# AIR FORCE CADETS DISCOVER 

CELEBRATION - Piccard gets ready to pop the cork on a bottle of champagne as Brig. Gen. Hoyt S. Vandenberg, Jr., commandant of cadets, looks on. The ceremony was conducted at the Academy in honor of Piccard's donation of a balloon to the Cadet Hot Air Ballooning Club.

While college students are demanding "relevancy" in their educations, Don Piccard, modern ballooning pioneer, advocates the advantages of ballooning experience for pilots.

During his summer visit to the Academy, Piccard said, "You can see, feel and believe the basic fundamentals of flight. You can feel inertia and mass. The basic gas laws of physics become real."

Piccard, of the pioneer Swiss ballooning family, felt so strongly about the United States and the values of balloon experience for pilots that he donated a $\$ 6,000$ balloon to the Academy.

The Cadet Hot Air Ballooning Club will use the balloon to replace the balloon loaned to them by Capt. Al Dyer. Dyer, a T-41 instructor with the 3253rd Pilot Training Squadron at Peterson Field, and a 1968 Academy graduate, sparked Academy interest in the Sport and allowed the cadets to use his balloon. Airmanship was instrumental in giving the sport club status.

Patriotism on the part of Piccard, who was born in Switzerland and naturalized here in 1931, led to the donation.

The ballooning pioneer said, "The principles of flight, as the principles of seamanship, prepare you for a deeper understanding. Ballooning can give you insight beyond the check-list or flight manual as a thinking pilot. You have to think and feel ahead of your aircraft. You can feel a wind sheer and you can feel a thermal. Those are
sensations you don't normally get in any other kind of aircraft."

Piccard continued, "I had seen the Midshipmen of Annapolis sailing in their small boats and I understood that it was giving them valuable, fundamental experience in the skills of seamanship. But, at the Air Force Academy, I didn't see any balloons and I felt it was my responsibility to see what I could do to remedy that situation. I believe that the sailors of the sky need fundamental experience too. Soaring is good experience, but ballooning is even more fundamental."

The family started in ballooning in the 1890's. The Swiss balloonist Edward Spelterini put on a demonstration and Piccard's father and uncle (identical twins) were fascinated.

Their father helped the boys, Jean and Aguste, build a paper balloon. They attempted to fly it on a windy day and it was destroyed.
"They learned one of the very basic rules the hard way," chuckles Don.

Jean came to the United States and taught Chemistry at Massachusetts Institute of Technology and Aeronautical Engineering at the University of Minnesota. Aguste went on to teach physics in Brussels.

Aguste continued with ballooning as an aide to his research into cosmic rays. He found himself going higher and higher into the Pyrenees mountains but was not satisfied. King Albert of Belgium financed a balloon for him so he could go into the stratosphere. "It was man's first entry into space," his ballooning nephew proudly states.

FILLING THE BALLOON - Don Piccard, world-famous balloonist and members of the Cadet Hot Air Ballooning Club inflate a balloon that Piccard donated to the club. The presentation was made at the Academy.

Don Piccard served in the Navy during the latter part of WW II in the free balloon loft at Lakehurst, N.J. During that time he acquired some 50 hours in free balloons.

After the war he acquired a Japanese paper balloon which he modified for sports use. His innovations in balloon began here with the development of side inflation through what had been the destruct valve in the Japanese incindiary balloon. The 19,000 cubic foot balloon was made of mulberry bark paper that, "was so strong you couldn't tear it with your hand," he said.

In the late 1950's, Raven Industries wanted to explore the sports market for hot air balloons in America. Don Piccard was hired to design the balloons. The balloons were designed with wicker baskets for gondolas. "The company didn't like the baskets and the sports balloon was dropped. I quit and moved to California," said Piccard.
"Just when I was down as far as I could go, someone sent me a check for $\$ 1,000$ to build him a balloon and Piccard Balloons were on the way. Until recently we haven't been able to keep up with demand. Now we've incorporated and should be able to keep up with the demand for high quality sports balloons," Piccard continued.
"Really, that's why I'm retiring and going to Ireland with my family. We've solved the basic problems of sports balloon design. The natural shape, new materials, lock stitching and availability of propane gas have made it all possible. We'll do some experimental work in Ireland," he added. "In a way the sports balloon is a testiment to the American free enterprise system. Nylon was invented because American women wanted something better than silk stockings and propan came about because housewives in rural areas wanted a safe, clean energy source for cooking like the natural gas their city sisters enjoyed," Piccard mused.

