt. Eszenyi, Capt. Spires.

Colonel Gatlin

Under the direction of Colonel Jesse C. Gatlin, Jr., the thirty-nine members of the Department of English and Fine Arts instruct cadets in the basics of composition and grammar and introduce them to literature and the humanities. Not only do they teach cadets how to express themselves correctly and effectively, but they also teach them how to appreciate, understand, and enjoy good art—be it painting, literature, or music. Through all its liberal arts activities, the Department helps produce a well-rounded, articulate Air Force officer.

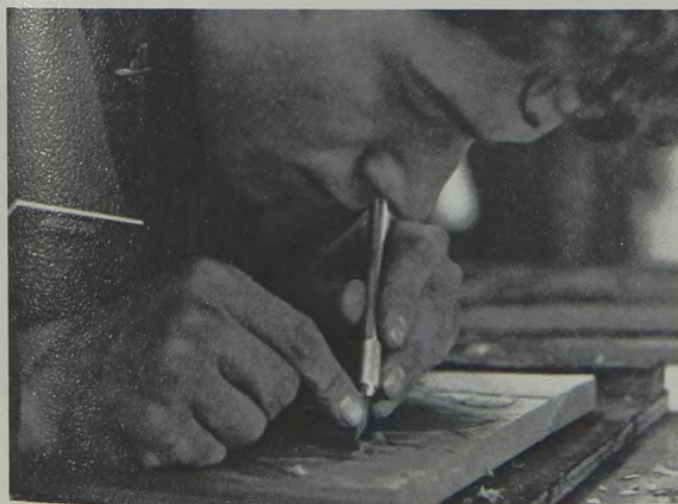

DFEFA

Colonel Endsley

Instructional Technology, or I.T. as it is commonly called, occupies an important position in support of the educational mission of the Academy. I.T. makes available to the various academic departments visual materials and training devices which are essential in a modern teaching environment. The "shopping center" for visual material includes graphic layouts, art, typography, still and motion pictures, three-dimensional aids, displays, and exhibits. In order to accomplish all of this quickly and efficiently, I.T. is divided into seven divisions—TV, support, academic skills, graphic arts, photography, and production-quality control. Last year the department acquired a closed circuit color television capability which makes use of eighty monitors placed throughout Fairchild Hall. Other support materials include a 4000 film library and a huge library of slides and pictorial materials.

IN MEMORIAM  
DELTON BRUCE JONES  
1952-1974

TO A DEPARTED FRIEND

But how can I remember for us both,  
Or try to live for two?  
Forgive me, friend; I'm not as brave as you  
For I must leave along with all the solemn mourners.  
And since the earth has taken one  
We each must live with borrowed breath  
To see the purple hills at dusk,  
To know the maze of knotted thoughts,  
To feel the lace of love and dreams  
As if we stood together.

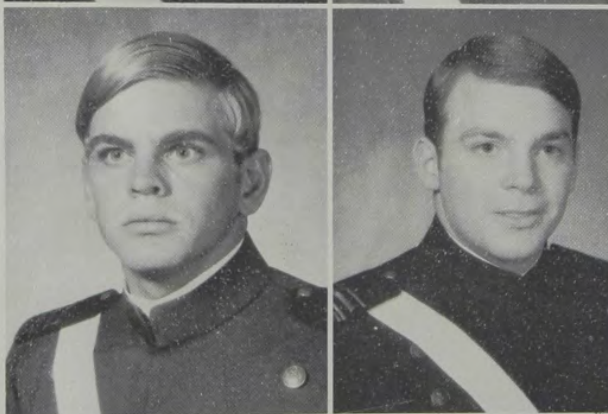

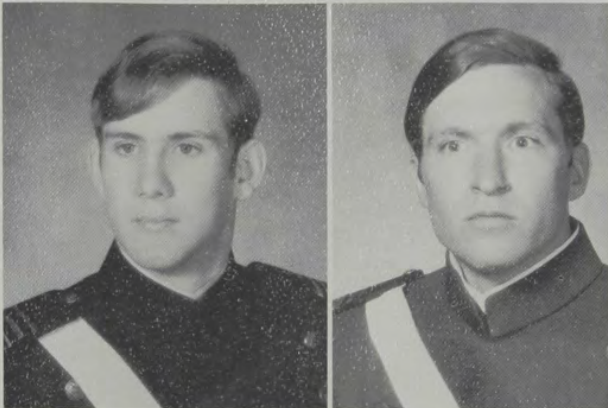

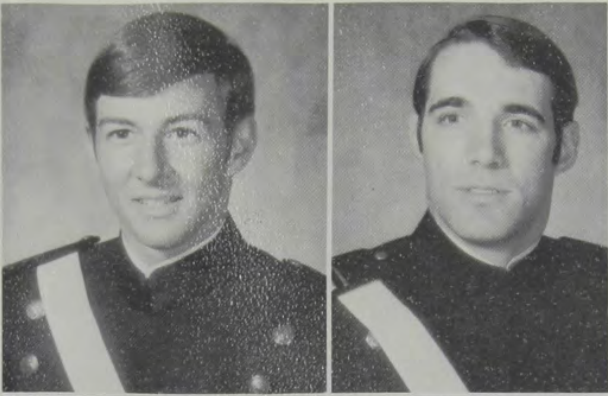

Hollis T. Landrum

Row One (from left): ROBERT A. AIN, Jr., 15th Sq., Physics, Simi, CA; RICHARD L. ALCORN, 9th Sq., Chemistry, Hay Springs, NE; SALVATORE ALFANO, 4th Sq., Astro, Mt. Sinai, NY; JAIME E. ALFARO-MATUSINSKY, 11th Sq., Civil Eng., Panama City, Rep. of Panama.

Row Two: GARY S. ALLARD, 2nd Sq., Basic Sciences, Acton, MA; LARRY M. ALLEN, 17th Sq., Life Science, Snyder, TX; BRUCE E. ALLEY, 3rd Sq., Eng. Management, Franklin, NC; ALLEN E. ANDERSEN, 2nd Sq., Economics, St. Paul, MN.

Row Three: STEPHEN J. ANDERSEN, 15th Sq., Management, Setucket, NY; BRUCE R. ANDERSON, 3rd Sq., Physics, Math, Tustin, CA; CHARLES W. ANDERSON, Jr., 40th Sq., Civil Eng., Jonesboro, LA; LLOYD L. ANDERSON, Jr., 14th Sq., Basic Sciences, Kansas City, MO.

MAN'S FLIGHT  
THROUGH LIFE IS  
SUSTAINED BY THE  
POWER OF HIS  
KNOWLEDGE

Row One: ROBERT C. ANDERSON, 12th Sq., Int. Affairs, Marion, IN; LOUIS J. APPELHANS, 14th Sq., Basic Sciences, Arvada, CO.

Row Two: TIMOTHY T. GREEN, 24th Sq., Aero, Mechanics, Fostoria, OH; JAMES T. GREESON, 26th Sq., Astro, Huntington, WV; JEFFREY H. GREINER, 25th Sq., Economics, Anaheim, CA; STEPHEN G. GRESS, Jr., 39th Sq., Management, Pittsburgh, PA.

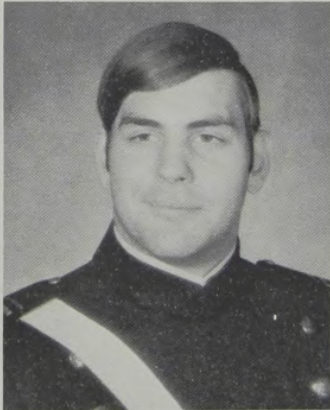

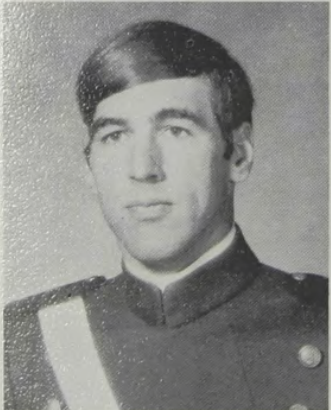

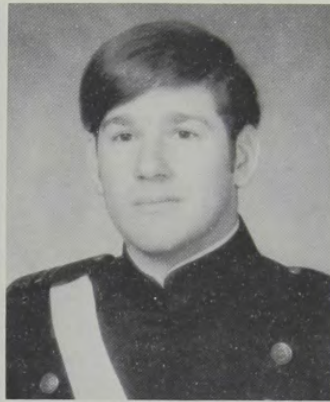

Row Three: DANIEL GRIFFIN, 8th Sq., General Studies, Washington, NJ; WILLIAM E. GRIFFITH, 29th Sq., Behavioral Science, Valdosta, GA; ALFRED J. GUARDINO, 21st Sq., Psychology, Seneca Falls, NY; ANTHONY C. GUDECZAUSKAS, 29th Sq., Eng. Sciences, Coventry, RI.

Row One (from left): HAMPTON H. GUELICH, 22nd Sq., Political Science, Williamsville, NY; MICHAEL E. GUM, 35th Sq., Political Science, Anaheim, CA; PAUL F. GUZOWSKI, 21st Sq., Basic Sciences, Aurora, CO; EDWARD E. HACKNEY, 6th Sq., Mechanics, Las Vegas, NV.

Row Two: RAYMOND F. HAILE, 24th Sq., Management, Clark AFB, Philippines; CARLETON P. HAIRSTON, 9th Sq., Electrical Eng., Logan, WV; THOMAS M. HALL, II, 7th Sq., American Studies, Ashland, KY; DONALD J. HALLEY, 22nd Sq., Mechanics, Aero, Prescott, AR.

Row Three: MICHAEL P. HALPIN, 19th Sq., Civil Eng., Albuquerque, NM; THOMAS G. HALSETH, 20th Sq., Mechanics, Olney, MD; WILLIAM R. HALSEY, 5th Sq., Civil Eng., Akron, OH; MARK D. HALSOR, 37th Sq., History, Salem, OR.

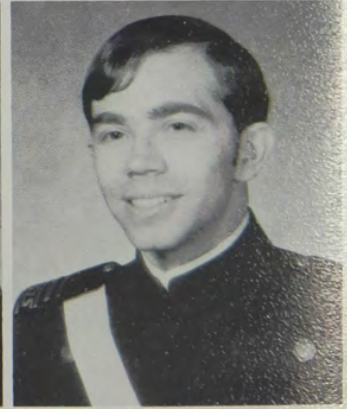

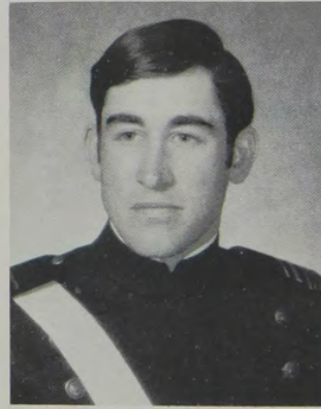

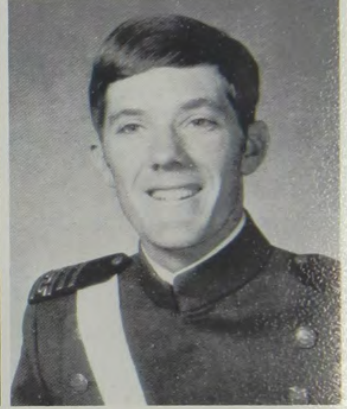

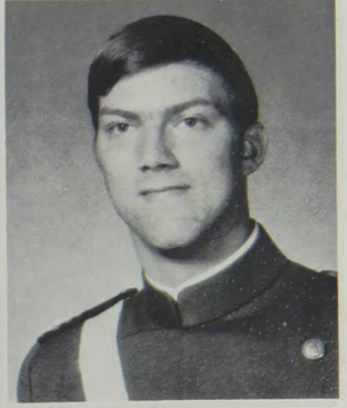

Row One: DAVID S. HAMILTON, 23rd Sq., Civil Eng., Brighton, CO; HAROLD R. HAMM, 18th Sq., Computer Science, Memphis, TN.

Row Two: KENNETH C. HANCOCK, 21st Sq., Life Science, New Orleans, LA; CHARLES B. HAND, 19th Sq., Chemistry, Grinnel, IA.

Row Three: PAUL M. HANKINS, 25th Sq., Psychology, Knoxville, TN; STEVEN A. HANSEN, 20th Sq., Economics, Chadron, NE.

Row One (from left): DEANE Y. HARIMOTO, 7th Sq., Pre-Med., Pearl City, HI; MARK A. HARLAN, 6th Sq., Management, Cincinnati, OH.

Row Two: DOUGLAS A. HARNLY, 18th Sq., Astro. Math, Colorado Springs, CO; MARTIN L. HARPER, 37th Sq., Management, Greenwood, MS.

Row Three: MICHAEL K. HATHAWAY, 33rd Sq., Management, Newark, CA; THOMAS F. HAYDEN, 3rd, 6th Sq., Civil Eng., Enfield, CT.

Row One: WILLIAM A. HAYES, 26th Sq., General Egn., Houston, TX; JAMES L. HAYHURST, 2nd Sq., Basic Sciences, Mill Valley, CA; RICHARD A. HAYNIE, 7th Sq., Civil Eng., Florissant, MO; JAMES G. HAZEN, 1st Sq., Humanities, Factoryville, PA.

Row Two: THOMAS J. HEFFERNAN, 3rd Sq., Int. Affairs, Mount Morris, IL; RICHARD P. HEFFNER, 31st Sq., Math, Monroe, NY; DAVID A. HEGLAND, 18th Sq., Eng. Sciences, Fargo, ND; STEVEN L. HEIL, 5th Sq., Management, Gering, NE.

Row Three: DENNIS R. HEINLE, 5th Sq., Aero, Boulder Creek, CA; TERRENCE T. HENRICKS, 20th Sq., Civil Eng., Woodville, OH; BARTON E. HENWOOD, 18th Sq., Astro, Computer Science, Ft. Lauderdale, FL; DAVID P. HERRMAN, 16th Sq., History, Burlington, WI.

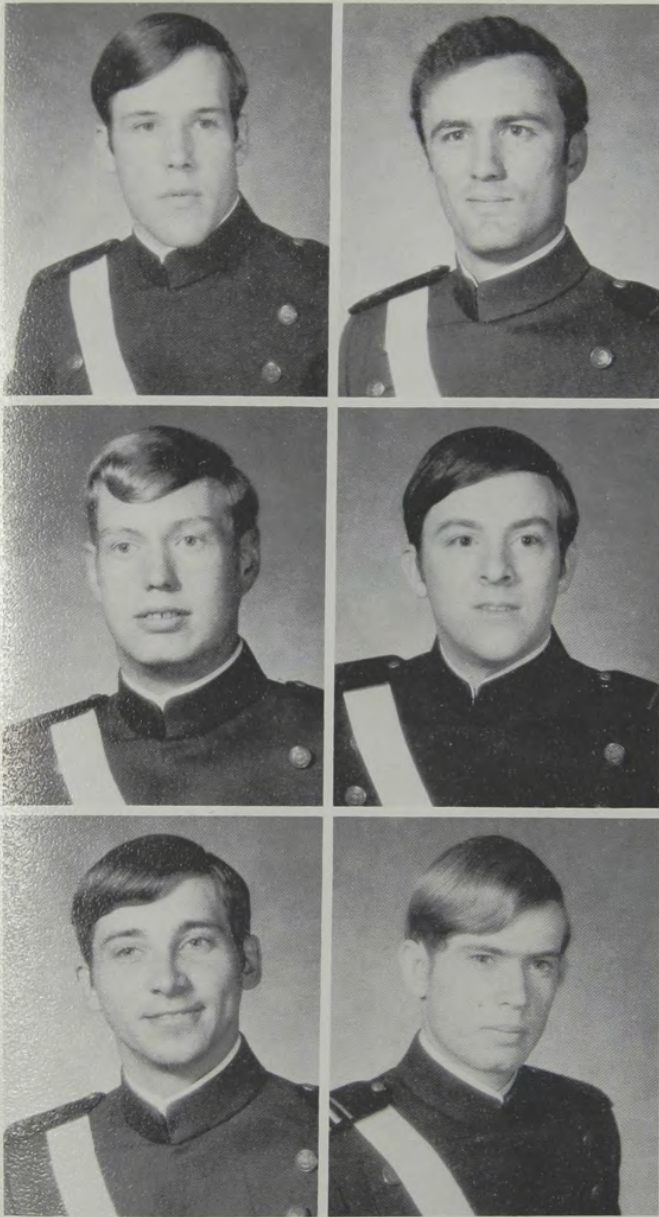

Row One (from left): WESLEY B. HESTER, 29th Sq., Political Science, Tampa, FL; BRADLEY K. HIGGINBOTHAM, 28th Sq., Management, Autaugavilla, AL; ERNEST W. HIGGINS, 7th Sq., General Studies, McMinnville, TN; KENT D. HILL, 14th Sq., Behavioral Science, Festus, MS.

Row Two: GEORGE M. HOF, 11th Sq., Management, Williamsville, NY; DONALD J. HOFFMAN, 38th Sq., Electrical Eng., Ladysmith, WI; EDWARD W. HOFFMAN, 29th Sq., History, Orlando, FL; DAVID L. HOGLUND, 5th Sq., Electrical Eng., Denver, CO.

Row Three: SCOTT A. HOKE, 15th Sq., Life Science, West Fairview, PA; ERIC K. HOLCK, 1st Sq., Mechanics, Kailua, HI; THOMAS K. HOLKEBOER, 40th Sq., Management, Kentwood, MI; STEPHEN HOLLAND, 33rd Sq., Life Science, Dallas, TX.

Row One: DON M. HOLLERBACH, 29th Sq., Behavioral Science, Huron, SD; CHARLES R. HOLLEY, Jr., 15th Sq., Electrical Eng., Clearwater, FL.

Row Two: ROBERT H. HOLLIWAY, 16th Sq., Management, Rockford, IL; JOHN H. HONSINGER, Jr., 39th Sq., Psychology, Artesia, MS.

Row Three: ROBERT C. HOOD, 21st Sq., Math, Physics, Merritt Island, FL; ROBERT R. HOOD, 13th Sq., Civil Eng., Minatare, NE.

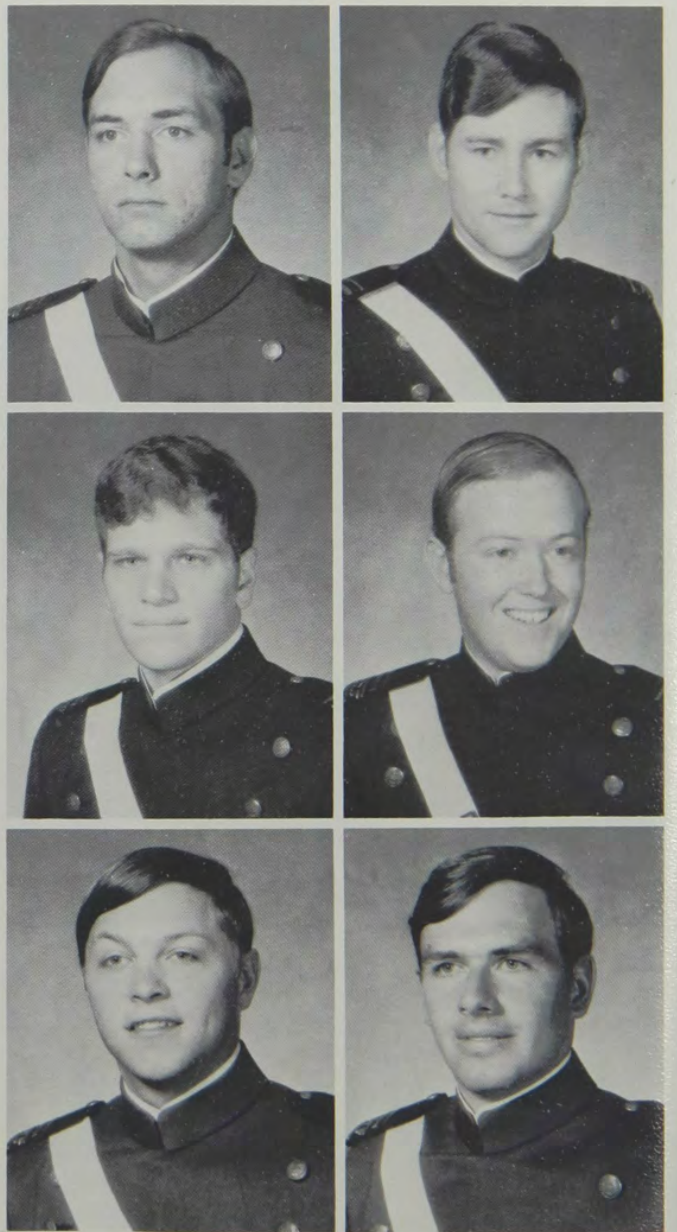

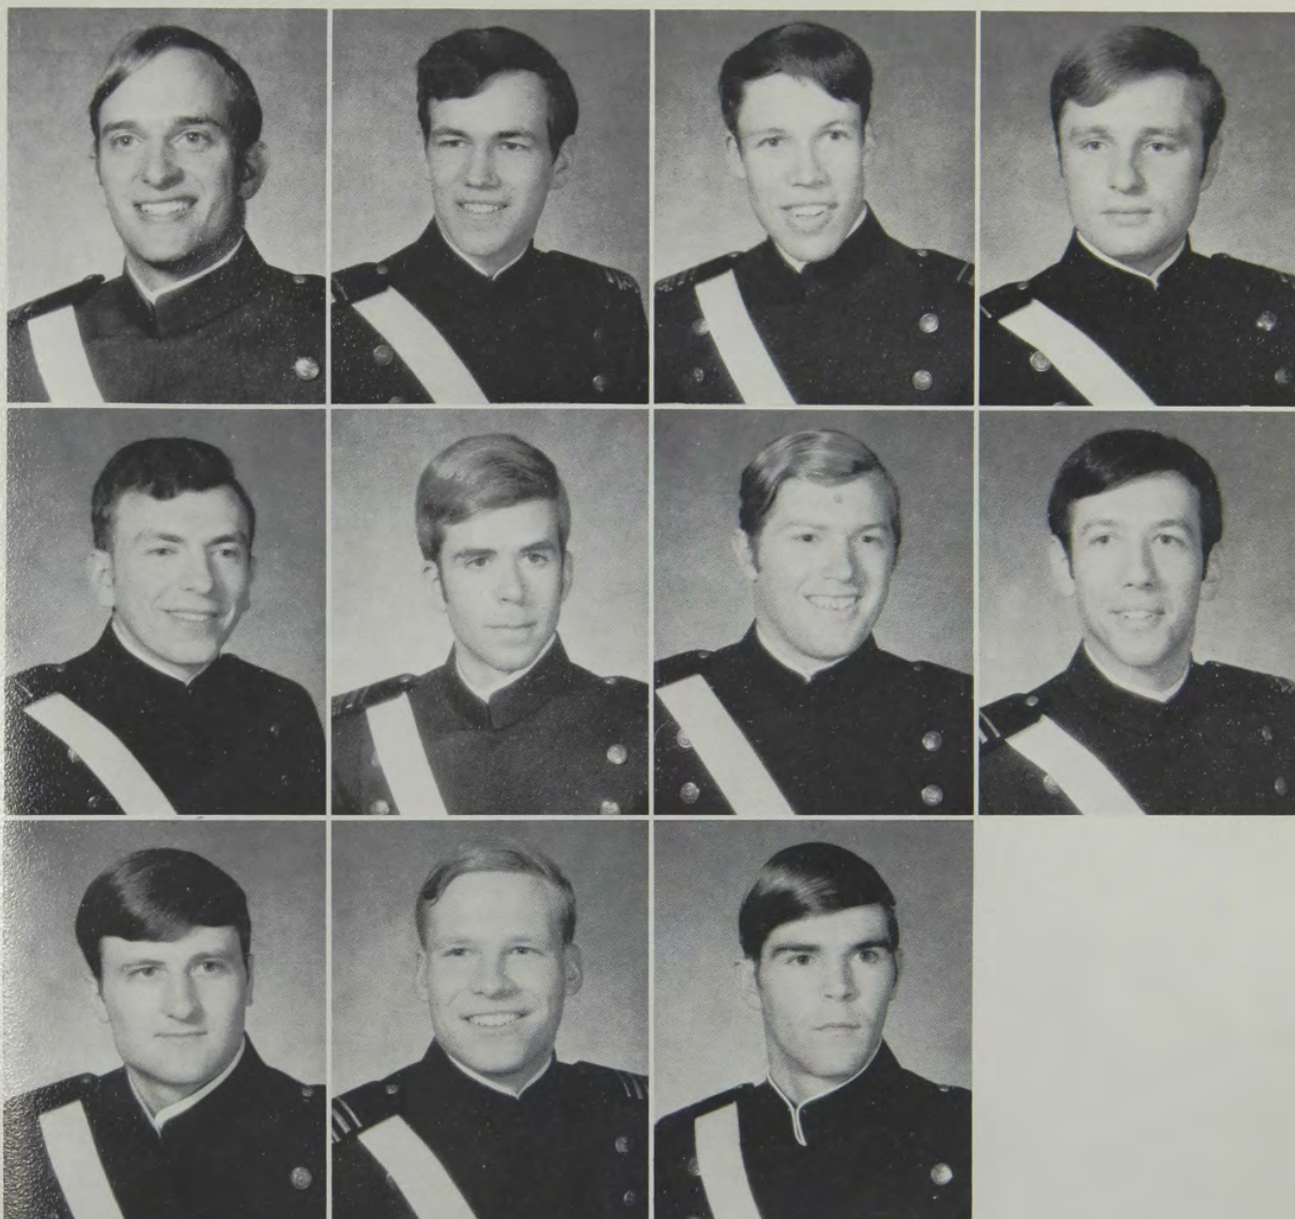

Row One (from left): JAMES R. HORACEK, 16th Sq., Behavioral Science, Tulsa, OK; STEVEN R. HORN, 35th Sq., Pre-Med., New Orleans, LA.

Row Two: GARY M. HOROWITZ, 37th Sq., History, Sayville, NY; NEAL J. HOUDE, 14th Sq., Management, Torrance, CA.

Row Three: JOHN S. HOUSEHOLDER, 27th Sq., General Studies, Jamestown, NY; DAVID L. HOVRUD, 17th Sq., Astro, Lenox, SD.

Row One: JOSEPH C. HOYLE, 36th Sq., Life Science, Pre-Med., Kings Mountain, NC; LAWRENCE D. HUBER, 8th Sq., Computer Science, Louisville, KY; SCOTT A. HUDDLESON, 1st Sq., Psychology, Los Angeles, CA; PHYLLIP B. HUFFMAN, 39th Sq., General Studies, Centerburg, OH.

Row Two: DENNIS C. HUGHES, 38th Sq., Civil Eng., Reading, PA; PHILIP G. HUGHES, 8th Sq., Int. Affairs, Eaton, CO; WILLIAM F. HUGHES, Jr., 31st Sq., Civil Eng., Bethesda, MD; MARK A. HYATT, 9th Sq., Int. Affairs, Cherry Hill, NJ.