His wife, Wilma, who is a world class record holder in gas balloons, smiled and added, "You see, you owe it all to we women!"

Piccard continued, "So with the design problems solved and the production schedule problems solved, I decided it would be a good time to retire. This country has been very, very good to me and I wanted to make some kind of gesture to express my gratitude. That's why I gave the balloon to the Academy.

The Academy balloon, named the Frank P. Lahm after the Army Air Corps ballooning pioneer, is composed of 288 pieces of taffeta-weave, polyurethane-coated nylon. More than 1,000 yards of the material is joined by almost two miles of lock stitched seams. The naturally shaped, 75,000 cubic foot balloon composed of 24 panels with 12 gores in dark blue at the top with a wide band of medium blue across the middle and light blue at the bottom.

The name F. P. Lahm, a gold star, and the number N3US are sewn around the balloon's equator.

PEACEFUL FLIGHT - Members of the Cadet Ballooning Club take the F. P. Lahm, a balloon donated to the cadets, on a flight at Indianola, owa. The cadets were observers at the National Hot Air Balloon Championships.

Each of the 288 pieces of material is curved on all four sides to provide a natural shape without wrinkles when the balloon is filled. The load is then carried on the seams without stress on the fabric. Don Piccard cut the material and Wilma sewed the 326,700 inches of seams, with eight lock stitches to the inch, on a machine whose maximum speed is 23,000 stitches a minute. That computes to about 15 hours of continuous sewing. Total construction took about three weeks.

Brig. Gen. Hoyt S. Vandenberg, Jr., Commandant of Cadets, accepted the balloon on behalf of the Academy. General Vandenberg was in the gondola with Piccard as the traditional christening ceremony of popping a champagne cork through the mouth and the maiden flight were accomplished in Jack's Valley.

Ballooning Club Cadet-In-Charge C1C Kurt Steeby, and another first classman balloon enthusiast Jim Greeson, and club officer-in-charge Maj. Jack Walsh took the new craft to the National Hot Air Balloon Championships last Summer at Indianola, Iowa.

Piccard instructed the cadets in competitive ballooning at the nationals. The trip was made for the experience rather than for actual competition as the cadets were ineligible since they did not have the required ten hours of flight time in the new balloon.

# Taday's Game / air force vs army 

By HAL BATEMAN<br>Air Force Sports Information Director

There will be a lot at stake when Air Force meets Army this afternoon.

For Air Force, a victory is essential if the Falcons are to have any chance of earning a share this season of the Commander-in-Chief's Trophy. A victory also would help in the Falcons' quest for a sixth straight winning season.

For the Cadets of Army, a victory is essential if the Cadets are to successfully defend the Commander-in-Chief's Trophy, which they won last season with a 2-0 mark. A victory would also snap the Cadet's sixgame losing streak

Whatever the outcome, it should be a close game if past results are any indication.

Here is the way the series has gone:
1959 at Yankee Stadium, New York
Air Force 13, Army 13, tie
1963 at Soldier Field, Chicago
Army 14, Air Force 10
1965 at Soldier Field, Chicago
Air Force 14, Army 3
1967 at Falcon Sadium
Army 10, Air Force 7
1969 at West Point
Air Force 13, Army 6
1971 at Falcon Stadium
Air Force 20, Army 7
1972 at West Point
Army 17, Air Force 14

That makes the series even at 3-3-1 with the winner today taking the series lead.

This is the second year of the Commander-inChief's Trophy and the competition has already been keen. For further information on one of the newest trophies in college football please see page 38 .

Long runs have played major roles in the last three Air Force-Army games. In 1969 Air Force won on the strength of a 96-yard kickoff return by Ernie Jennings. An 88 -yard run by Joel Carlson helped trigger an Air Force victory in 1971 and last season Bob Hines raced 49 yards to win the game for Army.

A tip of the hat this week goes to Air Force senior quarterback Rich Haynie of Florissant, Mo., who last week became the Falcons' top yardage maker both for total offense and passing.

Haynie rushed for 80 yards on eight carries and completed 10 of 13 passes for 150 yards to run his career totals to 3,918 yards in total offense and 3,526 yards in passing.

Those totals eclipsed the old marks of 3,816 and 3,399 set by Rich Mayo during the 1957, 1958, 1959 and 1960 seasons.

Congratulations, Rich. Here's hoping those totals go higher as the season progresses.

# The Air Force A-7D A classic in its own time 

(1) VOUGHT SVS AEROSPACE CORPORATION DIVISION

## 

Location: Approximately 10 miles north of Colorado Springs, Colorado, at the base of the Rampart Range of the Rocky Mountains. The Academy site covers 18,000 acres.

Enrollment: 4,200 (approximate). Public Law $88-276$ was signed by the President on 3 March 1964 authorizing an increase in strength of the Cadet Wing from 2,529 to 4,417.

Founded: Authorized 1 April 1954. The first class was received 11 July 1955. The first class was graduated in June 1959.

Colors: Silver and Blue
Nickname: Falcons
Mascot: Falcon (Mach I)
Curriculum: The U.S. Air Force Academy is neither an engineering nor a liberal arts college, but combines certain elements of both. It may be accurately described as a school of general education for professional Air Force Officers - a school which endeavors to give each cadet the knowledge and qualities of leadership required of an officer in the United States Air Force and a basis for continued development throughout a lifetime of service to his country, leading to readiness for responsibilities as a future air commander. A cadet who completes the 4 -year course will graduate with a Bachelor of Science degree and a commission as a second lieutenant in the Regular Air Force.

## UNITED STATES AIR FORCE ACADEMY MISSION

To provide instruction and experience to each cadet so that he graduates with the knowledge and characteristics essential to leadership and the motivation to become a career officer in the United States Air Force.

BRIG. GEN. HOYT S. VANDENBERG, JR. Commandant of Cadets

BRIG. GEN. WILLIAM T. WOODYARD Dean of Faculty

## Far out living close in.

JUST IMAGINE! A beautifully designed and constructed home on the perimeter of a 42-acre recreational lake; just 2 minutes from Colorado's magnificent National Forest, 15 minutes from Colorado Springs... 35 minutes from Denver. Fishing, boating and swimming are virtually at your.doorstep - that's life at The Point. Here Mother and Dad can relax and enjoy their leisure hours while the children are playing in safety in one of the finest vacation spots in Colorado.

## FEATURING KINGSBERRY HOMES

Designed by one of America's finest architects, cluster-zoned to preserve much woodland area for your enjoyment... 3 \& 4 bedrooms... custom fireplaces . . . Cedar Shake Shingles... Private Balconies ... Full Landscaping ... Luxurious Carpets... Name Brand Appliances... Shopping Center and all schools nearby Wooden Anderson Thermopane Windows... Incomparable Lifestyle. All this and More! Low Down Payment. Excellent 8\% Financing Still Available.

Head Coach

## AIR FORCE ACADEMY FOOTBALL COACHING STAFF

KNEELING (L-R): Jerry Davitch, offensive line coach; Nick Liontas, receivers coach; Ben Martin, head coach; Jack Braley, defensive backfield coach; Terry Isaacson, head junior varsity coach.
STANDING (L-R) Spike Hillstrom, offensive line coach; Bernie Raetz, offensive backfield coach; Leland Kendall, defensive line coach; John Carney, linebackers coach; Jim Bowman, head freshman coach.

FALCON SPOTLIGHT:

## BILL BERRY

## 5-11, 196-pound senior fullback from Los Angeles

Starting fullback the past two years for the Falcons, he has demonstrated this year that he is also an excellent pass receiver. Caught a 45 -yard touchdown pass against Penn State this year, and helped Air Force upset Arizona State in 1972 with a 64 -yard grab. His first pass reception ever was a 51 -yard TD in 1971 that helped beat Wyoming. As a running back, he was the leading returning rusher from last season with 462 yards and a 4.4 average. Showing his versatility, he is also a tough tackler on punt returns, and is usually one of the first men downfield. Majors in behavioral sciences.