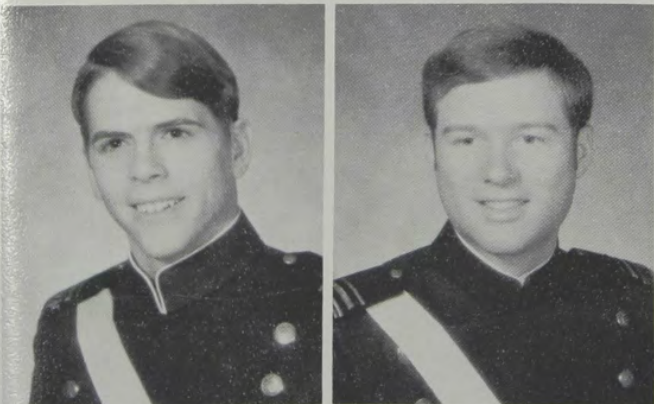

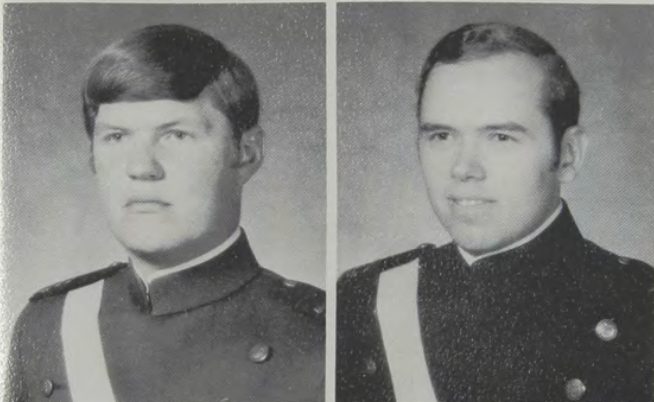

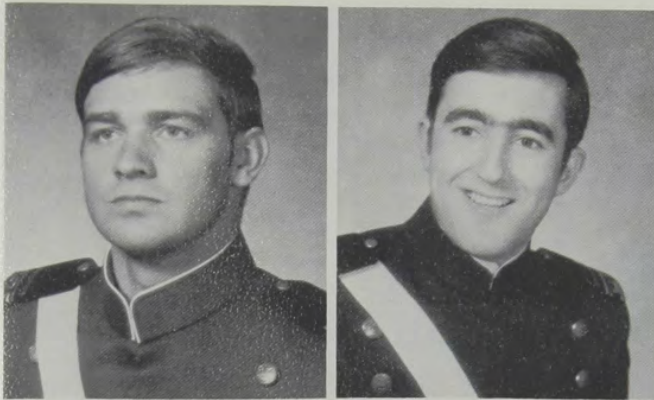

Row Three: JAMES C. IACOBUCCI, 9th Sq., Life Science, Pittsburgh, PA; DANIEL R. IKEN, 5th Sq., Management, Altus, OK; JIMMY D. ILENG, 39th Sq., Math, Corpus Cristi, TX.

Row One (from left): PHILIP D. INSCOE, 19th Sq., Management, Hillsborough, NC; PHILIP A. IRISH, III, 14th Sq., Behavioral Science, West Hanover, PA; DAVID G. JACKSON, 7th Sq., Psychology, Wheatridge, CO; JOHN P. JACKSON, 4th Sq., Life Science, Deland, FL.

Row Two: JEFFREY L. JACOBS, 5th Sq., Civil Eng., Randallstown, MD; MARK C. JACOBSON, 6th Sq., Economics, Management, Janesville, WI; DONALD W. JAMES, 28th Sq., History, King Of Prussia, PA; THOMAS C. JANISSE, 7th Sq., Mechanics, Sterling Heights, MI.

Row Three: RAYMOND E. JEFFS, Jr., 16th Sq., General Studies, Boken Arrow, OK; ROBERT A. JENSEN, Jr., 20th Sq., Life Science, Sioux City, IA; MARC C. JOHANSEN, 39th Sq., Life Science, Madrid, Spain; MARK D. JOHNSON, 35th Sq., Pre-Med., San Antonio, TX.

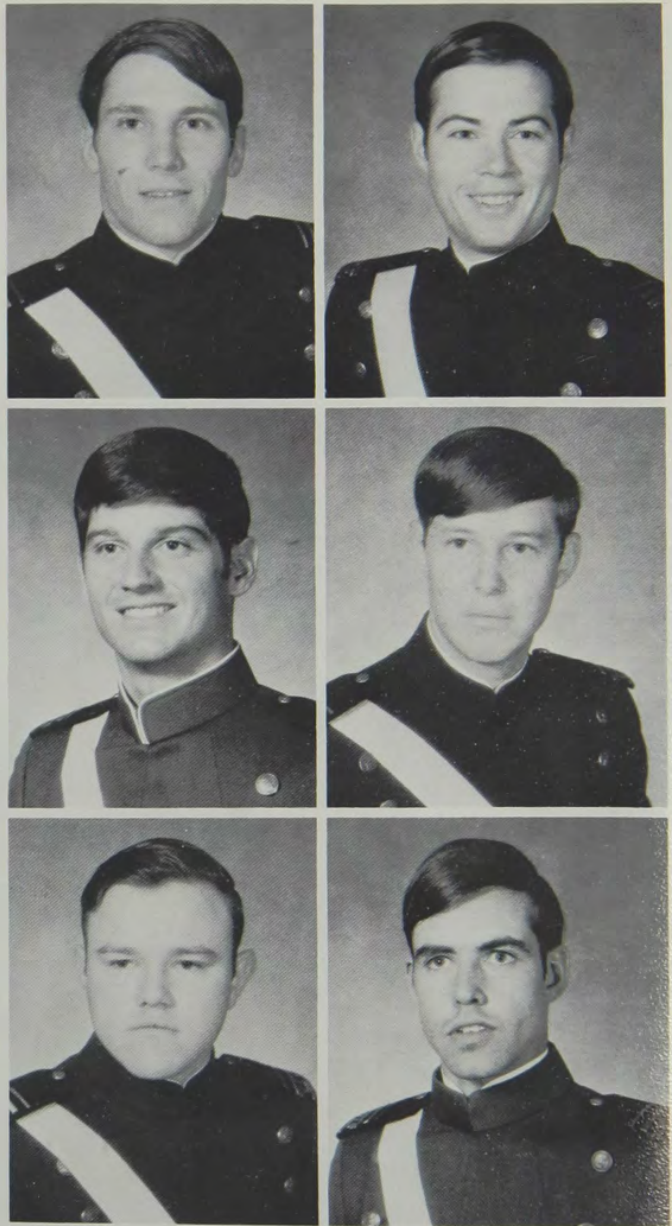

Row One: MARK R. JOHNSON, 4th Sq., Management, Nicollet, MN; ROY T. JOHNSON, Jr., 19th Sq., Pre-Med., Washington, DC.

Row Two: VERLE L. JOHNSTON, Jr., 25th Sq., Int. Affairs, Philadelphia, PA; JAY D. JOLLY, 22nd Sq., Electrical Eng., Maple Heights, OH.

Row Three: CHARLES E. JONES, 4th Sq., Astro, Wichita, KS; JOHN P. JONES, 40th Sq., Int. Affairs, Monument, CO.

Row One (from left): WILLIAM H. JONES, 38th Sq., Management, Springfield, VA; JAMES E. JUDKINS, 11th Sq., Civil Eng., Bellaire, TX.

Row Two: CHARLES R. JUSTIZ, 19th Sq., Aero, Miami, FL; KEVIN J. KANAN, 8th Sq., History, Montgomery, AL.

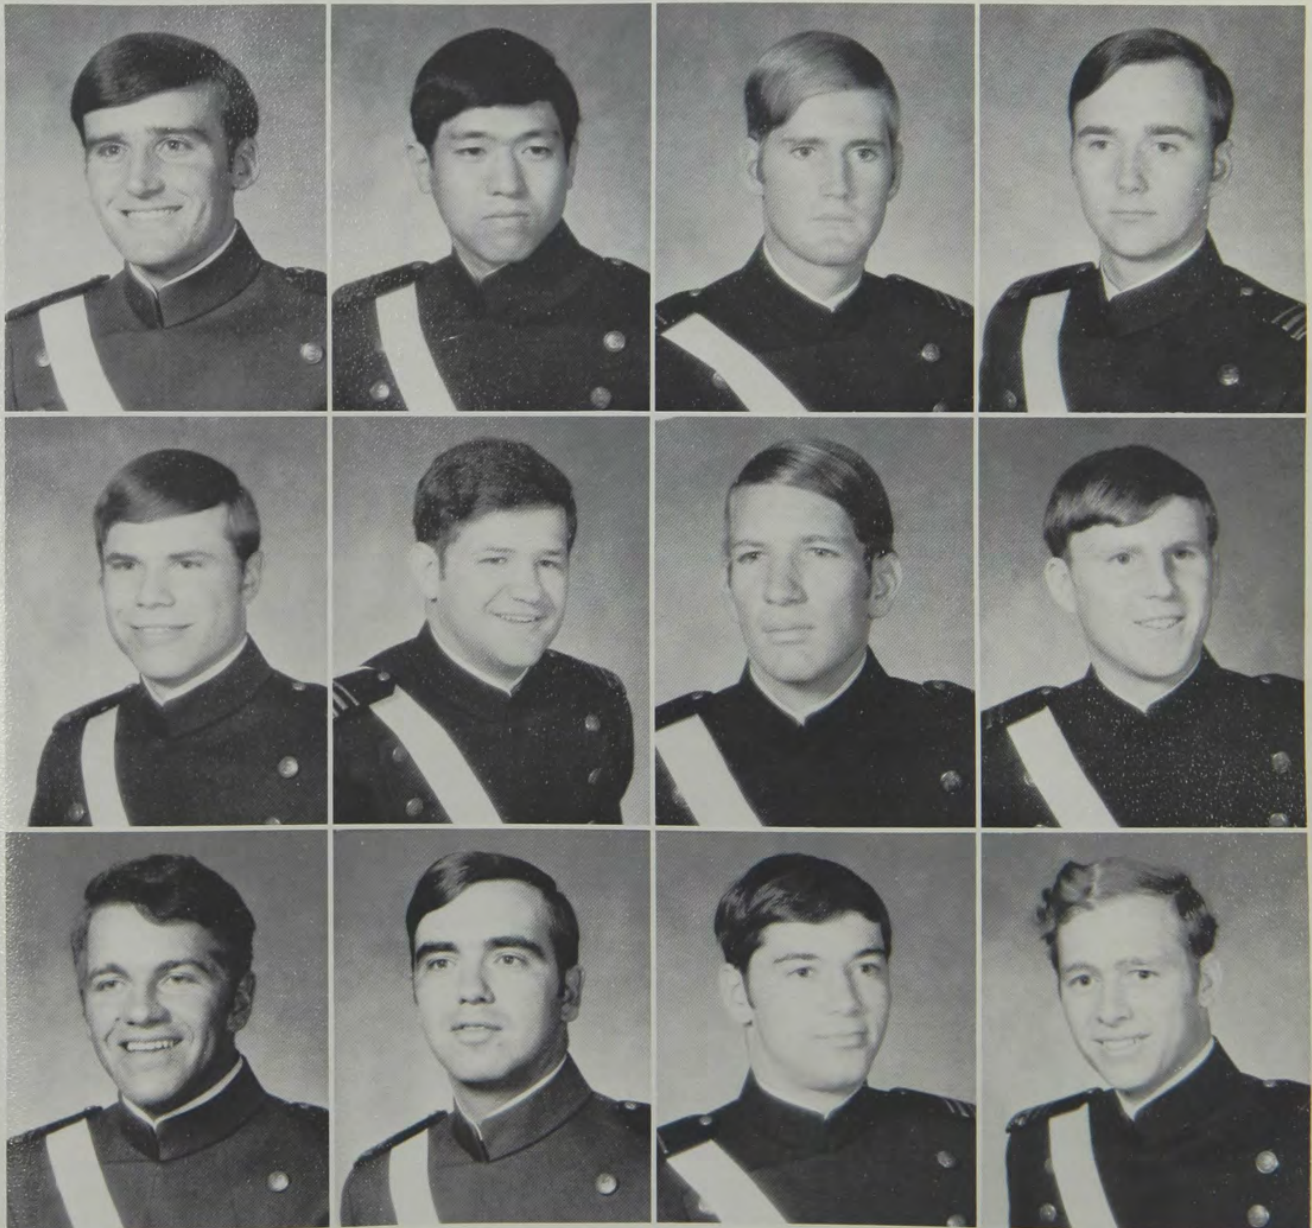

Row Three: LAWRENCE M. KAMPA, 6th Sq., Int. Affairs, New Orleans, LA; THOMAS P. KANE, 36th Sq., Int. Affairs, North Syracuse, NY.

Row One: JOSEPH R. KARNER, 16th Sq., Management, Wauwatosa, WI; LESTER K. KATAHARA, 37th Sq., Management, Kahului, HI; JAMES M. KEAGLE, 1st Sq., Int. Affairs, Philadelphia, PA; JAMES H. KEATON, 38th Sq., Aero, Nowata, OK.

Row Two: JOSEPH E. KELLEY, 23rd Sq., Life and Behavioral Sciences, Chicago, IL; CHRISTOPHER A. KELLY, 39th Sq., Management, Denver, CO; JAMES R. KELLY, 2nd Sq., History, Napa, CA; JOHN E. KELLY, Jr., 34th Sq., History, Addison, IL.

Row Three: WILLIAM M. KELLY, 1st Sq., Life Science, Waterloo, IL; ROBERT A. KEMBERLING, 37th Sq., Chemistry, Tarkio, MO; KELVIN P. KEMP, 40th Sq., Management, Long Beach, CA; DONALD J. KERLEY, 1st Sq., Management, Deerfield, IL.

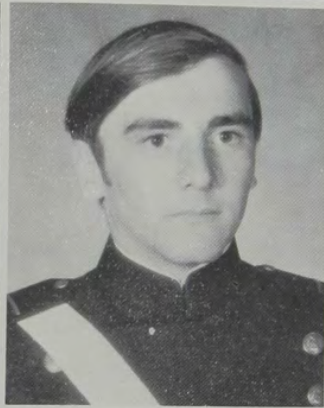

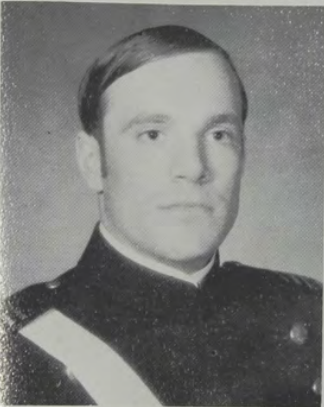

Row One (from left): SUNG-WHAN KIM, 2nd Sq., Int. Affairs, Inchon, S. Korea; WILLIAM S. KIMMEL, 1st Sq., Eng. Sciences, Annapolis, MD; WALTER A. KINARD, 1st Sq., Behavioral Sciences, Montgomery, AL; SCOTT A. KINKEAD, 3rd Sq., Chemistry, San Diego, CA.

Row Two: RICHARD A. KIRKPATRICK, 11th Sq., Psychology, Eaton Rapids, MI; GARY L. KIRSTEATTER, 37th Sq., Civil Eng., Peru, IL; ARTHUR E. KISBY, 40th Sq., General Studies, Richmond, CA; CRAIG N. KITCHEN, 39th Sq., General Studies, San Francisco, CA.

Row Three: MARTIN J. KLENA, 39th Sq., Psychology, Gwinn, MI; KENNETH G. KLIMES, 38th Sq., Life Science, Berwyn, IL; TIMOTHY H. KLINE, 36th Sq., Management, Bloomington, MN; PETER C. KLINGER, 37th Sq., Chemistry, Anaheim, CA.

Row One: BRIAN L. KNAUSS, 33rd Sq., Civil Eng., Lexington, NE; WADE D. KNIGHT, 26th Sq., Computer Science, South Milwaukee, WI.

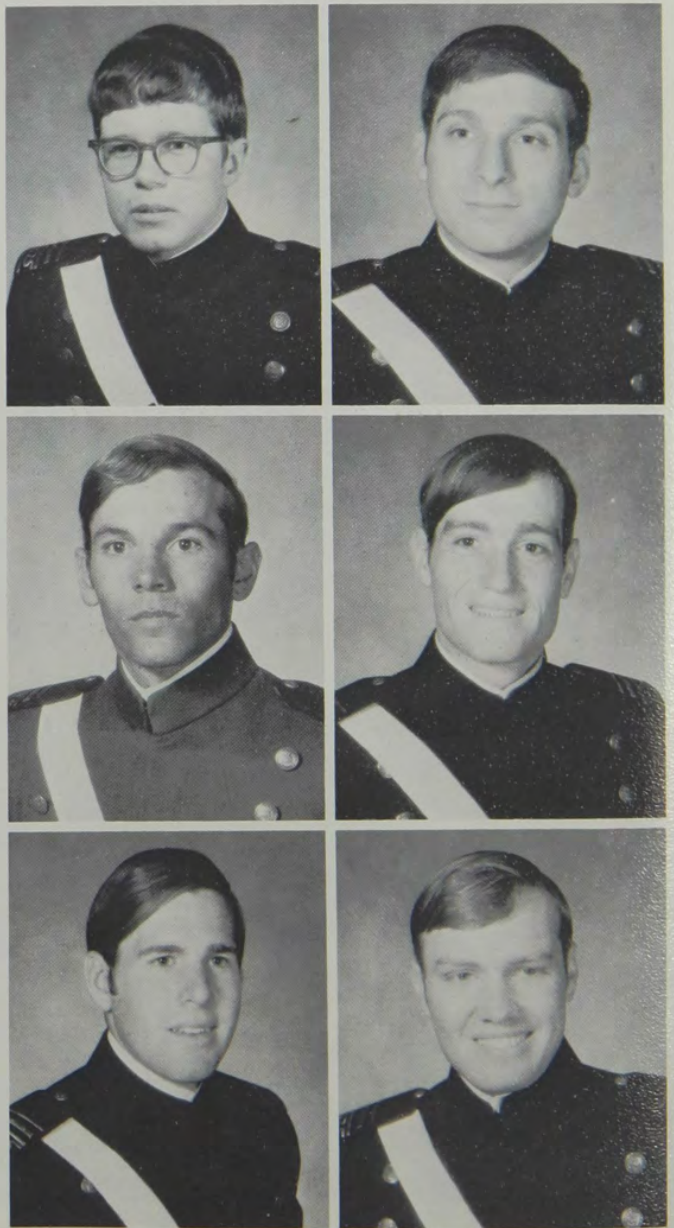

Row Two: MICHAEL G. KNOLL, 5th Sq., Electrical Eng., Stephen, MN; LLOYD W. KOCHER, 31st Sq., Life Sciences, Cadott, WI.

Row Three: ERIK P. KOHLER, 35th Sq., Economics, Tacoma, WA; THOMAS D. KOLESSAR, 33rd Sq., Astro. Electrical Eng., Nazareth, PA.

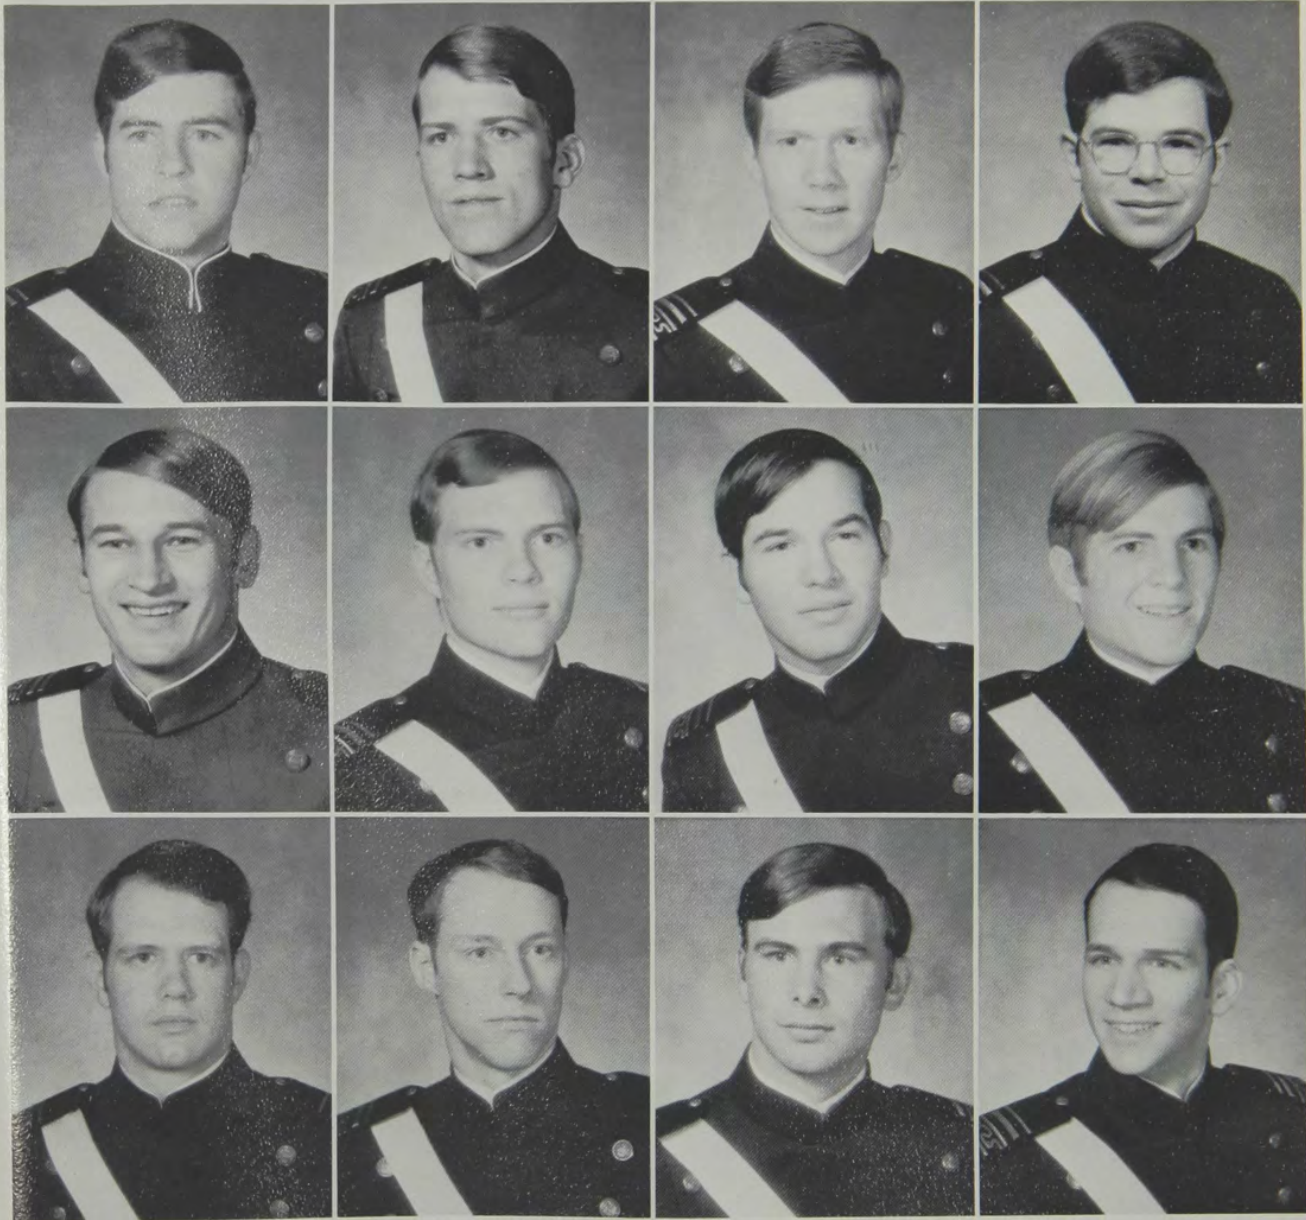

Row One (from left): PAUL A. KOLM, 38th Sq., Life Science, Springfield, MA; KENNETH C. KONWIN, 26th Sq., Civil Eng., Franklin Park, IL.

Row Two: STEVEN C. KORALY, 29th Sq., Management, Miami, FL; JAMES F. KOSTER, 30th Sq., Management, Ridley Park, PA.

Row Three: DAVID A. KOTECKI, 29th SQ., Civil Eng., Wheatridge, CO; GREGORY A. KURTZ, 31st Sq., Economics, Int. Affairs, Florissant, MO.

**JOHN DENVER**

**HELEN REDDY**

**5th DIMENSION**

**ROBERTA FLACK**

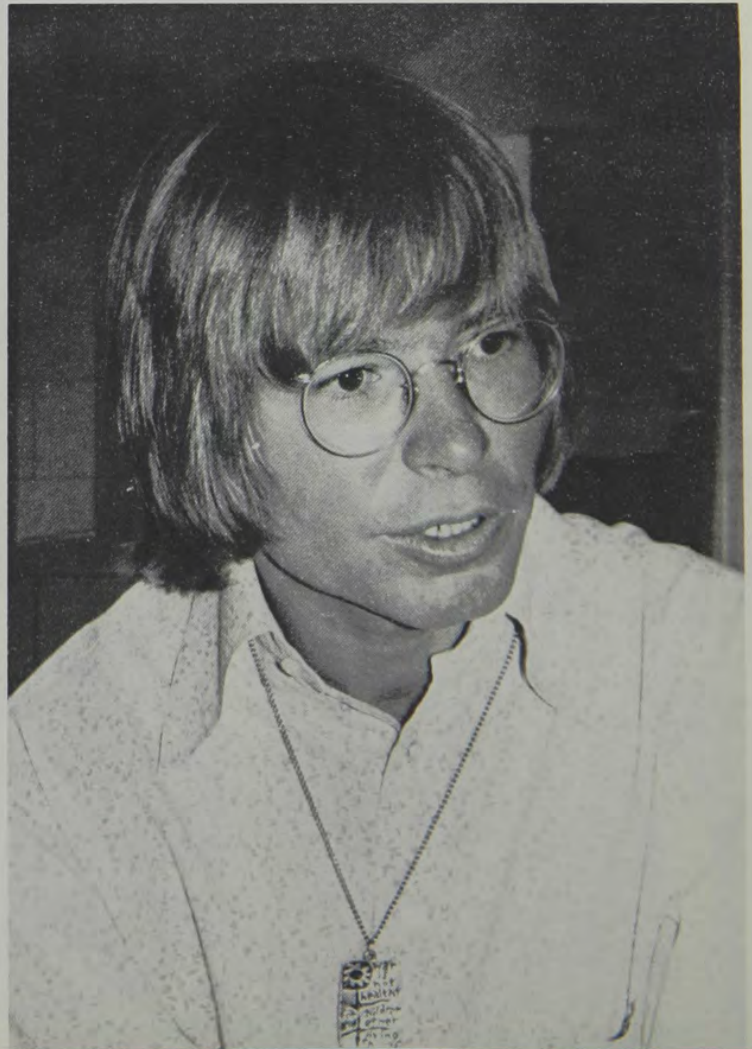

**COMEDY OF ERRORS**

## John Denver

Now that John Denver has five albums under his belt it is easy to see that his designation as one of the most important talent discoveries of 1969 was an acute estimate, and in the intervening time John has proved his staying power. Jocks around the country are spinning Denver more and more to the pleasure of listeners which include most USAFA cadets.