# MEET THE FALCONS 

RANDY SPETMAN, 6-1, 201pound sophomore defensive end from Council Bluffs, Iowa. Has developed rapidly at the left defensive end position, teaming with Bill Murray. Earned Lineman of the Week honors from Sports Illustrated for his play against New Mexico. Tied with Terry Young for most tackles for losses. Won the heavyweight title at the Wing Open Boxing Tournament last winter.

MIKE WORDEN, 6-1, 180-pound sophomore quarterback from Lakewood, Calif. Number two quarterback behind Rich Haynie, he has played only briefly this season. Missed most of last fall because of an injury but developed rapidly in spring drills. Has a fine throwing motion and is an excellent ball handler. A lefthander, he was named the most valuable player in his high school league.

JOHN COVINGTON, 6-6, 221pound sophomore tight end from Fullerton, Calif. Moved into the starting tight end position in the Davidson game. An excellent blocker, he has also caught three passes this year. One of the tallest players on the squad at $6-6$. Lettered in track in high school, throwing the discus and shot.

TOM LANGE, 5 -10, 175 -pound sophomore punter from Phoenix, Ariz. Punter for the Falcons this year, he has been averaging close to 40 yards a kick. His longest punt of the season went for 60 yards against Oregon. Can also play defensive back and was a wingback and safety in high school. Majors in behavioral sciences.

DARRELL MASTIN, 6-2, 207pound sophomore center from Stillwater, Okla. Reserve center behind Wayne Willis, he usually snaps the ball on punts and placements. A smart and aggressive player, he has good quickness but needs more strength and size. Played offensive tackle and defensive end in high school and also lettered in basketball and track.

##

## UNITED STATES MILITARY ACADEMY

Located on the west bank of the Hudson River about 50 miles north of New York City, the United States Military Academy at West Point has provided military leaders for the nation since its founding on March 16, 1802.

From a total of 10 cadets at its founding to the present Corps which boasts over 4,000 young men, the mission of the Academy has been to train and instruct cadets in order that each graduate will have those qualities and attributes essential to progressive and continued development as an officer in the Regular Army.

West Point's academic program, which leads to a Bachelor of Science degree and a commission as a Second Lieutenant in the Army, is a cornerstone for future graduate study and career development. From an original curriculum emphasis on military art and engineering sciences, the present academic program includes a combination of courses from the liberal arts, the humanities, the sciences, and the engineering sciences. An expansive elective program allows cadets to pursue, in depth, a subject of particular interest.

In keeping with West Point's desire to develop the "whole man," the academic program is supplemented by practical military training both in the classroom and in the field in order to provide the cadets with knowledge of professional fundamentals and basic military skills.

In addition, a comprehensive program of intercollegiate and intramural athletics allows each cadet the opportunity to participate in competitive sports activities - to develop his body as well as his mind.

Despite its proven ability to adapt to the needs of a changing military and a changing society, the Military Academy continues to emphasize devotion to the motto of the Long Gray Line Duty, Honor, Country.

## An exciting new element has been added to the annual interservice football rivalry. A ro-

 tating trophy, sponsored by the alumni associations of the three academies will be presented each year to the service academy with the best win-loss record in the interservice competition. It is called the Commander in Chief's Trophy, named in honor of the President as the Commander in Chief of the U.S. Armed Forces. The first presentation took place at Annapolis during the Superintendent's Conference in May. West Point, by virtue of its victories over both Annapolis and the Air Force in 1972, is the first recipient of the trophy. Army had a fullscale presentation to the Corps of Cadets as part of its June Week activities.The idea for the establishment of an interservice football trophy originated with the late General George B. Simler, Commander of the Air Training Command. Viewing the 1972 football season as an appropriate time to consider

## Chief's Trophy

the creation of a trophy since the campaign marked the first year of the round robin competition among the service academies. General Simler proposed the idea to the USAFA Association of Graduates in early 1972. The Association in turn proposed the project to the alumni associations of West Point and Annapolis as suitable for joint sponsorship by the three organizations. Following formal adoption of the project, designs for the trophy were sought from trophy manufacturers.

The Commander in Chief Trophy is three sided and stands two-and-one-half feet tall and weighs approximately 170 pounds. The trophy is engraved with the seal of each Academy and displays a sculptured model of the mascot of each school. The year in which the trophy is won is engraved on a plate on the appropriate Academy side of the trophy. In the event there is no clear winner in a particular year, the trophy will remain with the winner of the previous year's competition.

## Air Force Grid Records

(1973 Games Not Included)

## Individual Game

Most Total Offense - 380 yards by Bob Parker vs. Colorado State, '70.
Most Plays - 67 by Gary Baxter vs. Wyoming, '69.
Most Carries - 42 by Brian Bream vs. Stanford, '70.
Most Rushing Yardage - 207 by Brian Bream vs. Navy, '70.
Longest Run From Scrimmage - 88 yards by Joel Carlson vs. Army, '71.
Most Passes Attempted - 55 by Bob Parker vs. Colorado, '70.
Most Passes Completed - 31 by Gary Baxter vs. Wyoming, '70.
Most Passing Yardage - 391 by Bob Parker vs. Wyoming, 70 .
Most Touchdown Passe - 4 by Paul Stein vs. Arizona, '65, Rich Haynie vs. Arizona State, '72.
Longest Pass Play - 87 yards, Bob Thompson to Bob Farr vs. Davidson, '72.
Most Passes Caught - 15 by Ernie Jennings vs. Wyoming, '69.
Most Pass Receiving Yardage - 235 by Ernie Jennings vs. Wyoming, '70.
Most Touchdown Passes Received - 5 by Ernie Jennings vs. Utah State, '69.
Most Passes Intercepted - 3 by Cyd Maattala vs. Colorado State, '68.
Most Touchdowns - 5 by Ernie Jennings vs. Utah State, '69.
Most Kicking Conversions Made - 8 by Dave Lawson vs. Davidson, '72.
Most Field Goals Made - 4 by Dennis Leuthauser vs. SMU, '69.
Most Points Scored - 30 by Ernie Jennings vs. Utah State, '69.

## Team Game

Most Points Scored - 69 vs. Colorado State, '63.
Most Points Allowed - 53 vs. Colorado, ' 71 (17-53).
Biggest Victory Margin - 69 points vs. Colorado State, '63 (69-0).
Biggest Defeat Margin - 47 points vs. UCLA, '57 (47-0).
Most Combined Points - 93 vs. Colorado, '68 (AFA 58, CU 35).
Highest Losing Score - 35 points vs. Oregon, ' 70 .
Most Yards Total Offense - 623 vs. Davidson, '72.
Most Rushing Yards - 464 vs. Colorado State, '63.
Most Passing Yards - 391 vs. Wyoming, '70.
Most First Downs - 35 vs. Davidson, '72.
Most First Downs Rushing - 26 vs. UCLA, ' 64 .
Most First Downs Passing - 22 vs. Colorado State, '70.
Most Total Plays - 95 vs. Colorado State, '68.
Most Rushing Plays - 73 vs. Colorado State, '68.
Most Passing Plays - 58 vs. Washington, '67.
Most Passing Completions - 31 vs. Wyoming, '69.
Most Touchdown Passes - 5 vs. Utah State, '69.

## 

The United States Air Force Academy Marching Band has been hailed as the "World's finest military marching band."

This 100-piece musical organization contains the standard band instrumentation with the addition of the Academy's Drum and Bugle Corps. This combination of band and bugles is unique in the United States today. The thrilling sound produced is a direct result of special arrangements written by the band's own arranging staff.

The Marching Band may be seen several times during the week performing at the cadet noon formation and frequently on Saturday morning as they participate in the formal dress parades of the Cadet Wing. They also appear at Academy football games and throughout the country in such national prominent functions as Presidential Inauguration Ceremonies, major Bowl Parades, pro football games and Music Educators' Conventions.

[^0] Commander and Conductor

SMSgt. William A. Stokes Drum Major and Supervisor

USAFA Marching Band

The "Falconaires" jazz/rock ensemble, led by Senior Master Sergeant Chuck Gardner, take their name from the mascot of the United States Air Force Academy, a unit of the United States Air Force Academy Band. This organization provides today's music in its most exciting form. These 17 musicians display their unique talents in concerts and stage band clinics nationwide.

The "Falconaires" have recorded their own musical arrangements in Hollywood, California and Las Vegas, Nevada. Most of their music is written by their own arranging staff.