# Chicago

With the release of their sixth album, Chicago is an idea that continues to work. In fact, Chicago is now the biggest American act on the international market. Serving as an umbrella for seven highly accomplished musicians with differing musical tastes, Chicago, in all its forms, works not only for musicians, but for its audience. Between the two stands a mutual mirror, reflecting the band and its listeners. The result is discovery—the reward of creativity.

## 5th Dimension

There are good reasons why the 5th Dimension has become one of the world's most successful and durable singing groups. Rarely have five individually-talented entertainers worked so well together, dedicating themselves to making good music. With their intricate harmonies and swinging beat, the 5th Dimension has captured the loyalties of a vast cross section of the public. They seem destined to stay on top of the music world for quite a while.

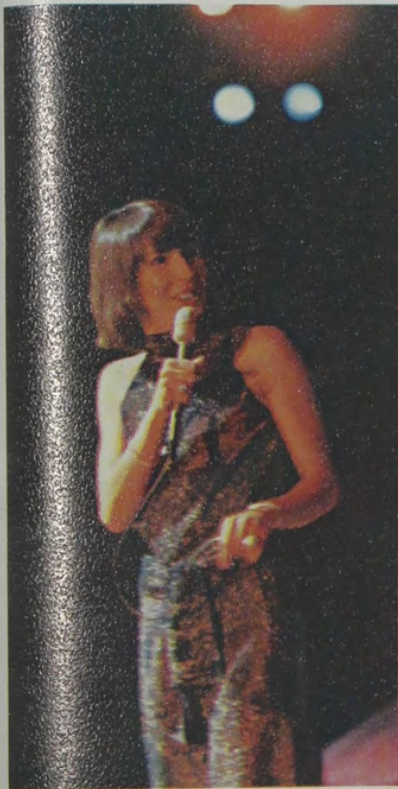

## Roberta Flack

Roberta's sound has a rich black texture. This is also evident in her own piano playing which skillfully underlines her vocal stylings. She takes each song and makes it her own. She somehow manages to achieve the evocative emotion of blues without being a blues singer. She has a style that we will be hearing a great deal of—and did, at USAFA 1974.

# Helen Reddy

An impressive Australian singer, Helen can handle all of the divergent musical styles which producer Larry Marks has provided her with. Whether she is warbling her way through her Top 40 hit, "I Don't Know How to Love Him," or adding a new dimension to "A Song for You," she is always on top of her performance.

Cadet Bush

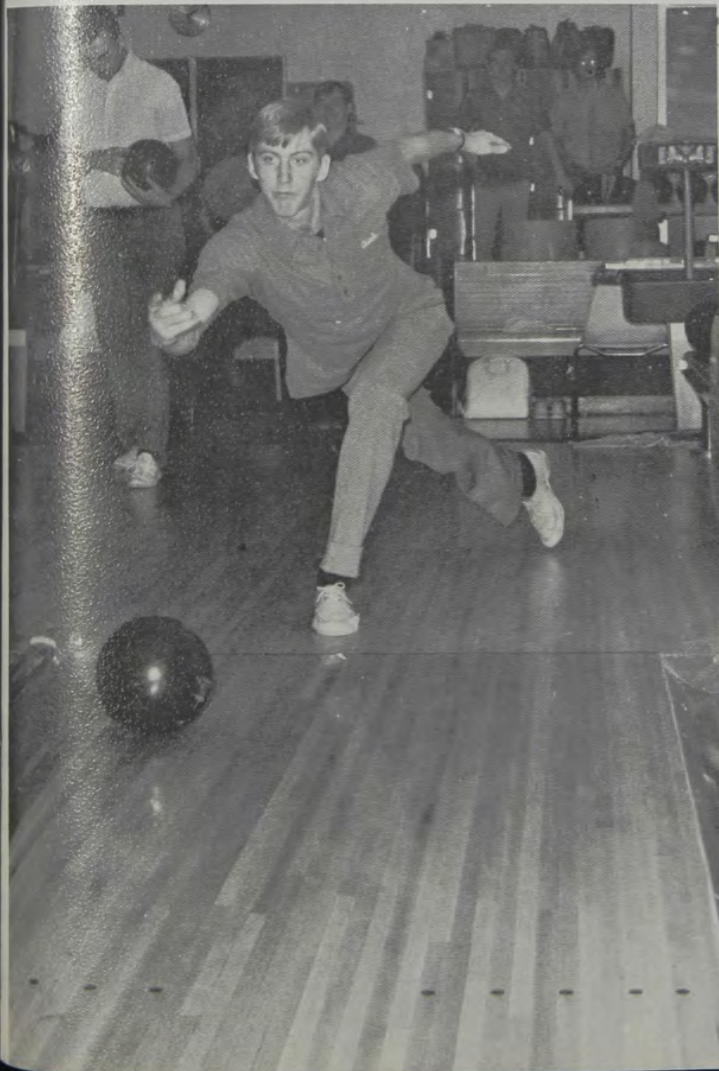

## Aviation Club

The Aviation Club is the cadet branch of the Academy Aero Club which flies out of the base airstrip. The addition of new runways, an operations building, and a fleet of Cessna's have contributed to a growing cadet membership. Members are also provided the opportunity to join the Cadet Flying Team which participates in regional and national meets.

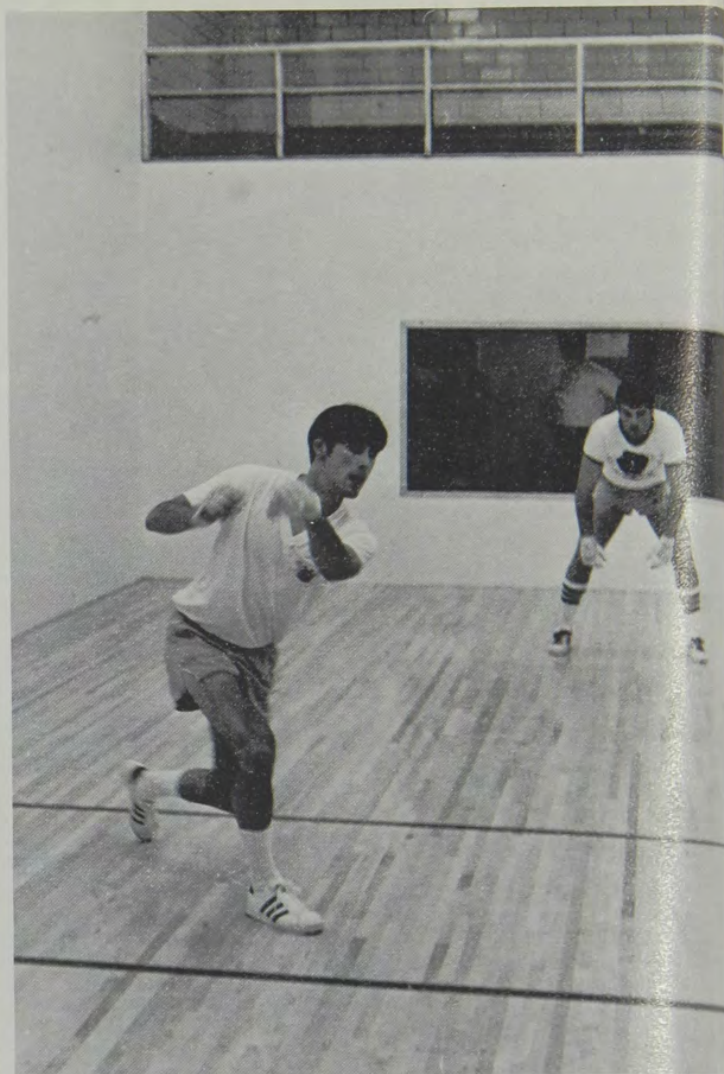

## Bowling Club

This was another successful year for the Academy Bowling Team. The team took fourth at the ACU-I Regionals held in New Mexico and missed first in the Rocky Mountain Collegiate Bowling Conference by only a half game.

## Handball Club

The Handball team finished fifth in the National Intercollegiate Handball Tournament in which the club's doubles team took third place. It was the first time the entire five-man team was sent to national competition.

## Squash Club

The Academy Squash Club ended the '73-74 season with an impressive 9-2-2 record. In this fast-moving game, the team achieved lopsided victories over Colorado College and the Denver Raquet Club.

## Judo/Karate

Confidence, patience, awareness, self-control, and self-discipline are the benefits of these martial arts. Long hours of practice and hard work resulted in victories at West Point and the Rocky Mountain Collegiate Championships.

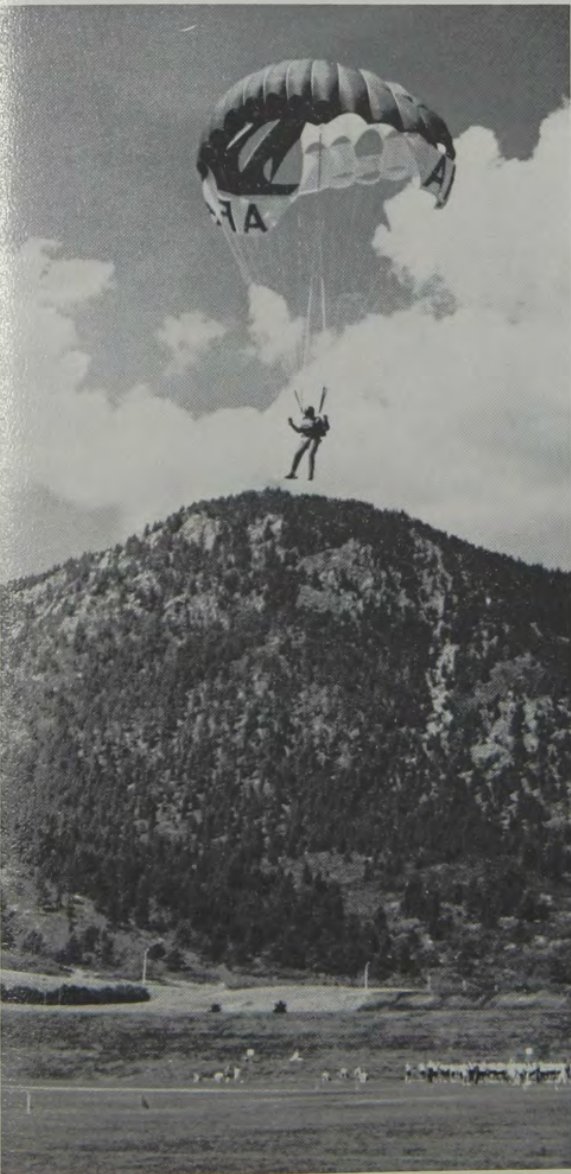

# Parachuting

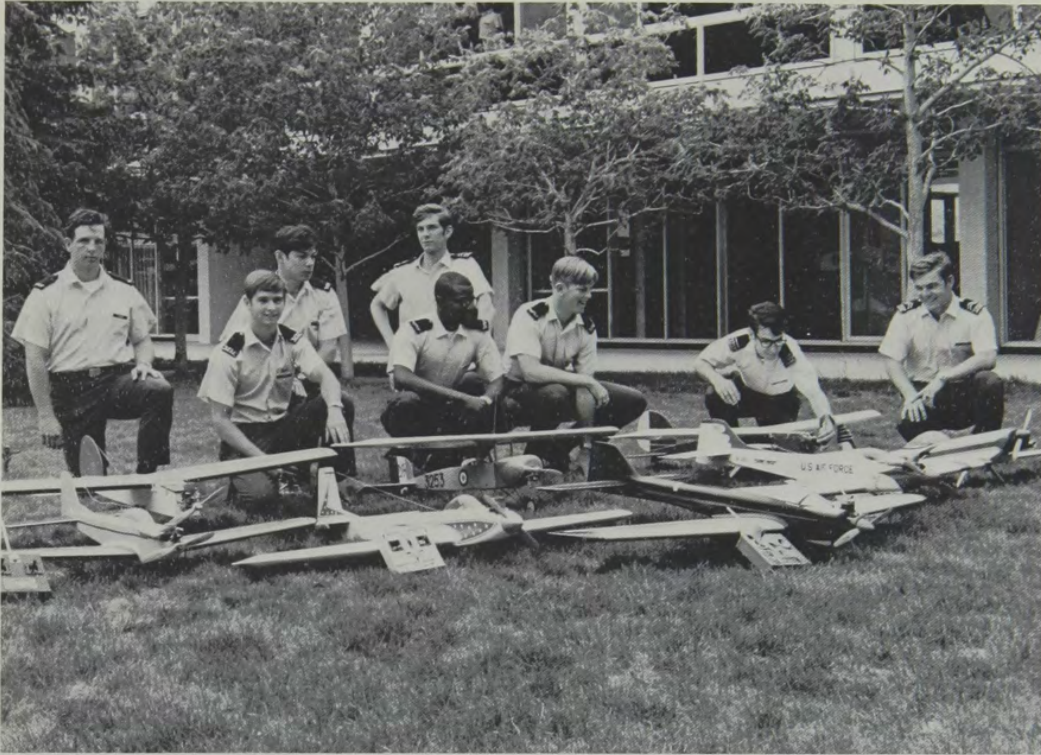

One of the top parachuting teams in the country, this club has won the National Collegiate Championship five of the last six years. This year the team set a collegiate milestone by performing the first eight-man star from one school in formal competition.

## Model Engineering Club

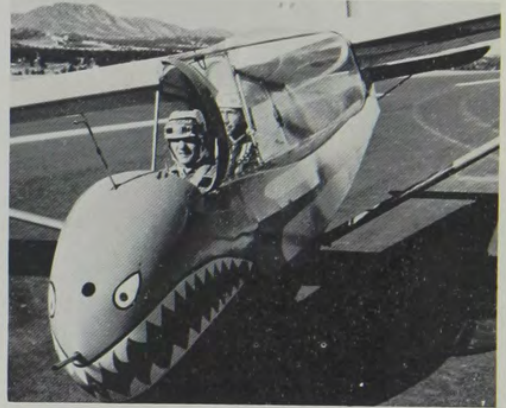

The model club played a big part in morale this year entertaining crowds at football halftime shows and thrilling the wing at noon meal formations.

## Soaring

One of the most popular programs at the Academy, many cadets become instructors and have earned commercial licenses in this "airy" form of flight. Cadet pilots compete nationally in this activity.

# Rugby Club

Champions of the Eastern Rockies Rugby Football Union, the Rugby Club, known to their foes as "Zoomies," continued their winning ways in both matches and parties. In Fall '73, the Ruggers travelled to V.M.I. and the Aspen Ruggerfest. During the Spring they participated in the Monterey Rugby Tournament, the Annual Drunker's Ball, and were also victorious over annual opponent, Royal Air Force, Cranwell.

AIAA

The Cadet branch of the American Institute of Aeronautics and Astronautics provides education professional and experience, through organized field trips, tours, guest lectures and projects.

AERONAUTICAL  
ENGINEERING

BUT WHAT REALLY SHOOK ME WAS WHEN HE SAID "IF GOD HAD MEANT FOR MAN TO FLY, WE'D HAVE WINGS."

## Astronomy Club

It has been a good year for the Astronomy Club, highlighted by the Comet Kohoutek and a lecture on Black Holes by Captain Schutt of the Physics Department. Some cadets built their own telescopes, which included grinding their own lenses.

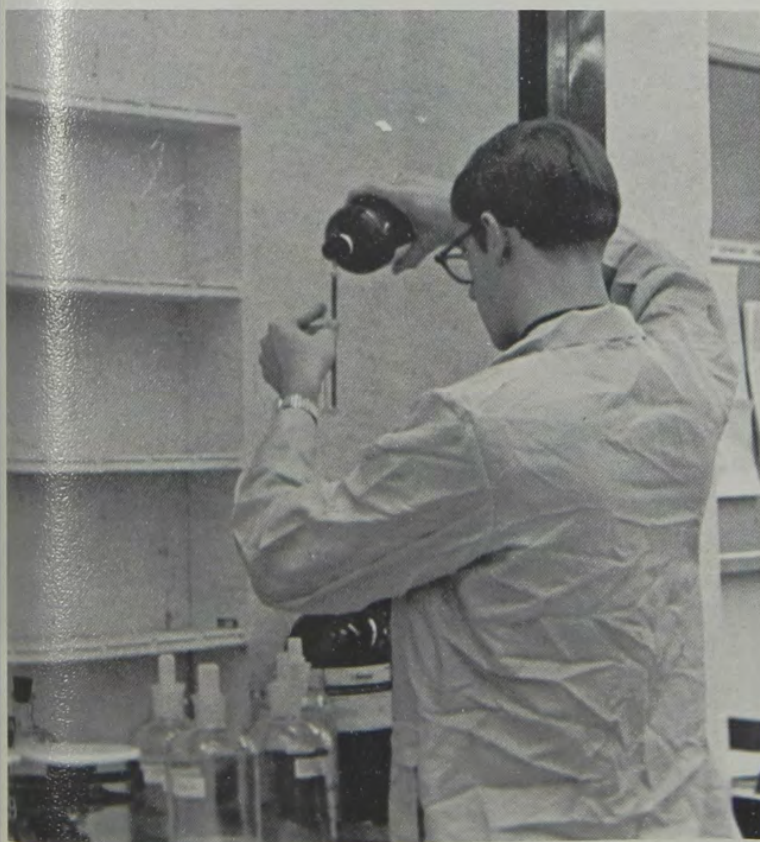

## Biology Club

The Biology Club provides Pre-Med and Life Science majors an opportunity to pursue their interests in the medical profession by attending lectures, social functions and touring local medical facilities.

## Chemistry Club

The Chemistry Club is designed to expand the Cadet's professional interest in organic and inorganic chemistry through lectures, field trips, and symposia.

## Civil Engineering Club

TODAY, GENTLEMEN, YOU WILL RECEIVE YOUR FIRST PRACTICAL EXPERIENCE  
IN CIVIL ENGINEERING!

Civil Engineering Club activities are designed to provide professional exposure to the cadets entering this discipline. The club takes field trips, builds projects, and participates in the Annual Conference of the Rocky Mountain Region of Student Chapters of the American Society of Civil Engineers. The Conference was hosted this year by the Academy Chapter.

# Comp Sci Club

Computer Science majors are able to find many uses for their work through the club, which organizes trips, lectures, and projects.

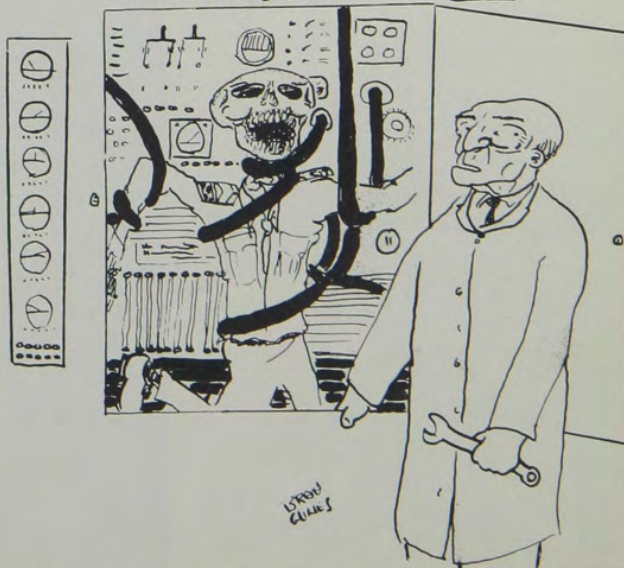

# IEEE

The USAFA IEEE Club provides its members with practical training in electronics, TV maintenance, radio, and space sciences. The adjoining photo shows a laser experiment.

**DANGER — HIGH VOLTAGE — IN  
CASE OF EMERGENCY CONTACT  
DEPT OF ELECTRICAL ENGINEERING.**

**DO NOT OPEN  
AUTHORIZED PERSONAL ONLY**

HEY RALPH! I THINK I'VE FINALLY FOUND THE PROBLEM

## Fine Arts Club

The Fine Arts Club increased cadets' exposure to the finer arts, whether it be classical or popular music, painting and sculpture or drama. Trips which have ranged from the Denver Symphony to Bob Dylan, allowed time in less rigid, but very creative atmospheres.

## Foreign Language Club

The Language Club participates in several local cultural events such as the Oktoberfest and Siberian Krasnoyarsk dance. Club members have also travelled to Chinatown in San Francisco, Juarez, Mexico, and to the United Nations in N.Y.

Club Officers

Club OICs

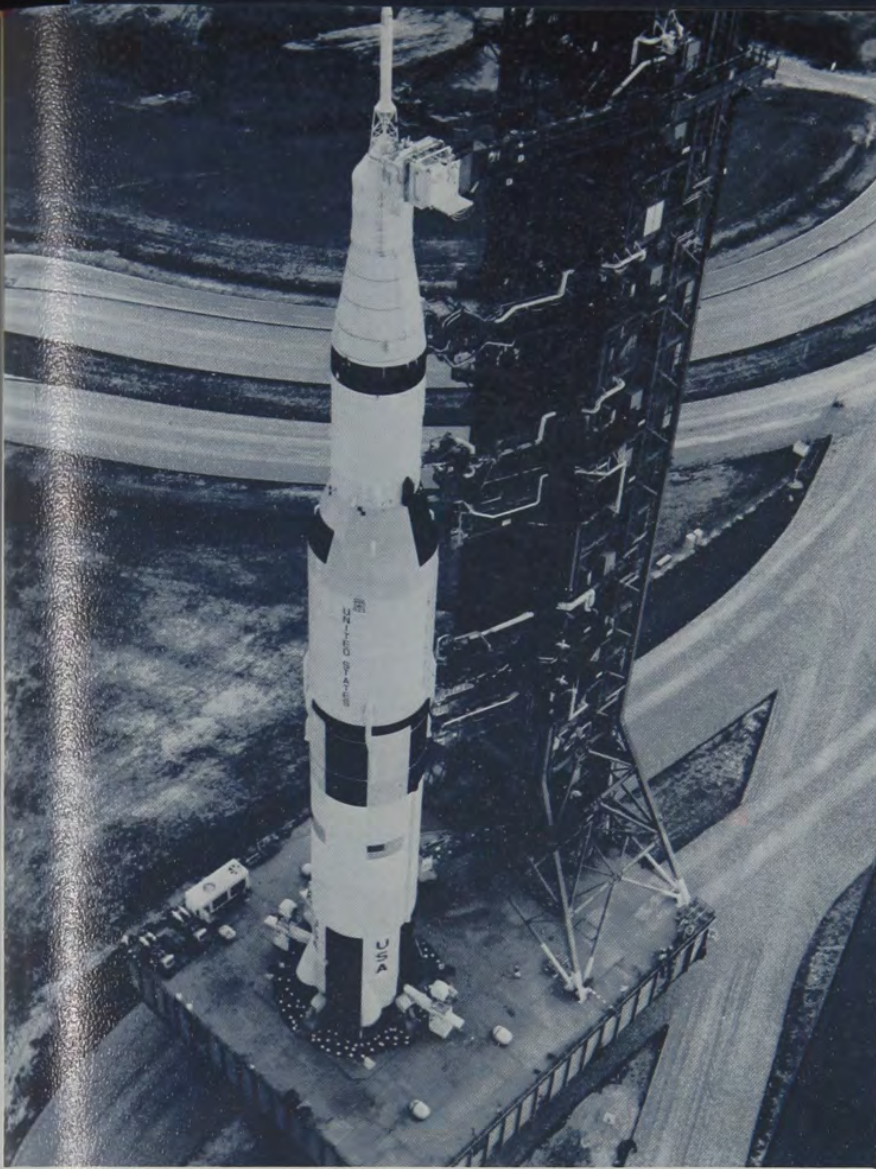

## Forum

The Cadet Forum on Public Affairs is one of the oldest cadet extra-curricular activities at the Academy and is under faculty supervision by the Department of Political Science.

The Forum functions as the focal point of contact outside the classroom for those cadets who have an interest in national and international affairs, and it provides an avenue to pursue and develop further those interests.

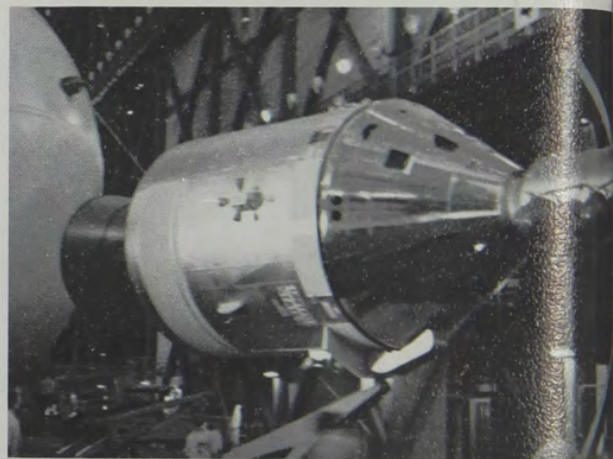

To accomplish its mission, the Forum sponsors two separate speakers programs, the Distinguished Speakers Program and the Forum Speakers Program. It also sponsors an inter-collegiate discussion group program and numerous cadet trips around the country.

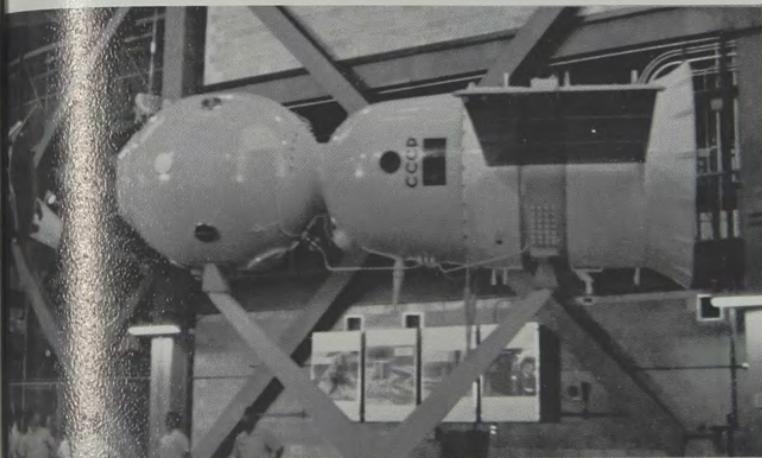

Each year the Cadet Forum on Public Affairs sponsors several distinguished speakers. Past speakers include Sen. Goldwater, Ralph Nader, Bill Russell, and Werner von Braun (pictured below).

# History Club

One of the most active clubs at the Academy, the History Club sponsors movies on Friday afternoons, holds informal dining-ins, and this year toured facilities at the Kennedy Space Center.

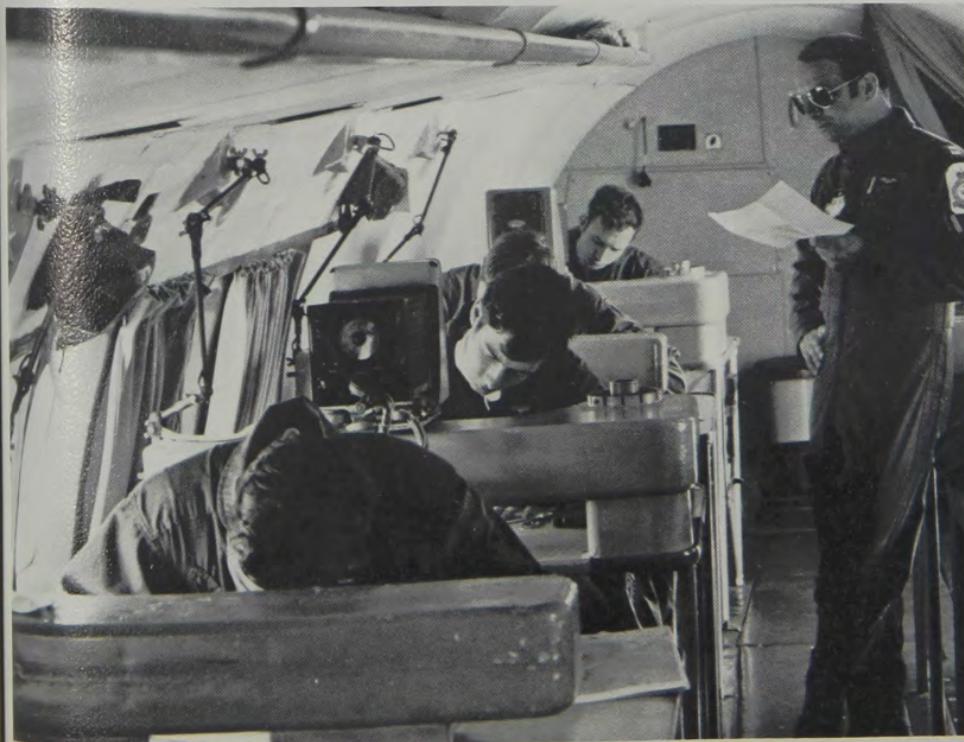

## Navigation Club

Cadets in the Navigation Club get practical experience in flying missions. They use celestial, dead-reckoning, map-reading, and radar navigation techniques similar to those employed by the U.S. Air Force in actual missions.

# Physics Club

The primary goal of the Physics Club has been to observe and participate in practical applications of physics through exchange programs with other universities, guest speakers, and films.

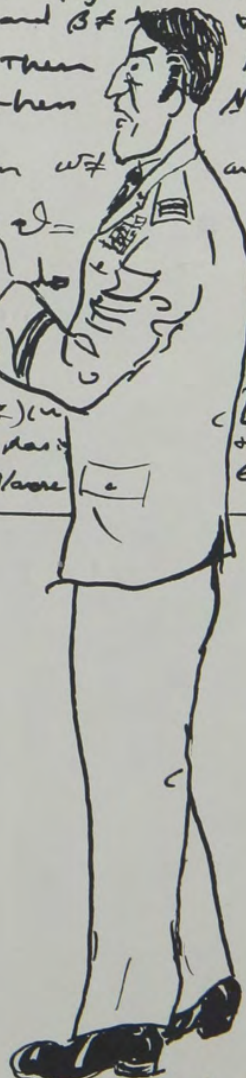

$$f(x) = \frac{d}{dx} \left( \frac{d}{dx} \right) y = \frac{d^2}{dx^2} f(x) = \sum e^{ax} = [(7 + (\frac{1}{1000})^2) (\lambda \beta \omega)] -$$

$$d \equiv \phi \cos(\omega t) \Omega \cos^2 \theta \sin \theta \sqrt{3} \lambda a^2 / \pi = \omega a \cos \theta$$

$\Rightarrow$  1.  $\omega$  such that  $\theta \neq 0$ , and  $\beta \neq 0$   $\forall \theta \in \text{th}[\pi, \pi/2] \dots$   
 2.  $\lambda \theta = \Delta \cdot d \sqrt{2}$  then  $M = \cos \theta [\tan(\omega a) \eta]$   
 3.  $\lambda \theta \neq \Delta \cdot d \sqrt{2}$  then  $M = \sin \theta [\tan(\omega a) \eta]$

$\therefore$  if  $\lambda \leq \phi \leq \psi$  then  $\omega \neq$  and  $\theta$  will  $\neq \frac{\pi}{2}$   
 $\Rightarrow$  For each  $\theta \in \theta \Rightarrow \theta = \theta$  and  $\sin(\theta) = \sqrt{1 - \cos^2(\theta)}$   
 Therefore  $\theta = \cos^{-1}(\dots)$   
 and  $f(\theta) = \sqrt{\frac{\text{constant}}{e \cos(\theta)}}$   
 $= (\text{gram-met, Newtons/parlay}) \dots$   
 This will result in a unit that  
 $R = MC^2 \Rightarrow F = ma \pm .000 \text{ g/parlay}$

$f(x, t): f(x) = r^2 \sqrt{1 - r^2}$   
 $\theta \text{ var } \pi/4 \text{ rad/sec}^2$   
 $[(\lambda \pm e^{ax}) / \mu] / 9.8 \text{ m/sec}^2$   
 that will result in  
 $e^{ax} - \frac{1}{2} \pi r^2 \neq 1$

WAIT A MINUTE! NO WONDER THIS PROBLEM WON'T WORK OUT. THAT SYMBOL UP THERE ISN'T THE SIGN FOR A DERIVATIVE, IT'S A SPITWAD!

## Psychology Club

The Cadet Psychology Club interacts with other behavioral science students and instructors in order to learn more about the diverse field of psychology. Throughout the school year a variety of functions such as parties, meetings, and field trips are conducted.

## Mechanics Club

Aside from the study of stresses and strains, the highlight of the Club's activities this year was a trip through the Budweiser plant in St. Louis, Mo.

## Big Brothers Club

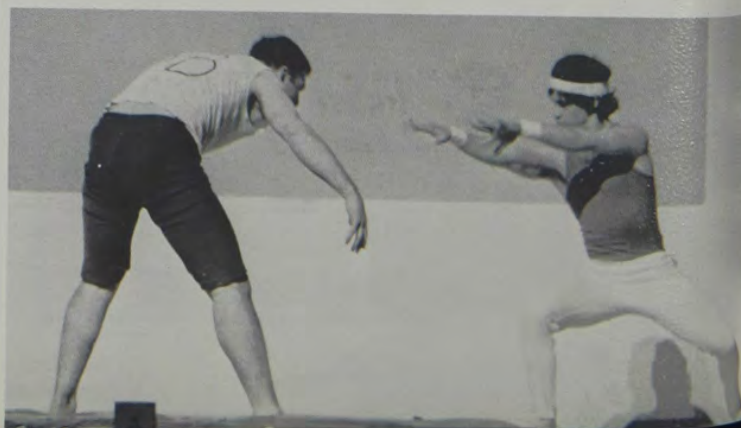

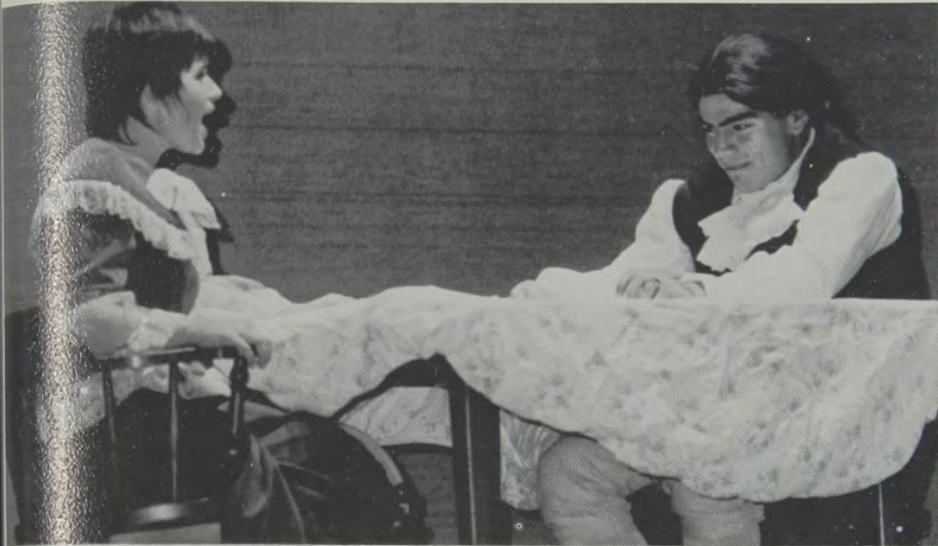

Members of the club act as Big Brothers for fatherless boys in Colorado Springs. The club conducts weekly activities so the Big and Little Brothers can be together. These activities include swimming parties, hikes, and sports.

# Bluebards

The 1973-74 season of the Bluebards Drama Society can easily be called one of the most successful ever. After a '72-73 season of small audience participation, the club responded with an exceptionally strong publicity attack, headed by Cadet Randy James, with outstanding results. The hilarious comedies of **Bang Bang Beirut** and **No Time for Sergeants** not only reflected the professional image for which the club is striving, but met with positive reactions from the Cadet Wing and the public.

# Drum & Bugle Corps

This year the Drum and Bugle Corps performed for both regional and national television. The Corps also travelled to parades in San Antonio, Texas and Sacramento, California. In Denver's St. Patrick's Day Parade, the Corps placed first in competition.

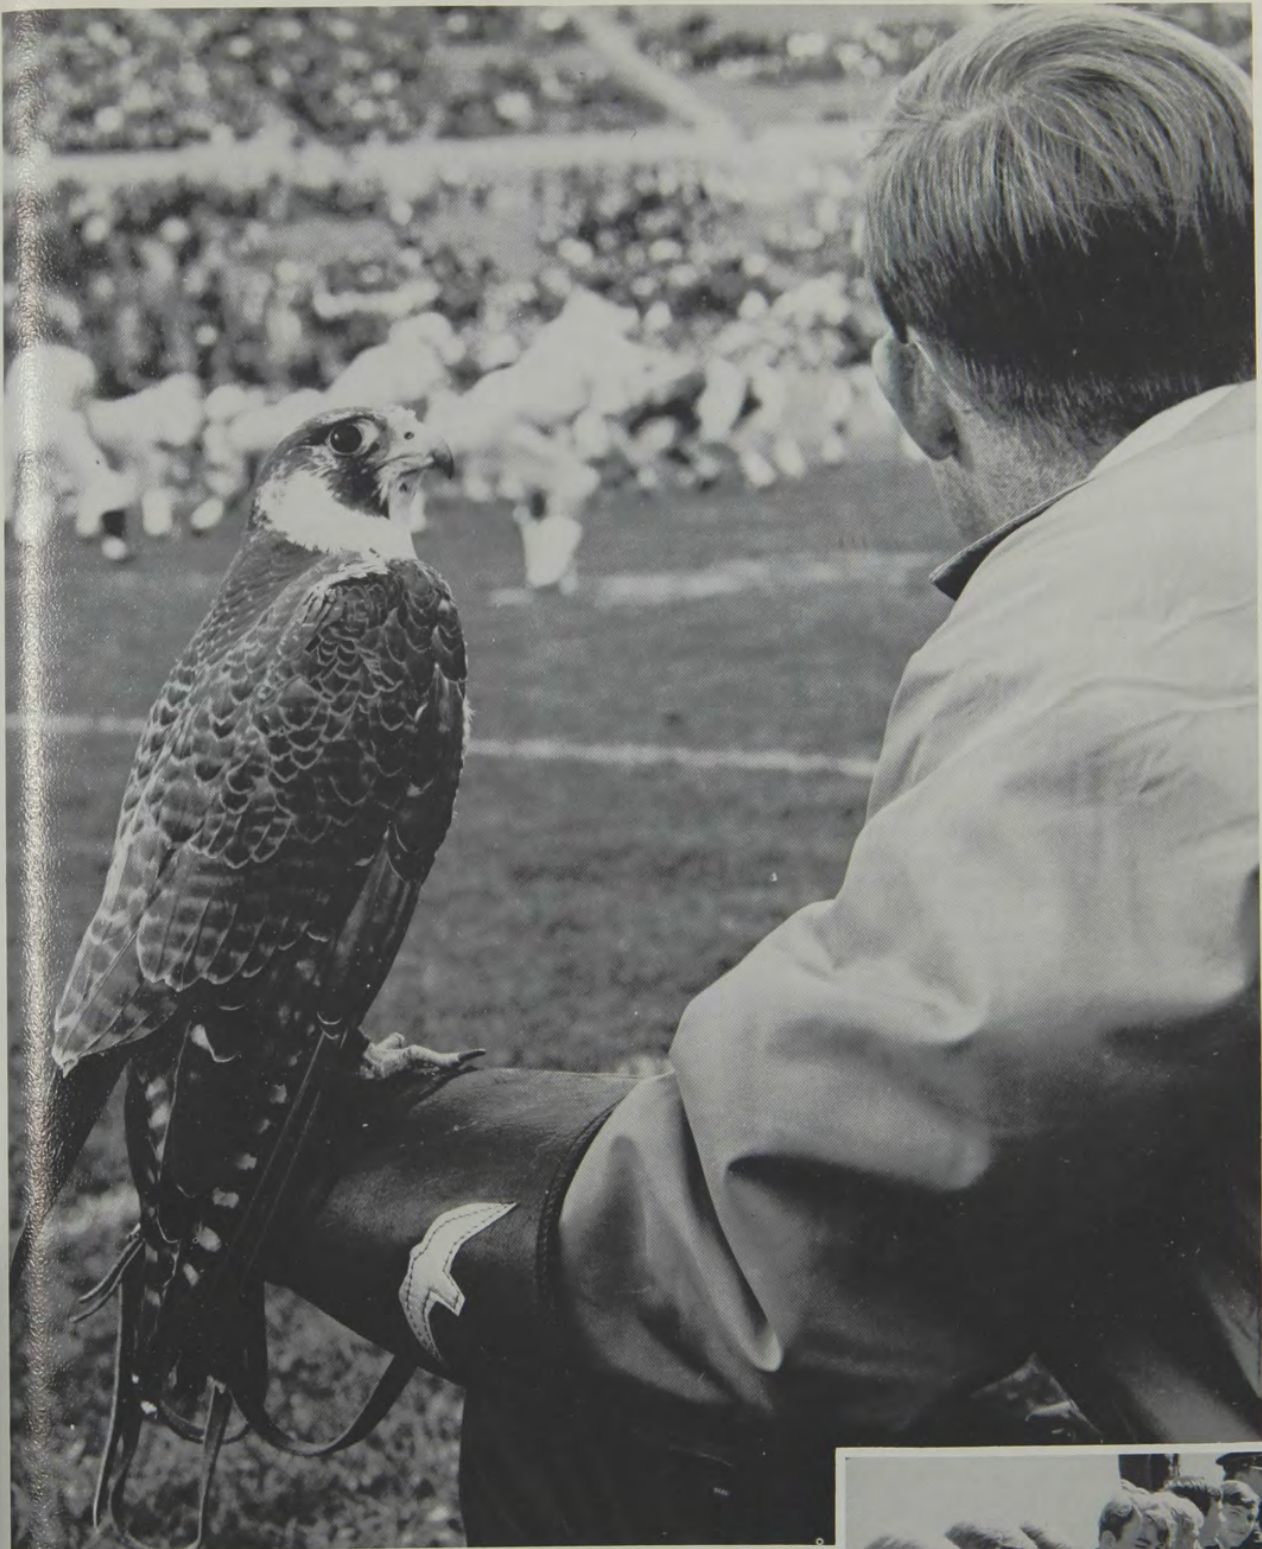

## Falconers

The Cadet Falconers provide and train the Academy Mascot-the Falcon. These cadets bring the falcons to sports events such as home football games and reflect Academy spirit in other areas where the Wing is represented. The Cadet Falconers also aid the Office of Information by providing the falcons for public appearances. This year the falconers had another successful year keeping the birds flying at home and away games.

## Photography Club

The Photography Club maintains facilities for cadets to develop their skills in picture taking. Cadets learn to process both color and black and white photographs and can improve their printing techniques.

## CAFPOW

CAFPOW members have been working with families of servicemen who have lost their lives in SEA. Cadets and these families participate in ski trips, picnics, campouts, and sports events. The families always have fun and the cadets are rewarded with the feeling of having a second family in the Springs.

## Amateur Radio Club

The Cadet Amateur Radio Club provides facilities for cadets desiring to participate in two-way communications throughout the world. Equipment is available for amateur radio communications, as well as building and testing projects. The Radio Club provides a practical outlet for knowledge gained in several electrical engineering courses.

## Autosports

Autosports Club is a recreational and educational club. Its members spend many hours taking apart their cars and putting them back together!

## Hunting Club

The Cadet Hunting Club provides opportunities for the members to travel and participate in nearly all forms of hunting in one of nature's most beautiful settings.

## Saddle Club

The Saddle Club allows cadets to ride here at the Academy. This club is a favorite among underclassmen.

## Mountaineering Club

The Mountaineering Club has come a long way in the last few years. With new equipment, they held schools in winter mountaineering, basic and advanced rock climbing.

# Ballooning Club

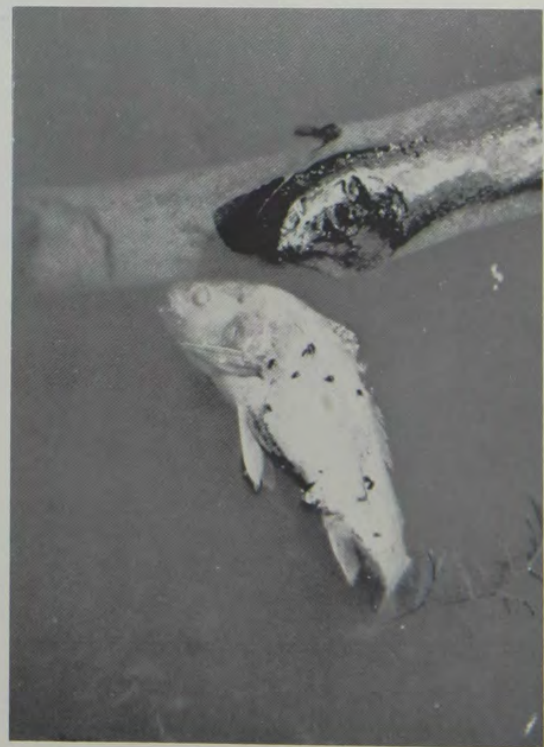

The Hot Air Balloon Club expanded in its first full year of operation. The club conducts instruction in hot air ballooning and can be seen in the air above the Academy grounds on most Sunday mornings. The club plans to attend the National Hot Air Balloon Championships this summer.

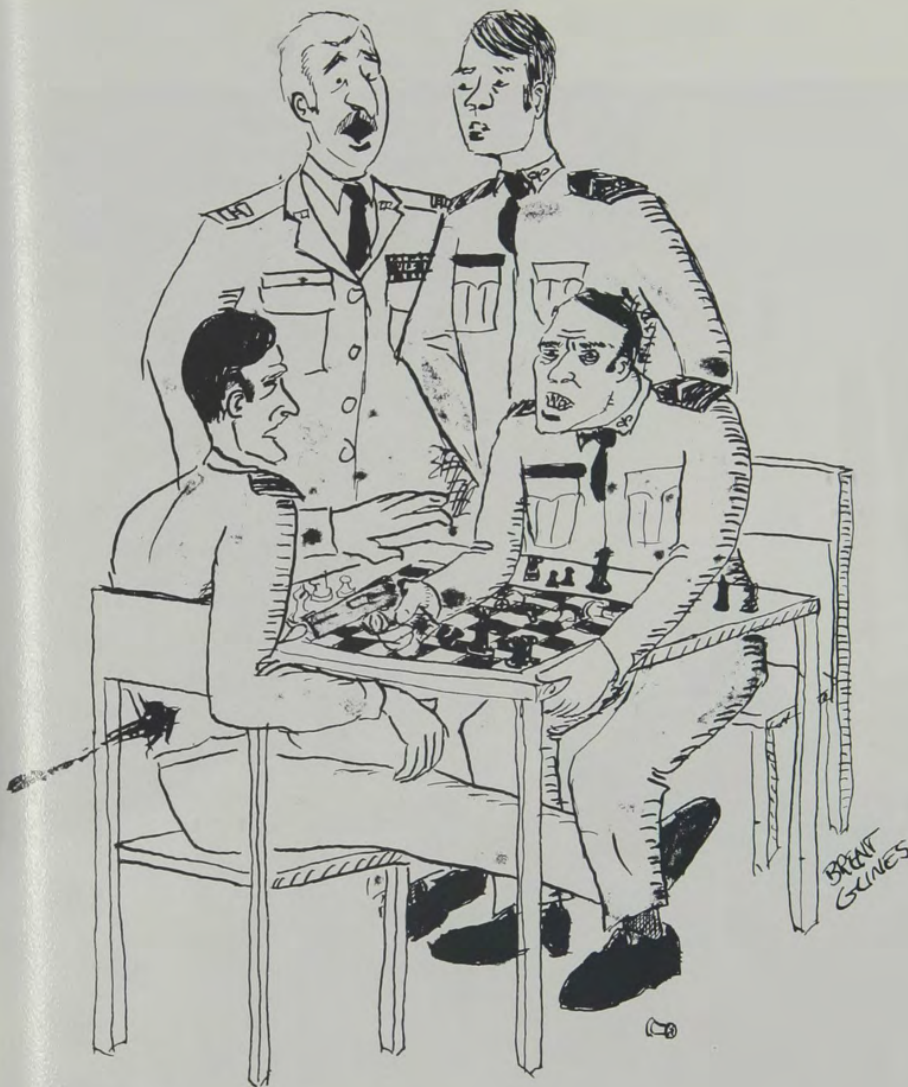

## Ecology Club

This club is dedicated to the betterment of the ecology in the Cadet Wing and the local area. Their activities included hanger, newspaper, and tire recycling in community Projects Scope and Scar. In addition old uniforms are contributed and refurbished, and parts of the mountains are beautified.

## Chess Club

FENWICK ALWAYS WAS A POOR LOSER!

Newly formed in 1973, the Chess Club is an affiliate of 2 national organizations—the U.S. Chess Federation and Intercollegiate Chess League of America. The club participates in local tournaments.

## Military Science Club

In its third year of existence, the Military Science Club has established itself as a viable cadet organization. Concerned primarily with military history and its study through the use of conflict simulation, the club includes some 35 cadets and two officer participants. Events of the year were highlighted by Fall and Spring War Game tournaments. Prizes were awarded to the top competitors.

# Ski Club

Probably the most popular extracurricular activity at USAFA, the Ski Club provided a ski day for over 300 cadets each winter weekend. Almost all the major Colorado slopes were targets for the Ski Club bus convoys.

# Air Force Battles Back, Shades Oregon 24-17

The Falcons opened the season against Oregon by outlasting the Ducks in a regionally televised game at Falcon Stadium. A young, untested defense proved itself in the fourth quarter recovering a fumble late in the game which was converted into the winning touchdown. Long bombs by Oregon, controversial calls, and a 20 M.P.H. wind failed to dull Air Force's composure as an emotionally charged squad rallied past Oregon.