This stage band performs for concerts and cadet dances at the Air Force Academy as well as performing for television, radio, colleges, and high schools. They have performed with Bob Hope, Doc Severinson, Johnny Smith, Peanuts Hucko, Joni Sommers, Louie Bellson, Roy Burns, Clark Terry, and other notables too numerous to mention. Doc Severinson says, "I rate the 'Falconaires' as one of the best today."

Weather permitting, the "Falconaires" will perform several musical presentations prior to kick-off of each home game.

SMSgt. Chuck Gardner

## FALCON MANAGERS

Kneeling (L-R): Gary Kyle, Jim Dill, Al Kinard (Head Manager), Dave Herlong Standing (L-R): Pete Bailey, Mark Holmes, Don Halley, Robert Preissinger, Wayne Perron.

## FALCON EQUIPMENT MANAGERS

Levi Cordova, Tom Mesquita, Artus Smith (Head Equipment Manager), Lou Whittingham.

## FALCON TRAINERS

Bottom Row (L-R): Larry Leverenz, Reggi Altop, Ed Gregori, Mike Olson.
Top Row (L-R): Warren Hegwood, Joe Smith, Jim Conboy (Head Trainer), John Devine, Bill Reed.

## BEFORE the GAME and AFTER the GAME

All Roads Lead to the SHERATON MOTOR INN
-- The Last Word in Comfort and Convenience --

Tel. 598-5770
8110 North Academy Blvd. Colorado Springs

## "Go Air Force"

And After The Game . . .
GO BROCK'S!

Eating \& Drinking House GREAT STEAKS!

Dinners every evening. Luncheon Monday thru Friday.
1765 North Academy Boulevard. North of LaSalle Street, Rustic Hills North. Colorado Springs, Colorado

## Stadium Information

## LOST AND FOUND

If you lose an article while attending a game at Falcon Stadium, check at the main ticket office in the east building or the main concessions office on the top tier of the west side. If you find an article in the stadium area, please turn it in to any of the concession stands, the main ticket office or the main concessions office.

## FIRST AID

Trained medical personnel are in attendance at all Air Force home games. In case of any emergency, report it immediately to the head usher in your portal. There are two first aid rooms and two first aid stations located in Falcon Stadium. The rooms are located in the east side building and on the third tier of the west side, directly under the press box. The stations are located off the walkways of the first and second tiers in the vicinity of the 50 -yard line.

## EMERGENCY CALLS

Individuals expecting emergency calls should file their portal section, row and seat number with the command post, located in the east side building. Office number is $472-1151$. A call number will then be issued. No special announcements are made over the public address system except in cases of gravest emergency. Please do not request this service needlessly.

## STADIUM FACTS

For natural beauty, Falcon Stadium is hard to surpass. Built into the base of the Rampart Range mountains, the modern facility also is one of the most functional sports structures in the country.

The concrete structure, built in a natural bowl, has 49,068 permanent seats and can hold up to 50,000 spectators with additional temporary bleachers. There is one level of seats on the east side and three tiers of seats on the west, each serviced by two concession stands and restroom areas. All seats are within easy walking distance of the 9,610 -vehicle capacity parking lot which surrounds the stadium on three sides.

The stadium is easily accessible from divided U. S. Interstate 25 and the Academy's Stadium Boulevard which leads directly to the parking lot. There is also ample parking space for 300 commercial busses, and a rail siding is located just a few hundred yards from the bowl for special trains.

## USAA insures 9 out of 10Academy graduates...

## . . . so you know it's got to be better than most.

And that's because USAA is not a company. It's an association of officers who insure their fellow officers. As only officers can.

For instance. They know that upperclassmen, like officers, are better than average risks. So you're included in.

What this means is, youre entitled to lower premium rates on auto insurance and seven other
kinds. You don't pay interest when you spread out your payments. You get quick claims settlements overseas as well as at home. And, most important, you get a share of the dividends. They aren't guaranteed, but have been paid regularly for nearly 50 years.

Small wonder so many upperclassmen, and 5 out of 6 officers, insure with USAA.