DUCK KILLERS

FARR  
BREADY

DE HAR  
HAZEN

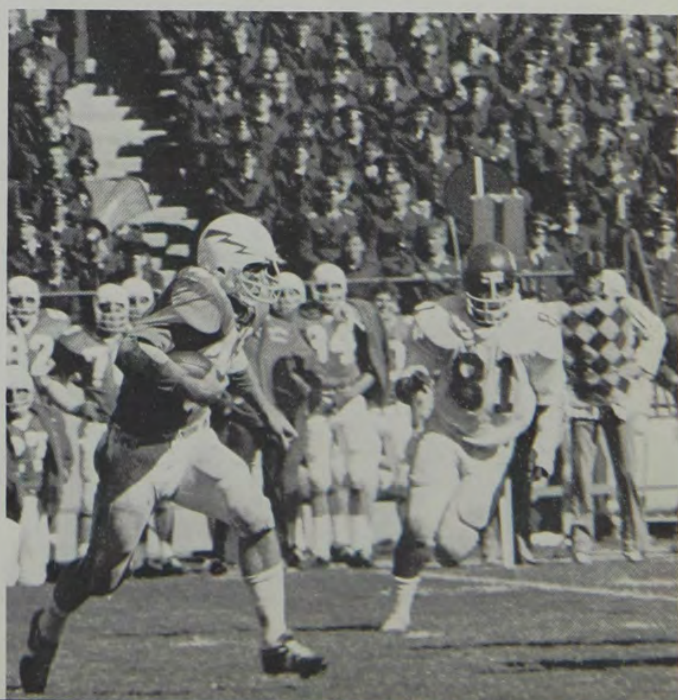

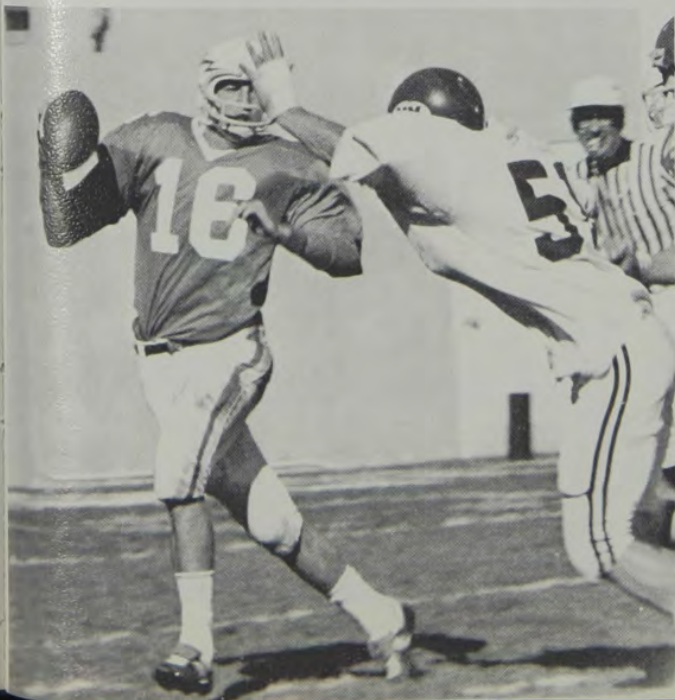

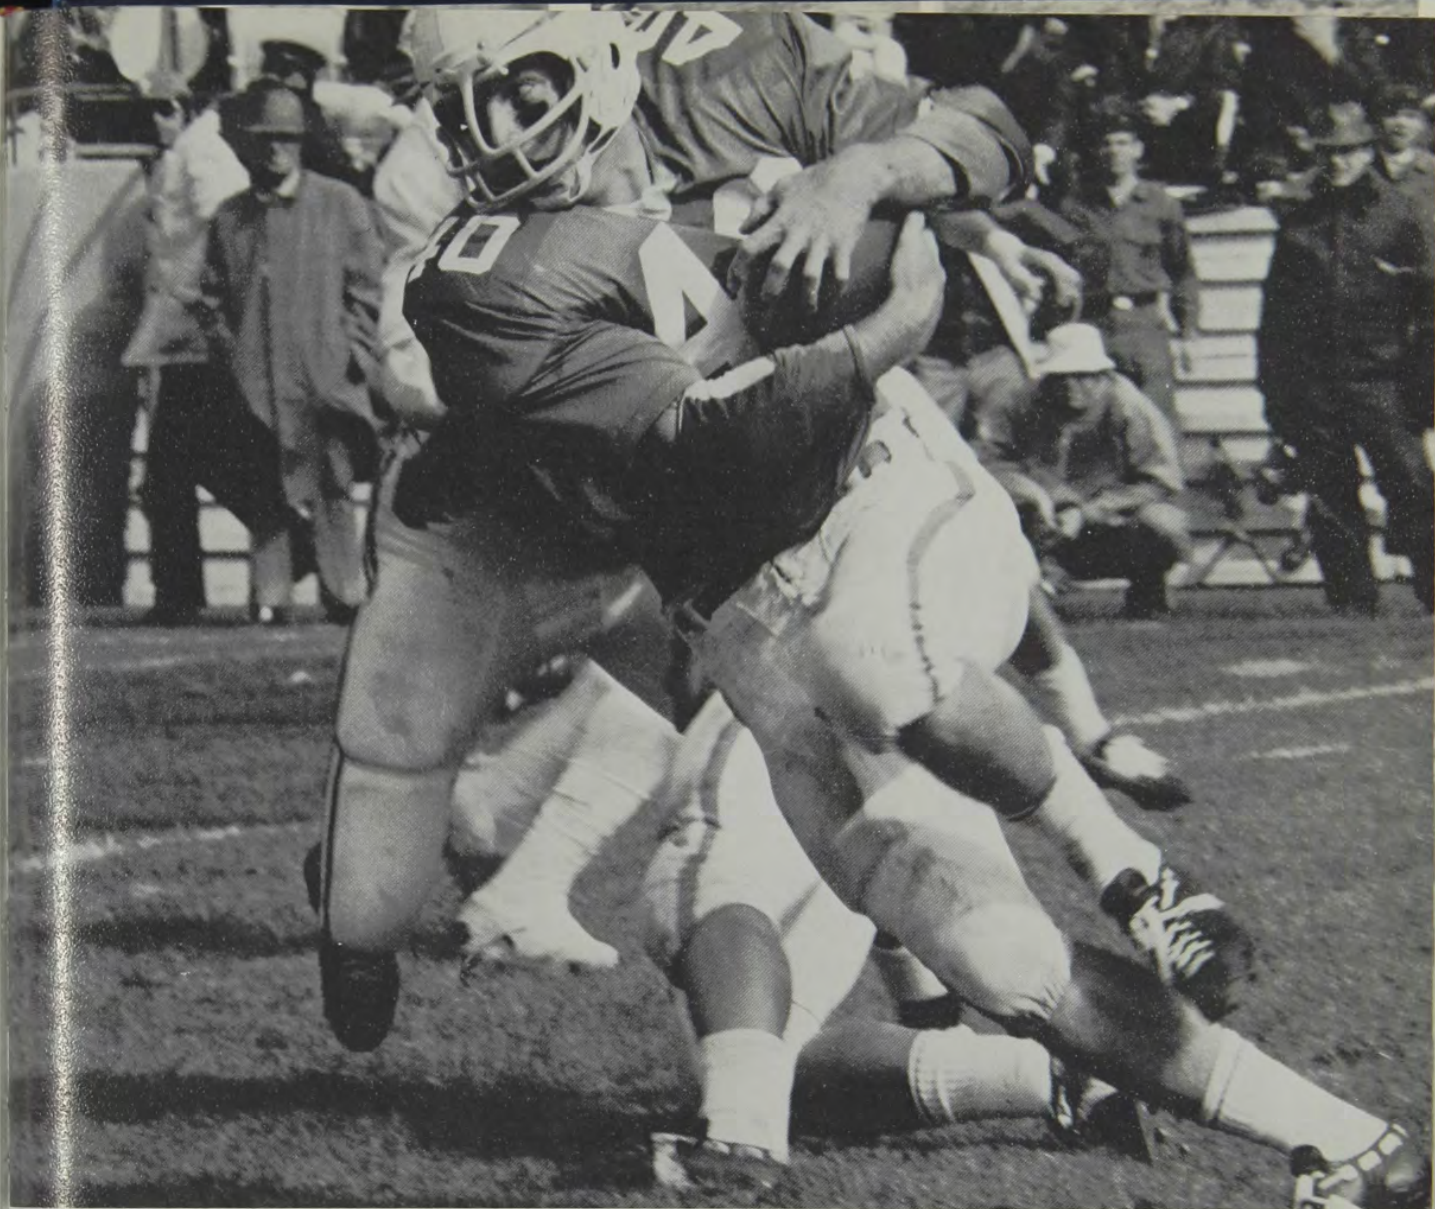

## Falcons Hold Off New Mexico 10-6

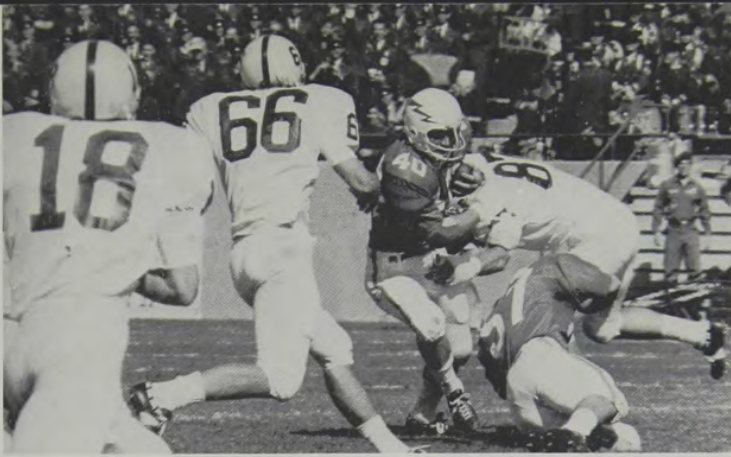

Stymied and frustrated by a tough Lobo defense, Air Force managed to hold on to a slight halftime lead. Unable to generate much of a passing attack, the Falcons depended on ball control and defense. A Dad's-day crowd of 34,000 watched an underrated New Mexico squad better the Falcons in offensive yardage. But the final minutes saw the Lobos fall short of scoring on successive penalties for a forward lateral and offensive interference. The difference proved to be the kicking of Sophomore Dave Lawson.

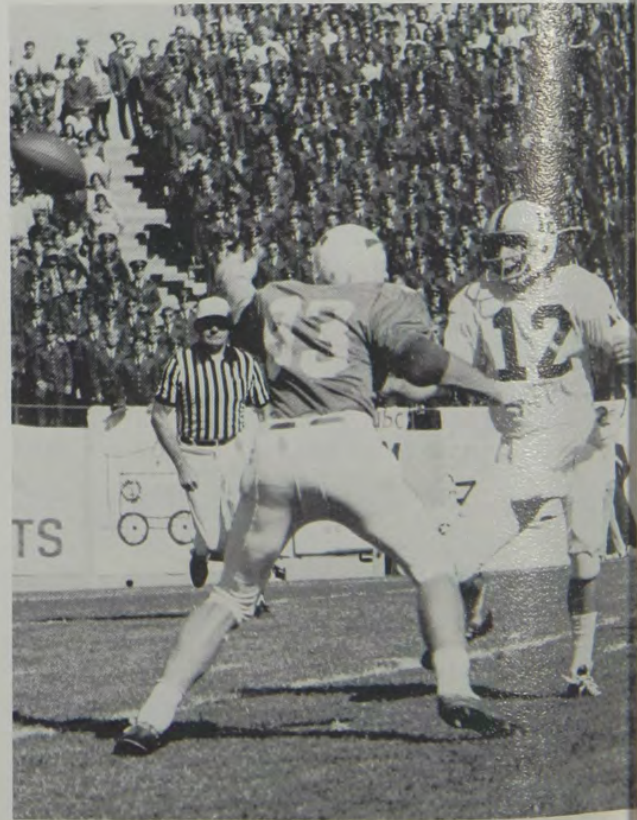

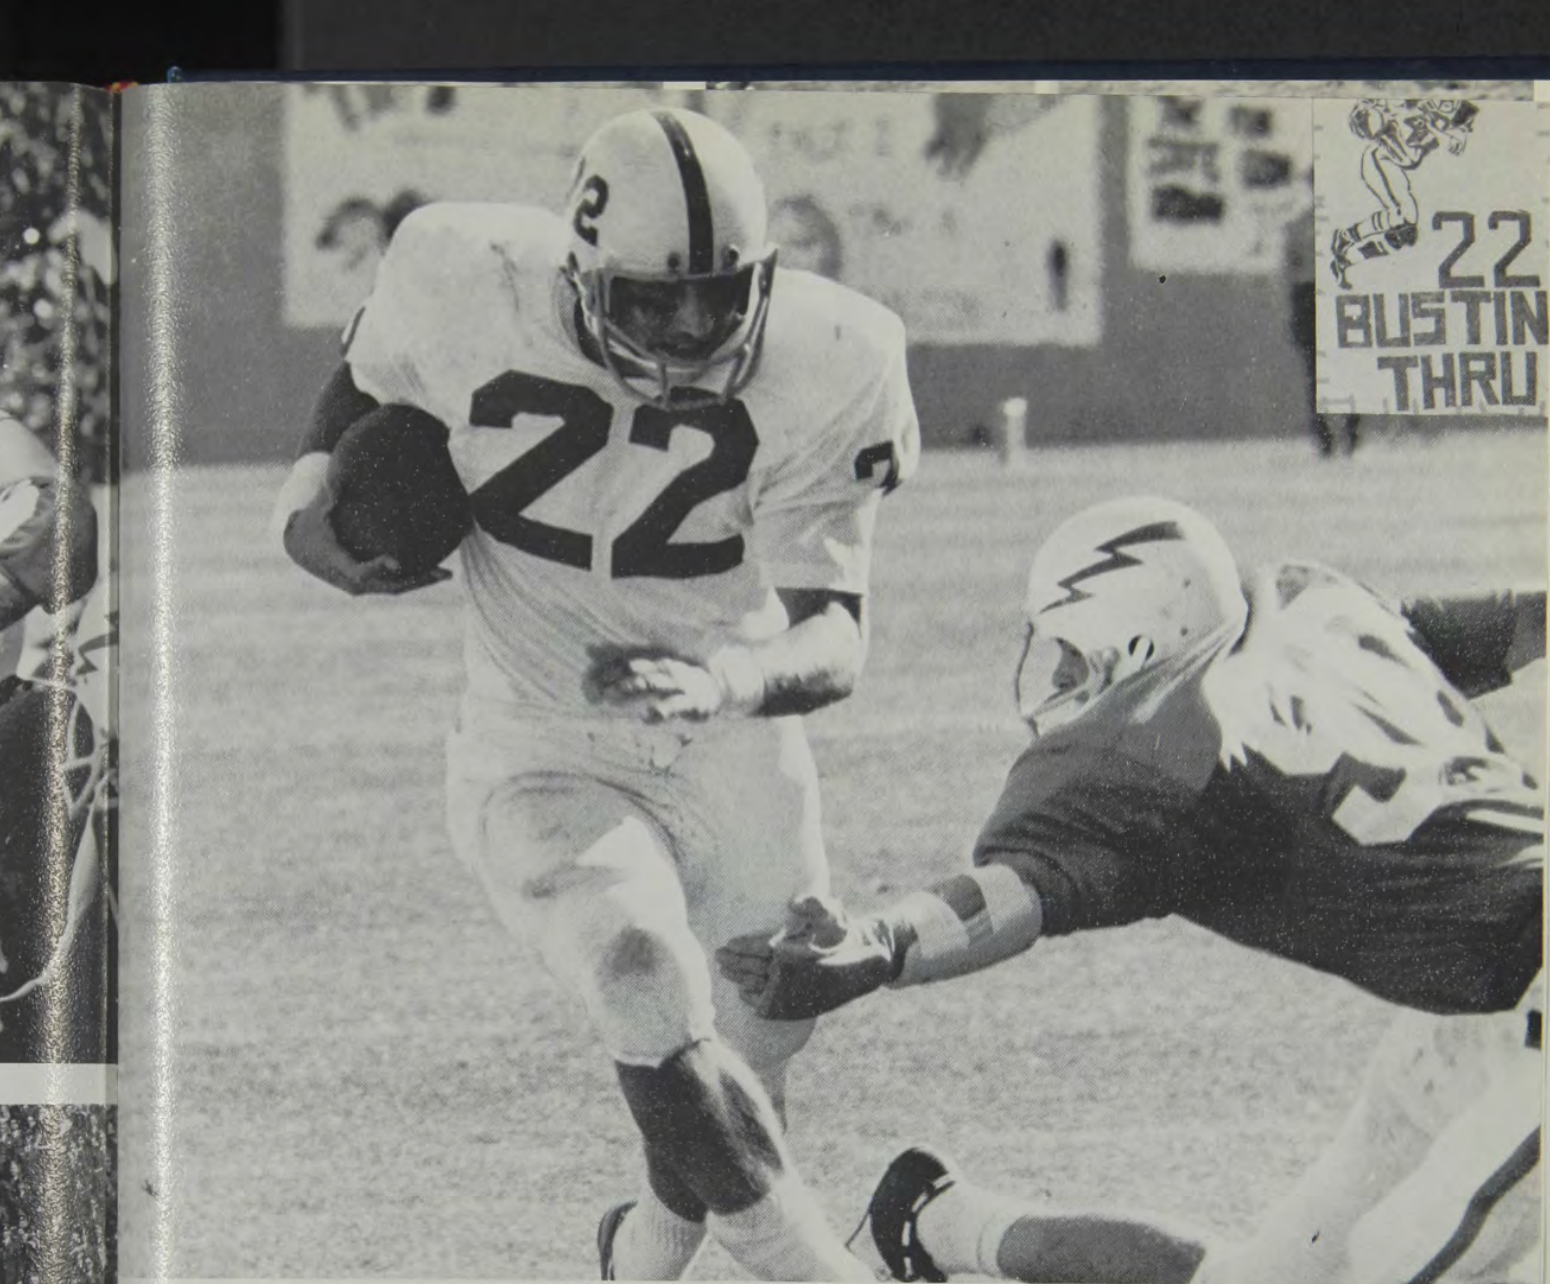

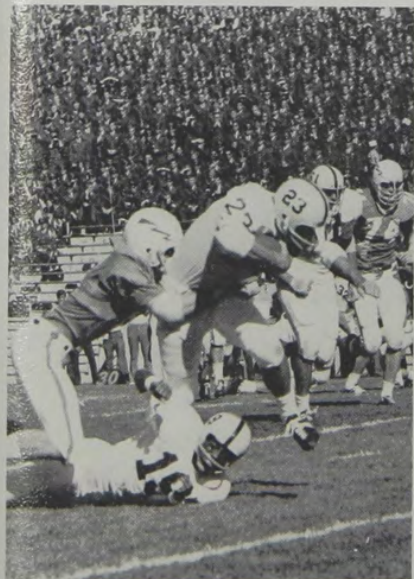

## Cappelletti And Company Clip AF Cadets 19-9

Powerful Penn State was tested by a determined Falcon effort in which Heisman Trophy winner John Cappelletti punished Falcon tacklers throughout the day. A sellout Homecoming crowd saw Air Force explode with a well-balanced attack against a heavier, faster Nittany Lion team which persisted in its control of the game. Quarterback Rich Haynie completed 50% of his passes for 223 yards and tailback Chris Milodragovich was the leading Falcon ballcarrier for the second straight week. During this game, Rod Hennek injured his right knee and was lost for the season.

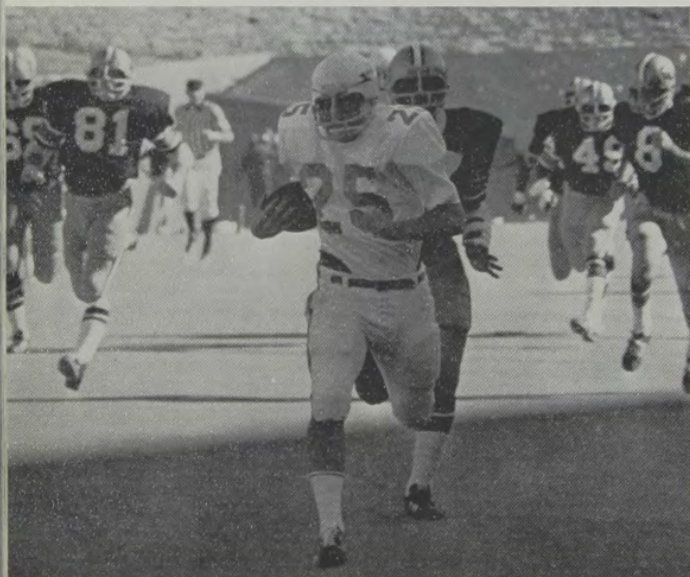

22  
BUSTIN  
THRU

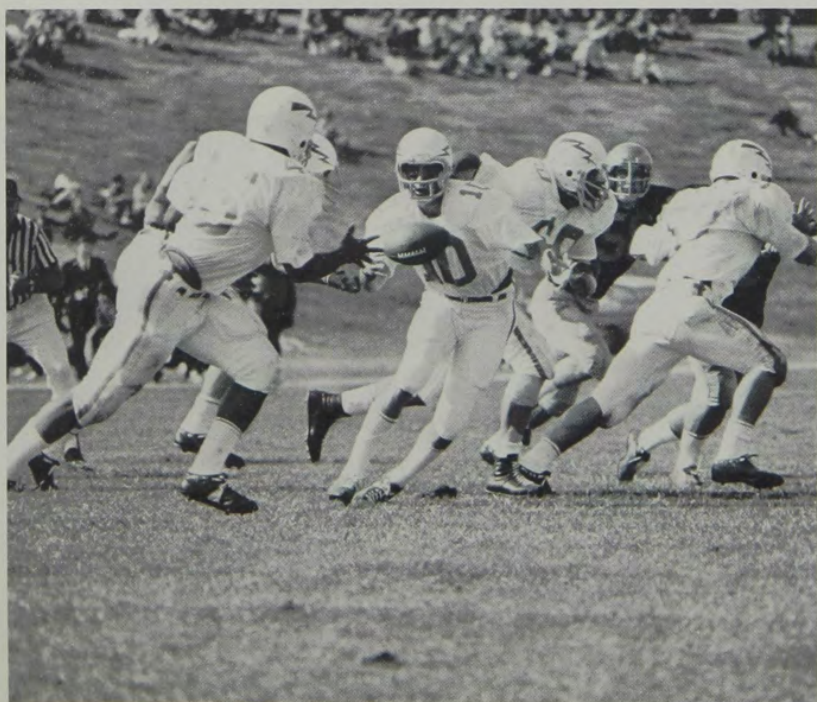

# Colorado Continues To Dominate Falcons 38-17

A fired-up and physical Colorado team evened Air Force's record at 2-2 in a one-sided game at Boulder. Air Force freshmen had a good day against the Buffs as tailback Dave Reiner gained 98 yards on six carries, including a 69-yard touchdown run in the fourth quarter. Senior split-end Greg Smith dislocated his shoulder as CU dominated most of the way. Next year's game at Falcon Stadium will be the end of the CU-AF series for several seasons.

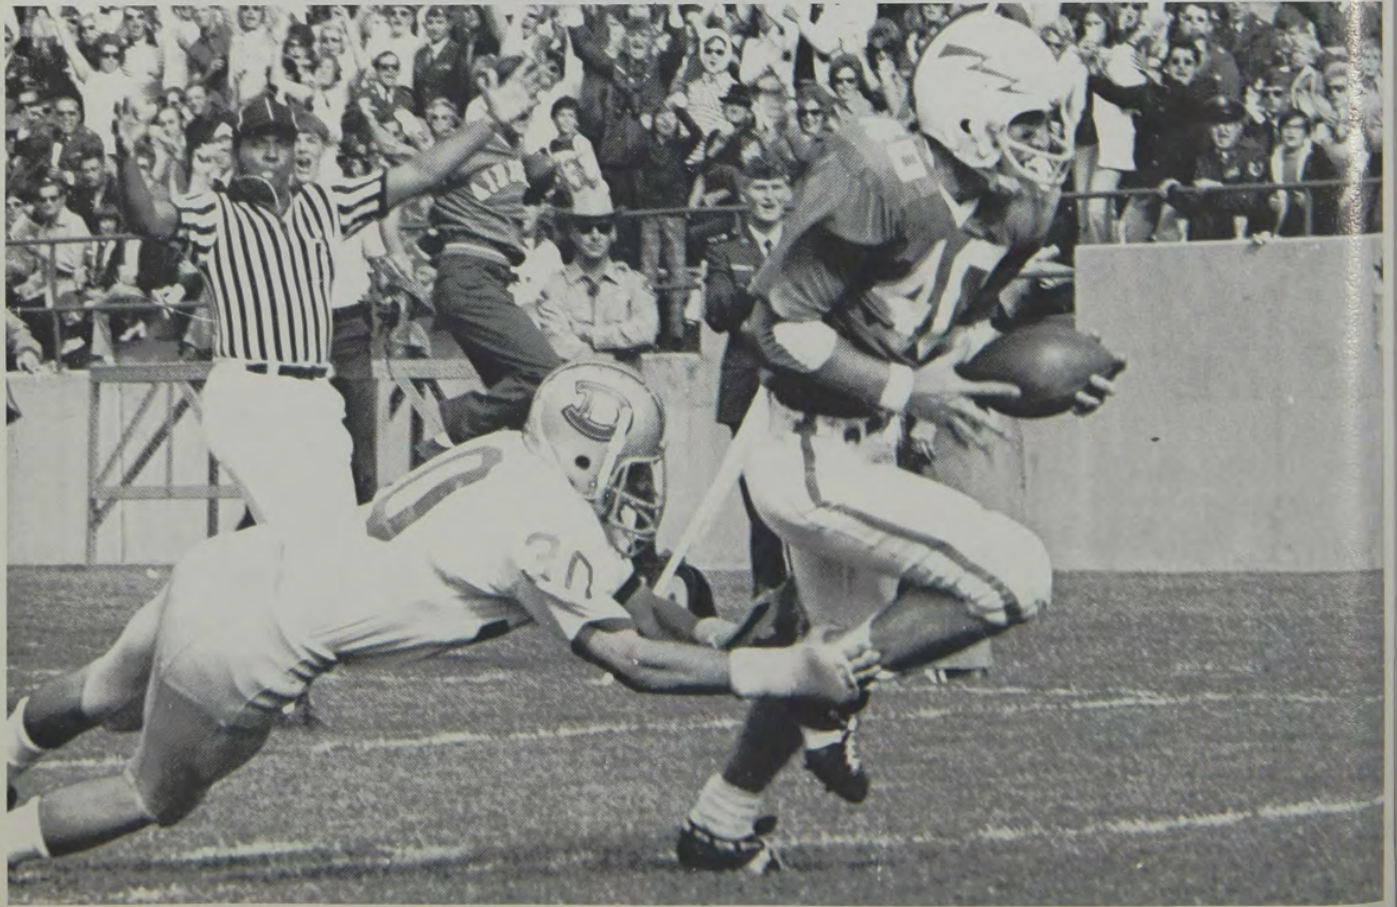

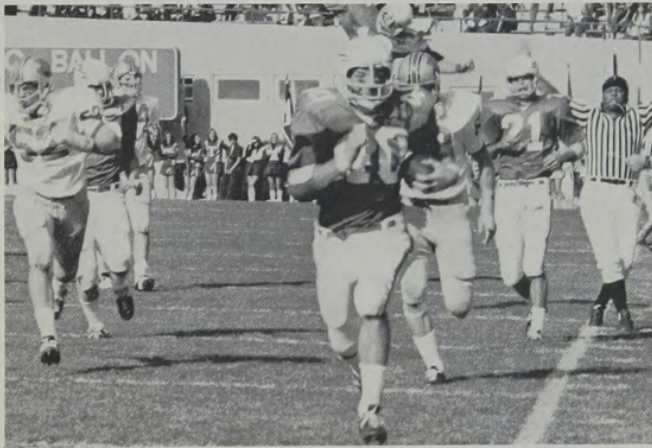

## Navy Evens Series With Air Force In 42-6 Rout

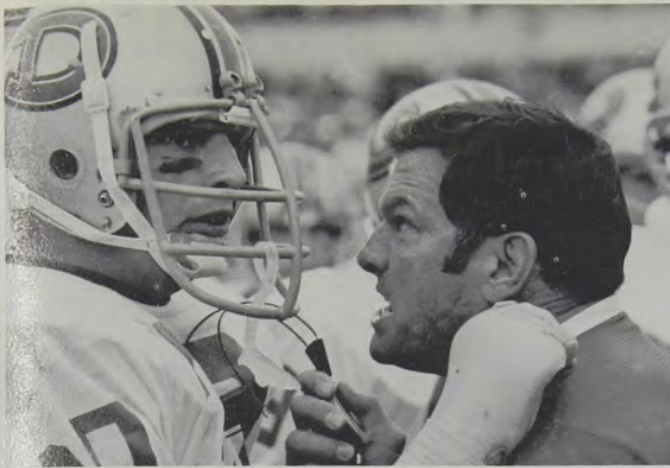

It was all Navy at Annapolis. The Falcons fell behind at the half 28-0 in a game that saw Navy play some of its best football of the last decade. Air Force picked up only 224 yards as the defense spent many minutes on the playing field. Safety Steve Heil and rover Rick McGraw each had 10 tackles pursuing Navy ball carriers in the Falcon secondary. The Mighty Middies went on to win the Commander-in-Chief's Trophy by defeating Army later in the season.

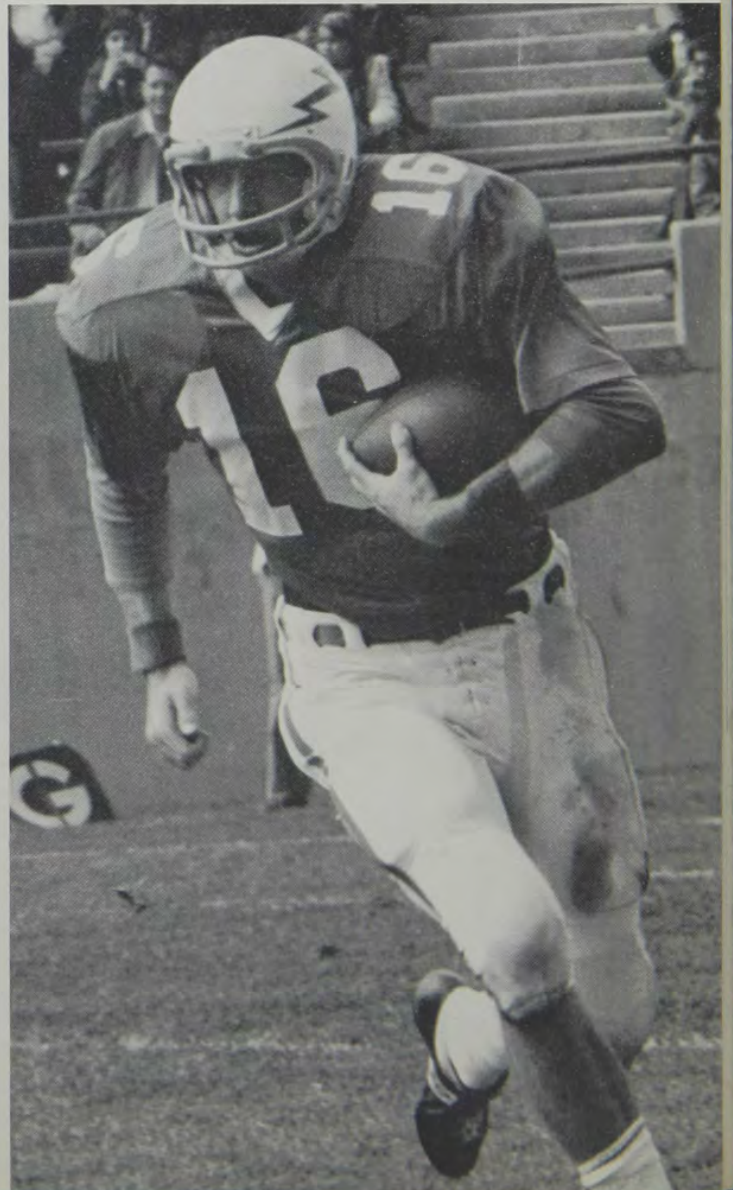

## Offense Rolls, Defense Holds; AF Beats Davidson 41-19

The Falcon offense displayed good balance against Davidson while the defense held the Wildcats to minus 19 yards rushing, a school record. Offensively, quarterback Rich Haynie and tailback Chris Milodragovich had big days. "Milo" gained 179 yards rushing, second best in school history, on 29 carries and scored three touchdowns. Haynie gained 230 yards, including 150 passing, to set Falcon career total offense and passing records.

# Air Force Defeats Army 43-10

In the eighth meeting of these service rivals, Army played Air Force to a 10-10 tie in the first half. However, the Falcons came up with three key pass interceptions, including two for touchdowns, in the second half which broke the game open. Holding the Black Knights to only 82 yards rushing, the Falcon defense was shored up by tackle Terry Young and senior linebacker Jim Morris, both of whom had 10 tackles. Kicker Dave Lawson had a busy day with four of five extra points and three of five field goals including one from 48 yards away. Mike Mark had 74 yards rushing including a 57-yard scamper.

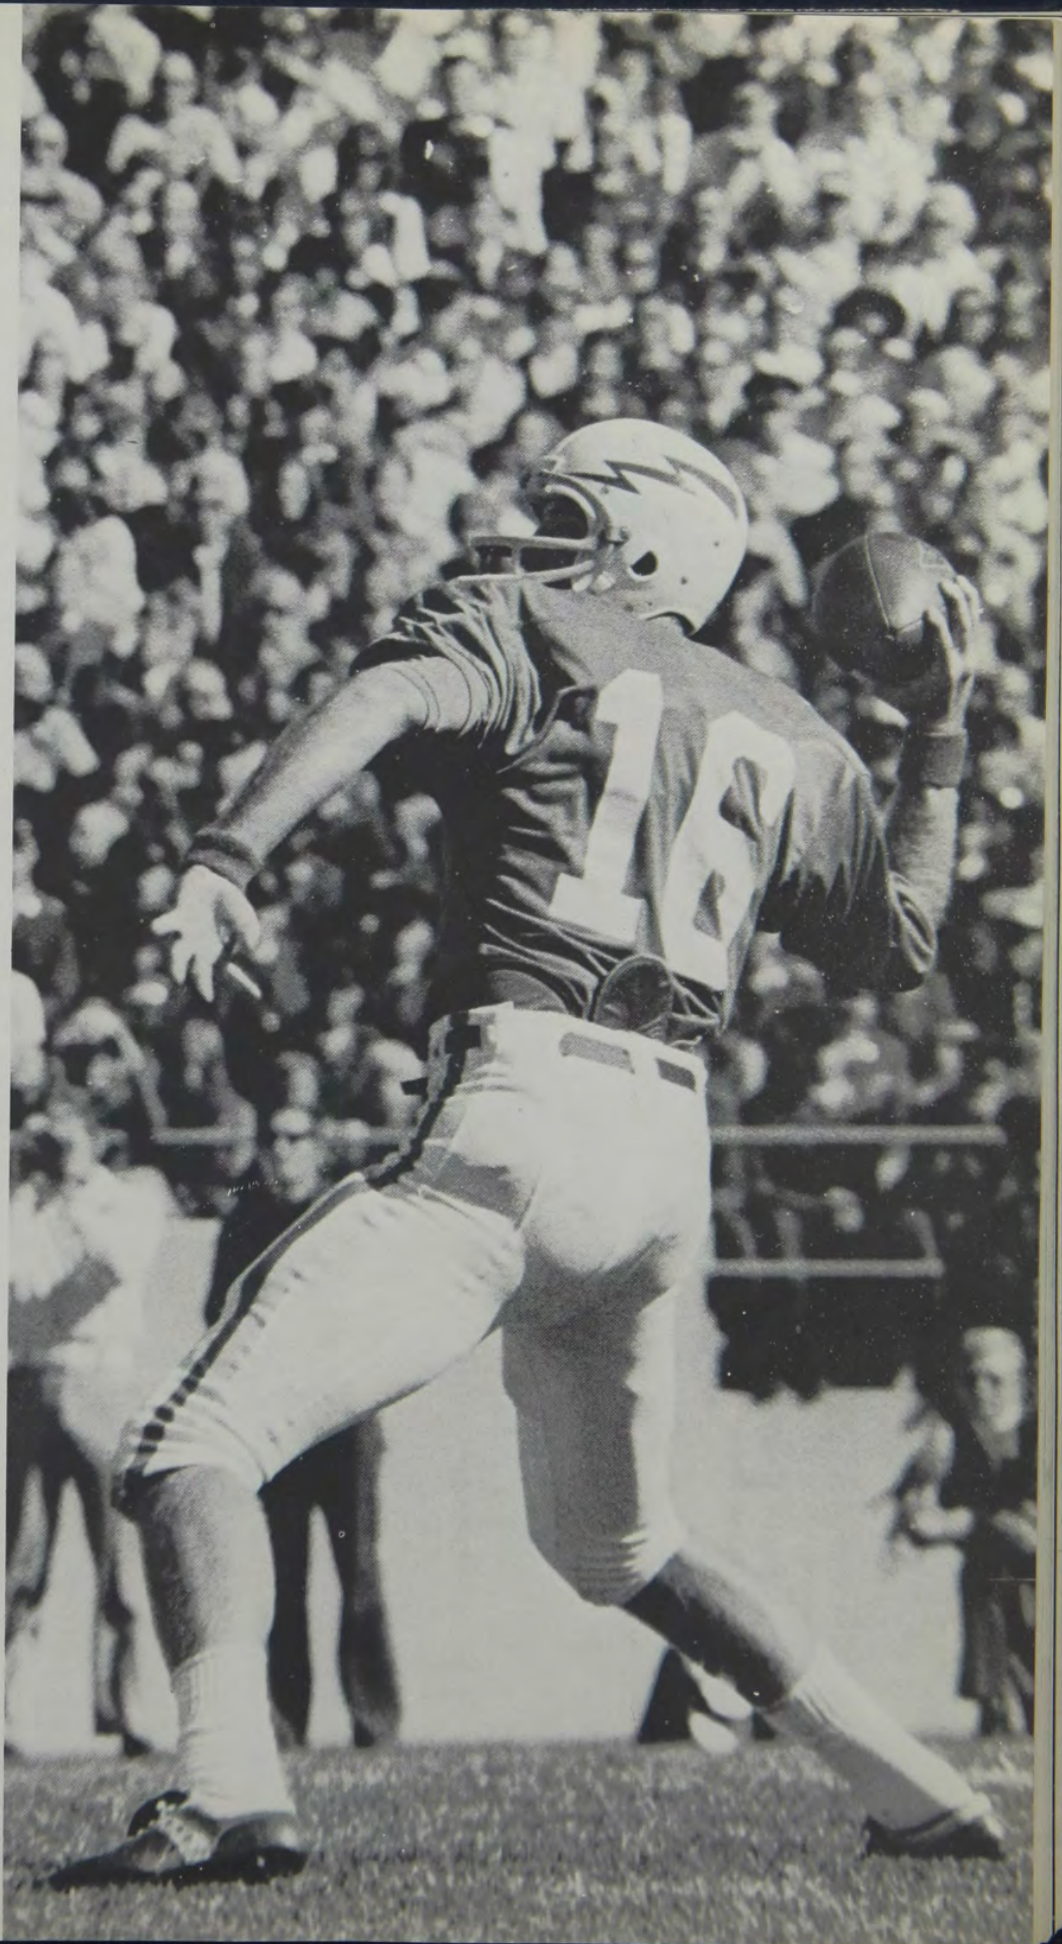

# CRUSH!

THE

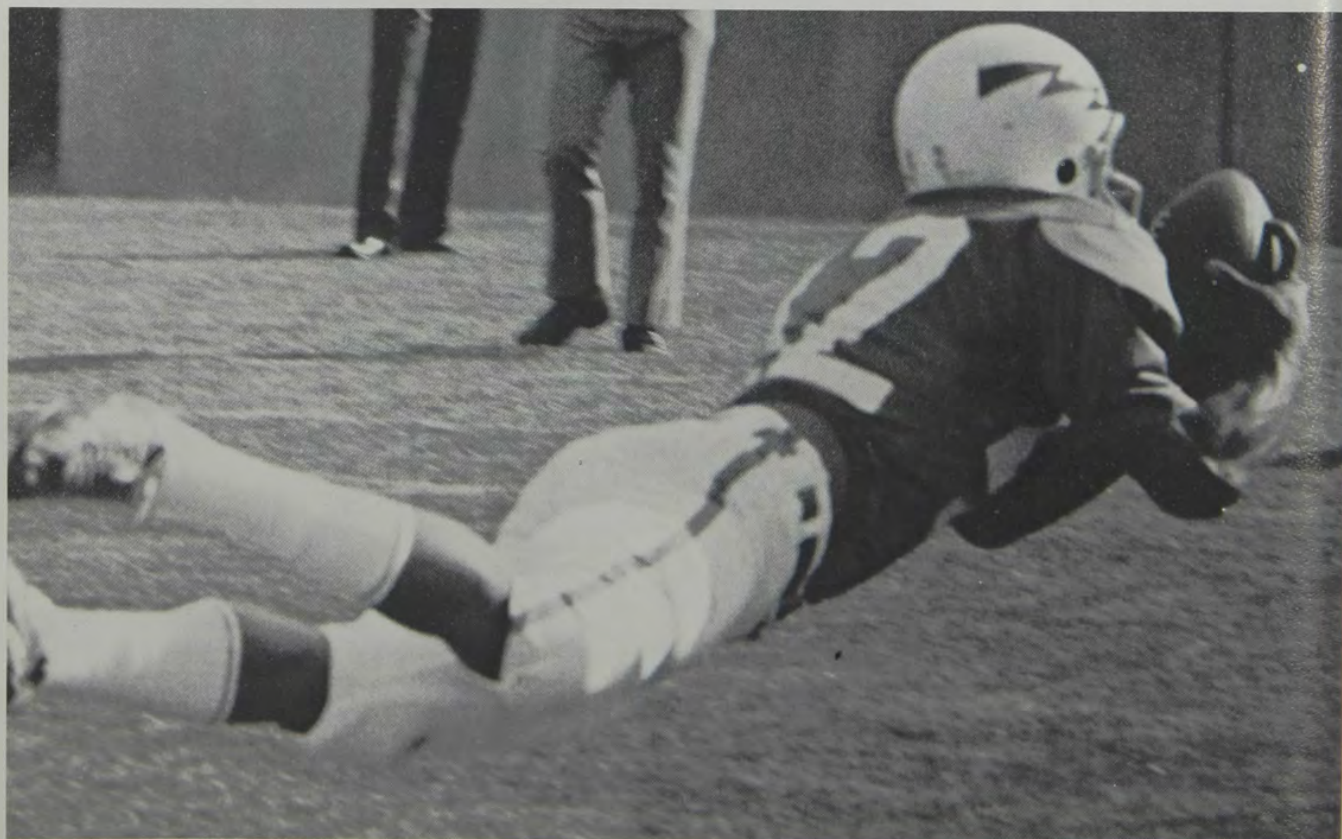

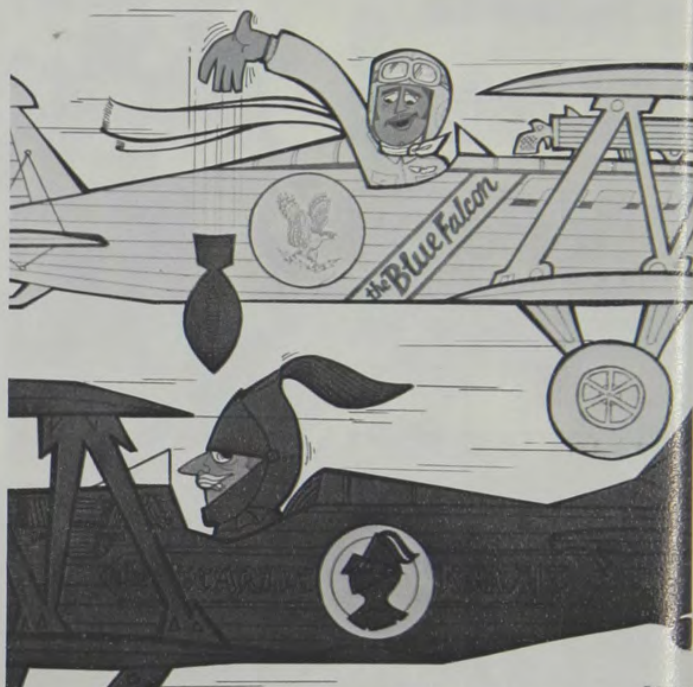

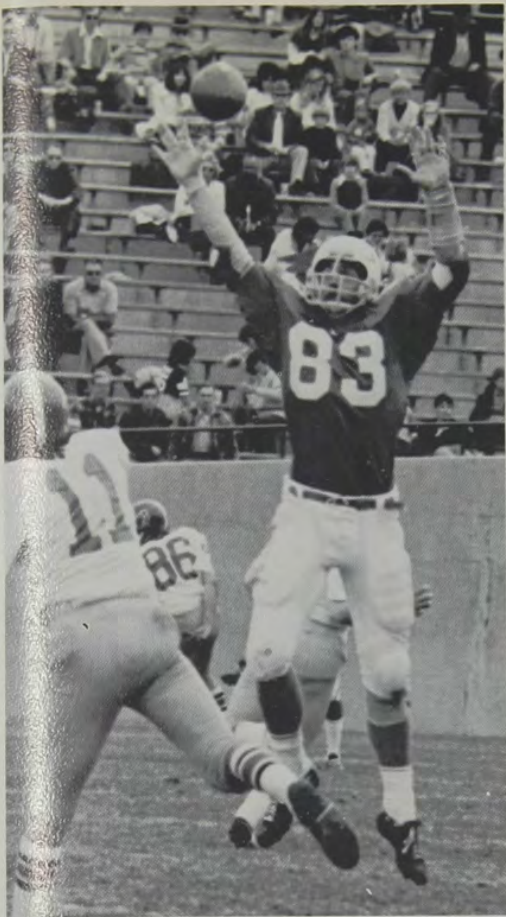

# GRUNTS!!

# Falcons Subdue Second Set Of Knights, AF 31, Rutgers 13

Air Force came up with another balanced attack against the Scarlet Knights of Rutgers in the schools' first football encounter. Haynie and Milodragovich paced the Falcons again as the offense had 191 yards rushing and 195 passing. Haynie hit flanker Frank Murphy with two of his three touchdown passes, one of which was a diving end zone catch that helped the Falcons take off. The Falcon defense also had another good day holding Rutgers' top running back J. J. Jennings to under 100 yards for the first time this season.

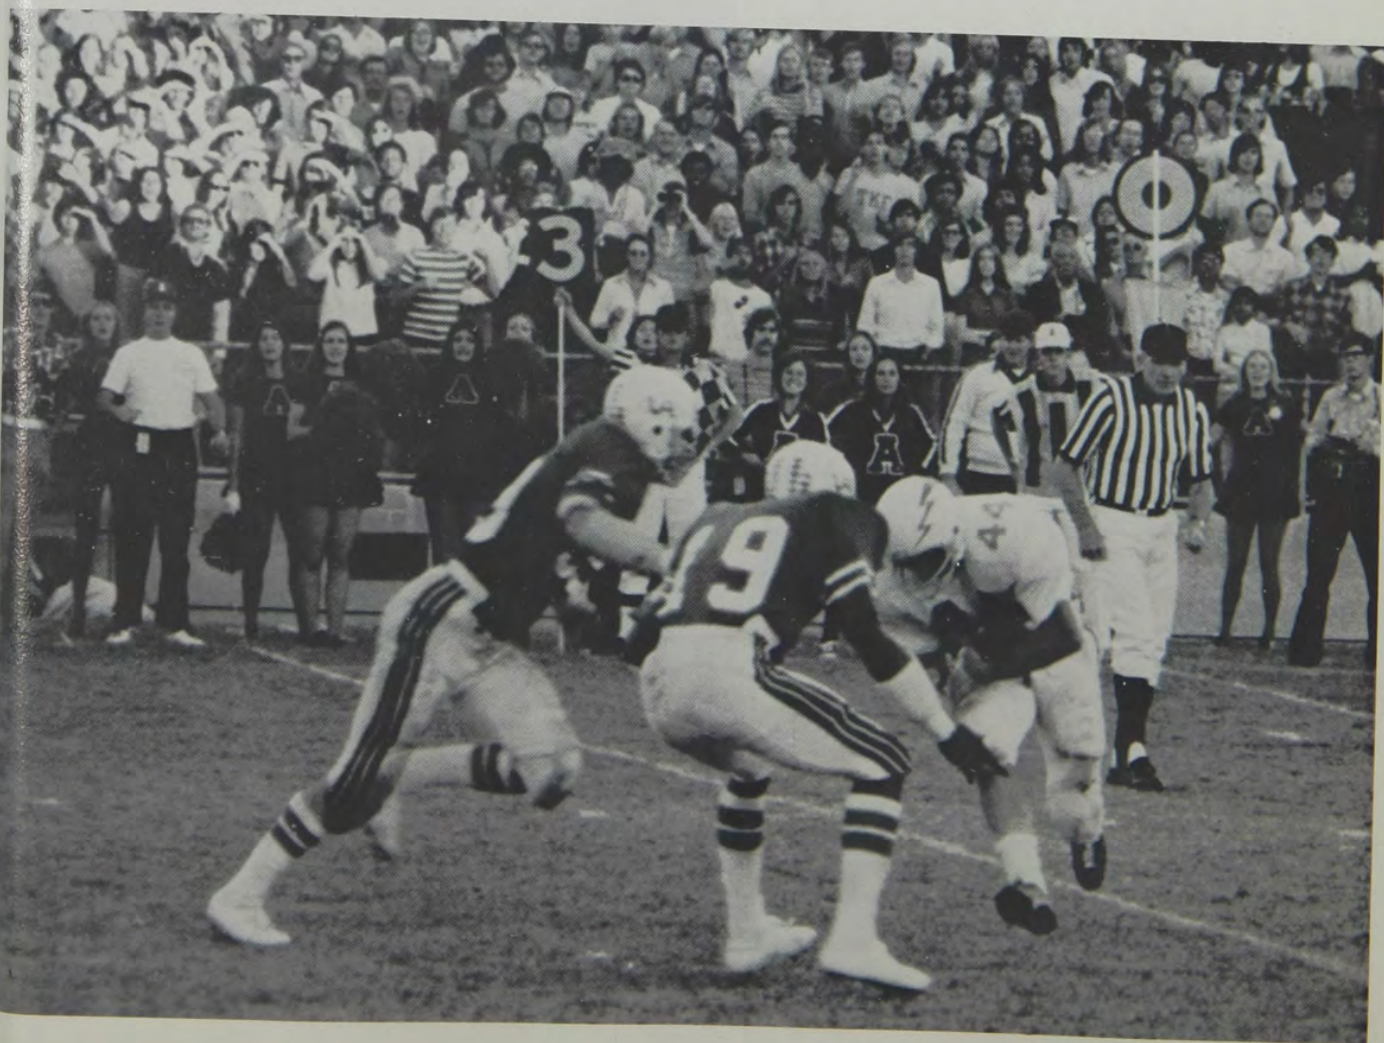

Falcons Super  
Second Set  
R...

## Goal Line Stand Upsets Arizona 27-26

Air Force staged one of its best offensive displays of the season in Tucson rolling up 506 total yards. Much credit, however, goes to the defense for stopping Arizona's try for a two-point conversion in the final seconds, which would have won the game for the Wildcats. Rover Steve Heil was all over the field making 20 tackles and personally insuring Arizona's tailback didn't cross the goal line for those elusive two points. Haynie, Murphy, Mark, Berry, and "Milo" all had good days on offense while Jim Morris and Terry Young contributed 15 and 11 tackles, respectively. The game had to be one of the most exciting in Falcon history.

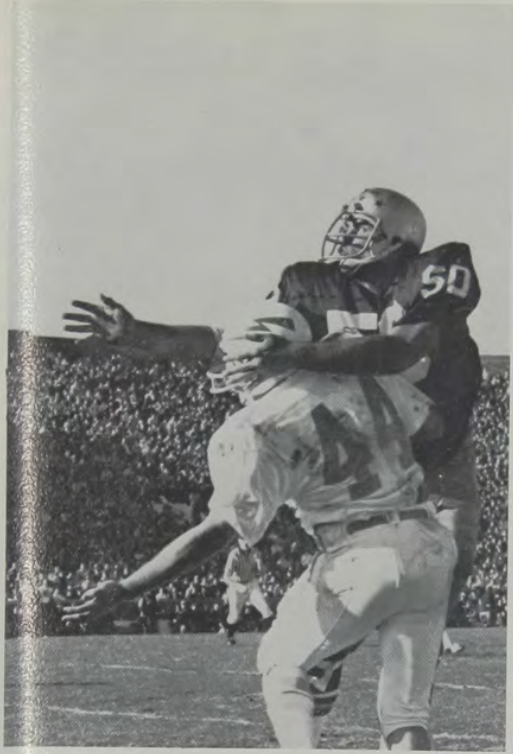

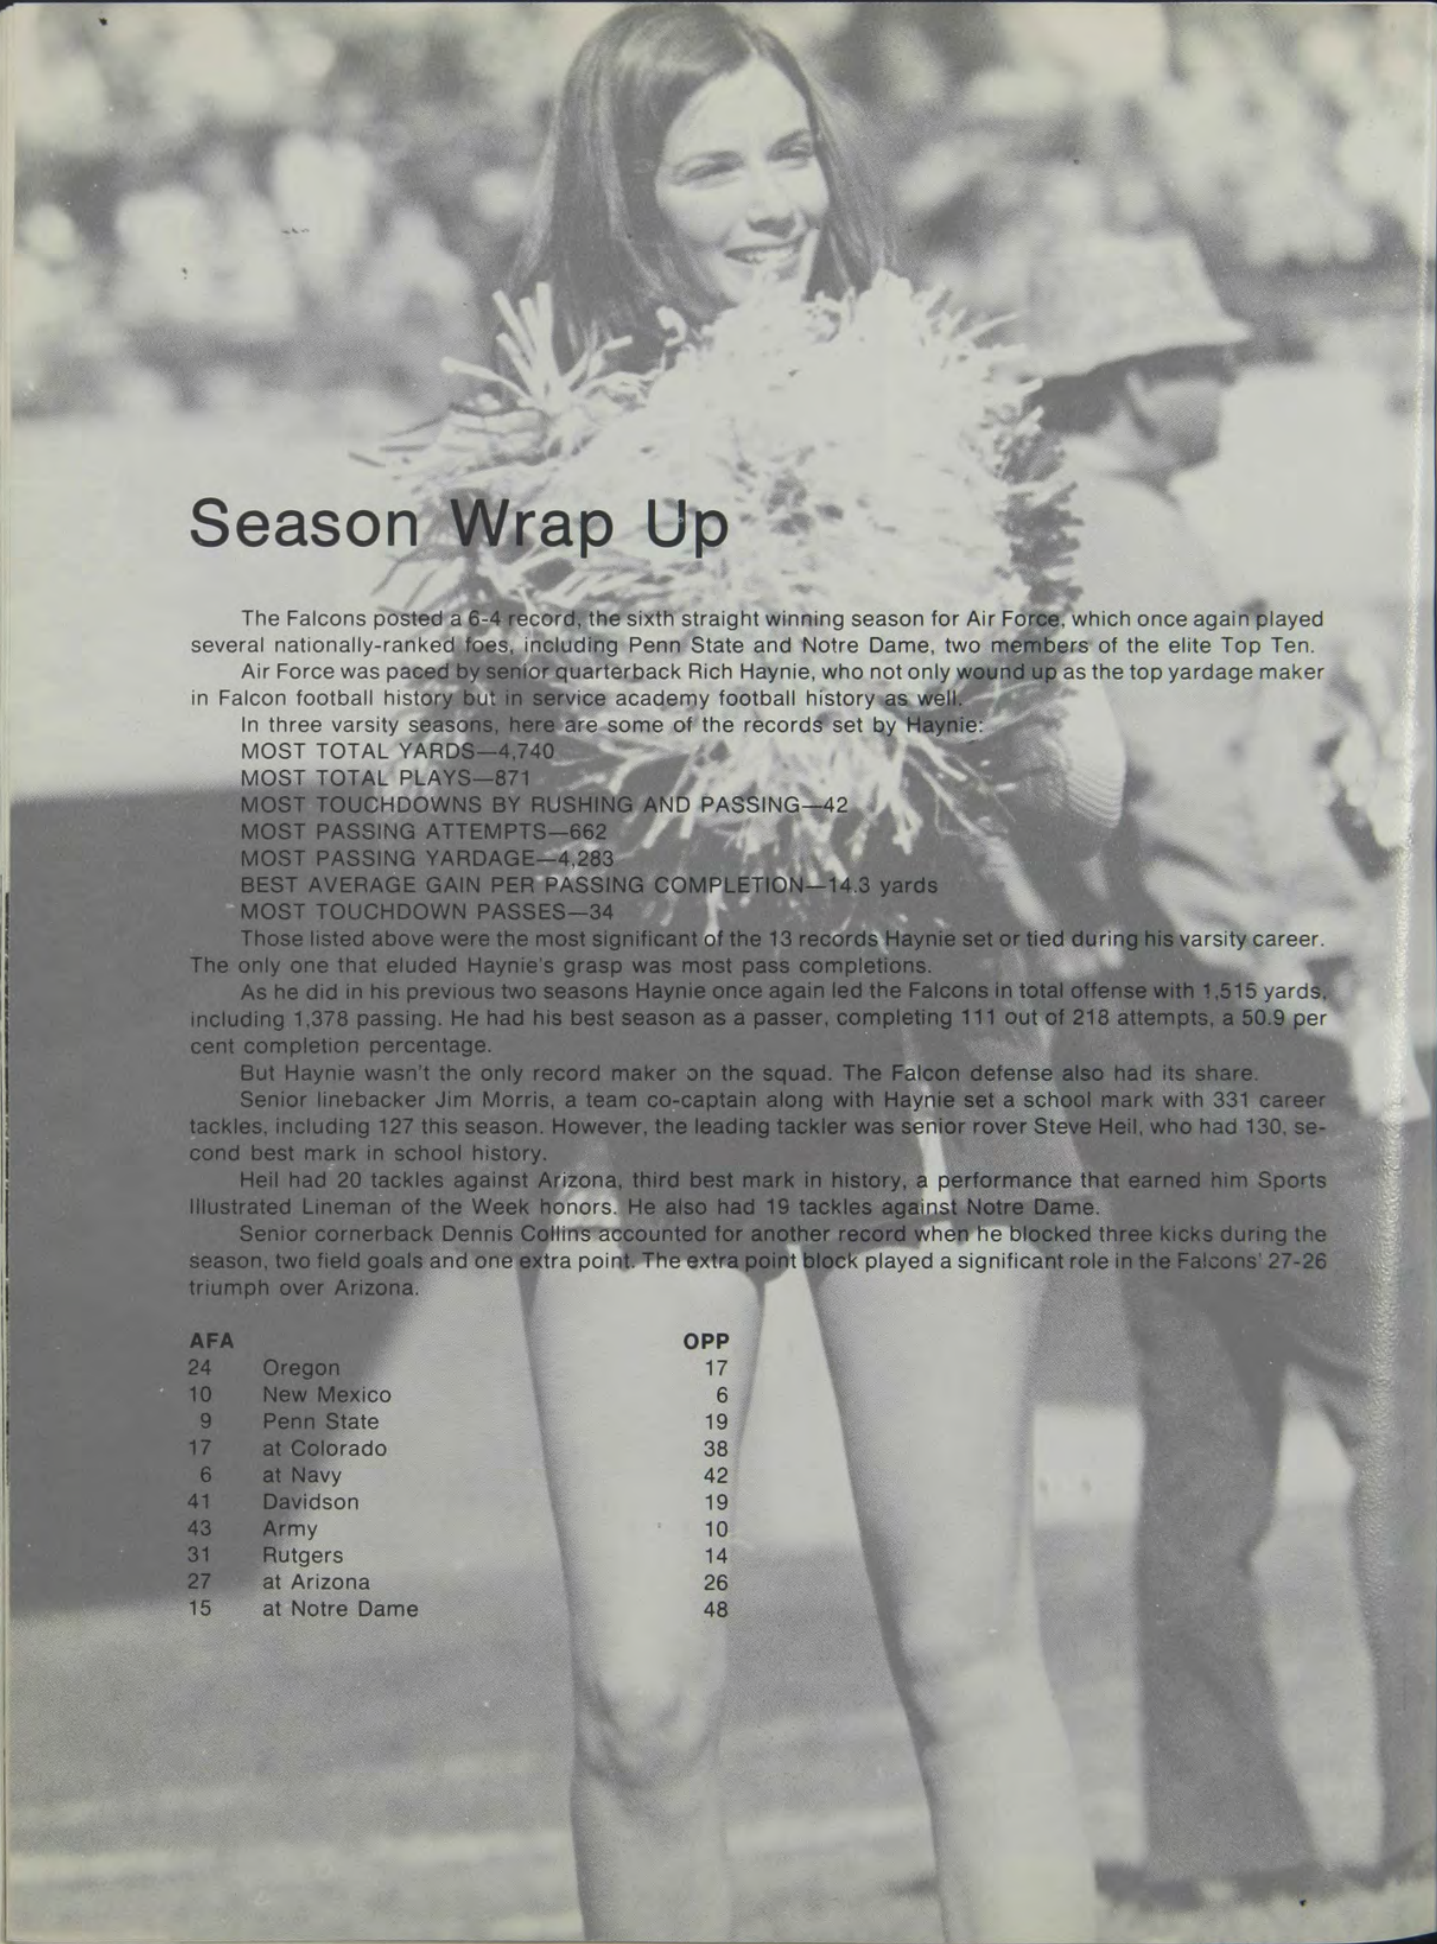

# National Champion Notre Dame Stuns Falcons 48-15

Although it's a privilege to live in Colorado, it's not a privilege to play Number One Notre Dame in South Bend on Thanksgiving Day when they're tuning up for the Sugar Bowl. At the end of the first quarter, Notre Dame was leading 28 to 0 as Irish size and speed was devastating. The Falcons fought back valiantly but felt like they were playing the best. Sophomore kicker Dave Lawson provided one of the few reasons to be thankful kicking a 53-yard field goal, a school record.