USAA BUILDING, SAN ANTONIO, TEXAS 78288

## FRIEGON FPTPC QUTZ

Today marks the eighth time Army and Air Force have met and the action above was taken from the first ever clash of the two schools in 1959. The game was played at Yankee Stadium in New York and the teams fought to a 13-13 tie. Number 12 for the Falcon still rates as one of the all-time Air Force leaders in career total offense and passing, while the Falcons number 60, attempting to make a block, is now at the Academy as a coach. Can you name both famous Air Force athletes?

The second picture, shown at the right, features a Colorado University athlete who later went to the pros and just retired from NFL action. The Falcon making the tackle is still in the record books as one of the top rushers in Air Force history. The year was 1958 and the Falcons beat the Buffs, 20-14, at Boulder. Can you name the two players?

## ANSWER

## Air Force Academy Songs and Yells

## GO FALCONS

(Fight Song)
Words by Cadet R. L. Counts
Melody by Cadet J. C. Vance
Arrangement by
A/lc H. Merrick, USAFA Band
Rev up and go Falcons to the fight,
For our spirit is high
Gear up and go Falcons surge ahead
On the field as in the sky;
For you will see silver and blue,
Reign supreme upon the field;
We will prove that we can't be beaten,
For the Falcons never yield.
THE BIG YELL
(Lots of noise, building up)
FIGHT!
FIGHT!
(Quiet, raise hat with right hand.)

USAFA
(Trampolets)
U! S! A! F! A!
Whistle - - - - - -
Boom!
Beat - - - (opponent)

## See This Star in the Falcons'Next Home Game Air Force vs. Rutgers, Nov. 10

J. J. JENNINGS (36), Running Back
J. J. Jennings. Mark down that name.

Today, comparatively few college football fans beyond the northeast are aware of Jennings, the recordsetting Rutgers tailback, because:

1. When he plays against Air Force today it will be the first game outside of the area;
2. Rutgers is not scheduled to appear on television; and,
3. Rutgers "bigger time" hopes have not yet been translated into a "bigger time" schedule.
But these factors don't stop everyone who sees Jennings in action, from "Joe Fans" to "Pro Scouts," from raving about the $6-1,216$-pound senior from Holyoke, Mass.

All the common adjectives used to describe great running backs apply to JJ, a physical education student who will own every Rutgers rushing record soon, barring injury.

His coach, Frank Burns, naturally expounds at great length about JJ, who is carrying the ball more than 30 times a game and is currently leading the nation in both rushing and scoring.

Opponent coaches are equally praiseworthy. Bob

Casciola of Princeton said "JJ was a lot faster than we thought. He's the best back in the East." That came after Jennings scored five touchdowns and ran for 193 yards in this year's renewal of football's oldest rivalry.
"I scouted a lot of great teams - Tennessee, Alabama and others - and I'd have to say, honestly, that JJ not only would play, but would star there or anywhere else. My thought, though, is that he would be a fullback rather than a tailback."

Which brings up JJ's speed. His best for a 40 is 4.75. That may not be breakaway speed, but as Burns says, "Don't give him a step on you. That 4.75 gets a lot faster."

In 1972, Jennings carried 287 times for 1,287 yards, both Rutgers records. He was ranked ninth nationally in rushing and had his best day when Rutgers walloped Colgate, 43-13. That day, JJ had 214 yards in 40 carries.

What's more, he can catch, block, would have been the punter and place kicker but for a hamstring pull, can do the prettiest two-and-a-half off the high board you'd ever want to see (he swam in high school) and has hit over .300 the last two years for the Rutgers baseball team.

## "CASH for CANS"

The 1974 Vega.
Improved. With a new nose and a new tail, new colors and new fabrics and several dozen mechanical modifications.

But we wouldn't change the most honored little car built in America, without good reasons. And behind every change is a sensible motive such as durability or security or economy.

There's even a good reason for the new style and the new colors.
Because even though the principal reason you buy a Vega is to save money-especially these days-you'd also like to have a little car you can spot in the parking lot.
And as you leave today, we're pretty sure you'll notice the new Vega. Why not visit your Chevy dealer's and try one out?

Vega honors include: Car \& Driver Readers' Choice, Best Economy Sedan, '71, '72, '73. Motor Trend, Car of the Year, '71. Economy

## VECA

Chevrolet Car of the Year, '73 GT. Motor Service \& Service Station Management mechanic survey, Easiest Subcompact to Service, '72.