## Season Wrap Up

The Falcons posted a 6-4 record, the sixth straight winning season for Air Force, which once again played several nationally-ranked foes, including Penn State and Notre Dame, two members of the elite Top Ten.

Air Force was paced by senior quarterback Rich Haynie, who not only wound up as the top yardage maker in Falcon football history but in service academy football history as well.

In three varsity seasons, here are some of the records set by Haynie:

**MOST TOTAL YARDS—4,740**

**MOST TOTAL PLAYS—871**

**MOST TOUCHDOWNS BY RUSHING AND PASSING—42**

**MOST PASSING ATTEMPTS—662**

**MOST PASSING YARDAGE—4,283**

**BEST AVERAGE GAIN PER PASSING COMPLETION—14.3 yards**

**MOST TOUCHDOWN PASSES—34**

Those listed above were the most significant of the 13 records Haynie set or tied during his varsity career. The only one that eluded Haynie's grasp was most pass completions.

As he did in his previous two seasons Haynie once again led the Falcons in total offense with 1,515 yards, including 1,378 passing. He had his best season as a passer, completing 111 out of 218 attempts, a 50.9 per cent completion percentage.

But Haynie wasn't the only record maker on the squad. The Falcon defense also had its share.

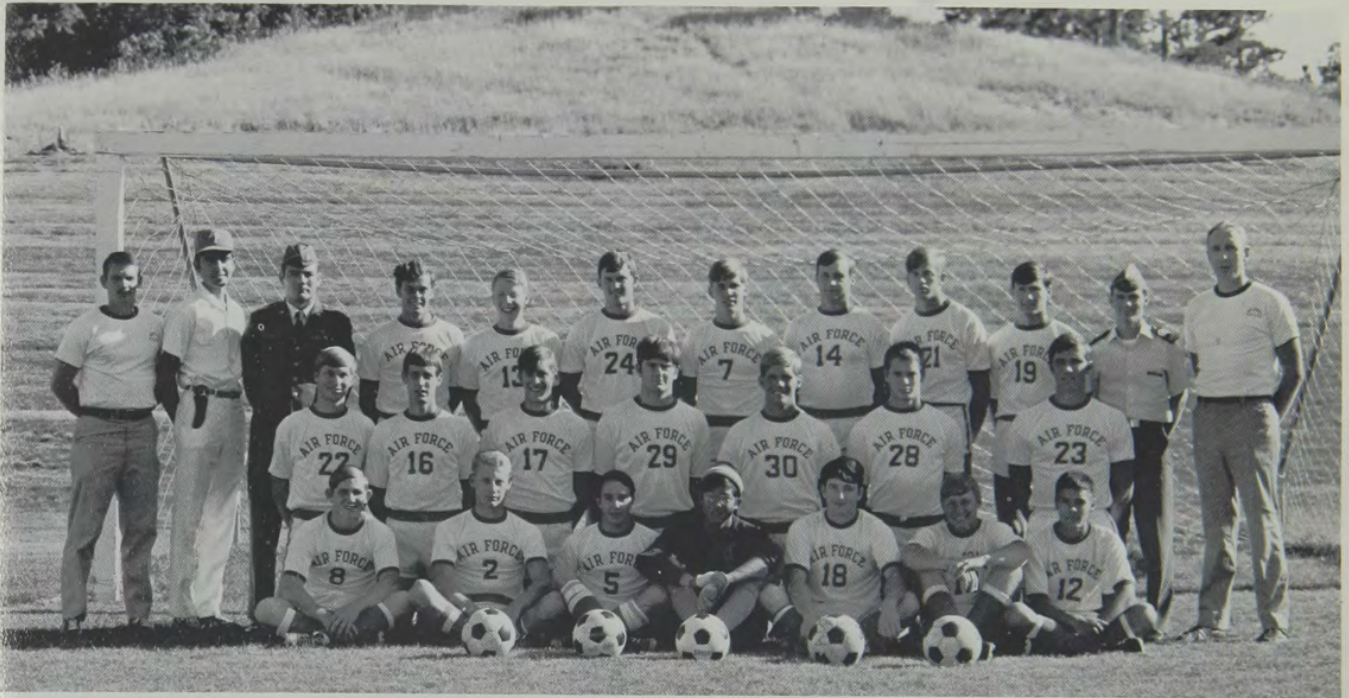

Senior linebacker Jim Morris, a team co-captain along with Haynie set a school mark with 331 career tackles, including 127 this season. However, the leading tackler was senior rover Steve Heil, who had 130, second best mark in school history.

Heil had 20 tackles against Arizona, third best mark in history, a performance that earned him Sports Illustrated Lineman of the Week honors. He also had 19 tackles against Notre Dame.

Senior cornerback Dennis Collins accounted for another record when he blocked three kicks during the season, two field goals and one extra point. The extra point block played a significant role in the Falcons' 27-26 triumph over Arizona.

Coach Hank Eichen's Air Force soccer squad wound up the 1973 season with a third straight Rocky Mountain Inter-collegiate Soccer League championship and a sixth consecutive winning season.

The Falcons ended the season with a conference record of 6-0-1 and an overall record of 8-2-2.

All-American Len Salvemini led the team with a school record-breaking 23 goals, and also holds the individual career record for the Falcons with 53 goals.

The highlight games of the Falcon season were a 1-1 tie with Navy and a hard-fought 2-0 loss to Army. Another unique game was the 10-1 win over Denver when Salvemini scored six goals to set the record for most goals in a season at 23. Assistant varsity coach Jim Thames set the old record of 20 in 1965. In the Denver game, Salvemini also tied his own record of individual goals in a game.

The Falcon Water Polo team finished its most successful season ever with a 13-4 record, and for the second time in three years finished second in the district championships. The overall season saw the Falcon defense at its best, led by senior Rick Pilling and sophomore goalie Walt Heidmous. Junior Ben Phillips led the team with 74 total points but had considerable assistance from senior team captain Kelly Kemp and sophomores Don Gresham and Bill Monroe. Highlights of the season included road victories over both Wyoming and Colorado State for the first time in the team's history.

A strong showing in the second half of the season and the scoring performance of senior team captain Rich Nickelson were the highlights of the 1973-74 season.

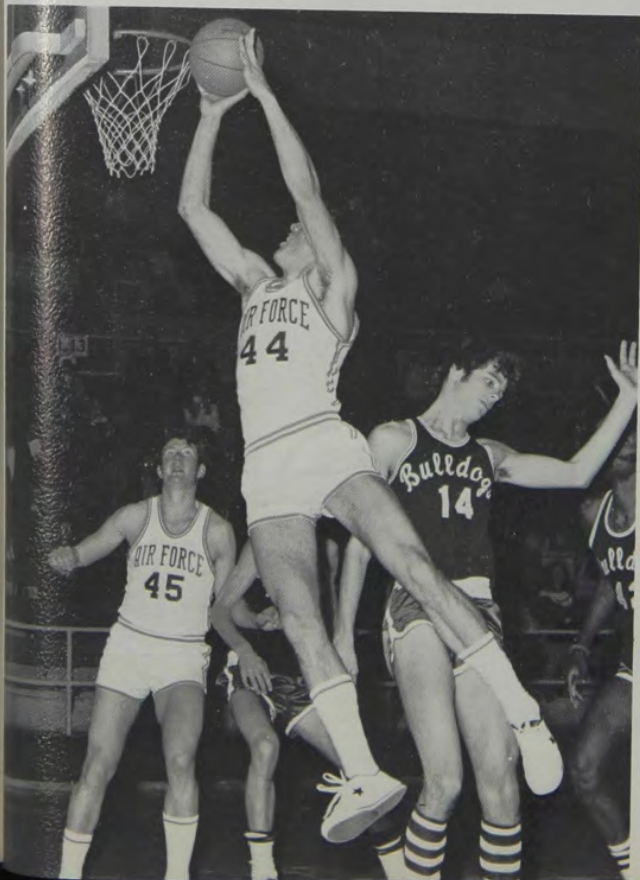

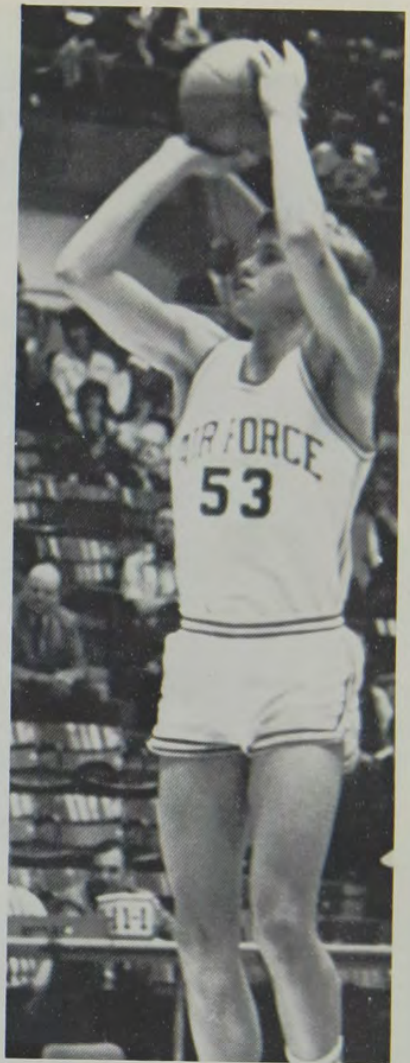

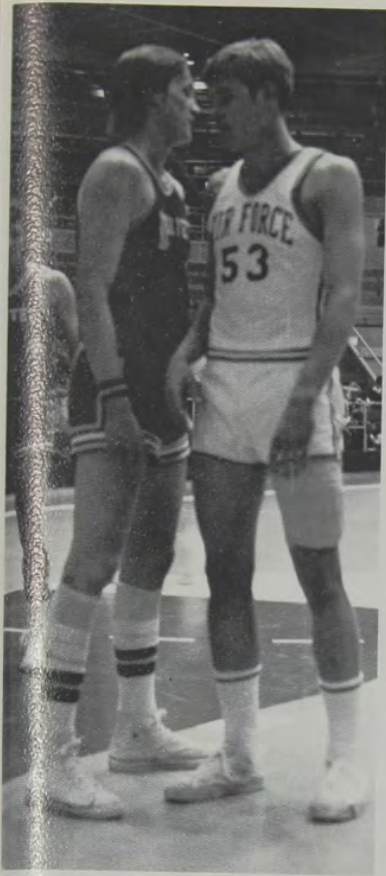

Coach Hank Egan's Falcons wound up with an 11-13 record, splitting their last two games. The Falcons lost to Oklahoma City, 73-66, on the road, then came back with a thrilling 72-70 overtime home triumph over Denver in the season finale.

The 11-13 record was quite an accomplishment considering the Falcons started with seven straight losses. That gave the squad an 11-6 mark in the latter part of the campaign with a 10-3 record at home. Road games were tough with Air Force posting only a 1-10 mark on foreign soil. However, that road victory was a key one, 54-47 over Navy.

From the team standpoint, one of the most amazing statistics came in rebounding where the Falcons held a 917 to 867 edge over the opponents although no starter was taller than 6-5.

Air Force also out-scored foes from the field, 66.8 points per game to 64.6. The latter figure was once again one of the top defensive marks in the nation.

stant  
Dick  
, Pat  
rkin,

Four athletes competed in the national collegiate indoor meet in Detroit. They were McIntosh, Kahiapo, freshman T. G. Parker in the 60 high hurdles and freshman Mike Ryan in the 440-yard dash.

Two school indoor records were set when junior Dick McIntosh ran 7.1 in the 60-yard high hurdles and sophomore Wally Cannon had a best leap of 24 feet,  $\frac{3}{4}$  inch in the long jump. Sophomore Joe Shirey tied the 60-yard dash mark of 6.2 several times. Junior Joe Kahiapo tied the record in the 60-yard low hurdles with a 6.8 clocking.

	Purdue (Purdue lost by forfeit)	
	Western Championships (Second)	
	NCAA Championships (Eighth)	
	(Rich Jacques became All-America with fifth place finish)	

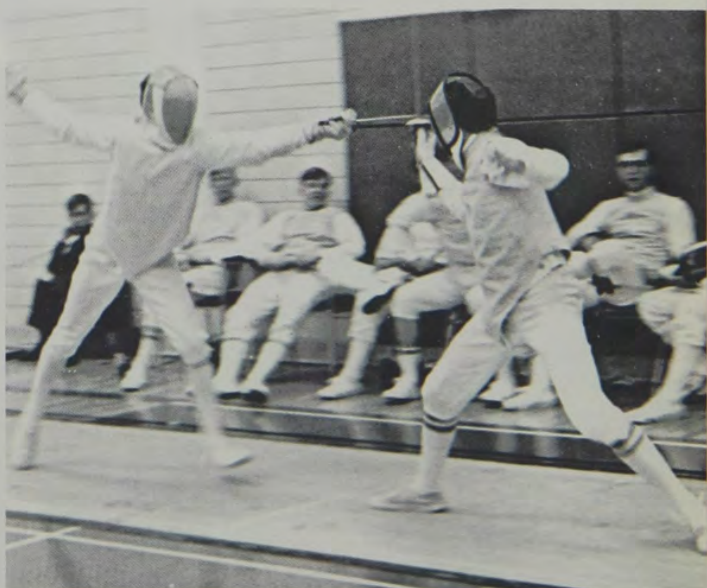

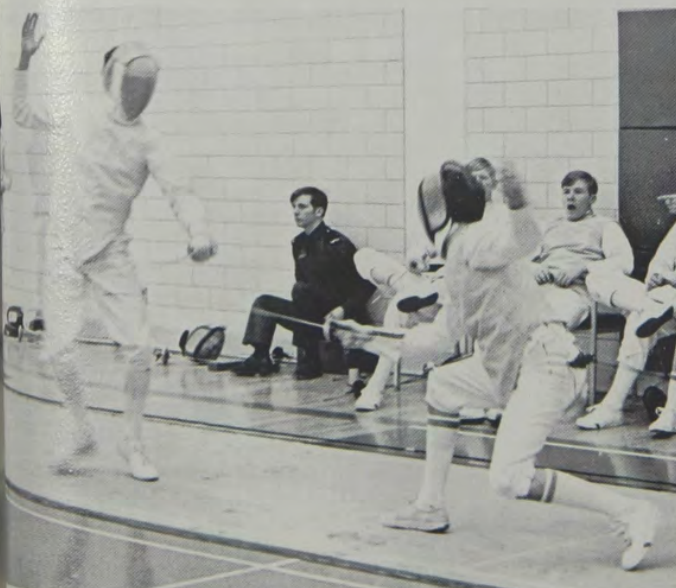

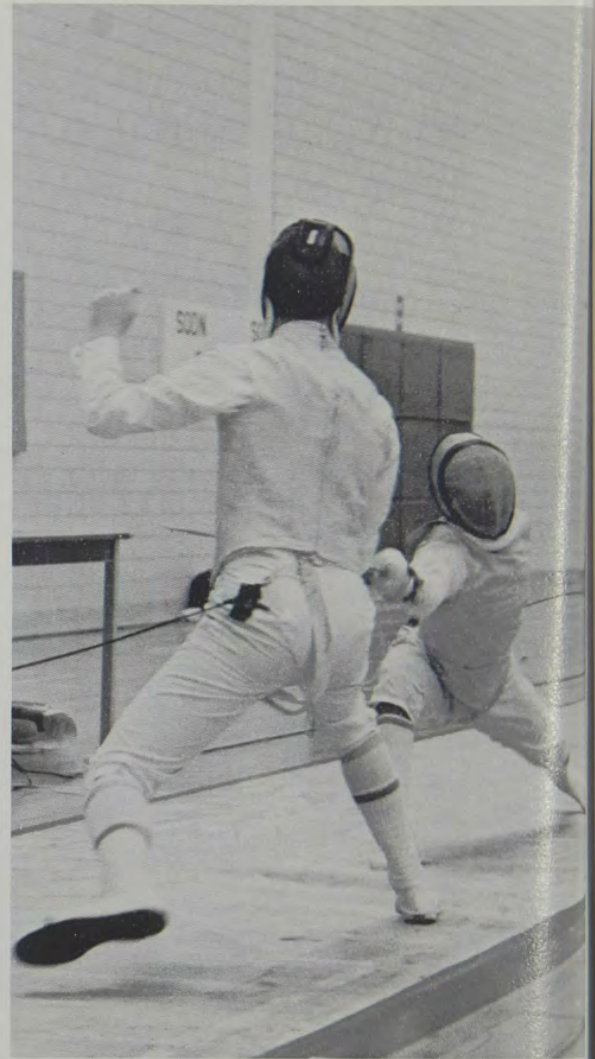

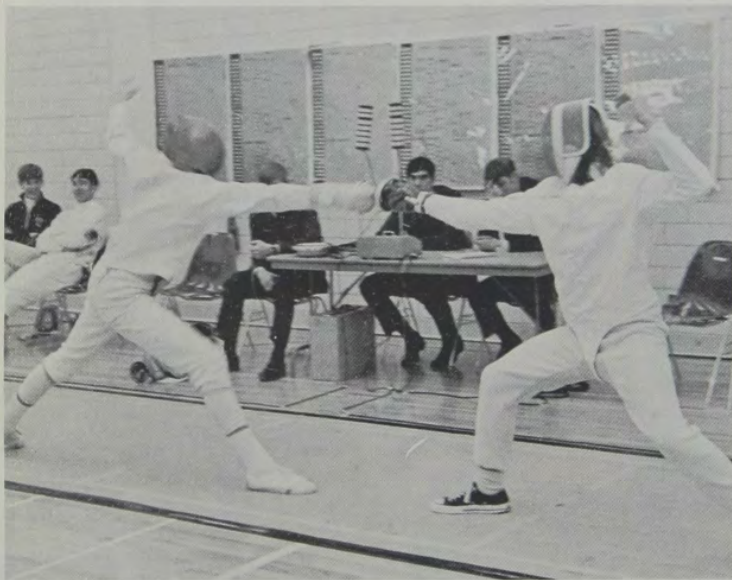

Nick Toth coached the first All-America freshman fencer for Air Force, Rich Jacques, while the team posted a 7-1 dual-meet season.

Three Falcons, Jacques in epee, Al Powell in foil and Dennis Vollink in Sabre, earned eighth place for Air Force in the NCAA 50-team championship.

The Falcon squad took second in the Western Intercollegiate Championships, the first time in seven years USAFA has failed to win the western title.

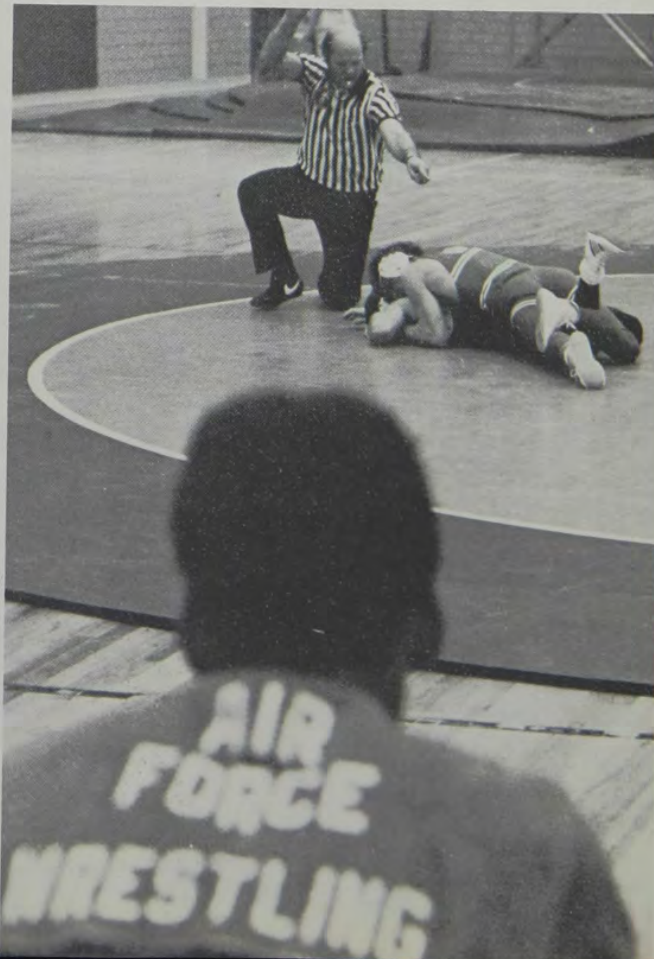

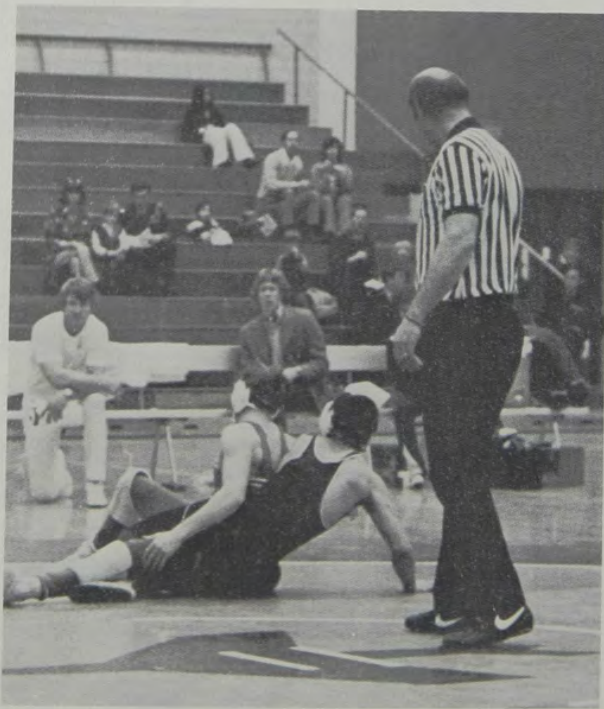

# Wrestling

ROW 4 (Top): Coach H. Koerber, Maj Frank Cloutier (Off Rep), S. Spies, B. Stewart, L. Loftus (Mgr), B. Leswig, B. Jones, J. Kessler, L. Buckingham, M. Devlin, W. Stout, E. Oliver, M. Ward, D. Mayer, A. Nuytten, P. Richmond, W. Weathers, D. Turos (Mgr), Coach Kitt. ROW 3: J. Sienicki, R. Webber, D. Novotny, S. Millar, J. Woodward, K. Lonergan, L. Fariss, J. Hunt, J. Rayzak, E. Hale, K. Pleasan-

ton. ROW 2: M. Ratchford, F. Vaccaro, B. Molter, W. Erwin, D. Stine, A. Becker, C. Nicholls, E. Maglicmot, S. Frye, W. Mason, E. Saa, R. Orwig (Abs) ROW 1: G. Studor, M. Cook, J. Birchman, R. Casella, M. Sacridier, L. Harding, S. Campbell, M. Johnson, Capt. G. Lawrence, T. Wilson, M. Vasquez

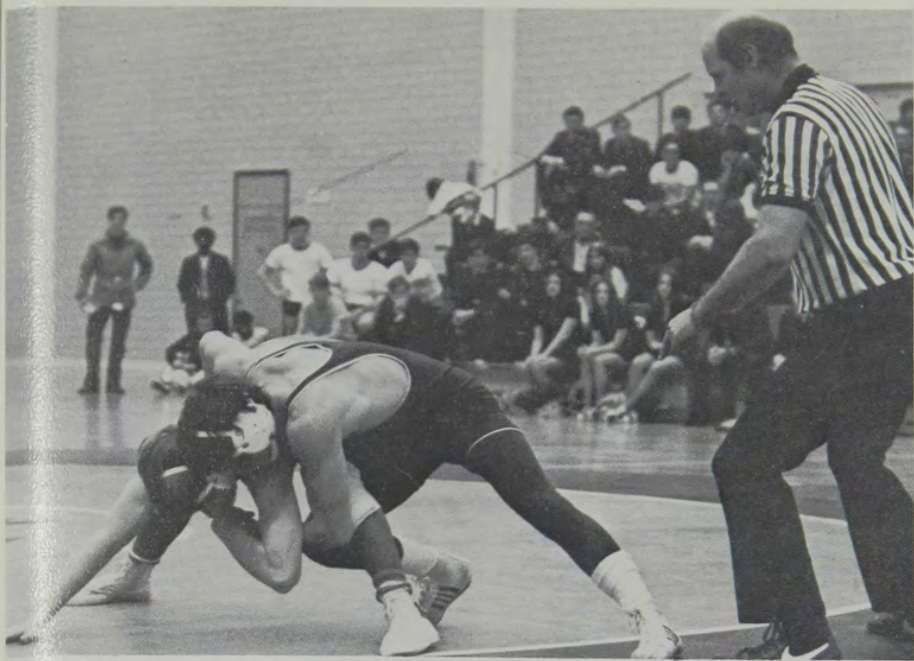

Air Force wrestlers overcame a slow start to win six of their last seven meets to close with a 6-5 season.

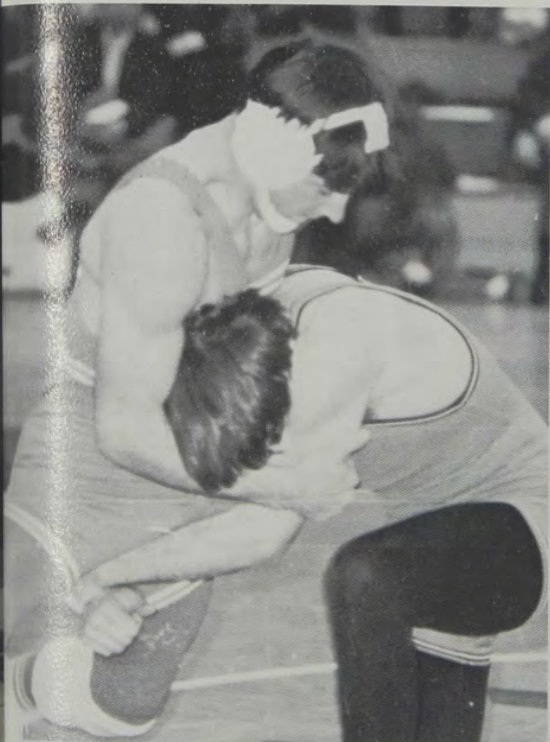

One trip to Texas made the difference. The Falcons beat Richland, 52-0; North Texas, 51-0; and Central State of Oklahoma 19-17 to raise their season to 3-4. They then won three of the four remaining matches to finish the season on the winning side.

As a team, the Falcons finished with an 11-0 dual meet record, their second consecutive undefeated campaign.

Swimming has now won 24 dual meets in a row over three years and also boasts 50 straight home pool victories dating back to 1967.

Coach Paul Arata's team placed sixth at the independent championships and finished 14th at the nationals thanks to McAlister's performances.

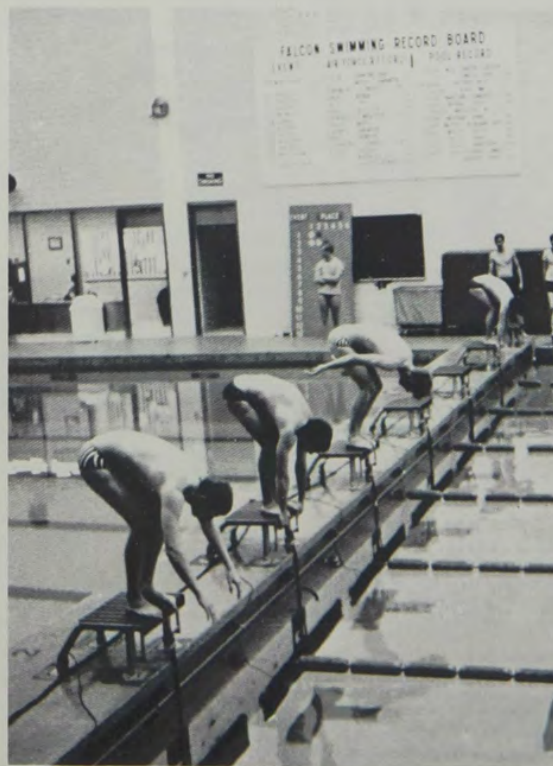

With the addition of former olympic gold medalist, Capt. Micki King, the Falcons began to compete nationally in diving this year.

Diver Rick McAlister was a big story, capturing the national championship on the three meter board March 30.

He also finished fourth on the one meter board, making him an All-American in both events.

McAlister, from Madera, Calif., is the first national champion in Falcon swimming history and is the fifth Air Force athlete to win a national title.

Leading scorer-Chuck Delich

One era of Air Force ice hockey has ended, but another is beginning. The old era was represented by Vic Heyliger, who retired as Falcon head coach after a legendary 24-year coaching career. During this career, he compiled over 300 wins, one of few collegiate coaches to do so.

The new Falcon era can be represented in two ways. One will be by John Matchefts, the Falcon assistant coach who succeeded Heyliger in the head job; the other by Chuck Delich, a Freshman from Eveleth, Minn., who is on his way to becoming one of the top players in Falcon history.

# Pistol/Rifle

Eight years as a varsity sport, eight years as the Rocky Mountain Intercollegiate Lacrosse Champions, eight years of winning seasons and six years as the Rocky Mountain Open Lacrosse Champions is the record of the Air Force lacrosse team.

The Falcons ended the 1974 season with a 15-4 win over the Denver Lacrosse Club for the Rocky Mountain Lacrosse Open Championship, having previously won the intercollegiate championship for the region. Air Force closed with a 14-2 season record, losing only by 12-7 to St. Lawrence and 6-5 to Army.

"In my opinion and that of head defensive coach Tony Cillo, this is the best team we have ever had at Air Force. This takes into consideration the 14-1 team of 1971 when the Falcons went to the NCAA quarter-finals," said head coach Jim Keating.

Sparked by some of the best hitting in school history, the Air Force baseball team wound up with a second straight winning season and the best mark in four years.

The Falcons of coach Joe Robison finished with an 18-14 record after sweeping five games from Denver by scores of 3-2 in 13 innings, 4-3, 2-1, 11-9 and 8-2.

# Golf

KNEELING (L-R): Kevin Heise, Brad Ritter, Kevin Bench, Bud Nevers, Chip Diehl, Bob Swanson.  
STANDING (L-R): Maj. Jim Thomas, varsity coach;

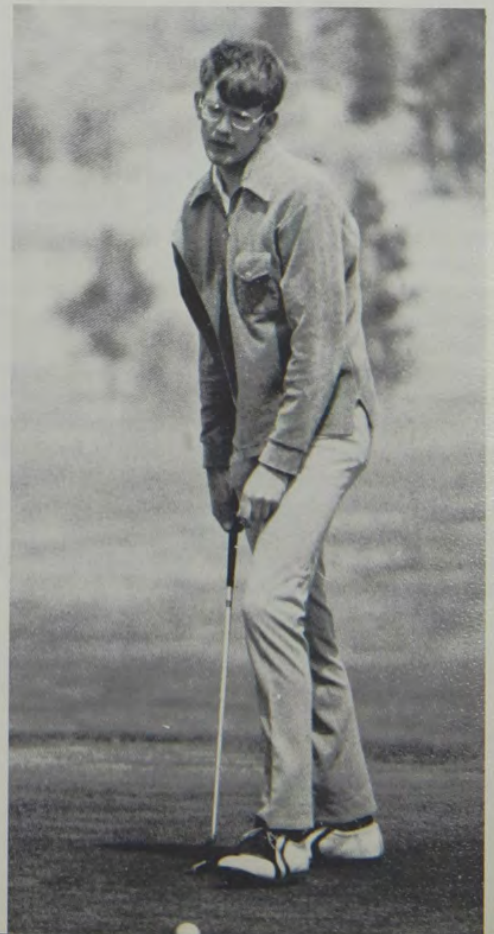

Bob Rudolph, Mark Volcheff, Col Wallace Fluhr, officer representative; John Palanica, Jeff Sogard, Lt Col Don Minihan, junior varsity coach.

One of the strongest golf teams in Academy history posted a 9-1 dual meet record and recorded 90 wins to 26 losses in tournament play during the 1973-74 school year.

With a total of 99 wins and 27 losses in dual meet and tournament play, the Falcons had a .786 winning percentage. In tournament play, the Falcons defeated Colorado in five of six tournaments.

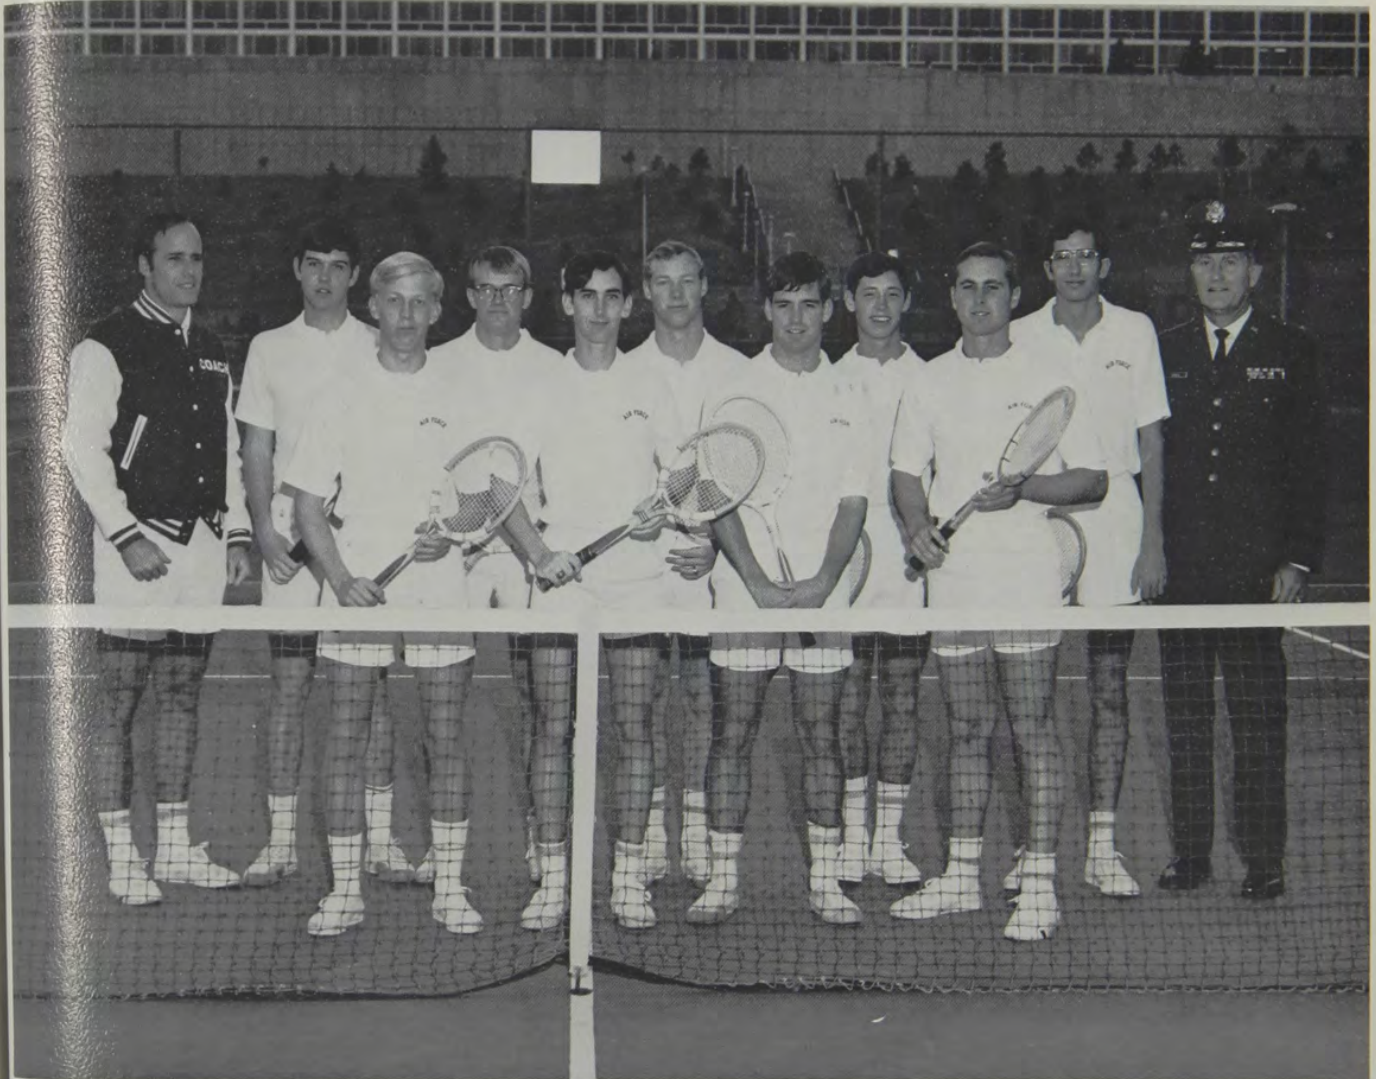

In 10 tournaments, the Falcons won two—Hiwan and Falcon—and had three seconds, one third, two fourths, one sixth and an eleventh. The tournament highlight came in March when they finished sixth out of 16 teams in the strong Pacific Coast Invitational. The number one ranked golf team in the nation, Southern California, won the team championship, but Falcon team captain Kevin Bench won the medalist honors. Bench fired a 78, 70 and 73 in chilly and rainy weather to claim the title.

## Six Falcon All Americans...

### Haynie AFA's Outstanding Athlete

To no one's surprise two-sport star Rich Haynie was named the Air Force Academy's Most Valuable Athlete.

Haynie, a senior from Florissant, Mo., goes down in history as one of the academy's all-time great athletes. He excelled on the football field as a quarterback and on the baseball field as a pitcher.

One of the few athletes to captain in two varsity sports teams, baseball and football during the 1973 seasons, Haynie lettered three years in football and four in baseball.

Haynie, who also was named the most valuable football back, rewrote the Falcon record book as a three-year starting quarterback. He also holds three major service academy records for career total offense, passing yardage and touchdowns. Few Air Force pitching records were left untouched by Haynie.

# Wherever you serve...

## United Services Life is there to serve you with personalized attention

It began in 1939 as the war clouds that hovered over the world burst.

This was the year we opened our doors, very modestly, and issued our first policy to an American officer.

We were told then that it was poor business to insure military men.

We thought differently.

For over three decades, through conflict after conflict, we provided officers with the kind of insurance many other companies were reluctant to offer. And because we did,

each of them carried an extra measure of security and peace of mind as they answered the call, and met the challenge, on a hundred different battlefields.

America prevailed. Today we have peace, however fragile. But it is a start, a start earned largely through our military efforts.

And now, United Services provides more life insurance, exclusively, to more American officers and their families than any other company.

Isn't it time you talked to us?

### UNITED SERVICES LIFE INSURANCE COMPANY

# From Mars, a UNIVAC computer story.

A Mariner photo is sent back in a radio stream of 580,000 signals coded for light-to-dark intensity. UNIVAC computer 1230 MTC takes those signals and enhances them subtly to make darks darker and lights lighter. The resulting contrast brings out obscure terrain features.

Were the erosion patterns in the valley walls caused by water run-offs? (Mars isn't supposed to have that much water.) Or were they caused by volcanic action or savage windstorms?

These are questions that will be answered by the scientists at Cal Tech's Jet Propulsion Laboratory. UNIVAC® computer 1230 helps by making good photos out of so-so photos.

When a picture of Mars is first received from NASA's Mariner satellite, it's been radioed across 140 million miles of space and it can be dimmed by glare and dust on the planet's surface. Usually it isn't much to look at.

But after it's been touched up by 1230, there's plenty to look at. Suddenly canyons yawn, mountains thrust up, craters deepen and all kinds of questions arise about how it all could have happened.

It used to take six months to reconstruct a Mars photo satisfactorily. 1230 does the job in less than six minutes. But speed isn't 1230's only attribute.

The computer was also built for strength because it would have to travel to Florida to help with the Mariner launch. This ruggedness got an unexpected test when part of the lab roof fell in during an earthquake.

After the shower of ceiling tiles and debris was cleared away, however, technicians found that 1230 had never missed a beat.

Not all UNIVAC computer systems live the exciting, far-out life of 1230. But around the world, for a growing variety of customers, they are successfully taking projects that used to be thought impossible and reducing them to mere routine.

To find out how excellent equipment, hard work and creative worry can make your problems seem routine, write Federal Government Marketing, SPERRY UNIVAC, 2121 Wisconsin Avenue, N.W., Washington, D.C. 20007.

**SPERRY UNIVAC**

Only when our customers succeed do we succeed.

# The finest stereo receiver the world has ever known.

We recognize the awesome responsibility of making such a statement. Nevertheless, as the leader in high fidelity, we have fulfilled this responsibility in every way.

Pioneer's new SX-1010 AM-FM stereo receiver eclipses any unit that has come before it. It has an unprecedented power output of 100+100 watts RMS (8 ohms, both channels driven) at incredibly low 0.1% distortion, throughout the entire audible spectrum from 20 Hz to 20,000 Hz. Power is maintained smoothly and continuously with direct-coupled circuitry driven by dual power supplies.

To bring in stations effortlessly, clearly and with maximum channel separation, the SX-1010 incorporates an FM tuner section with overwhelming capabilities. The combination of MOS FETs, ceramic filters

and phase lock loop IC circuitry produces remarkable specifications like 90dB selectivity, 1.7uV sensitivity and 1 dB capture ratio.

Versatility is the hallmark of every Pioneer component. The SX-1010 accommodates 2 turntables, 2 tape decks, 2 headsets, 3 pairs of speakers, a stereo mic and an auxiliary. It also has Dolby and 4-channel connectors. There's even tape-to-tape duplication while listening simultaneously to another program source. This is another innovative Pioneer exclusive.

The SX-1010 is actually a master control system with its fantastic array of controls and features. It includes pushbuttons that simplify function selection and make them easy to see with illuminated readouts on the super wide tuning dial. FM and audio

muting, hi/low filters, dual tuning meters, loudness contour, a dial dimmer control and a fail-safe speaker protector circuit. Never before used on a receiver are the twin stepped bass and treble tone controls that custom tailor listening to more than 3,000 variations. A tone defeat switch provides flat response instantly throughout the audio spectrum.

By now it's evident why the SX-1010 is the finest stereo receiver the world has ever known. Visit your Pioneer dealer and audition its uniqueness. \$699.95, including a walnut cabinet.

 **PIONEER**  
when you want something better

# Built by Hughes: Computers, displays, missiles, radars, communications satellites, and 551 other products of advanced technology.

**1.**  
**Seven generations** of communications satellites have been built by Hughes since 1963. Hughes is now building the Western Union WESTAR and Comsat-General/AT&T satellites for U.S. domestic commercial systems.

**2.**  
**The Navy's long-range Phoenix** and AWG-9 weapon control system give its new F-14 Tomcat fighter the capability to engage up to six attacking aircraft or cruise missiles simultaneously.

**3.**  
**NATO's NADGE** air defense system, stretching across a 3,000-mile arc from Norway to Turkey, protects Western Europe from air attack. NADGE uses Hughes-developed software and Hughes-

built computers, operating in a multiprocessing mode, in its 37 "nerve centers."

**4.**  
**Wire-guided TOW missile** is the Army's primary anti-tank weapon at battalion level. Hughes is building launching systems and gyro-stabilized sights for the HueyCobra helicopter.

**5.**  
**The Navy's NTDS** (Naval Tactical Data System) uses a computer to process and evaluate radar and sonar data on enemy threats within a ship's combat area, then gives the commander an instantaneous battle-situation picture on its Hughes-built display console and helps him assign and control the proper defensive weapons—inter-

ceptors, missiles, torpedoes, or guns.

**6.**  
**Attack radar system** for the Air Force's F-15 Eagle automatically displays on the cockpit windscreen the instant information the pilot needs for successful air-to-air combat.

**7.**  
**NASA's advanced OSO-1** (Orbiting Solar Observatory) satellite will search for the secrets locked in the sun's corona, providing scientists with clues as to how and when the sun and its planets were born.

# When all you make are helicopters, one of the things you emphasize is Research and Development.

Better products come from those prepared to meet customers' future needs.

At Bell, Research and Development has built the technology base to answer this requirement.

Adapting to changing needs has led to many advancements in Bell helicopters. Like elastomeric bearing hubs, that need no lubrication—ever. Gear boxes that won't seize, even after loss of oil. A nodalized suspension system that eliminates fuselage vibration. Application of advanced materials. Highly effective integrated weapon systems. Plus techniques in manufacturing and cost-control that have become standards for the helicopter industry.

Bell's R & D . . . today, for tomorrow.

nations  
the world over  
depend on **Bell**  
HELICOPTER

# 60 years of active duty.

We've served our countrymen since 1910. When the Army was building the Panama Canal and the Model T was just a baby.

Names like the Gladstone, the foot locker and the attaché case are just as important to our family history as Halsey, Pershing and Doolittle are to the military.

And today, Samsonite luggage is just as super sturdy and dependable as ever. One reason why we're the biggest selling luggage the world over. And have been for over 60 years.

**Samsonite®**  
**We make travel**  
**a little easier.**

## One of Your Wisest Associations

... aside from your present one, of course, is the one you establish with your banker. The National Bank of Fort Sam Houston offers you banking service with and by people experienced in handling matters related to military pay and military banking ... and in taking care of your banking business from wherever in the world you are stationed. Check our checking accounts, savings, auto loans, personal loans, JUMPS and much, much more.

of the "B" Robes

# IDPS cuts a big job down to size.

Being a fighter pilot is a pretty big job for any man. And the less he has to worry about in the cockpit the more he can concentrate on carrying out his mission successfully.

And that's where IDPS comes in. The Integrated Display Processor Subsystem represents a new concept in navigation and attack computations, display processing and sensor interface.

IDPS is flexible. The HUD symbology is generated completely within the computer and because the CRT data is completely software-controlled, any desired display can be generated.

IDPS is a natural extension of our capability in Projected Map Display systems which have been proven in over five years of operational experience aboard the U.S.A.F. A-7D, the U.S. Navy A-7E and the U.S.

Army's Tactical Air Guidance System for helicopters.

Traditionally, the Head-Up Display and Projected Map Display were buffered from the computer by separate symbol generation and map positioning units. And that meant a lot of black boxes.

In IDPS we got rid of some of those black boxes. The electronics have been integrated — and the waveform generator and electronics interface have been eliminated. The result is a four box system consisting of Head-Up Display, Projected Map Display, Integrated Electronics Unit and Control Unit.

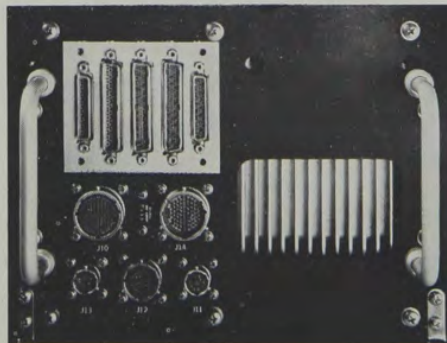

IDPS requires less space in the electronics bay, uses

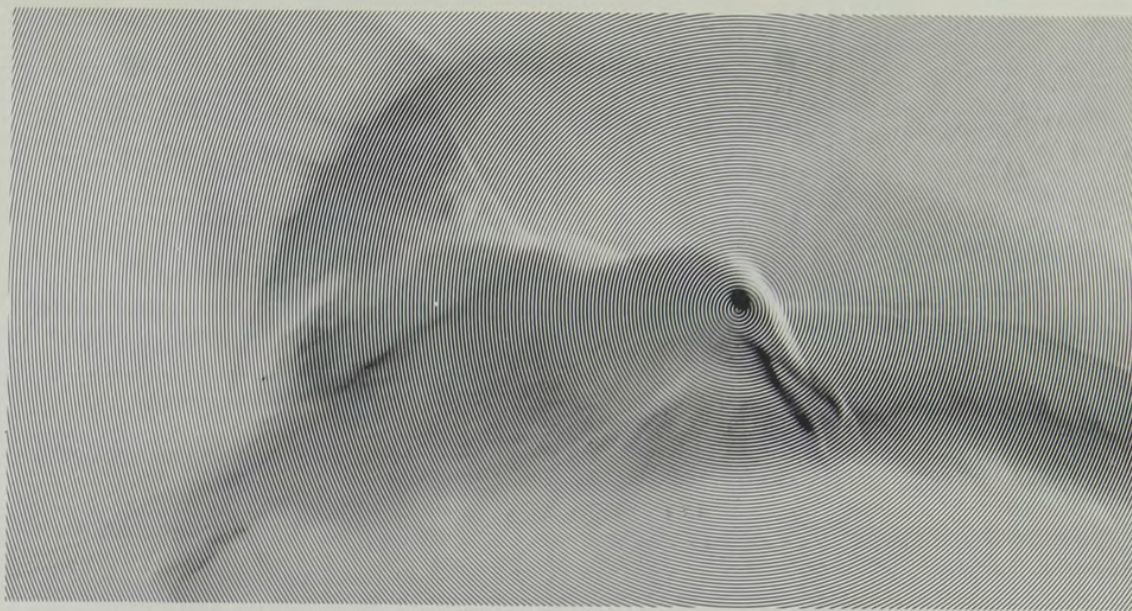

less power, and costs less than similar systems. And there is a demonstrable saving in weight while reliability is increased.

For complete information, contact: Avionics Marketing, Computing Devices Company, P.O. Box 8508, Ottawa, Canada, K1G 3M9. See us at the Farnborough Air Show Stand S-125.

☆☆☆

#### From "A Man Without A Country"

Edward Everett Hale

" . . . And for your country, boy, and for that Flag, never dream a dream but of serving her as she bids you, though the service carry you through a thousand hells. No matter what happens to you, no matter who flatters you or who abuses you, never look at another flag, never let a night pass but you pray God to bless that Flag. Remember, boy, that behind all these men you have to do with, behind officers and Government and the people even, there is the Country Herself, your Country, and that you belong to Her as you belong to your own mother. Stand by Her, boy, as you would stand by your mother."

Sooner or later a man, if he is wise, discovers that life is a mixture of good days and bad, victory and defeat, give and take. He learns it doesn't pay to be sensitive, and should let some things go over his head like water off a duck's back. He learns:

. . . that he who loses his temper loses out.

. . . that carrying a chip on his shoulder is the easiest way to get into a fight.

☆☆☆

...that "getting along" depends about 98 percent on his own behavior.

☆☆☆

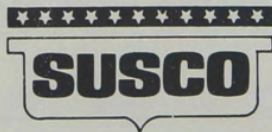

...that every day is a new life to a wise man.
